EXHIBIT "C"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, pursuant to the provisions of ORS 366.810, there have been by the Oregon State Highway Commission apportioned to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Funds accrued during second half of 1953 and distributed for expenditure during first half of 1954:

Amity	$2,362.80
Dayton	2,528.06
Gates	1,483.78
Merrill	2,935.92

Funds accrued during first half of 1954 and distributed for expenditure during second half of 1954:

Bay City	$2,166.93
Corvallis	46,149.13
Falls City	2,428.90
Mount Vernon	1,284.21

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of

EXHIBIT "C" (cont)

the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 23rd day of September, 1954.

EXHIBIT "D-1"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land along and adjacent to the Northeast Portland Highway described as follows:

A parcel of land lying in Lot 1, Block 2, Zwahlen Home Sites, in Section 18, Township 1 North, Range 2 East, Willamette Meridian, Multnomah County, Oregon.

The said parcel being described as follows: Beginning at the Southwest corner of said Lot 1, Block 2, Zwahlen Home Sites; thence South 89° 41' East along the South line of Lot 1, a distance of 134.5 feet to the Southeast corner of Lot 1; thence North 128.26 feet along the East line of Lot 1, to a line parallel to and 80 feet Southerly from the center line of the North East Portland Highway; thence North 76° 37' West, 135.05 feet along said parallel line to the West line of said Lot 1; thence South 1° 07' 30" West 158.83 feet along said West line to the point of beginning containing 19,100 sq. ft.

The above described property to be sold with one residential access to the North East Portland Highway.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 116 be entered in the minutes and records of the Commission as of the 23rd day of September, 1954.

23965

EXHIBIT "D-2"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Douglas County, Oregon, described as follows:

A parcel of land lying in Sections 30 and 31, Township 25 South, Range 5 West, Willamette Meridian, Douglas County, Oregon. The said parcel being that portion of said property lying Westerly of the right of way of the relocated Pacific Highway, which right of way is of variable widths, as hereinafter designated, on the Westerly side of the relocated center line of said highway, which center line is described as follows:

Beginning at Engineer's center line Station 1848+55.34, said Station being 1806.07 feet North and 1358.18 feet West of a 2 inch iron pipe marking the Southeast corner of the J. Holman Donation Land Claim #37 of Township 25 South, Range 5 West, Willamette Meridian; thence on an 11,459.16 foot radius curve right (the long chord of which bears South 17° 13' East) 4,880 feet; thence on a spiral curve right (the long chord of which bears South 4° 36' East) 250 feet; thence South 4° 23'30" East 918.19 feet; thence on a spiral curve right (the long chord of which bears South 3° 03'30" East) 400 feet; thence on a 2,864.79 foot radius curve right (the long chord of which bears South 4° 39'45" West) 505.42 feet; thence on a spiral curve right (the long chord of which bears South 12° 23'West) 400 feet; thence South 13° 43' West 672.35 feet to Engineer's Station 1928+81.3, said center line crossing the South line of Block 5, Plat "H" of the Sutherlin Land and Water Company approximately at station 1886+00 and crossing the easterly extension of the Southerly line of the parcel herein conveyed approximately at Engineer's station 1926+90

The widths of the right of way above referred to are as follows:

Station	to	Station	Width on Westerly side of center line
1873+00		1876+75	135 feet
1876+75		1899+50	400 feet
1899+50		1905+00	125 feet
1905+00		1928+81.3	250 feet

The said parcel otherwise described as being the Southeast

EXHIBIT "D-2" (cont)

quarter of the Southwest quarter ($SE\frac{1}{4}SW\frac{1}{4}$) of Section 30, and that part of the East half ($E\frac{1}{2}$) of Section 30 and the East half ($E\frac{1}{2}$) of Section 31 lying West of the above described right of way line and also lying West of the Easterly line of said Lot 5, Plat "H" of the Sutherlin Land and Water Company, bounded on the North by a line which is parallel to and 602.2 feet South of the North line of said Lot 5, Plat "H" (being the North line of property described in Book 211, Page 283) and bounded on the South by a line approximately parallel to and 1246 feet North of the South line of the North half of the Southeast quarter ($N\frac{1}{2}SE\frac{1}{4}$) of Section 31 (being the South line of property described in Book 211, Page 283).

The parcel of land to which this description applies contains 259 acres, more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of Thirty Eight Hundred And No/100 Dollars ($3800.00), and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 118 be entered into the minutes and records of the Commission as of the 23rd day of September, 1954.

EXHIBIT "E-1"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: PACIFIC HIGHWAY

Highway number 1 Route number US 99

Location of Termini				Established Speed
M.P. 321.70	(300 feet north of the Southern Pacific railroad underpass)	to M.P. 321.98	(north city limits of Ashland)	40 M.P.H.
M.P. 312.76	(end of existing 45 mile per hour speed zone)	to M.P. 315.23	(north city limits of Phoenix)	45 M.P.H.

EXHIBIT "E-1" (cont)

EXCEPT THAT BETWEEN

M.P. 315.14 and M.P. 315.23 the indicated speed shall be 20 MILES PER HOUR during the hours of school crossings as provided in Subsection 1.a. of ORS 483.105.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 164 be entered in the minutes and records of the Commission as of the 23rd day of September, 1954.

23969

EXHIBIT "E-2"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: CULVER SECONDARY HIGHWAY

Highway number 361 Route number none assigned

Location of Termini			Established Speed
M.P. 8.82 (north city limits of Culver)	to M.P. 9.31 (south city limits of Culver)		40 M.P.H.

(on the east side of the highway center line only as that portion of the highway lying to the west of the center line is within the City of Culver. The city limit coincides with the center line of the highway.)

EXHIBIT "E-2" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 165 be entered in the minutes and records of the Commission as of the 23rd day of September, 1954.

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highways: Corvallis-Newport Highway No. 33, (Route No. U.S. 20) Alsea Highway No. 27, (Route No. ORE 34)

Location of Termini	Established Speed
On Corvallis-Newport Highway from M.P. 50.91 (450 ft. west of Alsea Highway Junction) to M.P. 51.38 (west city limits of Philomath)	45 miles per hour
On Alsea Highway from M.P. 58.95 (250 ft west of Marys River) to M.P. 59.11 (Corvallis-Newport Highway junction).	45 miles per hour

EXHIBIT "E-6" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speeds on said state highways.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 169 be entered in the minutes and records of the Commission as of the 23rd day of September, 1954.

EXHIBIT "F"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, the Corvallis-Newport Highway, otherwise known as a part of U.S. Route No. 20, and the Alsea Highway, otherwise known as ORE 34, are major state primary highways and likewise Federal highways, which highways throughout their entire length carry a large volume of traffic; and

WHEREAS, it appears that a hazardous condition is created and sight distance impaired by the parking of vehicles on the highway shoulders of the said Corvallis-Newport and Alsea Highways and in the island formed at the junction of said highways; and

WHEREAS, in the opinion of this Commission in order to provide for safer and more efficient movement of traffic, to retain the highway shoulders for emergency use, and to provide a maximum sight distance at the aforementioned junction, the parking of vehicles should be prohibited along the shoulders of said highways and in the island formed at the junction of said highways.

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigations, reports, and recommendation by members of its staff, that the parking of vehicles shall be prohibited as follows:

(a) On the shoulders of the Corvallis-Newport Highway between the west leg of the Alsea Highway junction (M.P. 50.96), (Engineer's Station 255+93), and the west city limits of Philomath (M.P. 51.38),(Engineer's Station 278+64),

(b) On the shoulders of the Alsea Highway between Marys River Bridge (M.P. 59.02), (Engineer's Station 1644+21), and the junction of the Corvallis-Newport Highway (M.P. 59.11), (Engineer's Station 1648+88).

(c) In the island formed by the intersection of the Corvallis-Newport and the Alsea Highways.

2. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared, the signs to bear in plain, legible letters the words, "NO PARKING ON HIGHWAY

EXHIBIT "F" (cont)

SHOULDERS", except within the island formed by the intersection of said highways, the signs shall bear the words, "NO PARKING AT ANY TIME".

3. That a certified copy of this resolution be mailed to the Superintendent of the Department of State Police for his information and guidance.

4. That this resolution be entered in the minutes and records of the State Highway Commission as of the 23rd day of September, 1954, as "No Parking Resolution No. 120".

EXHIBIT "G"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 366.345, has acquired roadside rest areas adjacent to, along or in close proximity to state highways for the convenience of the public and to contribute to the general welfare and pleasure of the motoring public; and

WHEREAS, pursuant to ORS 366.350, the State Highway Commission is authorized to make regulations and provisions for the use and administration of said areas in a manner that will best afford the motoring public the necessary conveniences and accomodations; and

WHEREAS, such roadside rest areas are planned and operated to promote highway safety and to provide convenient off-the-highway parking accommodations for short intervals for rest, relaxation, recuperation, et cetera, but are not provided with facilities for a prolonged or protracted stay; and

WHEREAS, members of the motoring public have used these areas for overnight parking, overnight camping and overnight stays; that this use is contrary to the purpose for which the areas are planned and operated; that the facilities are inadequate to accommodate such prolonged and protracted stays; and further that such prolonged and protracted stays create conditions which are undesirable and not to the best interests of the public;

NOW, THEREFORE, based upon the power and authority vested in this Commission by the State of Oregon, IT IS HEREBY ORDERED that no person or individual shall occupy, stay or camp in a roadside rest area for more than four hours during the period between sunset and sunrise.

IT IS FURTHER ORDERED, that no person or individual shall park or allow a motor vehicle to remain in a roadside rest area for more than four hours during the peiod between sunset and sunrise.

IT IS FURTHER ORDERED, that appropriate signs prohibiting the violation of the above orders be erected immediately at all roadside rest areas and that said orders shall become and remain effective upon the erection of such signs.

IT IS FURTHER ORDERED, that the prohibitions contained in this resolution shall be and are regulations adopted under authority of ORS 366.350 and violations of the same shall be punishable as provided in ORS 366.990.

IT IS FURTHER ORDERED, that a duly certified copy of this resolu-

EXHIBIT "G" (cont)

ution be filed with the Secretary of State.

IT IS FURTHER ORDERED, that this Resolution be entered as Miscellaneous Resolution No. 117, in the minutes and records of the Oregon State Highway Commission as of the 23rd day of September, 1954.

EXHIBIT "H-1"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Tillamook-Donaldson Creek Section of the Wilson River Highway in Tillamook County and in connection therewith to prepare a map showing the route and location of said section and to file said reports and records with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, a majority of the members thereof being present and voting affirmatively as follows:

1. That the survey of the Tillamook-Donaldson Creek Section of the Wilson River Highway beginning at Highway Engineer's Station 0+00 at its intersection with the Oregon Coast Highway in the city of Tillamook and extending in an easterly direction to Highway Engineer's Station 232+49.13 at a connection to the existing Wilson River Highway, approximately one-half mile east of Donaldson Creek, together with the map, which for identification purposes bears Map File No. 1R-5-592 and the date of September, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

EXHIBIT "H-1" (cont)

4. That heretofore by resolution of this Commission dated November 3, 1948, said section of the Wilson River Highway from the city of Tillamook to a point east of Donaldson Creek has been designated as a throughway within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law", and for the reasons stated therein, the above-named section of said highway should be and it is hereby directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law except any portion of said section which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said section of highway was designated as a throughway.

5. That this resolution be entered in the minutes and records of the Commission as of the twenty-third day of September, 1954, as Resolution Adopting Survey No. 107.

EXHIBIT "H-2"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Weston-Weston Mountain Section of the Weston-Elgin Highway in Umatilla County, and in connection therewith to prepare a map showing the route and location of said section and to file said reports and records with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE BE IT AND IT HEREBY IS RESOLVED by this Commission, a majority of the members thereof being present and voting affirmatively, as follows:

1. That the survey of the Weston Weston Mountain Section of the Weston-Elgin Highway, beginning at Highway Engineer's Station 0+00 at the northerly edge of the city of Weston and extending in an easterly direction to Highway Engineer's Station 235+00, a distance of approximately four and one-half miles easterly from the city of Weston, together with the map which for identification purposes bears Map File No. 1K-5-595 and the date of September 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the twenty-third day of September, 1954, as Resolution Adopting Survey No. 108.

September 23, 1954

EXHIBIT "I-1"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, on May 18, 1939, the Highway Commission, by resolution, selected and designated as a secondary highway certain county roads in Harney and Malheur Counties then under the jurisdiction of the County Courts of the respective Counties, which roads described as:

> Beginning at a point on the Diamond Valley Secondary Highway approximately one mile north of Princeton; thence in a southeasterly direction via Market Road No. 1 of Harney County, or a relocation thereof, to the Harney-Malheur County Line, at a point on the Township line between Section 36, Township 28 South, Range 36 East, and Section 31, Township 28 South, Range 37 East, W.M., north of Follyfarm, a distance of approximately 23.90 miles,

and

> Beginning at a point near the center of Section 18, Township 32 South, Range 40 East, W.M., at a junction point with the I.O.N. Secondary Highway; thence in a northwesterly direction following the route surveyed by the State Highway Department to a point on the Township line, between Section 36, Township 28 South, Range 36 East, and Section 31, Township 28 South, Range 37 East, W.M., north of Follyfarm, a distance of approximately 30.0 miles,

were selected and designated on the records of the Highway Commission as the Rome-Princeton Secondary Highway No. 442; and

WHEREAS, on February 5, 1932, the Highway Commission, by resolution, selected and designated as a Secondary Highway certain county roads in Harney County then under the jurisdiction of the County Court of said County, and on July 30, 1936, the Highway Commission, by resolution, eliminated a section of the said highway and replaced it with another section so that the description of the Secondary Highway is as follows:

> Beginning on the State Highway at or near Crane and extending in a southerly direction to a point one mile north of Princeton; thence in a southwesterly direction over Market Road No. 5 to a junction with the road to Happy Valley; thence via Happy Valley and Kiger Valley to a point at or near the present Post Office at Diamond in Diamond Valley, a distance of approximately 35 miles,

which said county roads upon their selection and disignation as secondary

EXHIBIT "I-1" (cont)

highway were thereafter identified on the records of the Highway Commission as the Diamond Valley Secondary Highway No. 441; and

WHEREAS, the Highway Commission deems it necessary and in the best interests of the travelling public that the names and termini of the Rome-Princeton Secondary Highway and the Diamond Valley Secondary Highway be altered.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Highway Commission:

1. That the present Rome-Princeton Secondary Highway No. 442 shall be combined with a portion of the Diamond Valley Secondary Highway No. 441, extending from its junction with the Rome-Princeton Highway northerly to its northern terminus at the junction with the Burns-Crane Primary Highway at or near Crane; that this combination of highways shall retain the classification of a secondary highway and shall hereafter be designated the Crane-Scotts Butte Secondary Highway No. 442, with a route and termini as follows:

> Beginning at a junction with the Burns-Crane Primary Highway at or near Crane; thence south and southeasterly over Oregon State Route 78 to a junction with U. S. Highway No. 95 at a place southerly from Scotts Butte in Township 32 South, Range 40 East, W. M. and being about thirteen miles southwesterly from Rome, Oregon.

2. That the present Diamond Valley Secondary Highway No. 441 shall be shortened and retain the classification of a secondary highway, hereafter being designated as the Diamond Secondary Highway No. 441, with its route and termini as follows:

> Beginning in the Town of Diamond and extending thence northerly via Kiger Valley and Happy Valley to a junction with the Crane-Scotts Butte Secondary Highway No. 442 at a place about two miles north of Princeton, Oregon.

3. That this resolution be entered in the minutes and records of the Highway Commission this 23 day of September, 1954, as Secondary Highway Designation Resolution, File No. 28.

EXHIBIT "I-2"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, on February 19, 1936, the Highway Commission selected and designated as a secondary highway a county road in Yamhill County then under the jurisdiction of the County Court of said County known as the Amity-Dayton Road and described as follows:

> Beginning at a point on the West Side Pacific Highway at a point approximately one mile south of Whiteson, thence in a northeasterly direction to a junction with the Three-Mile Lane Secondary Highway No. 152, a distance of approximately seven miles,

which said county road upon its selection and designation as a secondary highway was thereafter identified on the records of the Highway Commission as the Amity-Dayton Secondary Highway No. 155; and

WHEREAS, on November 13, 1931, the Highway Commission selected and designated as a secondary highway a county road in Yamhill County then under the jurisdiction of the County Court of said County known as Three-Mile Lane and described as follows:

> Beginning at Third and Baker Streets in the City of McMinnville, Oregon, and proceeding easterly to a junction with the Amity-Dayton Secondary Highway No. 155; thence northeasterly via Dayton to a junction with the Pacific Highway West between Dundee and Lafayette,

which said county road upon its selection and designation as a secondary highway was thereafter identified on the records of the Highway Commission as the Three-Mile Lane Secondary Highway No. 152; and

WHEREAS, the Highway Commission deems it necessary and in the best interests of the travelling public that the termini of the Three-Mile Lane Secondary Highway No. 152 and the Amity-Dayton Secondary Highway No. 155 be altered,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Highway Commission:

1. That the present Amity-Dayton Secondary Highway No. 155 shall include a portion of the Three-Mile Lane Secondary Highway No. 152, said portion commencing at a place where the two secondary highways join, thence northeasterly via Dayton to a junction with Pacific Highway West (U.S. Route 99W) at Mile Post 30.79 between Dundee and Lafayette. Said Amity-Dayton Secondary Highway No. 155 shall retain its present designation

EXHIBIT "I-2" (cont)

and its classification as a secondary highway, its termini being hereafter identified and described as follows:

> Beginning at a place on Pacific Highway West (U.S. Route 99W) about one mile south of Whiteson; thence in a northeasterly direction to a junction with Three-Mile Lane Secondary Highway No. 152 at or near Mile Post 4.65 of said highway; thence northeasterly via Dayton to a junction with Pacific Highway West (U. S. Route 99W) at or near Mile Post 30.79 of said highway between Dundee and Lafayette.

2. That the present Three-Mile Lane Secondary Highway No. 152 retain its present designation and its classification as a secondary highway, and its termini shall hereafter be identified and described as follows:

> Extending from its termini at Third and Baker Streets in McMinnville easterly to a junction with the Amity-Dayton Secondary Highway No. 155 at Mile Post 7.03 of said highway.

3. That this resolution be entered in the minutes and records of the Highway Commission this 23 day of September, 1954, as Secondary Highway Designation Resolution, File No. 29.

EXHIBIT "J-1"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, the State Highway Commission on the 11th day of May, 1954, by resolution declared the necessity for the acquisition of certain real property owned by Alameda Snyder, File No. R-21904, situated in Section 25, Township 1 South, Range 1 East, W.M., Clackamas County, Oregon, in conjunction with the improvement of the Portland-Milwaukie Section of the Pacific Highway East by the construction of Ochoco Avenue and O.L.C.C. frontage road and the provision for the interchange of traffic between said frontage road and the Pacific Highway East, for right of way purposes for the establishment, construction and maintenance of a connecting road to connect Ochoco Avenue with Road A in the City of Milwaukie, Oregon; and

WHEREAS, it is the judgment of the Commission that the highway facility for which the said parcel of real property is required will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage if the description of the real property to be taken is revised to reduce the area.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. That certain resolution duly made and entered in full in the minutes and records of the Commission on the 11th day of May, 1954, pertaining to that property owned by Alameda Snyder, be and the same hereby is amended by substituting the following description of the real property to be taken for that set forth in the aforementioned resolution:

A parcel of land lying in Lot 63, Sellwood Gardens, also in the Northwest quarter (NW$\frac{1}{4}$) of Section 25, Township 1 South, Range 1 East, W.M., Clackamas County, Oregon, the said parcel being described as follows:

Beginning at the Southwest corner of said Lot No. 63; thence North along the West line of said Lot No. 63 a distance of 156.5 feet to the South line of Ochoco Avenue; thence North 89° 35' East along the South line of said Ochoco Avenue, 50 feet to the East line of said Lot No. 63; thence South 18° 26' West, 15.81 feet; thence South on a line 5 feet West of and parallel to the East line of said Lot No. 63 a distance of 126.2 feet; thence South 18° 26' East, 15.81 feet to the Southeast corner of said Lot No. 63; thence South 89° 15'

EXHIBIT "J-1" (cont)

West 50 feet to the place of beginning.

The parcel of land to which this description applies contains 7,100 square feet, more or less.

2. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of September, 1954, as Condemnation Resolution No. 531.

EXHIBIT "J-2"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, the State Highway Commission by resolution dated September 24, 1953, declared the necessity of the acquisition of two parcels of real property, therein designated as Parcel No. 1 and Parcel No. 2, owned by J. C. Owre, et ux, File No. L-2060 (R-20650), Parcel No. 1 being situated in the Joseph Churchill Donation Land Claim No. 56, also lying in the Northeast quarter (NE$\frac{1}{4}$) of Section 31, Township 4 South, Range 1 West, W.M., Marion County, Oregon, and Parcel No. 2 also being situated in the Joseph Churchill Donation Land Claim No. 56, also lying in the Northeast quarter (NE$\frac{1}{4}$) of Section 31, Township 4 South, Range 1 West, W. M., Marion County, Oregon, for right of way purposes, for the establishment, construction and maintenance of the Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway, and for right of way of the Portland-Salem Expressway and Broad Acres Road, also known as Marion County Market Road No. 8; and

WHEREAS, the said State Highway Commission after further investigation has found that the computation of the area in Parcel No. 1 lying within the existing right of way in the amount of 0.21 acres and that area lying outside of the existing right of way in the amount of 11.86 acres is incorrect; and

WHEREAS, the said State Highway Commission after further investigation has found that the computation of the area in Parcel No. 2 lying within the existing right of way in the amount of 0.46 acres and that area lying outside of the existing right of way in the amount of 0.64 is incorrect; and

WHEREAS, the said State Highway Commission after further investigation has found that it is to the best interests of the State and the public to change the descriptions of the areas lying inside and outside of the existing right of way in Parcels No. 1 and No. 2 so that said descriptions will reflect the true facts; and

WHEREAS, the resolution of September 24, 1953, does not properly describe the area lying within and without the existing right of way adjacent to Parcels No. 1 and No. 2 and should, therefore, be amended to properly describe same;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. That that certain resolution duly made and entered in full in the minutes and records of the Commission on the 24th day of September, 1953, pertaining to the property owned by J. C. Owre, et ux, File No. L-2060

EXHIBIT "J-2" (cont)

(R-20650), be and the same hereby is amended to properly describe Parcel No. 1 and Parcel No. 2 as follows:

Parcel No. 1:

A parcel of land lying in the Joseph Churchill Donation Land Claim No. 56, also lying in the Northeast quarter (NE¼) of Section 31, Township 4 South, Range 1 West, W. M., Marion County, Oregon, and being a portion of that property described in that deed to J. C. Owre and Sophie Owre , recorded in Book 181, Page 356, of Marion County Records of Deeds, the said parcel being that portion of said property included in a strip of land 274 feet in width, 100 feet Easterly and 174 feet Westerly of the center line of the Portland-Salem Expressway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1020+91, said Station being 15.77 feet North and 69.61 feet West of the Southeast corner of the Gideon Seneschal Donation Land Claim No. 59, Township 4 South, Range 1 West, W.M.; thence South 37° 26' West 637.94 feet to Equation Station L4ef1027+28.94 back equals L4e 1026+69.77 ahead; at which point there is also an equation in bearings South 37° 26' West back equals South 37° 28' West ahead; thence South 37° 28' West 1630.23 feet to Engineer's center line Station 1043+00.

Said center line crosses the Easterly and Southerly lines of said property approximately at Engineer's center line Stations 1041+52 and 1040+23, respectively.

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 12.07 acres, of which 0.16 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 11.91 acres lie outside of the existing right of way.

Parcel No. 2:

A parcel of land lying in the Joseph Churchill Donation Land Claim No. 56, also lying in the Northeast quarter (NE¼) of Section 31, Township 4 South, Range 1 West, W. M., Marion County, Oregon, and being a portion of that property described in that deed to J. C. Owre and Sophie Owre, recorded in Book 181, Page 356, of Marion County Records of Deeds, the said parcel being that portion of said property included in a strip of land variable in width, lying on each side of the center line of the Hubbard-Broadacres County Road as said County Road has been relocated, which center line is described as follows:

EXHIBIT "J-2" (cont)

Beginning at Engineer's center line Station W4+14.76, said Station being 76.04 feet South and 139.93 feet West of the southeast corner of the Gideon Seneschal Donation Land Claim No. 59, Township 4 South, Range 1 West, W.M.; thence South 88° 15' 55" West 200.21 feet; thence on a spiral curve right (the long chord of which bears North 89° 04' 05" West) 200 feet; thence on a 716.20 foot radius curve right (the long chord of which bears North 82° 58' 50" West) 18.85 feet; thence on a spiral curve right (the long chord of which bears North 76° 53' 35" West) 200 feet; thence North 74° 13' 35" West 266.18 feet to Engineer's center line Station W13+00.

The Southerly line of said strip of land crossing the Northerly line of said property approximately opposite Engineers center line Station W12+50.

Except that portion of said strip of land which lies within parcel No. 1 above.

The widths in feet of the strip of land above referred to are as follows:

Station	to Station	Width on Northerly Side of Center Line	Width on Southerly Side of Center Line
W5+00	W10+33.82	To the North line of property	50 feet
W10+33.82	W13+00	To the North line of property	30 feet

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 1.33 acres, of which 0.43 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 0.90 acre lies outside of the existing right of way.

2. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of September, 1954, as Condemnation Resolution No. 532.

23995

EXHIBIT "J-3"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Beaverton-Multnomah County Line Section of the Beaverton-Hillsdale Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Beaverton-Multnomah County Line Section of the Beaverton-Hillsdale Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "J-3" (cont)

2. That the widening, improvement and maintenance of the said Beaverton-Multnomah County Line Section of the Beaverton-Hillsdale Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of September, 1954, as Condemnation Resolution No. 520.

---

*FOOTNOTE: The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 520, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-4"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right of interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Tualatin River-Middleton Section of the Pacific Highway West; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Tualatin River-Middleton Section of the Pacific Highway West, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record or reputed owner, and the Commission's respective file number and said Exhibit "A", is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Tualatin River-Middleton Section of the Pacific Highway West and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A". *

3. That the widening, improvement and maintenance of the said Tualatin River-Middleton Section of the Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of September, 1954, as Condemnation Resolution No. 521

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 521, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-5"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Euchre Creek-Wedderburn Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Euchre Creek-Wedderburn Section of the Oregon Coast Highway as a throughway, certain interests in or fee simple title to certain real property. The said real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to the said real property on the said attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Euchre Creek-Wedderburn Section of the Oregon Coast Highway and the highway facilities for which the said real property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of September, 1954, as Condemnation Resolu-

tion No. 522 .

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 522, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein..

EXHIBIT "J-6"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire a haul road to provide access to and from a material site to be used in connection with the acquisition of roadbuilding materials, and for such purpose the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title, or any right or interest, to said real property;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "J-6" (cont.)

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of September, 1954.

---

*FOOTNOTE: The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 523, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-7"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to relocate, construct, improve and maintain the Rocky Point-Tarheel Section of the Cape Arago Highway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment, and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the Rocky Point-Tarheel Section of the Cape Arago Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be required, are more particularly described in the attached list, marked EXHIBIT "A", under the name of the record owner or reputed owners, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the relocation, construction, improvement and maintenance of the said Rocky Point-Tarheel Section of the Cape Arago Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "J-7" (cont.)

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of September, 1954, as Condemnation Resolution No. 524.

---

*FOOTNOTE: The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 524, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-8"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, denotation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention or hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Bear Creek Section of the Suislaw Highway; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Bear Creek Section of the Siuslaw Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Siuslaw Highway and all of the contigu-

EXHIBIT "J-8" (cont.)

ous real property of the respective owners remaining after the appropriation of the said real property; provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Bear Creek Section of the Siuslaw Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "J-9"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Salem By-Pass - Jefferson Junction Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-9" (cont.)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, the public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Salem By-Pass - Jefferson Junction Section of the Pacific Highway East as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the widening, improvement and maintenance of the said Salem By-Pass - Jefferson Junction Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "J-9" (cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of September, 1954, as Condemnation Resolution No. 526.

---

* FOOTNOTE: The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 526, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-10"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Clackamas Overcrossing Section of the said Clackamas Secondary Highway; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the Clackamas Overcrossing Section of the Clackamas Secondary Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Clackamas Overcrossing Section of

EXHIBIT "J-10"

the said Clackamas Secondary Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the relocation, construction, improvement and maintenance of the Clackamas Overcrossing Section of the Clackamas Secondary Highway, and the highway facilities for which each of the said parcels of property, or interest therein, is required and being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of September, 1954, as Condemnation Resolution No. 527.

---

* FOOTNOTE: The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 527, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-11"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, the State Highway Commission on the 21st day of January, 1954, by resolution declared the necessity for the acquisition of certain real property owned by S. H. Frank & Company, File No. R-20483, situated in Sections 31 and 32, Township 34 South, Range 14 West, W.M., Curry County, Oregon, for right of way purposes for the relocation, construction, improvement and maintenance of the Euchre Creek-Wedderburn Section of the Oregon Coast Highway as a throughway; and

WHEREAS, the said resolution declared the necessity that there shall be no rights of access between the right of way of the said relocated Oregon Coast Highway and the remaining land of S. H. Frank & Company except for two rights of access to the said relocated highway; and

WHEREAS, the said Highway Commission after further investigating the necessity for the control of access from the said remaining land to the relocated Oregon Coast Highway, has found that it will be in the best interests of the State and the owner of the said remaining land to change the access control language in the said resolution;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

That the access control language in that certain resolution duly made and entered in full in the minutes and records of the Commission on the 21st day of January, 1954, pertaining to that property owned by S. H. Frank & Company be, and the same is, amended to read as follows:

1. It is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the owner remaining after the sale or appropriation of the real property hereinabove described as Parcel No. 1; provided, however, that there shall be reserved unto the owner, its successors and assigns, for the service of the said remaining land the following:

A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet, on the West side of the said highway, opposite Highway Engineer's center line Station 721+50, for the production and transportation to market of farm products and for the development, harvesting and transportation to market of forest products from the owner's remaining land, and for private residential purposes.

A right of access to the relocated Oregon Coast Highway of a width not to exceed 40 feet, on the West side of the said highway, opposite High-

way Engineer's center line Station 709+25, for the production and transportation to market of farm products and for the development, harvesting and transportation to market of forest products from the owner's remaining land, for private residential purposes, and for any and all purposes reasonably necessary to the promotion, development, construction or operation of shipping, fishing or other commercial interests of a maritime port, but such purpose shall not include any commercial institution or activity which caters to or solicits from the traveling public.

The reserved rights of access from the said abutting property shall not be used for any purpose not hereinabove authorized. If, after written notice to desist, the owner, or any person holding under it, shall use any of said rights of access for any purpose not hereinabove authorized for that specific location, or shall permit or suffer any other person to do so, then the reserved right of access at the place where the unauthorized use occurred shall automatically be suspended. The State shall thereupon have the full right and privilege, which right and privilege is hereby expressly granted, to close such place of access for all purposes. The suspension shall cease and the owner, or those holding under it, shall again have the right to use said right of access for the purpose or purposes hereinabove authorized when assurance has been furnished the State that the unauthorized use will not be resumed; provided, however, that the State may first require the furnishing of a bond, with good and sufficient sureties and in a satisfactory amount, conditioned upon the faithful observance and compliance with the terms and purposes hereinabove set forth for the use of said reserved right of access.

The State shall, however, have the right at its option to build at any future time, at its sole cost, within the boundaries of any present or hereafter acquired right of way, an underpass and a traffic interchange; thereupon, the rights of access herein reserved to and from the aforesaid highway which are connected to any such underpass or interchange shall cease, but the owner, its successors and assigns, shall have access to the relocated Oregon Coast Highway via such underpass and traffic interchange. Said traffic interchange shall be connected to the relocated Oregon Coast Highway in such manner and at such places as will afford reasonable and safe connections, and the said underpass shall not be less than 20 feet in width, and the State will, at its sole cost, connect the existing road at Station 709+25 with the said underpass and traffic interchange.

2. That this resolution shall be entered in full in the minutes and records of the Commission this 23rd day of September, 1954, as Condemnation Resolution No. 547.

EXHIBIT "J-12"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, the State Highway Commission on the 24th day of February, 1954, by resolution declared the necessity for the acquisition of certain real property owned by Round Prairie Lumber Co., et al. File No. R-21567 and No. R-21568, situated in Section 35, Township 28 South, Range 6 West, W.M., Douglas County, Oregon, and also situated in Section 2, Township 29 South, Range 6 West, W.M., Douglas County, Oregon, for the purpose of the relocation, construction, improvement and maintenance of the Shady Point-Booth Ranch Section of the relocated Pacific Highway as a throughway; and

WHEREAS, the Highway Commission after further investigation has found that it is in the best interests of the State and the public to acquire an easement in connection with the proper relocation, improvement, construction and maintenance of the Shady Point-Booth Ranch Section of the relocated Pacific Highway; and

WHEREAS, the said resolution of February 24, 1954, includes an easement of greater extent than that needed for the above-mentioned right of way and should therefore be amended to properly describe the needed easement;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. That that certain resolution duly made and entered in full in the minutes and records of the Commission on the 24th day of February, 1954, pertaining to the property owned by Round Prairie Lumber Company, et al., File No. R-21567 and No. R-21568 be and the same hereby is amended to read as follows pertaining to Parcel 3 of the aforesaid resolution:

It is necessary to acquire an easement across the following described real property for the purpose of constructing and maintaining footings of a retaining wall which will provide lateral support for a portion of the real property described as Parcel No. 1. The Highway Commission does not seek to acquire fee simple title to the land to be used for easement nor to prevent the owner, its successors and assigns from the full use and domain thereover, provided however, that such use shall not be permitted to damage or destroy lateral support to the said highway. The real property across which this easement is required is described as follows, to wit:

Parcel No. 3

A strip of land 4.5 feet in width lying westerly of and adjacent to the westerly line of parcel No. 1, being the face of the retaining

EXHIBIT "J-12" (cont.)

wall to be constructed between Stations 3074+22.61 and 3074+97.32 containing 0.01 acre.

2. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of September, 1954, as Condemnation Resolution No. 548.

EXHIBIT "J-13"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry site; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads, highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goshen-Divide Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners

and the State are best served, even though said entire tracts is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, construction, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded,and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment, and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Goshen-Divide Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Goshen-Divide Section of the relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Goshen-Divide Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, lo ated, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking,

and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of September, 1954, as Condemnation Resolution No. 594.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 594, under heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-14"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Santiam Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Santiam Highway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Santiam Highway and all

of the contiguous real property of the owners remaining after the appropriation of the said real property; provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted to the parcel on the said attached list marked Exhibit "A". *

3. That the widening, improvement and maintenance of the said Santiam Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of September, 1954.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 631, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-15"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light, and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to improve and maintain the Sunset Highway; and

WHEREAS the Highway Commission has by a resolution ordered and declared that said highway shall be improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from the said highway should be controlled;

EXHIBIT "J-15" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment, and maintenance of highways of the state highway system and the improvement and maintenance of the said Sunset Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owner should be acquired, are more particularly described in the attached list, marked "Exhibit A", under the name of the record owner or reputed owner and the Commission's respective file number, and said "Exhibit A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Sunset Highway and all of the contiguous real property of the owner remaining after the appropriation of the said real property; except that there shall be reserved unto the owner, its successors and assigns, for service of its remaining land such access reservations as are noted as to each parcel on the attached list marked "Exhibit A". *

3. That the improvement and maintenance of the said Sunset Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owner and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of September, 1954, as Condemnation Resolution No. 632.

*See next page for footnote.

EXHIBIT "J-15" (Cont)

*FOOTNOTE:

The name of the property owner and the detailed description of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 632, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

Salem, Oregon
October 11, 1954

The State Highway Commission met in special telephonic session at 2:30 P.M. on Monday, October 11, 1954. Present were:

Charles H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, Deputy State Highway Engineer

In the absence of Chairman Ben R. Chandler, Commissioner Charles H. Reynolds acted as Chairman and called the meeting to order.

The Deputy State Highway Engineer explained that by inadvertence a bid had been received from Wulfert Company, Inc., on the advertised proposal for the construction of the Big Eddy-Dillon Guard Rail Project, that the bid was opened and considered with other bids at the Commission meeting dated September 23, 1954, and being the lowest bid Contract No. 4287 was awarded to the bidder Wulfert Company, Inc. It was then discovered that Wulfert Company, Inc., a corporation, had never qualified to bid on public contracts estimated in excess of $10,000 as required under the provisions of ORS 279.010 et seq., although Wulfert Company, a co-partnership, had so qualified.

The Deputy State Highway Engineer further informed the Commission of the Chief Counsel's advice that the afore-mentioned statutes set forth the mode whereby public contracts shall be let and that such mode, and no other, must be pursued to create a valid contract. It was recommended that all steps heretofore taken in awarding Contract No. 4287 to Wulfert Company, Inc., be rescinded, all other bids rejected, and the project readvertised for bids to be opened October 28, 1954.

The Commission being advised of the facts and the law, approved the recommendation and authorized the recission of Contract No. 4287 heretofore awarded to Wulfert Company, Inc., rejection of all other bids, and readvertising of the project for letting October 28, 1954.

There being no further business, the meeting adjourned.

Charles H Reynolds
Commissioner

W C Williams
Deputy State Highway Engineer

M K McIver
Commissioner

October 11, 1954

Portland, Oregon
October 28, 1954

The State Highway Commission met in regular session in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Commissioner Reynolds announced that only a few jobs are being considered by the Commission at this letting due principally to the fact that bond money authorized by the Legislature for highway construction is nearly all obligated. He called attention to the highway program proposed by President Eisenhower and advised if this Federal Program materializes, Oregon will continue construction at relatively the same rate that it has proceeded during the last two years.

Bids as follows for highway construction were then opened and read aloud by the Secretary who announced that the Commission would award contracts at 4:00 p.m. in the same room.

The Commission approved the minutes of the meeting held on May 11 and 12 and on June 23 and 24, 1954.

The State Parks Superintendent, Mr. C. H. Armstrong, reported on the following park matters:

1. Renewal of a lease with the U. S. Bureau of Land Management for use of 51.51 acres of Government owned land at Loon Lake in Lots 17 & 18, Sec. 1, T 23S, R 10 W. W.M., Douglas County: The Parks Superintendent reported that a previous 20 year lease on the property has expired, and that the State's application for renewal has been approved by the Federal authorities on condition that the land will be used for recreational purposes only and that the State will pay a yearly rental of $6.44. He recommended renewal of the lease on a 20 year basis. The recommendation was adopted by the Commission.

2. Request of the State Board of Forestry for an easement to use an existing logging road across Short Sand Beach State Park: The State Parks Superintendent recalled that several years ago a permit had been issued to the St. Helens Pulp & Paper Company for a road crossing in the park. The State Board of Forestry now wishes to use this same road for the convenience of its contractors and the Board in the removal of timber, reforestration, fire control and maintenance. As the road is already constructed and the use of it will be to the public benefit, he recommended issuance of an easement to the State Board of Forestry. The Commission accepted the recommendation.

3. Report on adaptability of the Baker area at Dorena Reservoir for state park purposes: The Parks Superintendent recalled that some time ago the Commission authorized a study of the area at request of Lane County interests, and he advised that the study has been completed in considerable detail. He presented a written report on the subject in which he points out that the Dorena Reservoir is situate on the Row River about 11 miles east of Cottage Grove, and is reached by a county road. He recommended against development of the area by the State at this time because there are other lake and reservoir

areas in Lane County that have a higher priority, and will please more people, particularly (1) Leaburg Damsite area on the McKenzie River, (2) Triangle Lake on the Siuslaw Highway, and (3) the reservoir at Dexter on the Willamette River adjoining the Willamette Highway. The recommendation was accepted by the Commission. (For details see copy of Park Superintendent s written report dated October 25, 1954, in General Files.)

4. Report on possible lakeside developments throughout the State: The Parks Superintendent recalled that at the meeting in August he was instructed to prepare a report on recreational developments around lakes and reservoirs as to priority of development. This report, he stated, goes into considerable detail in considering the accessibility, practicability and need for development on practically all of the lakes and reservoirs adjoining state highways. The Commission accepted the report, but took no action on it. (For details see copy of the Parks Superintendent's letter of October 25, 1954, and Mr. Dunlap's letter to the Parks Superintendent dated October 26, 1954 in the General Files.)

5. Proposed access road to the Methodist Camp Ground adjacent to Wallowa Lake State Park: The Parks Superintendent explained that closure of two existing roads through the park is required to accommodate overnight camping facilities in areas traversed by them. A petition, he stated, has been submitted by people who have summer cottages on the Methodist Camp Ground area immediately south of the Park, requesting that a road be provided them near the Wallowa River on the east edge of the park. He pointed out that the existing roads had been used for perhaps 40 years without protest from the original owners of the property, and in all probability the petitioners have certain legal rights established by such use. The road proposed by the petitioners, he stated, is approximately 1,000 feet long and extends from a connection with the Joseph-Wallowa Lake Highway southerly along the west side of the Wallowa River to a connection with an existing road at the south park boundary. He estimated the cost to construct a road of about equal quality as the existing road at $1,000, and he recommended that it be constructed when it becomes necessary to close the present roads through the park. The recommendation was approved by the Commission.

6. Parks Budget for the year 1955: The Parks Superintendent presented a proposed budget totaling $1,194,000 and explained items therein as requested by the Commission. After careful consideration, the Commission adopted the budget as submitted. (For details see copy of the budget in the Secretary's files.)

7. Proposed state park at Maxwell Point near Oceanside in Tillamook County. The State Parks Superintendent reported that he had received a request from the Oceanside Community Club for development of a state park at this point. The Commission ordered an investigation and a report on the matter.

Mr. Arden X. Pangborn, Editor of the Oregon Journal and member of the Travel Advisory Committee, appeared before the Commission in company with Mr. Carl Jordan, Director of the Travel Information Department, concerning the budget of that department for the year 1955. Mr. Pangborn explained that the budget as presented follows the pattern of previous budgets. He pointed out, however, that advertising costs have increased and more money may be needed later to do the same job as was done during 1954. After due consideration, the Commission approved the budget for $275,000. The Advisory Committee was commended by the Commission for the fine work that it has done in guiding the activities of the travel information division.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for various state highway improvements and for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In discussing the options as presented, the Right of Way Engineer inquired whether or not he should negotiate acquisition of right of way needed for the West Portland-Harbor Drive Section of the Portland-Salem Expressway across property owned by the Barbur Boulevard Drive-In Theater. He anticipated that the property would cost about $125,000. Commissioner McIver gave as his feeling that the right of way should be acquired now because people are being damaged by the uncertainties and it will cost much more later on. Commissioner Reynolds suggested completion and adoption of the survey as rapidly as is possible. The Engineer stated that in his opinion right of way should be acquired from those who are willing to sell at a reasonable figure. He also said that the survey is sufficiently advanced and the location well enough known so many of the properties could be acquired and construction of the project expedited with the least possible delay when the Commission is ready to proceed with the improvement. The matter was discussed briefly, but action was deferred until later in the session. (On the following day, the Right of Way Engineer again brought the matter before the Commission. He was authorized at that time to negotiate an option for right of way across the Drive-In Theater property.)

In the discussion of the above-mentioned Drive-In Theater property, the question arose as to the status of surveys that have been authorized for contemplated improvements. The Engineer was instructed to submit a report on the subject at the next meeting showing surveys completed and those under way, mileage involved, and the estimated cost of the work that is covered by the surveys.

A report on Miscellaneous Sales of miscellaneous properties sold since the last Commission meeting was submitted by the Right of Way Enginner and accepted by the Commission. (For list of properties sold, see a copy of the report prepared by C. W. Parker, Property Manager, dated October 28 and 29, 1954, filed in the Secretary's office under the heading

"Miscellaneous Sales.)

The matter of reimbursing Mr. Bert Howard for expenditures made by him in constructing curbing on the Mt. Vernon-John Day Section of the John Day Highway in Grant County was discussed. The Right of Way Engineer stated that Mr. Howard had been forced to install additional curbing due to a change in grade of the highway. He recommended that he be paid the sum of $75 for this additional work. The Commission approved the payment.

The Right of Way Engineer presented a number of changes in access points on various properties. He explained that in each instance no additional access is being granted and that only a change in the existing access is involved. He recommended changes as follows:

1. Lindberg property on the Clatskanie-Delena Section of the Columbia River Highway in Columbia County-File No. 20336.

2. Newhouse property on the Frankport-Euchre Creek Section of the Oregon Coast Highway in Curry County, File No. 21085.

3. Davis property on the Seven Oaks-Medford Section of the Pacific Highway in Jackson County, File No. 20973.

4. Hinsdale property on the Reedsport-Luder Creek Section of the Umpqua Highway in Douglas County, File No. 15092.

5. Woodley property on the Jones Ranch-Mitchell Section of the Ochoco Highway in Wheeler County, File No. 17627.

6. Hinsdale property on the Hinsdale Slough-Luder Creek Section of the Umpqua Highway in Douglas County, File No. 20605.

The Commission approved the changes as recommended.

Attention was given by the Commission to a form of agreement with the Salt Lake Pipe Line Company whereby the State is given permission to construct and maintain the Olds Ferry-Ontario Section of the Old Oregon Trail Highway over and across the Company's pipe line in Malheur County. The Right of Way Engineer stated that the provisions of the agreement have been carefully checked and that the rights of the State are safeguarded. He recommended that the agreement be approved. The Commission approved the recommendation.

Deeding of 0.19 acre of land to Douglas County for a consideration of $1 was discussed. The Right of Way Engineer explained that the State owns a stockpile site on the old route of the Elkton-Sutherlin Secondary Highway at milepost 24.75 which is outside the normal right of way and no longer is of value for state highway purposes but can be used to advantage by the County. He recommended that it be deeded to the County at the price mentioned. The Commission accepted the recommendation.

Authority to sell 3,331 sq. ft. of excess property in Lot 1, Patterson's Addition to Eugene was requested by the Right of Way Engineer who stated that the property is not needed in highway operations and who recommended that it be sold at public sale for not less than $1,000 with complete restriction of access to the Pacific Highway. The Commission granted the request by adoption of the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Attention was given to the matter of leasing to Swift and Company, a parcel of land situate north of the S.P. & S. Railroad and east of 14th Street in Astoria. The Right of Way Engineer explained that this is a triangular tract near the ferry slip in Astoria which can be leased to Swift and Company for three years beginning July 1, 1954, at a rental rate of $50 per month plus payment of taxes; moreover the Company has agreed to maintain the platforms and warehouse located upon the property. He recommended that the lease be approved. The Commission accepted the recommendation.

Payment of $1,667 to Doty & Doerner, Landscape Contractors, Portland, for operational damages due to the closing of a temporary farm crossing at Stafford Road on the Barbur Boulevard-Marion County Line Section of the Portland-Salem Expressway was considered by the Commission. The Right of Way Engineer stated that, in his opinion, damages in the amount requested have been suffered by Doty & Doerner, and he recommended that they be paid such amount. The Commission approved the payment.

The Right of Way Engineer recommended and the Commission approved sale of 0.04 acre of excess property on the Salem Bypass Section of the Pacific Highway to Ivan J. and Betty C. Fellows for the sum of $105 with complete restriction of access to the bypass.

Consideration was given to the matter of compensating the State Land Board at the rate of $0.10 per cubic yard for road materials to be taken from the Umpqua River by the U. S. Bureau of Public Road's contractor for use in constructing the Hinsdale Slough-Luder Creek Section of the Umpqua Highway. The Right of Way Engineer explained that in connection with Forest Highway projects the State is obligated to furnish necessary rights of way and sources of material for construction. In this instance, he said, the material source is the Umpqua River so it will be necessary to pay the State Land Board the customary charge of $0.10 per cubic yard for the material taken. He estimated the total cost involved at $25,000. The Commission approved payment of the charge.

The matter of exchanging property with Mr. Howard Hinsdale in Reedsport was discussed. The Right of Way Engineer explained that it is proposed to convey to Mr. Hinsdale 1.25 acres of state-owned land adjacent to the existing maintenance headquarters near Hawthorne and 12th Streets in Reedsport, in exchange for which Mr. Hinsdale will convey to the State 3.2 acres on the easterly side of the highway on Bolon Island.

In the discussion of this matter, it was pointed out that the existing maintenance station interferes with the Reedsport School, and a new site must be acquired. Mr. W. W. Stiffler, Assistant Highway Engineer, stated that the Bolon Island site is the best location for the maintenance headquarters; also, that under the terms of the proposed exchange, Mr. Hinsdale will fill the Bolon Island area to an elevation of 9.6 feet before shrinkage. The Right of Way Engineer stated that he believed the properties are of equal value, each being worth about $25,000, and he recommended approval of the exchange. The Commission approved the recommendation.

The Right of Way Engineer presented a request from a Mr. Brelage to lease approximately 0.65 acre of excess right of way near the northerly end of McCullough Bridge at Coos Bay for motel purposes. He pointed out that the right of way at this point is very wide, and that Mr. Brelage will be allowed only one point of access, and will pay the sum of $600 per year for use of the land; moreover, he will be required to construct at his own expense curbs and an island to confine his access to only one place. He recommended approval of a revocable lease. Mr. Williams, Deputy State Highway Engineer, concurred therein and added that should unforeseen complications arise, the lease can be cancelled on six months notice. The Commission approved the lease.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties which are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951.

Tigard-Newberg Section of the Pacific Highway West

R 19694- Chester D. Pape
Right of Way (Washington)
140 square feet

R 19701- John M. Burge
Right of Way (Washington)

New resolution required for change of description

Goshen-Divide Section of the Pacific Highway

L 2213- Alsea Hawley, et al.
New resolution required for change of description

The Commission approved the request by adopting the attached resolutions relative thereto marked EXHIBITS "L-1" through "L- 7 ", inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and approved the Chief Counsel's written report of cases which have been tried in court by his office since the September meeting of the Commission as follows:

1. State vs. Floyd H. Barrett, et al., File No. L 1760 (R 17395) for right of way for the Big Creek Section of the Columbia River Highway. The State offered to pay $80 for this property. The defendants rejected the offer and demanded the sum of $5,000. The jury returned a verdict in the amount of $300 plus attorneys fees in the sum of $350.

2. State vs. W. J. McCready Lumber Company, File No. L 2070 (R 20624) for right of way for Unit No. 4 of the T. H. Banfield Expressway: An offer in the amount of $5,700 was made which the defendants rejected and demanded the sum of $25,000. The jury returned a verdict in the amount of $8,400 plus attorneys fees of $1,050.

3. State vs. Lauren E. Stettler, et ux., File No. L 2142 (R 21060) for right of way for the Willamette River-Hayesville Section of the Portland-Salem Expressway: The State offered to pay $9,720 which offer was rejected by the defendants who demanded the sum of $21,800,

later reduced to $15,000. The jury awarded the sum of $12,500 plus attorneys fees in the amount of $1,000.

4. State vs. William A. Wysock, et ux, File No. L 2208 (R 21371) for right of way for the Goble-St. Helens Section of the Columbia River Highway: An offer was made for this property in the amount of $239. The defendants rejected the offer and demanded $2,000, later increased to $7,000. The jury returned a verdict in the amount of $600 plus attorneys fees of $300.

5. State vs. Wilbur C. Moore, et al., File No. 2167 (R 21087) for right of way for the Euchre Creek-Wedderburn Section of the Oregon Coast Highway: The State offered to pay $9,100 for this property which offer was rejected by the defendants whose lowest demand was $40,000 plus construction of an underpass. The jury allowed $11,400 plus attorneys fees in the amount of $750.

6. C. J. Eldon, et al. vs. Ben R. Chandler, et al., L 1740 A. The purpose of this suit was to force a revision of the final estimate of the State Highway Engineer with respect to the final payment due and owing the plaintiff for work performed under Highway Contract No. 2997 for improvement of the Yellow Creek-Calapooya Creek Section of the Elkton-Sutherlin Secondary Highway in Douglas County. A final estimate in the amount of $14,971.54 was submitted to the plaintiffs. The estimate was later revised to the sum of $16,949.98. The defendants objected to this final estimate claiming a total of $19,236.56. The plaintiffs were awarded the sum of $18,680.61 in the lower court which amount did not provide for interest. The plaintiff appealed to the Supreme Court claiming interest in the amount of 6o/o on the amount of award from September 30, 1949, the date on which the job was accepted by the Commission. The Supreme Court decreed that the plaintiffs are entitled to interest on the sum awarded by the trial court and affirmed the judgment of the trial court in all other respects.

In discussing the Eldon case, Chairman Chandler inquired if the State has any obligation to withhold payments to contractors because of claims which may be filed against the contract. The Chief Counsel replied that there is no legal obligation to withhold such payments, and he recommended that they be not held up except perhaps for short periods of time. The Engineer commented that as a result of the court ruling the State will have to pay 6 o/o interest on payments due contractors after their jobs have been accepted by the Commission notwithstanding that the contractors may refuse the amount offered by the State. It was his feeling that all monies due a contractor should be released to him as soon as is possible and that the amount so paid should be the amount that the State determines is the correct amount. The Chief Counsel advised that the interest charge will not start on withheld amounts until the contract has been formally accepted by the Commission. The Secretary commented that it had been standard procedure for many years to withhold final payment to a contractor until satisfactory evidence has been received that outstanding claims against his contract

have been satisfied. The Chief Counsel pointed out that on the final payment voucher, the contractor certifies that all bills have been paid. He recommended again that the State release to the contractor as soon as possible such funds as are determined by the State to be due the contractor. The Commission approved the recommendation, and referred the matter to the Engineer, Chief Counsel, Auditor and Secretary to work up necessary procedure.

7. Robert C. Bishop, et al., vs. State Highway Commission, File No. L 2177, (R 21756): The complaint demanded the sum of $70,000 as damages due to change in grade on Center Street in the City of Salem due to construction of the Center Street Bridge. The jury returned a verdict in the amount of $20,250. It was the Chief Counsel's recommendation that the case be not appealed. The Commission concurred in this recommendation.

8. State vs. Raymond M. McKeown, et ux., L 1893 (R 18208) for right of way for the Forest Boundary-Hauser Section of the Oregon Coast Highway: An offer was made for this property in the sum of $1,600 which offer was refused by the defendants. The jury returned a verdict in the sum of $3,050 plus interest from December 15, 1952, plus attorneys fees in the amount of $450.

9. Abe L. Steinbock, et ux., vs. State File No. L 2173: The complaint demanded $12,500 as damages by reason of a change in grade on Center Street in connection with construction of the Center Street Bridge in Salem. The jury returned a verdict in the amount of $4,000.

(For details see copy of the Chief Counsel's letters on "Report of Cases Tried" dated October 22, 26 and 27, 1954 in the General Files.)

The Commission also considered and accepted the Chief Counsel's report on court cases which have been settled since the Commission meeting held on September 23 and 24, 1954 as follows:

1. P. N. Shown vs. State of Oregon, by and through its State Highway Commission, L 2144 (R 17623, R 17624, R 21287): The complainant alleged that construction on the Ochoco Highway had altered the channel of Bridge Creek in the town of Mitchell, damaging the plaintiff's property in the amount of $20,000. A demurrer was filed on September 17, 1954, but before a ruling was obtained, the plaintiff moved for a voluntary nonsuit and the case was dismissed September 21, 1954.

2. State vs. Ruth DeLong, et al., L 2210 (R 21468): The State offered $3,523 for this property, which offer was rejected by the defendants who demanded $5,500 plus $550 attorney's fees. Subsequent negotiations effected a settlement in the amount of $4,500.

3. State vs. William T. Morris, et al., L 2211 (R 21466): An of-

fer in the amount of $2,300 was made for the property, which offer was rejected. Subsequent negotiations resulted in a settlement of $3,000.

4. State vs. Herman W. Koblenzar, et al., L 2166 (R 21081): An offer in the amount of $32,000 was made for this property, which offer was rejected by the defendants who demanded the sum of $70,000 plus $7,500 attorney's fees. Further negotiations resulted in a settlement in the amount of $38,000 with one access allowed on the easterly side of the highway for residential, farm and timber products use.

5. State vs. W. C. Schilling, et al., L 2217 (R 21220): An offer in the amount of $3,000 was made for the property. The defendants rejected the offer and demanded the sum of $6,160 plus $2,000 attorney's fees. Subsequent negotiations resulted in a settlement in the sum of $3,850 with the defendants to convey a severed 3.8 acre parcel to the State as well as 8.7 acres acquired for right of way.

6. State vs. Walter H. Hines, et ux., L 2310 (R 21766): The State offered to pay $3,000 for this property, which offer the defendants rejected. Further negotiations resulted in a settlement in the sum of $3,500.

7. State vs. Paul Koger Lowe, L 2287: In this case the State sought to collect the sum of $1,524 for damages to traffic control signals destroyed in a motor vehicle accident at the intersection of Pacific Highway East and "A" Street near Milwaukie, Oregon. Further investigation revealed that the claim may have been excessive as the amount was based upon the installation of new equipment, whereas the equipment destroyed was worn and in need of extensive repair. Settlement has been reached for the sum of $762 which the defendant is to pay at the rate of $20 per month until the judgment and the interest thereon is paid in full.

8. State vs. Vera M. White, L 2209 (R 21370): An offer in the amount of $239 was made for this property which was rejected by the defendant who demanded the sum of $2,000 plus $250 attorney's fees. A settlement in the amount of $600 was effected based on the verdict of the court in allowing $600 for a piece of nearly identical property owned by William A. Wysock.

9. State vs. Frank Trachsel, et al., L 2231 (R 21315): An offer was made for this property in the amount of $1,500. The offer was refused and the defendants demanded the sum of $6,000, later reduced to $5,000. Subsequent negotiations effected a settlement in the sum of $3,000.

10. State vs. George E. Finnerty, et al., L 2220 (R 21227): The State offered to pay $4,836 for 8.06 acres needed for right of way. Subsequent negotiations resulted in a settlement in the amount of $15,400, whereby the State acquired the entire ownership of 44.24

acres with the exception of 1.76 acres.

11. State vs. Maude Scott, et al., L 2323 (R 21510): The State offered to pay $13,000 for this property. Settlement has been effected for the sum of $14,000.

12. R. H. Corbett, et ux., vs. State of Oregon, L 2152, (R 21730): This action was brought for alleged damages to the plaintiff's property by reason of a change in grade caused by construction of the Marion Street Bridge in the city of Salem. They sought to collect the sum of $15,000. Settlement has been reached in the amount of $3,000.

13. State vs. Yaquina Bay Dock and Dredge Company, L 1878: Complaint was filed for the collection of damages in the sum of $7,283.50 caused to bridge dolphins adjacent to the Yaquina Bay Bridge when the ship, "Joseph Aspdin" collided with the dolphins April 11, 1948. Settlement of the case has been effected for the sum of $3,000 due to the fact that the dolphins which were damaged had served approximately 50 per cent of their expected life.

(For details, see copy of the Chief Counsel's letters regarding cases settled dated October 22, 25, 26 and 27, 1954, in the General Files.)

In conformity with the resolution adopted by the Commission on December 20, 1951, the Chief Counsel recommended and the Commission confirmed offers for the acquisition of real property which are to be tendered to the owners prior to the institution of condemnation proceedings as follows

Beaverton-Multnomah County Line Section of the Beaverton-Hillsdale Highway:

R-21954-Owner: N. Cromwell Norene, et ux. 0.14 acre for right of way. Offer of $900 approved by Mr. Chandler on October 19, 1954.

R-21914-Owner: Gladys Sussman. 0.1605 acre for right of way. Offer of $[illegible],039 approved by Chairman Chandler on October 19, 1954.

R-21937-Owner: Bruno Dumbrowski, et ux. 0.076 acre for right of way. Offer of $5,000 approved by Chairman Chandler on October 19, 1954.

R-21939-Owner: James Oules, et ux. 0.146 acre for right of way. Offer of $[illegible],025 approved by Chairman Chandler on October 19, 1954.

R-21950-Owner: Harry M. Baker, et ux. 0.077 acre for right of way. Offer of $1,500 approved by Chairman Chandler on October 19, 1954.

Salem By-Pass-Jefferson Junction Section of the Pacific Highway East:

Salem By-Pass-Jefferson Junction Section of the Pacific Highway East (cont)

R-22098-Owner: Roy M. Smith, et al. 2.83 acres for right of way. Offer of $2,934 approved by Chairman Chandler on October 19, 1954.

R-22099-Owner: W. F. Severin, et ux. 1.36 acres for right of way. Offer of $3,700 approved by Chairman Chandler on October 19, 1954.

Tualatin River-Middleton Section of the Pacific Highway West:

R-19704-Owner: Clark L. Johnston, et ux. 0.19 acre for right of way. Offer of $975 approved by Chairman Chandler on October 19, 1954.

R-19728-Owner: Parker R. Crossway, et ux. 0.17 acre for right of way. Offer of $4,650 approved by Chairman Chandler on October 19, 1954.

Rocky Point-Tarheel Creek Section of the Cape Arago Highway:

R-22310-Owner: Richard O. Hone, et al. 0.19 acre for right of way. Offer of $300 approved by Chairman Chandler on October 19, 1954.

Bear Creek Section of the Siuslaw Highway:

R-22266-Owner: J. C. Hise, et ux. 0.26 acre for right of way. Offer of $545 approved by Chairman Chandler on October 19, 1954.

The Commission considered and approved the following offers in condemnation cases heretofore authorized for acquisition of real property required for various highway purposes, as recommended by the Chief Counsel:

		Recommended Offer
Salem By-Pass-Jefferson Junction Section of the Pacific Highway East		
R-20059-	Ed Byrkit (Marion) Parcel No. 1: 4.42 acres for widening and improvement, including use for frontage road and interchange. Parcel No. 2: 1.14 acres for widening, construction and maintenance of County Road No. 843	$2,100.00
Beaverton-Multnomah County Line Section of the Beaverton-Hillsdale Highway		
R-21940-	Raymond D. Grondahl Right of Way (Washington) 0.069 acre	$7,634.00

October 28, 1954

The Chief Counsel reported that an order has been made by the Public Utilities Commissioner relieving log trucks from the necessity of coming to a complete stop before crossing the Southern Pacific Railroad tracks on the Corvallis-Newport Highway approximately one-half mile west of Philomath. The Railroad Company, he stated, did not protest the order, neither was protest filed on behalf of the Highway Commission. He pointed out that the crossing will be unique in that it is the only one in the state where provisions of the statute are not applicable. The Commission accepted the report.

The matter of designating portions of the Tualatin River-Middleton Section of the Pacific Highway West a "Throughway" was discussed by the Commission. The Chief Counsel pointed out that on January 21, 1953, the Commission adopted a survey for the route and location of this section of highway but the resolution contained no specific direction that the highway be constructed under the "Throughway "law. It was his thought that a special resolution should be adopted by the Commission now designating the portions to be built as a "throughway" and also showing those particular portions to be excepted from the "Throughway" law by reason of more than ten commercial business establishments, and he so recommended. The Commission accepted the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "I-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A proposed revision in access control provisions in condemnation proceedings, options and deeds was presented by Chief Counsel. He explained that since June, 1951, language had been inserted providing that access used for any purpose other than that authorized would cause the access right to be forfeited and closed for all purposes, which means that if a violation occurs the owner loses all legal right to the access forever, and has no right to a return of the right of access for the previous authorized use. He pointed out that property appraisers, when advised of this meaning, stated that their appraisals for property to be acquired by the State will be increased from 25 o/o to 50 o/o by virtue of this restriction. It was his thought that it would be advisable and desirable to modify the access language by eliminating the present provision which effects a perpetual forfeiture right of access in the event of violation, and to substitute a provision that will effect a mere suspension of the use of the access for all purposes until such time as the offending use has been eliminated. He recommended that the Commission approve in substance the following language to be contained in all future options, deeds, and condemnation proceedings:

> "The reserved rights of access from the said abutting property shall not be used for any purpose not hereinabove authorized. If, after written notice to desist, the grantors, or any person holding under them, shall use any of said rights of access for any purpose not hereinabove authorized for that specific location, or shall permit or suffer any other person to do so, then the reserved right of access at the place where the unauthorized use occurred shall automatically be suspended. The grantee shall thereupon have the full right and privi-

lege, which right and privilege is hereby expressly granted, to close such place of access for all purposes. The suspension shall cease and the grantors, or those holding under them, shall again have the right to use said right of access for the purpose or purposes hereinabove authorized when assurance has been furnished the grantee that the unauthorized use will not be resumed; provided, however, that the grantee may first require the furnishing of a bond, with good and sufficient sureties and in a satisfactory amount, conditioned upon the faithful observance and compliance with the terms and purposes hereinabove set forth for the use of said reserved right of access."

In connection with this matter the Chief Counsel also recommended that the Commission adopt a resolution authorizing him to make amendments in pending cases so as to substitute the above language for the access termination provisions now set forth in the complaints in such cases. The Commission accepted both recommendations and thereupon adopted the attached resolution relative thereto marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Chief Counsel read aloud an order from the Clackamas County Court, signed by Judge Wallace R. Telford and Commissioner Bob Jones, consenting to the closure of two railroad grade crossings that are involved in the construction of the proposed Clackamas Overcrossing Project on the Clackamas Secondary Highway. He recommended, in view of this communication, that the overcrossing project be reopened before the Public Utilities Commissioner. The Commission approved the recommendation, and so ordered.

Travel authorization for Mr. Frank Towle, Investigator, to go to Yakima, Washington, and vicinity, at State expense to locate a witness in the case of McDougall vs. State of Oregon was requested by the Chief Counsel. He explained that it is essential to locate a Mr. James D. Barrickman, who bored test holes on the Low Pass Section of the Siuslaw Highway which was later contracted to the McDougall Company. Mr. Barrickman, he said, possesses information which is essential to the proper defense of the case, and it is believed that he is living in the Yakima area. He estimated the cost involved at $60. The Commission approved the request.

The Chief Counsel requested authority to take such action as is necessary to eliminate a violation of an access restriction that is being practiced by a Mr. Parrish, in the town of Terrebonne, on The Dalles-California Highway. Mr. Parrish, he stated, has been asked to discontinue the unauthorized use of the access but so far has refused. The Commission authorized the barricading of the access and, if necessary, litigation to enforce compliance with the requirements.

Consideration was given to payment of a claim submitted by a Mr. Darrell Porter for repairs to his motor vehicle which was damaged on May 19, 1954, when a bridge that was being repaired by a State Highway

Maintenance crew collapsed under the weight of Mr. Porter's truck. The Chief Counsel explained that the bridge in question is located at Poodle Creek on the Richardson-Eugene Secondary Highway approximately one mile west of Noti, and that it was being supported by jacks which gave way when Mr. Porter was allowed to drive his truck upon it, causing damage to the truck in the amount of $604.36, which amount Mr. Porter is now claiming. He pointed out that the Commission is limited by law to payment of $500 in cases of this kind, and he recommended that $500 be paid in settlement of Mr. Porter's claim provided a full release of all liability resulting from the accident can be obtained from Mr. Porter and his surety, the Oregon Automobile Insurance Company. The Commission accepted the recommendation.

Abandonment of a damage claim against Clarence G. Larson was requested by the Chief Counsel He explained that the claim is for $81.11 and represents the cost to repair a highway department car that was damaged in a collision with one owned by Mr. Larson. Mr. Larson's insurance company he said,denied the claim on the grounds that negligence of the state driver contributed substantially to the accident; also; that further investigation revealed that the state driver may have been negligent. He recommended that the claim be abandoned. The Commission accepted his recommendation.

Settlement of a claim against Pacific Title Insurance Company concerning property acquired from Multnomah County was considered. The property in question, the Chief Counsel stated, was acquired as right of way for the Troutdale Section of the T. H. Banfield Expressway. Due to an error in description of the property, a Mr. Ralph Hannan, abutting property owner, claimed title to a 50-foot strip containing 0.43 acre, and was awarded a settlement in the sum of $650 in 1951 for such disputed tract. Due to the fact that the Title Company insured title to the property that was acquired from Multnomah County, claim was made against the Company for the amount of the settlement. It now appears, he said, that the error in the original description was made by the Highway Department, so the Title Company has some grounds for denying the claim as the description of the property is stated to be a portion of property conveyed by specified deeds, and an examination of the deeds reveals that the 50-foot strip is not included therein. In view of these circumstances, he recommended settlement with the Pacific Title Insurance Company for $200. The Commission approved his recommendation.

The Chief Counsel presented a report concerning a suit filed by Edward B. Hodges, et ux., against Stoen-Funderburk Construction Company, contractor, and a suit filed by P. J. Kaptur also against Stoen-Funderburk Construction Company, in both of which, the State Highway Commission has been named as a co-defendant. The Chief Counsel explained that the claims allege damage to the properties of the plaintiffs caused by the contractor's operations in connection with State Highway Contract No. 3805 on the Depoe Bay-Miner Creek Unit of the Siletz Bay-Miner Creek Section of the Oregon Coast Highway in Lincoln County. The Attorney General, he stated, has ruled in this instance that it is permissible for members of the Department of Justice to appear in the case, and has authorized him to

undertake defense of the action insofar as the Oregon State Highway Commission is concerned. He also said that motion has been filed to quash service in both cases, but no action has been taken as yet with respect to either motion of the State. The Commission accepted the report.

Renewal of the Highway Department's Depositor's Forgery Bond in the amount of $100,000, which expires November 2, 1954, was considered by the Commission. The Chief Counsel pointed out that there is no legal authority for this bond but it has been in effect since 1921. The State Highway Engineer recommended that the bond be continued. In the discussion it was pointed out that the premium paid for the present 3-year bond amounted to a total of only $356.25. The Commission approved renewal of the bond and referred the matter to Commissioner Reynolds with full power to act for the Commission.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. in the same room with the same persons present and participating.

Consideration was given by the Commission to a request from Mr. Robert M. Knox, Wedderburn, Oregon, for access to the Oregon Coast Highway from his property located near the Rogue River Bridge at Wedderburn in Curry County. The Engineer recalled at a hearing held in Gold Beach sometime ago the local people were given to understand that access to the new highway would be granted at all points where the new highway crosses the county road. The new highway at Mr. Knox's location, he said, does cross the old county road for a short distance so that Mr. Knox has grounds for requesting access. He suggested in lieu of an access, that a 24-foot by 15-foot underpass be constructed under the highway for the benefit of Mr. Knox, at an additional cost of approximately $10,000 with an interchange costing approximately $15,000. He suggested, if the Commission approves such change, that renegotiation be carried on with Mr. Knox for the acquisition of his property since previous negotiations were on a different basis. In the discussion on this matter, Chairman Chandler stated that he did not wish to jeopardize the throughway plan but felt that the matter should be reinvestigated. The Chief Counsel pointed out that if the features mentioned by the Engineer are installed, it will reduce the amount of actual damages to Mr. Knox's property. Commissioner Reynolds commented tha t it appears that the property could be acquired for a lesser amount if the larger underpass were installed. After further discussion, the Commission instructed the Engineer and the Right of Way Engineer to review the entire matter, and report at the next meeting whether or not Mr. Knox is entitled to a connection and if an interchange will be needed in the future,

The Engineer reported that under authority granted by law and pursuant to instructions from the Commission, he has awarded to successful bidders contracts, as follows, which were referred to him by the Commission for award as soon as certain conditions had been met. The Commission accepted the report.

1. Construction of structures on Coast Fork Willamette River-Divide Unit of Pacific Highway, Lane County. Bids received September 23, 1954. Conditions of award satisfied September 30, 1954. Tom Lillebo, Reedsport, contractor.

2. Grading and oiling on Booth Ranch-Myrtle Creek Unit, Shady-Canyonville Section of Pacific Highway, Douglas County. Bids received September 23, 1954. Conditions of award satisfied October 5, 1954. Kuckenberg Construction Company, Portland, contractor.

3. Construction of a reinforced concrete bridge over North Fork of Yachats River in Lincoln County. Bids received September 23, 1954. Conditions of award satisfied October 13, 1954. Orlando C. Bennard, Portland, contractor.

4. Grading and topping Forest Boundary-Meadow Brook Section of Ukiah-Hilgard Highway, Union County. Bids received September 23, 1954. Conditions of award satisfied October 18, 1954. Vernie Jarl, Gresham, contractor.

The Engineer presented a report on the request of the Walton Lumber Company, Parkdale, for a permit to truck-haul logs over the Wapinitia and Mt. Hood Highways from Bear Springs on the Wapinitia Highway to Parkdale. He stated that a test run of a loaded logging truck was made in August, the truck being furnished by Mr. Walton, the overall length of the equipment and load being 30 feet, 10 inches. It was ascertained that on the section from Warm Springs Highway Junction to Hood River Meadows, a distance of nine miles, the truck could not operate with a load without encroaching on the opposing traffic lane, in view of which the Engineer recommended that no permit be granted on such section. Between Hood River Meadows and Cooper Spur, a distance of 12 miles, the Engineer recommended the granting of a permit for hauling of logs on condition that the speed of empty and/or loaded trucks be limited to 15 miles per hour and that each loaded truck be preceded by a pilot car. On the section from Cooper Spur to Parkdale, a distance of eight miles, he recommended that there be no restriction for the hauling of legal length loads of logs, poles and/or piling. The Commission accepted the recommendations.

The Engineer reported that in accordance with authority previously granted him, he has reclassified a section of the Powers Secondary Highway from the status of Group II Highway to that of a Group I Highway. A recent improvement by contract of the Warner Station Section of this highway, he explained, removed two of three bad places while the third was bettered with maintenance forces sufficiently so that, according to test runs, the highway between M.P. 0.00 and M.P. 6.00 now will safely accommodate 60-foot equipment. The Commission accepted his report.

The Commission accepted a report from the Engineer consisting of a tabulation of statistics taken from the weighmaster records during the

three-month period from July through September for the years 1950 to 1954, inclusive. In his report the Engineer pointed out that since 1952 there has been a small percentage of increase in weight violations by log haulers, whereas the violations of haulers of commodities other than logs, poles and piling has shown a downward trend. (For details, see the Engineer's letter of October 25, 1954, in the General Files.)

Attention was given by the Commission to the matter of leasing to a Mr. Jack Macy a parcel of state highway right of way situate in the northwest quadrant of the intersection of Ordnance Secondary Highway with the Old Oregon Trail in Umatilla County. The Engineer explained that Mr. Macy operates a service station using Phillips Petroleum Company products and during negotiations for the sale of his property to the Company, it was discovered that Mr. Macy's station is located upon state highway right of way. Mr. Macy, he said, has been under the impression that the property belonged to the Northern Pacific Railway Company which leased the land to him and to whom he has been paying the sum of $50 annually as rental. As Mr. Macy has occupied this portion of the right of way during the past seven years in good faith and without any knowledge of the encroachment, the Engineer suggested that he be allowed to continue use of the land at the rate of $50 per year until a survey can be completed and the estimated cost to acquire access control over all of the abutting property between Boardman and Pendleton has been determined. The Commission authorized negotiations for a revocable lease.

The Commission gave attention to the following items of unfinished business as they appear on the Secretary's summary dated September 24, 1954:

1. Report concerning possible lakeside development throughout the State: The Parks Superintendent submitted a report on this subject earlier in the day. The Commission ordered the item deleted from the list of unfinished business.

2. Request for development of a state park in the Baker Bay area on Dorena Reservoir: A report on this subject also was submitted by the Parks Superintendent during the morning session and the Commission ordered the item deleted from the list of unfinished business.

3. Adoption of survey for the Adams Street Section of the one-way couplet proposed for the Pacific Highway West through McMinnville: The Engineer recommended adoption of the survey and acquisition of the necessary right of way now with construction to be undertaken within the next two or three years. He also recommended immediate construction of a portion of the Dayton-Amity By-pass for which, he said, money is available. Commissioner McIver stated that in his opinion, right of way for the Adams Street Section should be acquired now with construction to follow later. Commissioner Reynolds moved that the survey be adopted for the Adams Street Section and that right of way be acquired for it as soon as possible. Commissioner McIver seconded the motion and it was declared unanimous by Chairman

Chandler. The Commission thereupon adopted the attached resolution relative thereto, marked EXHIBIT "H-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

4. Proposed closure of a section of the Oregon Coast Highway (old route) between Miroco Beach and Otter Rock: The Engineer recalled that at a previous Commission meeting abandonment of this section of highway was considered. Further investigation, however, has indicated that the old section of highway should be barricaded when the new highway is open to traffic, except that portion which crosses the Badley property, and he recommended that such action be taken at this time. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "E-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein. The item is to be removed from the list of unfinished business.

5. Request for improvement of the Alsea Highway over Alsea Mountain: As previously instructed the Engineer reported that a reconnaissance study reveals that it will require construction of 4.63 miles of new highway to eliminate the existing crooked section. Such construction, he said, will realize a saving of 2.14 miles in distance, and will result in an annual benefit quotient of 1.865 for each dollar expended. He estimated construction cost at $2,700,000. As the project has a rather low benefit quotient in comparison with other projects he recommended that the improvement be deferred. The Commission accepted the recommendation, and ordered the item deleted from the list of unfinished business.

6. The Engineer presented a report on a request from the city of Ashland for a one-way street routing of the Pacific Highway through the city. He recalled that the Commission at its August meeting instructed him to conduct an investigation and this has been done. The routing proposed by the city, he stated, is feasible and will provide a very good one-way couplet. He exhibited a map of the plan and explained various features. The total cost he estimated at $463,000 consisting of $248,000 for construction and $215,500 for right of way. He felt that construction of the one-way couplet will defer for several years construction of a by-pass route, which eventually will have to be provided around Ashland as well as the city of Medford. Studies indicate, however, that even if the by-pass route is constructed, about 65 per cent of the traffic will go into the cities. The City, he added, has indicated that it can contribute about $50,000 for acquisition of right of way. After some discussion, Commissioner Reynolds moved that the one-way couplet plan be adopted without commitment as to time of construction, and that negotiations be conducted with the city to iron out details for an agreement concerning the project. Commissioner McIver seconded the motion and it was declared unanimous by Chairman Chandler.

7. Proposed purchase of right of way from Stokes and Le Crone on the Hillsboro-Forest Grove Section of the Tualatin Valley Highway:

The Engineer recalled that this matter was discussed at the September meeting of the Commission when it was referred to him for investigation. It was the feeling at that time, he said, that if the property could be acquired at nominal cost, the purchase would be desirable. Since then, he added, it has been determined that the property cannot be purchased at reasonable price. He recommended, in view thereof, that the matter be dropped. The Commission accepted his recommendation, and ordered that the item be deleted from the list of Unfinished Business.

8. Adoption of a new route for the Oregon Coast Highway between Seaside and Astoria: The Engineer stated that he will report on this matter at the December meeting. The Commission ordered the item retained on the list of Unfinished Business.

9. Mr. Ralph A. Petersen and Mr. Robert Maclay, Lane County Commissioners, came before the Commission to discuss the proposed "Q" Street route between Eugene and Springfield. Mr. Maclay stated that they would be glad to answer any questions the Commission might have in this matter. The Engineer reviewed previous discussion of this matter at the September meeting when the Commission had tentatively agreed to assume responsibility for acquiring the right of way from Eugene to Mill Street in Springfield. He estimated the cost of construction and right of way on a proposed extension from Mill Street to 19th Street at $761,300 and he recommended that the State assume responsibility for acquisition of the right of way between these points, estimated to cost $191,000, without any commitment as to when construction might be undertaken, provided that Lane County will establish the location from 19th Street to a junction with the McKenzie Highway, and will acquire the right of way for that section. He exhibited a map showing the proposed location. Commissioner Maclay stated that the County would be glad to make survey from 19th Street to a connection with the McKenzie Highway, and will acquire right of way along that section insofar as it is able to do so, in fact, the County will acquire it if the cost does not exceed $1,000 per acre. The Engineer suggested that an agreement between the State and the County be prepared outlining the responsibilities of each party. Chairman Chandler pointed out that the Commission has not yet adopted the "Q" Street route, and wants to discuss the matter further before making a decision. After further discussion, the Commission instructed the Engineer to prepare the agreement with the County covering the entire project and submit same to the Commission at a future meeting.

10. Request of D. C. Burkes that the State purchase his property for park purposes immediately north of Boiler Bay on the Oregon Coast Highway in Lincoln County: The Parks Superintendent stated that his report on this matter is not yet complete. The Commission ordered the item retained on the list of Unfinished Business.

11. Progress in establishing a 40-hour week for maintenance employees: The Engineer stated that a bill has been prepared by the

Chief Counsel and will be given to the Highway Interim Committee to introduce in the 1955 legislative session. The bill, he said, provides among other things for the transfer of $200,000 from "Capital Outlays" to "Operation and Maintenance" so funds will be available for employment of additional personnel if and when the 40-hour week becomes effective. He expressed the hope that the legislature would make the bill effective as of January 1, 1955. The Commission accepted the report and ordered the item deleted from the list of unfinished business.

(For details see copy of the Chief Counsel's letter to the Commission dated September 29, 1954, in the General Files.)

Mr. R. N. Kellogg, Highway Engineer, and his Assistant, Mr. W.A. Wood, Bureau of Public Roads, were present and discussed with the Commission and the Engineer a proposed program for 1956 Forest Highway Funds, and the re-allocation of $625,000 Forest Highway Funds heretofore tentatively approved for grading, paving and bridge construction on the Willamette River-Oak Ridge Section of the Willamette Highway. The State Highway Engineer explained that it now appears that sufficient funds already have been programmed for completion of the Willamette Highway to Oak Ridge so the $625,000 is available for other work. As a result of discussion it was tentatively decided to substitute the following projects for the $625,000 item, with final action to be taken at the regular meeting to be held either in December or in January: Umpqua Highway--$250,000; Starkey-Ukiah Highway--$100,000; Laurel Hill Section of the Mt. Hood Highway--$275,000. A conference among the Commission, representatives of the Bureau of Public Roads and representatives of the U. S. Forest Service will be held at the same meeting to select projects for the total program, amounting to approximately $3,085,000.

The Engineer presented requests from a number of counties for additions to the Federal-aid Secondary County Road System. He explained that in each of these counties, except Curry County, the Federal-aid Secondary routes will have been improved to satisfactory standards upon completion of projects currently programmed or under contemplation for programming and that the additional mileage is necessary to permit use of Federal-aid secondary funds available during the next two-year period. In each instance, he said, the county wishes to program 1956 and 1957 Federal-aid secondary funds for sections involved in the additions to the system. He recommended that additions to the FAS system be approved as follows:

1. Benton and Lane Counties FAS 578: 9.5 miles in Benton County and 2.7 miles in Lane County extending from the Pacific Highway West near Bruce southeasterly to the Pacific Highway East at Lancaster.

2. Crook County FAS 651: 11.3 miles extending from a junction with the Ochoco Highway west of Prineville westerly to a junction with the Ochoco Highway a short distance west of Powell Butte.

3. Crook County FAS 652: 8.8 miles extending from a junction with FAS Secondary Highway 401 immediately north of Prineville and

extending in a northerly direction to a junction with FAS Highway 385 north of Lytle Creek.

4. Crook County FAS 653: 1.9 miles extending from a junction with FAS Highway 385 near the City of Prineville Railway westerly and southerly to a junction with FAS Highway 320 north and west of Prineville.

5. Curry County FAS 597: 4.6 miles extending from a junction with the Oregon Coast Highway a short distance south of Elk River southwesterly to Elk River.

6. Gilliam County FAS 440: Extension of 9 miles from Mikkalo westerly.

7. Jackson County FAS 593: 4.5 miles from the Pacific Highway at Tangent easterly and southerly to the Pacific Highway immediately north of Ashland.

8. Lake County FAS 407: Extension of 6.2 miles southerly along the west side of Goose Lake to a county road junction near the California state line.

9. Linn County FAS 214: Extension of 6.8 miles from Berlin southerly and westerly to a junction with the Santiam Highway near Waterloo.

10. Linn County FAS 595: 6.2 miles from a junction with FAS 216 approximately 4 miles south of Albany southerly and westerly to a county road junction near Oakville.

11. Linn County FAS 596: 7.7 miles from a junction with FAS 570 near Kingston southeasterly to the Albany-Lyons Secondary Highway near Jordan.

12. Marion County FAS 590: 10.5 miles from the North Santiam Secondary Highway near Salem southeasterly via Turner to the North Santiam Secondary Highway at Aumsville.

13. Marion County FAS 591: 3.6 miles extending from the Mt. Angel-Scotts Mills County Market Road approximately 4 miles west of Scotts Mills southwesterly to the Cascade Secondary Highway near Silverton.

14. Marion County FAS 592: 9.5 miles extending from FAS 159 at Keizer north of Salem, westerly northerly and southeasterly to FAS 159 north of Keizer.

15. Morrow County: FAS 598, 8.2 miles; FAS 599, 1.6 miles; FAS 600, 1.2 miles; comprising a road now serving the irrigated farm area immediately south of the Columbia River Highway near Boardman.

October 28, 1954

16. Multnomah County FAS 654: 4 miles, extending from Halsey Street in the eastern suburbs of Portland southerly to Foster Road (FAS 639).

The Commission approved the additions as recommended.

Consideration was given by the Commission to approval of additional 1956 and 1957 Federal-aid Secondary County Road Projects totaling $1,998,000. The Engineer presented a list of the proposed additions and explained that they have all been requested by the counties and are desirable projects; also, that if the projects are approved there still will remain the sum of $3,054,000 of 1955, 1956 and 1957 funds to program later. Upon his favorable recommendation the Commission approved the following County Federal-aid Secondary Projects:

County	FAS Hwy No.	Section and Description	Programmed Amount	FAS Fund
Benton	578	Bruce Junction-Martins Lake, 2.5 miles. Grade and surface.	$ 55,000	'56
Curry	259	Brookings-Morse Ranch, 2 miles. Grade and surface.	$ 35,000	'55 & '56
	597	Elk River Junction-Forest Boundary, 4.6 miles. Grade and surface.	$ 67,000	'57
		Subtotal Curry County	$102,000	
Gilliam	440	Hay Creek-Potter School, 4 miles. Grading	$ 81,000	'55 & '56
Harney	458	East Unit, Van-Drewsey, 6.7 miles. Partial cost- additional funds for 1955 project already approved.	$ 5,000	'56
Jackson	273	Hilton Bridge over Bear Creek. Partial cost-additional funds for 1955 project already approved.	$ 13,000	'56
	287	Quartz Creek Structure.	5,000	'56
	287	McNeil Creek Structure.	12,000	'56
	559	Little Applegate River Bridge	20,000	'56
	559	Star Gulch Structure	10,000	'56
	593	Wagner Creek Structure	5,000	'56

TOTAL			$1,998,000	

October 28, 1954

The Commission approved an increase of $60,000 in the project authorization for construction of the Boones Ferry Road-Willamette River Section of the Portland-Salem Expressway under Contract No. 3648. The Engineer explained that the overrun was caused principally by construction of approaches to the Boeckman Road Overcrossing, $36,000, and a change in the plans for the base surfacing, the original plan being to place pit-run material whereas a great number of large boulders were found when the source was developed necessitating crushing at an additional cost of about $30,000.

The Commission also approved an increase of $50,000 in the project authorization for Contract No. 3807, grading the 92nd Avenue-Fairview Unit of the T. H. Banfield Expressway in Multnomah County. The Engineer explained that the major cause of the overrun was due to unsuitable materials found in excavation areas that were to be used for embankment, which material it was necessary to waste. Other costs were caused by an overrun in gravel base materials, the installation of perforated drain pipe and payment to the Rockwood and Hazelwood Water Districts.

The Engineer requested and the Commission approved an increase of $9,500 in the project authorization for grading and paving the Sylvan Project on the Sunset Highway in Multnomah County, Contract No. 4095. The Engineer explained that the overrun was caused by extra excavation required to obtain satisfactory slopes.

Attention was given to a proposed agreement with the city of Coos Bay concerning an extension of the city's storm drainage outfall sewers beyond the limits of the original highway construction and continuing over and across private property. The Engineer explained that during construction of the Oregon Coast Highway between North Bend and Coos Bay, arrangements were made with the city to construct outfall sewers for storm drainage from the highway to the edge of the Bay at two points--Station 251+80 and Station 255+00. During construction, the sewers were not built but the drainage was carried in open trenches. The Central Dock Company has now requested that the anticipated work be performed because it is developing property in that area. In a conference with city officials, it was found that the city has an outfall storm sewer functioning in an open trench at Station 256+55, and under the terms of the new agreement the State is relieved from piping the highway storm drainage to the Bay at Station 255+00, but in lieu thereof the State is to pipe this drainage southerly along the highway and discharge the same into the city's storm sewer at Station 256+55, which will relieve the State from future maintenance of the outfall sewer to the Bay. He recommended that the agreement be approved. The Commission accepted the recommendation.

The Commission discussed a proposed agreement with the Bureau of Public Roads concerning reestablishment of a power transmission pole line belonging to the Lane County Electric Cooperative on the Duvall Creek-Middle Fork Willamette River Section of the Willamette Highway. The Engineer explained that the poles are on private right of way and that it is necessary to move them to accommodate construction of a Forest Highway

section. It is customary, he said, for the State to pay the moving costs in the first instance, with reimbursement to be made later by the Bureau of Public Roads. He estimated the cost at $1,000 and recommended that the agreement be approved. The recommendation was accepted by the Commission.

A request from Mrs. W. J. Weisser, Portland, for signalization of the intersection of Northeast Sandy Boulevard and Northeast 85th Avenue was discussed. The Engineer advised that the request has been investigated by the Traffic Engineer who found that the conditions prevailing at this point do not meet standard warrant requirements. Accordingly, he recommended that the request be denied. The Commission approved the recommendation.

The Commission also gave attention to a request from George G. Fourier, Manager, Tualatin Valley Buses, Inc., for signalization of the intersection of S. W. Barbur Boulevard (US99W) and S. W. 30th Avenue, in Portland. The Engineer reported that this intersection has been investigated a number of times in the past and that in each instance signalization had been denied. A recent investigation, he said, still reveals no warrant for the signals for which reason he recommended that the request be denied. The Commission accepted the recommendation.

The Engineer requested authority to transfer $12,000 from the amount set up in the 1954 Budget for construction of maintenance headquarters at Detroit, to finance installation and repair of dolphins at the ferry landing in Astoria. He explained that a permit has been granted by the U. S. Army Engineers for construction of two 35-pile dolphins located 30 feet riverward from the pierhead line, and he gave as his feeling that while these dolphins are being constructed, it would also be well to reinforce the intermediate dolphins to prevent damage to the dock owned by the Arrow Tug and Barge Company which lies adjacent and downstream from the ship's berth, all of which will cost about $12,000. The Commission approved the transfer as requested.

A request submitted by Mr. Gene Blackwell, Mayor of the city of Long Creek, for installation of a flashing beacon at the intersection of the Pendleton-John Day Highway and Main Street in Long Creek was considered by the Commission. The Engineer advised that an investigation revealed that the conditions prevailing at the intersection do not warrant signalization and that it is his recommendation that the request be denied. The Commission adopted the recommendation.

The Commission considered a request from the city of Pendleton for cooperation in conducting an arterial highway study in the city of Pendleton. The Engineer stated that the city has offered to pay one-half of the total cost of the survey which is estimated at $7,600. He recommended approval of the request. The recommendation was adopted by the Commission.

The Engineer reported completion of relocation surveys, as follows:

1. Crow-Gillespie Corner Section of the Territorial Secondary Highway in Lane County

2. Reedsport-Dean Creek Section of the Umpqua Highway in Douglas County.

3. Sandy-Forest Boundary Section of the Mt. Hood Highway in Clackamas County.

The Engineer explained details with respect to each survey and recommended approval of the same The Commission approved the surveys by adopting the attached resolutions relative thereto marked EXHIBITS "H-2" to "H-3" inclusive, which resolutions are made a part hereof with like effect as though extended in full herein.

The Engineer reported that the following cities and towns have fulfilled the legal requirements with respect to the expenditure of State Tax Street Funds that accrued to them during the last half of 1953 and the first half of 1954:

From revenues accruing during the second half of 1953

Umatilla

From revenues accrued during the first half of 1954

Banks	Huntington
Boardman	Lonerock
Bonanza	Lostine
Butte Falls	Malin
Clatskanie	Nehalem
Cove	Paisley
Culver	Prairie City
Delake	Prescott
Eagle Point	Talent
Glendale	Waterloo
Hubbard	Wheeler

Yamhill

He stated that the plans for the improvements to be financed with the funds under discussion have been examined and found satisfactory, and he recommended approval of the plans The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein

The Commission considered and by unanimous vote granted requests for extensions of time within which to complete highway contracts as follows, the Commission's action in each instance being in conformity with the Engineer's recommendation, as shown

1. Parker-Schram Company, Contract No. 4230, for paving on the Sand Station-Washington State Line Section of the Columbia River Highway in Umatilla County, requested an extension of time from September 15, 1954 to September 30, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

2. Rogers Construction Company, Contract No. 4096, for rock production on the Umatilla-Stanfield, Hermiston, Stanfield-Pendleton, and Lexington-Echo Highways in Umatilla County, requested an extension of time from August 31, 1954 to November 30, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

3. General Construction Company, Contract No. 3696 for construction of the Hood River Bridge on the Columbia River Highway in Hood River County, requested an additional extension of time from December 15, 1953 to November 30, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

4. M. C. Lininger and Sons, Contract No. 4166, for slide correction and rock production on the Siskiyou Section of the Pacific Highway in Jackson County, requested an extension of time from September 15, 1954 to October 15, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

5. Erick Enquist, Contract No. 3934, for construction of the Winchester Road Undercrossing on the Pacific Highway in Douglas County, requested an extension of time from February 28, 1954 to October 15, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

6. LeRoy C. Weideman, Contract No. 3940, for construction of camp facilities in Harris Beach State Park in Curry County, requested a third extension of time from May 15, 1954 to July 3, 1954 within which to complete this work. The Engineer recommended that the additional extension of time as requested be granted without penalty.

7. Trowbridge & Flynn Electric Company, Contract No. 4167, for installation of traffic signals on the Pacific Highway in Ashland, Jackson County, requested an extension of time from August 31, 1954 to September 20, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

8. Brookings Red-E-Mix Concrete Company, Contract No. 4107, for rock production on the Lone Ranch Creek-California State Line Sec-

tion of the Oregon Coast Highway, Curry County, requested an additional extension of time from August 31, 1954 to November 1, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

9. Rogers Construction Company, Contract No. 4094, for the Lexington Rock Production Project on the Heppner and Lexington-Echo Highways in Morrow and Gilliam Counties, requested an extension of time from August 31, 1954 to November 30, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

10. Coast Blacktop Paving Company, Contract No. 4196, for grading and paving the Condon Highway and City Street Project in Gilliam County, requested an extension of time from August 31, 1954 to September 20, 1954, within which to complete this work. The Engineer recommended that the extension of time be granted without penalty up to and including September 17, 1954, being the date on which the job was actually completed.

11. C. E. Leseberg, Contract No. 4170, for rock production on the Buchanan-Vale Section of the Central Oregon and Vale-West Highways in Malheur County, requested an extension of time from September 30, 1954 to December 1, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

12. J. C. Compton Company, Contract No. 4149, for paving the Burns (Foley Drive) City Street in Harney County, requested an extension of time from September 30, 1954 to October 30, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

13. Tom Lillebo, Contract No. 3923, for construction of Lone Rock Bridge over the North Umpqua River on the North Umpqua Highway in Douglas County, requested an extension of time from June 30, 1954 to June 30, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

14. C. J. Eldon, Contract No. 4071, for construction of the North Santiam Highway Overcrossing and the Mill Creek Bridge on the North Santiam Highway in Marion County, requested an extension of time from September 30, 1954 to October 30, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

15. George E. Berry, Contract No. 4054, for construction of the Moro Undercrossing on the Sherman Highway in Sherman County, re-

quested an extension of time from July 31, 1954 to August 31, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

16. Parker-Schram Company, Contract No. 4184, for grading and paving the St. Helens-McNulty Creek Section of a county road in Columbia County, requested an extension of time from August 31, 1954 to July 31, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

17. F. O. Laws, Contract No. 4201, for slope grading on the Modoc Point-Barklay Springs Section of The Dalles-California Highway in Klamath County, requested an extension of time from July 31, 1954 to November 30, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

18. K. F. Jacobsen & Company, Inc., Contract No. 4192, for grading and paving the Ochoco Avenue & O. L. C. C. Frontage Road on the Pacific Highway East, in Clackamas County, requested an extension of time from September 30, 1954 to October 31, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

19. White Brothers, Contract No. 3749, for grading and paving the Oakland Junction-Deady Section of the Pacific Highway in Douglas County, requested an extension of time from July 31, 1954 to August 31, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

20. J. C. Compton Company, Contract No. 4148, for grading and paving and construction of a bridge on the Sage Hen Hill-Hines Section of the Central Oregon Highway in Harney County, requested an extension of time from September 30, 1954 to July 30, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

21. George L. Rochat & Son, Contract No. 4251, for construction of an illumination project on the Salem By-Pass Section of the Pacific Highway East in Marion County, requested an extension of time from October 31, 1954 to January 31, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

22. George L. Rochat & Son, Contract No. 4237, for illumination installation on the Barbur Boulevard-White School Section of the Portland-Salem Expressway in Clackamas, Marion, Multnomah and Wash-

ington Counties, requested an extension of time from October 31, 1954 to November 30, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

23. Tom Lillebo, Contract No. 3892, for construction of the Wilbur Overcrossing on the Pacific Highway in Douglas County, requested an additional extension of time from December 30, 1953 to August 24, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

24. Young & Smith Construction Company, Contract No. 4066, for reconstruction of the Halsey Street Undercrossing on the T. H. Banfield Expressway in Multnomah County, requested an extension of time from September 30, 1954 to December 1, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

25. Acme Construction Company, Contract No. 4178, for paving the Kirk Road-Spring Creek Hill Section of The Dalles-California Highway in Klamath County, requested an extension of time from September 30, 1954 to July 31, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

26. Coos Bay Dredging Company, Inc., Contract No. 3931, for grading and paving South Unit, Elbow Lake-Gardiner Section of the Oregon Coast Highway in Douglas County, requested an extension of time from August 31, 1954 to August 31, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

27. The Colorado Fuel and Iron Corporation, Contract No. 4206, for the Oakland Junction-Boomer Hill Road Fencing Project on the Pacific Highway in Douglas County, requested an extension of time from October 31, 1954 to December 31, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

28. J. R. Taggart, Contract No. 4025, for grading and paving the Orr Corner-Monmouth Section of the Pacific Highway West in Polk County, requested an extension of time from September 30, 1954 to June 30, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

29. Rogers Construction Company, Contract No. 4232, for oil mat

mat surfacing on the Jordan-Keck Canyon Road Section of the Rhea Creek County Road in Morrow County, requested an extension of time from September 15, 1954 to June 30, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

30. Porter W. Yett, Contract No. 4213, for paving Main Street in the town of Drain, Douglas County, requested an extension of time from September 30, 1954 to October 7, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

31. Parker-Johnson Company, Contract No. 3879, for construction of a bridge on the 122nd Avenue-Arata Road section of the T. H. Banfield Expressway in Multnomah County, requested an extension of time from July 31, 1954 to October 29, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

32. Berke Brothers, Contract No. 3997, for grading and paving the North Corvallis Section of the Pacific Highway West in Benton County, requested an extension of time from August 31, 1954 to September 23, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

33. J. M. Arenz, Contract No. 3985, for grading and paving the Fields Creek-Mt. Vernon Unit, Dayville-Mt. Vernon Section of the John Day Highway in Grant County, requested an extension of time from July 31, 1954 to September 16, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

34. J. M. Arenz, Contract No. 3986, for grading and paving the Mt. Vernon-John Day Section of the John Day Highway in Grant County requested an extension of time from July 31, 1954 to September 16, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

35. Coast Construction & Excavating Company and Jeske Brothers Construction Company, Contract No. 4180, for grading and surfacing the Paris Section of the Alsea-Deadwood Secondary Highway in Lane County, requested an extension of time from October 31, 1954 to November 30, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

(For further details regarding the extensions of time listed above, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.) *

---

*FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above was based upon the recommendation of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contract Nos. 3301, 3696, 3793, 3856, 3892, 3934, 3940, 3985, 3986, 3997, 4054, 4078, 4081, 4098, 4111, 4115, 4122, 4129, 4131, 4145, 4150, 4159, 4163, 4196, 4210, 4213, 4220, 4226, 4230, 4257 and 4258 for construction of state highway projects have been completed according to requirements of the contracts or modifications thereof and that said projects are now ready for acceptance. The Commission, after due consideration, accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In construction of the Multnomah County Line-Beaverton Section of the Beaverton-Hillsdale Highway, the Engineer reported, it will be necessary to reestablish the water facilities of the West Slope Water District. To actually move the existing water line, he said, is not feasible because the water would have to be shut off for a long period, so it will be necessary to build a new line which is estimated to cost $53,100 including all new pipe. He further stated th t the Water District will assume all costs of the new line over and above $27,000 which is the estimated cost to move the existing line. He recommended that the District be paid $27,000 if it will agree to pay all costs in excess of such sum, and will perform the work. The recommendation was approved by the Commission.

The Engineer called attention to a betterment project heretofore approved by the Commission to relieve congestion at the west end of the Sellwood Bridge in Portland where the bridge approach intersects the Oswego Highway. He recalled that the Commission previously authorized an expenditure of $5,200 for the purpose on the condition that the city of Portland would contribute a like sum, however, a final check of the plans reveals that a reasonable cost estimate of the proposed work is $15,000, an increase of $4,600. He recommended, in view of the circumstances, that the State's share of the cost be increased from $5,200 to $7,500 maximum. The Commission accepted the recommendation.

The Engineer also brought up for discussion a billing presented by the Bonneville Power Company for damage to its transmission pole line on the Judkins Point-Goshen Section of the Pacific Highway. In January of

1953, he stated, a slide occurred on this highway section which endangered the Bonneville Power lines, in fact, one of the power poles actually started to fall over. The Bonneville Power Company, he stated, had an emergency crew relocate about 1,500 feet of power line at a cost of $10,058.87, and has asked the State for reimbursement in such amount. He gave as his opinion that the State is liable and he recommended that the Commission authorize payment of the bill subject to audit of the Power Company's books by the accounting division. The recommendation was approved by the Commission.

The designation of a one-way traffic system and the installation and adjustment of traffic signals on the route of the Albany-Corvallis Highway in the city of Albany was discussed. The Engineer explained that the city desires to proceed with a portion of the plan recommended in his "Traffic Survey Report, City of Albany" insofar as it pertains to the establishment of one-way streets. That portion of the plan which affects the State Highway Commission, he said, has to do with the routing of the Albany-Corvallis Highway which presently is routed on Elsworth Street between 9th Avenue and the Willamette River. It is now proposed to establish one-way southbound traffic on Elsworth Street between First Avenue and 9th Avenue and one-way northbound traffic on Lyon Street between 9th Avenue and First Avenue, and the city has passed the necessary ordinances establishing Second Avenue as a one-way eastbound city street between Calapooya Street and Main Street, and First Avenue as a one-way westbound street between Main Street and Calapooya Street. He pointed out that the plan provides for installation of traffic signals at the intersections of First Avenue and Second Avenue with Lyon Street, and at the intersection of Second Avenue and Elsworth Street, and adjustment of the existing signals at First Avenue and Elsworth Street. He estimated the cost involved at $12,000, and advised that the expense would be divided equally between the city and the State. The cost of signing the one-way couplet and other adjustments, estimated to cost $1,000, he added, would be borne by the Highway Department. He recommended approval of the project, details of which are to be covered by agreement with the city. The Commission approved the recommendation.

The Commission discussed with the Engineer and the Chief Counsel a letter received from the Washington Toll Bridge Authority regarding payment of fees of bond attorneys in connection with the issuance of bonds to finance the proposed Vancouver-Portland Toll Bridge. The Engineer recommended payment of the fees as outlined in the Toll Bridge Authority letter, and as provided for in the cooperative agreement covering the construction of this bridge. The Commission approved the payment of fees as recommended.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4:00 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's decisions being by unanimous vote:

"Greggs Creek-Wedderburn Fencing Project on the Oregon Coast Highway

northerly from Gold Beach in Curry County: The Commission awarded the contract to the low bidder, Wold Brothers, Bandon, at their bid price of $27,426.

"Grading and oiling on the West Unit, Reedsport-Dean Creek Section of the Umpqua Highway easterly from Reedsport in Douglas County: The Commission elects to accept the bid of Coos Bay Dredging Company, Coos Bay, in the sum of $290,929, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of Winchester Maintenance Building in Douglas County: The Commission awarded the contract to the low bidder, Morris R. Holst, Oakridge, at his bid price of $15,587.68.

"Grading and paving on the Wasco County Line-Warm Springs Agency Section of the Warm Springs Highway about [illegible] miles northwest of Madras in Jefferson County: The Commission awarded the contract to the low bidder, Rogers Construction, Inc., Portland, at their bid price of $268,466.

"Honeyman Park Camp Expansion south of Florence in Lane County: The Commission awarded the contract to the low bidder, Den Herder & Strobel, Medford, at their bid price of $16,972.

"Grading, paving, and construction of two bridges on the Siletz Bay-Depoe Bay Unit, Siletz Bay-Miner Creek Section of the Oregon Coast Highway in Lincoln County: The Commission elects to accept the bid of J. C. Compton Company, McMinnville, in the sum of $624,787.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of four structures on Gervais-Hayesville Unit, Group II, on the Portland-Salem Expressway in Marion County: The Commission awarded the contract to the low bidder, Hamilton & Thoms, Eugene, at their bid price of $178,280.

"Paving, and furnishing crushed material in stockpile on the Emigrant Hill Section of the Old Oregon Trail east of Pendleton in Umatilla County: The Commission awarded the contract to the low bidder, Rogers Construction Company, Portland, at their bid price of $432,215.

"Big Eddy-Dillon Guard Rail Project on the Columbia River Highway about five miles east of The Dalles in Wasco County: The Commission awarded the contract to the low bidder, Hutton-Kalkhoven, Portland, at their bid price of $37,440.

"Big Eddy-Rufus Fencing Project on the Columbia River Highway in Wasco and Sherman Counties: The Commission awarded the contract to the low bidder, Albert C. Bubak, Woodburn, at his bid price of $10,487.64.

"Grading, paving, and furnishing crushed material in stockpile on the Glenwood- North Plains Section of the Wilson River Highway in Washington County: The Commission awarded the contract to the low bidder, Rogers Construction, Portland, at their bid price of $505,292.

"Grading, paving, and construction of one concrete bridge on the Tualatin River-Middleton Unit, Tigard-Newberg Section of the Pacific Highway West in Washington County: The Commission elects to accept the bid of Rogers Construction, Inc., Portland, in the sum of $501,931.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received."

Consideration was given to a request submitted by A. A. Garrett, Albany, concerning hazards on the Pacific Highway East near the East Albany Junction caused by large trucks parking on the shoulders of the highway; also to a verbal request from the City Manager of Albany for extension of the existing 45-mile per hour speed zone on US99E from its present terminus north of the Cox Creek Bridge to a point north of the East Albany Junction. The Engineer advised that an investigation was made of the conditions at this point and the facts disclosed there is justification for the requests. He recommended that the existing 45-mile per hour speed zone on the Pacific Highway East between M.P. 73.94 and M.P. 74.16 be rescinded and that a 45-mile per hour speed zone be established from M.P. 73.39 north of the Albany Airport Highway junction to M.P. 74.16 (north city limits of Albany). The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also recommended that shoulder parking be prohibited on both sides of the Pacific Highway East between a point 250 feet north of the Albany Airport Highway at M.P. 73.39, and a point 300 feet south of the road to East Albany at M.P. 73.55, and that "No Parking on Highway Shoulders" signs be installed. The Commission approved his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "F ", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered a request from the Umpqua Valley Grange, Scottsburg, for a reduced speed zone on the Umpqua Highway through the community of Scottsburg. A careful investigation was made in this case, the Engineer reported, and the facts assembled disclosed that such speed zone should be established. He recommended that a 35-mile per hour speed zone be designated on the Umpqua Highway from a point 0.2 mile east of the east end of the Umpqua Bridge, M.P. 16.60, to a point 0.53 mile east of the east end of the Umpqua Bridge, M.P. 16.93, except that between M.P. 16.72 and M.P. 16.84, the indicated speed shall be 20-miles per

hour during the hours of school crossings. The Commission approved the Engineer's recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "G-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that as a part of the overall speed zone investigation on the Pacific Highway an investigation was conducted in the community of Goshen. The investigation disclosed, he said, that in the northerly portion of Goshen there is a semi-business district 0.23 mile in length where the 1953 average daily traffic volume was 7,100 vehicles, and in the southerly portion 0.24 mile in length the culture consists of one motel, six houses and one service station. The 1953 average daily traffic volume here was 7,154 vehicles. The investigation also disclosed a relatively high accident rate. For reasons stated and for other facts disclosed by the investigation, he recommended that a 30-mile per hour speed zone be established from a point 0.12 mile north of the old Willamette Highway (M.P. 129.81) to a point 0.11 mile south of the old Willamette Highway (M.P. 130.51), and that a 45-mile per hour speed zone be established from M.P. 130.51 to a point 500 feet south of "C" Street (M.P. 130.75). The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A petition was considered from Floyd Hester, et al., Goble, requesting that a speed zone be established on the Columbia River Highway through the community of Goble. An investigation was made, the Engineer reported, which disclosed facts that a speed zone is warranted. He recommended that a 40-mile per hour speed zone be established between a point 0.18 mile south of Nicolai Road (M.P. 40.77) and a point 200 feet north of Nicolai Road (M.P. 40.99). The recommendation was approved by the Commission by adoption of the attached resolution relative thereto marked EXHIBIT "G-4", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported receipt of a request from Mrs. O. W. Olson, Albany, for a reduced speed zone on the Albany-Corvallis Highway between Albany and Scenic Drive, and for a sign installation cautioning the traveling public to look out for school children. A careful traffic engineering investigation was conducted, he stated, and in view of the reasonable prevailing speeds, the lack of dense roadway culture and the favorable accident record there appears to be no warrant for the speed zone at this time. He recommended that the request for a speed zone be denied. In lieu of speed zoning, he said that measures are being taken to change the signing and to do a certain amount of tree trimming to open up sight distance on the reverse curve at the westerly end of the section investigated. The recommendation was approved by the Commission.

Attention was given to a request submitted by Mrs. Averyl W. Jackson, Clerk of Siuslaw School District 97J, Florence, Oregon, for a reduced speed zone or other corrective treatment on the Oregon Coast

Highway in the vicinity of Glenada south of Florence. This request, the Engineer stated, was investigated and it was found that there now exists a 25-mile per hour speed zone in the northerly portion of the section investigated, and south of this section there is a 45-mile per hour speed zone; however, between the two existing speed zones there is an unzoned section 0.53 mile long. From the facts disclosed by the investigation, he said, a 45-mile per hour speed zone is warranted along this intervening section, particularly between a point 0.10 mile south of the Siuslaw River Bridge (M.P. 204.52) and M.P. 205.05. As a further safeguard to traffic he said that arrangements are being made to have the brush cleared at certain intersections to improve sight distance along the highway. The Commission approved the Engineer's recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G-5", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission gave consideration to a claim in amount $150 submitted by Mr. Arne Petersen of Cathlamet, Washington, to cover the cost of repainting his 1953 Oldsmobile coupe which was damaged by a highway maintenance crew. The Engineer explained that on August 9 one of the electrical maintenance crews was engaged in removing some temporary traffic lights and signals at Rowena. A flagman, after stopping Mr. Petersen, signaled him to proceed, which Mr. Petersen did; however, upon reaching the level of the old highway he suddenly stopped. The electrician who had not expected Mr. Petersen to stop, cut a wire which fell on Mr. Petersen's coupe and severely damaged the paint on the top, body and fenders of one side. He further stated that the amount of $150 appears excessive and that as a result of negotiation Mr. Petersen has agreed to accept full settlement in the amount of $100. He recommended that Mr. Petersen be paid this amount. The Commission approved the recommendation.

The Engineer brought up the matter of designating the Umpqua Highway a "Throughway". He explained that although the Umpqua Highway is not being constructed as a fully access controlled facility, an attempt is being made to control access insofar as it is economically feasible to do so. In this respect difficulties will be encountered in the closing of streets not now existent in Reedsport as well as possible subdivisions elsewhere. It was his thought that this matter could be simplified if the highway were designated a "Throughway", and he so recommended. He also recommended that if the Commission approves such designation that the Commission also approve a form of agreement to be executed by the State, Douglas County and the City of Reedsport concerning closure of certain streets on the section at Reedsport on which bids were received at this meeting. The Commission approved both recommendations and thereupon adopted the attached resolution designating the Umpqua Highway a "Throughway", marked EXHIBIT "I-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission accepted the Secretary's report on papers signed by him in behalf of the Commission during the period of September 21 to October 25, 1954.

The Commission discussed and approved with a few changes a draft of its Biennial Report to Governor Paul L. Patterson covering highway activities during the fiscal years 1953-54.

The Engineer reported that the new section of the Pacific Highway in Douglas County, known as the Canyonville Section, has been completed and opened to traffic and that the old highway section is no further of value for highway purposes. He, therefore, recommended that the old section be abandoned to Douglas County and to the city of Canyonville as stipulated by the terms of an agreement dated April 30, 1954. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "E-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed with the Engineer problems to be presented by delegations on the following day but took no action on them at this time.

The Engineer requested that Mr. George C. Hester, Jr. be authorized to attend a meeting of State Administrative Officials in Los Angeles November 20, 1954. He explained that the meeting has been called by the Western Inter-State Committee on Policy Problems for the purpose of drafting legislation on reciprocity to be sponsored by the eleven Western States. The cost of attending the meeting he estimated at $120. The Commission approved the request.

The Engineer reported on smoke and dust damage caused residences in Simpson Heights, North Bend, by operations of a state paving plant which was set up on a stockpile site in the south end of Simpson State Park. Claims, he stated, have been submitted as follows: Dr. Melvin E. Johnson, $500; Mr. John Miller, $500--later reduced to $400; Mr. Ron Rowan-$370. Concerning the claim of Dr. Johnson, the Engineer stated that State forces have repainted a portion of the house exterior, the interior of the kitchen, utility room, and bedrooms at a total cost of $602.62. In addition to this, the Johnsons had certain painting and cleaning operations performed for which they had paid $527.02. He recommended that Dr Johnson be paid $500 in settlement of his claim. Concerning the claim of John Miller, the Engineer stated that his claim for cleaning the exterior and interior of the house had been presented in the amount of $500, including $50 damage to lawn, flowers, shrubs, and hedges. This claim, he said, was not supported by receipts, and the damage as nearly as can be estimated was not nearly as much as the damage to Dr. Johnson's house. Mr. Miller, he added, has agreed to accept the sum of $400 as settlement in full. He recommended that he be paid such amount. Concerning the claim of Mr. Ron Rowan in amount $491.75, the Engineer stated that it is principally a claim for repainting, and that an inspection of the Rowan residence failed to disclose that it was damaged as much as Mr Rowan alleges. He recommended that Mr. Rowan be paid the sum of $172.60 as settlement in full for his loss. The Commission approved the Engineer's recommendations for payment of the Johnson and Miller claims, and ordered further negotiations with Mr. Rowan.

A request from Robert Larson, a contractor for the U. S. Army Engineers, to use rock from the State's quarry situate in Lot 4, Sec. 32, T. 3 N. 11 E., Hood River County, near Koberg Beach was presented by the Engineer who explained that the contractor has offered to pay $0.35 a cubic yard for rock that is already blasted, and $0.05 per cubic yard for solid rock in place. The Engineer recommended approval of the request on the basis of the amounts offered. The Commission approved the recommendation.

The Engineer brought up for discussion the matter of acquiring Patterson Bar near the "Q" Street route between Eugene and Springfield. The material in this bar, he stated, can be used to very good advantage in future highway construction in this vicinity and he suggested that it be acquired if the owner will sell at a reasonable figure. He mentioned that the Lane County Court has indicated that it will contribute $50,000 toward the purchase price in order to forestall sale of the property to the Eugene Sand & Gravel Company which also wants it, and according to reliable sources, has offered $105,000 for it on a deferred payment basis. He recommended that the right of way department be authorized to negotiate an option to purchase the property. The Commission adopted the recommendation and so ordered.

The Commission discussed with the Engineer details of the proposed Work Budget for the calendar year 1955. The Engineer explained items as requested by the Commission. He recommended that the total budget in the amount of $67,764,000 be accepted. As a result of discussion, Commissioner McIver moved that the budget be adopted as presented by the Engineer. Commissioner Reynolds seconded the motion and it was declared by Chairman Chandler to have received the unanimous vote of the Commission.

(For details concerning the budget see the complete budget filed in the Secretary's office.)

The colors to be used in painting center line stripes on highway pavements was discussed. The Engineer reported that the American Association of State Highway Officials has adopted as standard a dashed white line for the center line stripe with either a yellow or a white solid line to designate "no passing" zones. Experiments, he said, indicate that a white center line is the best under most conditions. He advised that the neighboring states of Washington to the north, and California to the south, use white center lines with yellow for "no passing" sections. In view of the results determined by research and the program of the adjoining states, he recommended that as soon as possible center lines on state highways in Oregon be painted dashed white, and that full white lines be used to indicate "no passing" sections. The Commission adopted the recommendation and so ordered.

The meeting adjourned at 5:00 p.m. to reconvene in the same room at 9:00 a.m. on the following day.

October 28, 1954

Portland, Oregon
October 29, 1954

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel. The following persons were present and participating.

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Robert L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

The Commission discussed a date for its next regular meeting and decided to hold such meeting in the Green Room of the Imperial Hotel, Portland, on December 7 and 8, 1954. The Commission also set January 18 and 19, 1955 as a tentative date for its next following meeting. The Secretary was instructed to arrange for the use of the Green Room for the December meeting, and for the use of the Crystal Room in the Benson Hotel for the January meeting, the Green Room being not available.

At the request of Chairman Chandler, the Engineer reviewed the status of projects on which bids are to be received at the December meeting. The Right of Way Engineer reported that all necessary right of way will be acquired in time for the letting.

Chairman Chandler reported receipt of a letter from Mr. Burt Brown Barker, President of the Herbert Hoover Foundation, requesting that the section of the Pacific Highway West from the southwesterly end of Barbur Boulevard, Portland, to the city of Newberg be named the Herbert Hoover Highway, in honor of Ex President Hoover who spent the formative period of his life in Newberg. The Engineer recommended that the highway be so named. The Commission unanimously approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to a request submitted by Mr. Glenn Stanton, Portland, that the bust of Dr. John McLoughlin which stands on the right of way of the Pacific Highway East overlooking the Willamette Falls in Oregon City, be moved northward a short distance to the parking area where people stop to view the Willamette Falls. Mr. Stanton also

requests that the State purchase, if possible, certain property situate between the highway and the river just below the falls, on which is located an old house that obstructs the view of the falls from the highway. It was his thought that this location might be a better location for the statue of Dr. McLoughlin than the parking area on the hill. The Commission instructed the Engineer to investigate the matter carefully and report his findings.

Commissioner Reynolds inquired as to the status of plans for a grade separation structure on Emigrant Street in the city of Pendleton. The Engineer advised that a study is now being conducted to determine whether the structure should be an underpass or an overpass. The original plan, he recalled, contemplated two-lane construction, but a four-lane structure is now being considered, and it appears that the overpass may be the best solution.

Chairman Chandler inquired concerning construction requested at a previous meeting for a foot bridge over the T. H. Banfield Expressway at 53rd Street. The Engineer stated that the foot bridge at 53rd Street can be built for about $4,000. He pointed out, however, that two others may be requested--one at 74th Street, and the other at 42nd Street, which would cost an additional $8,000. It was his opinion that the one at 74th Street is not needed, but the one at 53rd Street should be built. The Commission confirmed construction of the foot bridge at 53rd Street, but deferred action on the other two.

Chairman Chandler commented on the fact that no penalties were assessed against contractors in connection with 35 extensions of time which were granted at this meeting. The Engineer stated that penalties were not recommended because the delays were not entirely the fault of the contractors. He also pointed out that a very rigid time limit control used in contracting some of the toll highways in other states caused much higher unit prices than are being received in Oregon.

Commissioner Reynolds called attention to the fact that there had been a number of accidents on the Central Oregon Highway between Vale and Burns because of cattle on the right of way. The Engineer stated that fencing is being done on all new construction, but it will take a long time to fence all of the right of way.

The State Parks Superintendent stated that he had talked with the Rotary Club at Gold Beach about acquiring an area north of Gold Beach for park purposes. He informed them, he stated, that the property is owned by the Lloyd Corporation and at his suggestion the Club is going to contact representatives of the Corporation with the prospect of acquiring the area as a gift for park purposes.

Chairman Chandler mentioned a letter from State Treasurer Sig Unander to Governor Patterson stating that the State is in position to issue more highway bonds, if considered advisable. The Engineer commented that this condition is true because of increased property valuation in the

state and retirement of old bonds, but he added, the issuance of the additional highway bonds will require legislative action. In the discussion on this matter, the Engineer pointed out that if the enlarged federal highway program is approved by Congress, the State will need additional highway money to match the Government funds. Commissioner Reynolds suggested that a definite statement should be made in favor of an additional two-cent gas tax and that the Commission should continue its efforts to secure the added gas tax money and legislative authority to issue more bonds as are necessary. The Commission adopted the suggestion.

The Engineer reported that under authority granted by law and pursuant to instructions given him by the Commission, he today awarded to the successful bidders the following contracts which were referred to him by the Commission for award as soon as certain conditions had been satisfied:

1. Grading the Tarheel Section on the Cape Arago Highway in Coos County. Bids received September 24, 1954. Conditions satisfied October 29, 1954. Coos Bay Dredging Company, Inc., Coos Bay, contractor.

2. Grading and paving the Bear Creek Section on the Siuslaw Highway in Lane County. Bids received September 23, 1954. Conditions of award satisfied October 29, 1954. Lebanon and Harrisburg Sand and Gravel Company, Lebanon, contractor.

The Engineer brought up for discussion matters pertaining to construction of a new bridge across the Columbia River at Portland, and the raising of the old bridge to comply with Federal regulations. The Army Engineers, he stated, are now asking for a 77-foot vertical clearance and one 511-foot span whereas the old bridge has two 250-foot spans. The Army Engineers he said have taken the position that they cannot initiate action to raise the height of the existing bridge as requested by navigation interests, and advise that any such action must be initiated by the chief beneficiary of the change. The Commission instructed the Engineer to pass the information along to the navigation interests and advise them that it is their responsibility to initiate the changes that they desire.

A delegation of citizens from the town of Clackamas came before the Commission concerning better traffic regulations at the intersection of 82nd Avenue with Church Street and with Carver Road. County Judge Wallace R. Telford headed the group which included the following: Mrs. Derrell R. Davis, Safety Chairman, P.T.A.; Rev. George McDonough, Pastor, Congregational Church; Mrs. Oscar D. Ramsey, Jr., Post Office; Mrs. Edwin Bell, member of the P.T.A.; Hon. Wallace R. Telford, Clackamas County Judge; and Mrs. Lee Meltzer, Mrs. Jacob Hafner, Mrs. Lewis Hanks and Mrs. John Strahm. Judge Telford introduced the several members and explained briefly what they want. Mrs. Davis pointed out that traffic on 82nd Avenue at times is jammed for fifteen or twenty minutes at a time, and due to conditions there have been three accidents recently, in one of which a 17-year old boy was killed. She pre-

sented a letter from the School Board urging that a traffic light be installed at 82nd Avenue and Carver Road and that a crosswalk be painted on 82nd Avenue at the Church Street intersection to allow operation of a school boy patrol. Under the present traffic conditions, she stated, it is extremely dangerous for school children to cross the highway. Rev. McDonough stated that Sunday School traffic adds to the problems as well as religious classes which are conducted on week days. Mrs. Bell inquired concerning construction of the overpass on Clackamas Secondary Highway. Mrs. Haffner commented that 82nd Avenue in this vicinity is in exactly the same condition as it was when originally constructed, and the curves and other obsolete features in the highway make it very dangerous. She urged installation of a traffic light and a pedestrian crosswalk. Mrs. Meltzer commented that if there had been a traffic signal at Carver Road, her husband and a 17-year old boy would be alive today. Judge Telford emphasized the need for better traffic regulation at the intersection of 82nd Avenue with Carver Road, at Church Street, and at the open air theater entrance. Concerning the proposed railroad overpass on Clackamas Secondary Highway at Clackamas, Judge Telford stated that the County Court has agreed to the closure of the two road crossings as heretofore requested by the Highway Commission, and that Safeway Stores has agreed to withdraw its objection to the closing of one crossing provided the County will construct a short section of road for its use. He urged the Commission to take action to insure early construction of the overpass. Chairman Chandler stated that the Commission on the previous day authorized the matter reopened before the Public Utilities Commissioner. Concerning the requests made at today's meeting, he stated that an investigation will be made to determine the need for signals or other measures to permit traffic to enter 82nd Avenue without congestion and to provide pedestrian safety. The Engineer was thereupon authorized and instructed to make such investigation.

A delegation representing the North Tillamook County Chamber of Commerce appeared before the Commission to urge construction of a cut-off road from the community of Elsie on the Sunset Highway south and west to the town of Mohler. The following people were present: Kenneth J. Dickey, President, Wheeler; Jim Kelley, Secretary, Rockaway; John Dillard, member, Nehalem; August Schollmeyer, Tillamook County Commissioner, Nehalem; Les Schulmerich, Tillamook County Commissioner, Beaver; Ben S. Lane, Mayor of Manzanita; and Hon. Otto Effenberger, Tillamook County Judge, Tillamook. Mr. Jim Kelley, who headed the delegation, emphasized the need of a better outlet for the area north of the city of Tillamook. The proposed route, he stated appears to be feasible and he pointed out that a six-mile section has already been constructed for the purpose of hauling logs. He called attention to the fact that this is the third appearance of a delegation in behalf of this road and he asked the Commission to give him an answer in writing. Judge Effenberger stated that he is not very familiar with this particular project. Commissioner Schollmeyer stated that the proposed road would be of value to the community and asked the Commission to do what it could. Chairman Chandler stated that the project previously has been investigated and it was found that priority of the road is very low; moreover, the priority of the project is unchanged and

there are no funds available to finance it. Commissioner Reynolds commented that he is under the impression that the Commission denied the request for the road when the delegation made its last previous appearance before the Commission. Mr. Kelley requested a statement in writing concerning the Commission's action today. The Secretary was instructed to send him such letter.

The South Tillamook Coast Road Committee came before the Commission to request improvements to the Little Nestucca Secondary Highway in Tillamook County. The following people were present: Mr. and Mrs. Roy Dunn, Cloverdale, and H. B. Hammell, Pacific City, members of the South Tillamook Coast Road Committee, and Hon. Otto Effenberger, Tillamook County Judge, Tillamook. Mr. Dunn, who acted as spokesman, pointed out that on the easterly end of the road there is a two-mile section built in the 1880's which has had no improvement since then. He thanked the Commission for improvements and dust laying operations performed on the westerly end of the road and he urged continuation of the improvements easterly, particularly the widening of some of the worse spots if the Commission cannot see its way clear to undertake a major project. Judge Effenberger called attention to two bridges which were recently constructed by the State. He urged the Commission to improve the road in order to obtain full utilization of the bridges. Chairman Chandler stated that the Commission is familiar with their problem but has been handicapped in improving it due to Bureau of Public Roads regulation's which require a larger expenditure of federal funds on county roads; however, an investigation will be made to determine what remedies may be applied to alleviate some of the worst spots. The Engineer was thereupon instructed to make such investigation.

A delegation representing the U.S. 20 Highway Association, composed of Mel Hammerness, Toledo, President; James M. Howes, Newport, Secretary; Kurt Kiesow, Toledo; Frank Updike, Toledo; and Vance Taylor, Corvallis, directors, came before the Commission to request improvement of the Corvallis-Newport Highway east of Toledo, particularly the section over Pioneer Mountain. Mr. Kiesow was principal spokesman. He declared the section over Pioneer Mountain to be the worst section of highway now in existence on U.S. 20 in Oregon. He expressed hopes that the Highway Commission can see its way clear to improve this section and a $3\frac{1}{2}$ mile section east of the town of Foster, in Linn County, which, he said, is nearly as bad as the other. He urged the Commission to authorize a location survey for realignment of the highway over Pioneer Mountain and to construct that section when money is available to finance it. The Engineer stated that at the present time only a reconnaissance survey has been made on this section. Mr. Hammerness commented that the Federal Government has plans to improve harbor facilities in Newport. The transportation of lumber over Pioneer Mountain, he said will be greatly increased when these improvements are completed so the highway must be modernized to accommodate the increased traffic. It was his feeling that right of way can be obtained at reasonable cost. Chairman Chandler stated that over the past two years an attempt has been made to build up a back log of surveys for improvements to be undertaken when funds are available. He gave as his feeling that the survey over Pioneer Mountain should proceed

so the improvement of this section can go forward without delay at the proper time. This concluded the discussion.

Mr. George A. Herrington, City Engineer, and Mr. Harry N. Graham, Councilman of the city of North Bend, came before the Commission concerning improvements to Virginia Avenue and Broadway Avenue (route of the Cape Arago State Secondary Highway) in North Bend. Mr. Herrington stated that the streets should be widened and curbs and sidewalks constructed in order to provide an adequate road. He mentioned the large volume of traffic that uses the road, much of which, he said, goes to Sunset Beach State Park; also, the many school children that walk along the road in going to and from school, and the near accidents that occur. He inquired how the City can cooperate in the project and gave as his feeling that the citizens should not be required to finance it alone because it will cost more than an ordinary city street improvement. Chairman Chandler expressed appreciation for the City's offer of cooperation. He advised that the Commission does not now have money available for this type of improvement, and he expressed doubts that funds would be available very soon, although the job will be done some day. When the improvement is undertaken, he added, the City will be required to furnish needed right of way and sidewalks, the State's share of the improvement would be limited to construction of the traveled way. He mentioned that a survey is now being conducted to determine the cost of this improvement and advised that when the survey is completed, a report will be made to the Commission and further consideration can be given at that time.

Mr. and Mrs. Walter A. Swanson representing the Walter A. Swanson Lumber Company of Springfield appeared briefly before the Commission with regard to the proposed "Q" Street route between Eugene and Springfield. Mr. Swanson stated that he represents seven mills in the Springfield area and urged the extension of the "Q" Street route from 19th Street to the McKenzie Highway as an outlet for the mills which are now more or less penned in. Chairman Chandler stated that the Commission had asked the Highway Engineer to render a "package" report on the subject to the Commission at the December meeting. He suggested that Mr. Swanson in the meantime contact the Lane County Board of Commissioners who discussed the project with the Commission on the previous day.

The Commission signed agreements and papers as follows:

"Lease" with Bureau of Land Management covering government-owned O & C land at Loon Lake.

"Indentures of Access" for the following properties:

a. Lindberg property on Clatskanie-Delena Section of Columbia River Highway, Columbia County.

b. Newhouse property on Frankport-Euchre Creek Section of Oregon Coast Highway, Curry County.

"Indentures of Access" (cont)

c. Davis property on Seven Oaks-Medford Section of Pacific Highway, Jackson County.

d. Hinsdale property on Reedsport-Luder Creek Section of Umpqua Highway, Douglas County.

e. Woodley property on Jones Ranch-Mitchell Section of Ochoco Highway, Wheeler County.

f. Hinsdale property on Hinsdale Slough-Luder Creek Section of Umpqua Highway, Douglas County.

"Agreement" with Salt Lake Pipe Line Company re consent to cross over their pipe line for purpose of constructing and maintaining Olds Ferry-Ontario Section of Old Oregon Trail Highway.

"Bargain and Sale Deed" deeding to Douglas County a stockpile site on an abandoned section of Elkton-Sutherlin Highway, Douglas County.

"Agreement" re leasing to Swift and Company a triangular parcel of land in Astoria, Clatsop County.

"Bargain and Sale Deed" selling to Ivan J. and Betty C. Fellows 0.04 acre of excess property on Salem-Bypass Section of Pacific Highway, Marion County.

"Agreement" with City of Coos Bay re extension of outfall sewers beyond the limits of the original US 101 reconstruction through Coos Bay.

"Agreement" with Bureau of Public Roads re removal and replacement of Lane County Electric Cooperative power poles necessitated by construction of Duvall Creek-Middle Fork Willamette River Section of Willamette Highway.

"Agreement" with Douglas County and City of Reedsport re designating Umpqua Highway (ORE38) a throughway from Reedsport to a connection with US 99 (New Route) at Anlauf.

"Bargain and Sale Deed" to Marion County re Fisher Road Extension.

"Agreement" with Southern Pacific Company re change of location of the existing wye track of Southern Pacific Company on the revised location of Pacific Highway between Cottage Grove and Divide.

"Agreement" with Jack Flaucher and Myrtle Lee Flaucher re leasing of Vista House, located at Crown Point on Columbia River Highway, as concessionaires, for a one year extension period, beginning April 1, 1954, and ending March 31, 1954.

"Agreement" with Jack Flaucher and Myrtle Lee Flaucher covering the leasing of Vista House as concessionaires, for a one year extension period, beginning April 1, 1955 and ending March 31, 1956.

"Agreement" with Washington County covering the maintenance of Service Roads on the Tualatin River-Middleton Unit of the Tigard-Newberg Section of the Pacific Highway West.

There being no further business to consider at this time the meeting adjourned at 11:30 a.m.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

EXHIBITS "A" through "L"

Minutes of

October 28 and 29, 1954

EXHIBIT "A"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

MULTNOMAH COUNTY LINE-BEAVERTON SECTION-BEAVERTON-HILLSDALE HIGHWAY

22243 Canyon Theatre Drive-in (Grant)
Easement (Construction and operation of highway)
Option expires March 28, 1955

Easement-0.06 acre $ 60.00

Amount to be paid to owner-chrg to Right of Way $ 60.00

THINGS TO BE DONE BY THE STATE

Maintain reasonable access during theatre business hours.
Aluminum fence not to be moved.

Access not controlled-

EXHIBIT "B"

Minutes of October 28 and 29, 1954

R E S O L U T I O N

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land in Eugene, Oregon, lying along and adjacent to the Pacific Highway described as follows:

> A parcel of land lying in the Lot 1, Patterson's Addition of Section 32, Township 17 South, Range 3 West, Willamette Meridian, Lane County, Oregon, and being a portion of the following described property:
>
> Parcel "B" Beginning at a point on the West line of Lot 1, Patterson's Addition to Eugene; said point being South 0° 10' West along the West line of said Lot 1, a distance of 14.07 feet from the Northwest corner of said Lot 1; thence South 0° 10' West along the West line of said Lot 1, a distance of 35.93 feet to the Southwest corner of said Lot 1; thence South 89° 52½' East along the South line of Lot 1, a distance of 100.0 feet to the Southeast corner of said property; thence North 0° 10' East along the East line of said property a distance of 30.71 feet; thence North 86° 53½' West a distance of 100.14 feet to the point of beginning.
>
> The parcel of land to which this description applies contains 3,331 sq. ft, more or less; with complete restriction of access to the Pacific Highway.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 119 be entered in the minutes and records of the Commission as of the 28th day of October, 1954.

EXHIBIT "C"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, pursuant to the provisions of ORS 366.810, there have been by the Oregon State Highway Commission apportioned to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

From Revenues Accruing during the Second Half of 1953:

Umatilla $3,104.69

From Revenues Accruing during the First Half of 1954:

Banks	$1,070.65	Huntington . . .	$2,087.20
Boardman . . .	341.70	Lonerock	108.20
Bonanza	737.50	Lostine	700.48
Butte Falls . .	1,059.26	Malin	1,685.71
Clatskanie . . .	2,565.58	Nehalem	768.82
Cove	802.99	Paisley	609.36
Culver	857.09	Prairie City. . .	2,340.63
Delake	1,833.78	Prescott	338.85
Eagle Point . .	1,728.42	Talent	2,104.29
Glendale . . .	2,480.16	Waterloo	512.55
Hubbard . . .	1,403.81	Wheeler	828.62

Yamhill $1,534.79

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

EXHIBIT "C" (cont)

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 28th day of October, 1954.

EXHIBIT "D"

Minutes of October 28 and 29, 1954

R E S O L U T I O N

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3301, with J. A. Struss for furnishing crushed materials in stockpiles on the Canyon Creek-Soda Mountain Section of the John Day-Burns Highway in Grant County, completed August 15, 1951.

"Contract No. 3696, with General Construction Co. for constructing Hood River Bridge on the Columbia River Highway in Hood River County, completed August 25, 1954.

"Contract No. 3793, with Parker-Schram Co. for grading and paving on the Shogren-Rowena Unit, Mosier-The Dalles Section of the Columbia River Highway in Wasco County, completed November 21, 1953.

"Contract No. 3856, with Vernie Jarl for grading and paving on the Rowena-Chenoweth Creek Unit, Mosier-The Dalles Section of the Columbia River Highway in Wasco County, completed August 9, 1954.

"Contract No. 3892, with Tom Lillebo for constructing Wilbur Overcrossing on the Pacific Highway in Douglas County, completed August 24, 1954.

"Contract No. 3934, with Erick Enquist for Winchester Road Undercrossing on the Pacific Highway in Douglas County, completed September 29, 1954.

'Contract No. 3940, with L. C. Weideman for constructing Harris Beach Park facilities in Curry County, completed July 3, 1954.

'Contract No. 3985, with J. M. Arenz for grading and paving on the Fields Creek Mt. Vernon Unit, Dayville-Mt. Vernon Section of the John Day Highway in Grant County, completed September 16, 1954.

THEREFORE BE IT RESOLVED that the work covered by State Highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 37 shall be entered in the minutes and records of the Commission as of the 28th day of October, 1954.

EXHIBIT "E-1"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, the section of the Oregon Coast Highway, State Primary Highway No. 9, located in Lincoln County and known as the Siletz Bay-Miner Creek Unit of the Siletz Bay-Newport Section of said Oregon Coast Highway, the northerly terminus of which is at Highway Engineer's Station 7+13 and the southerly terminus is at Highway Engineer's Station 676+50, is being relocated and reconstructed; and

WHEREAS, as a consequence of the relocation and reconstruction of said section of highway, portions or units of the old highway are being eliminated from the route of the relocated highway; and

WHEREAS, certain parts of said eliminated portions or units must be maintained as a public way for the service of persons living thereon or for communities served thereby, while other parts of said portions or units need not be maintained as a public way but must be preserved by the State for public purposes; and

WHEREAS, it is the intent and purpose of the Highway Commission to set forth in its official records the action to be taken with respect to all of such eliminated portions or units;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the portions or units of the original route of the Siletz Bay-Newport Section of the Oregon Coast Highway which by reason of the relocation and reconstruction of said highway have been eliminated from the route thereof are described as follows:

Unit "A":

Beginning at a connection with the relocated Oregon Coast Highway approximately opposite Highway Engineer's Station 502+25 of said relocated highway, thence Southerly along the former route of the Oregon Coast Highway to Mile Post 142.65 of said former Oregon Coast Highway.

Unit "B":

Beginning at Mile Post 142.65 of the former Oregon Coast Highway, thence Southerly to Mile Post 143.48 of said former Oregon Coast Highway.

Unit "C":

Beginning at Mile Post 143.48 of the former Oregon Coast Highway, thence Southerly to Mile Post 144.20 of said former Oregon Coast Highway.

EXHIBIT "E-1 (cont)

Unit "D":

Beginning at Mile Post 144.20 of the former Oregon Coast Highway, thence Southerly to Mile Post 144.55 of said former Oregon Coast Highway..

Unit "E":

Beginning at Mile Post 144.55 of the former Oregon Coast Highway, thence Southerly to a connection with the relocated Oregon Coast Highway, approximately opposite Highway Engineer's Station 673 of the said relocated highway.

Attached hereto, marked Exhibit "A", and by this reference made a part hereof is one print on which the above described units are appropriately marked, said Units "A", "C" and "E" being colored in green and said Units "B" and "D" being colored in orange. *

2. That the above described Units "A", "C" and "E" be kept opened and maintained by the State, as public ways for the service of persons living thereon or communities served thereby.

3. That it is the judgment and finding of this Commission that said Units "B" and "D" are and will be needed for public purposes but that the same are not presently needed or required as a highway for the service of persons living thereon or communities served thereby and that therefore the same shall be closed and not maintained as a public way but possession of and title to said Units shall be retained and held by the State.

4. That the Engineer be and he hereby is directed to erect gates or barricades at the Northerly and Southerly ends of said Units "B" and "D" for the purpose of preventing the movement of traffic thereover.

5. That this resolution shall be entered in the records and minutes of this Commission this 28th day of October, 1954, as Abandonment & Retention, Resolution No. 295.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 295, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "E-2"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Pacific Highway in Douglas County known as the Canyonville Section, the northerly terminus of which is at Highway Engineer's Station 469+50 on the relocated highway and the southerly terminus of which is at Highway Engineer's Station 93+50 on the relocated highway; and

WHEREAS, as a consequence of the relocation of said section of highway, a portion or unit of the old right of way has been eliminated from the boundaries of the relocated highway and is no longer needed for state highway purposes; and

WHEREAS, Douglas County, the City of Canyonville, and the Highway Commission entered into an agreement under date of April 30, 1954, relating to the disposition to be made of the eliminated portion or unit; and

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel, the eliminated portion or unit, therein and herein referred to as Unit "B", would be abandoned as part of the said highway, and would be maintained thereafter as a city street under the jurisdiction and control of the said city; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the right of way of said highway affected by reason of said relocaton; and

WHEREAS, the section of the Pacific Highway, State Primary Highway No. 1, located in Douglas County and known as the Canyonville Section, the northerly terminus of which is at Highway Engineer's Station 469+50 on the relocated highway and the southerly terminus of which is at Highway Engineer's Station 93+50 on the relocated highway, has been completed and opened to public travel;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the portion or unit of the old right of way which by reason of the relocation of the said section of highway is no longer within the boundaries of the new right of way and which is identified as Unit "B" is shown colored in blue on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof. The location of Unit "B" is more particularly described as follows: *

EXHIBIT "E-2" (cont)

UNIT "B":

Beginning at State Highway Engineer's Station 46+85 of the former route of the Pacific Highway in the southeast quarter of the southwest quarter (SE¼ SW¼) of Section 27, Township 30 South, Range 5 West, W. M.; thence southerly via the former route of the Pacific Highway to the southerly city boundary of the City of Canyonville in the southwest quarter of the northeast quarter (SW¼ NE¼) of Section 34, Township 30 South, Range 5, West, W. M.

2. That pursuant to the aforesaid agreement, Unit "B" is hereby duly abandoned as part of the Pacific Highway, and all right, title and interest which the State had in the right of way of Unit "B" hereby passes to and vests in Douglas County; provided, however, that the County, pursuant to and under the provisions of ORS 373.270 shall surrender to the City of Canyonville complete jurisdiction and control over said Unit "B", and the same shall thereafter be maintained by the City as a city street.

3. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

4. That this resolution shall be entered in the minutes and records of the Commission as of this 28th day of October, 1954, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Douglas County and to the City of Canyonville.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 290, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, the Pacific Highway East is one of the major state primary highways and is likewise a federal highway, which, throughout its entire length, carries a large volume of traffic; and,

WHEREAS, it appears that in the vicinity of the East Albany junction in Linn County, vehicles are parked on both shoulders of the highway for extended periods of time; and,

WHEREAS, parking of said vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission, a hazard is created not only to through traffic but to pedestrians and to the owners and drivers of said parked vehicles; and,

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders on either side of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations by members of its staff, that the parking of vehicles along either shoulder of the Pacific Highway East between M.P. 73.39 (Engineer's Station 320+50) being a point 250 feet north of the Albany Airport Highway junction, and M.P. 73.55 (Engineer's Station 329+00), a point 300 feet south of the junction with the road leading to East Albany, creates a hazard not only to through traffic but to pedestrians and to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which in the opinion of the Commission should be provided pedestrians and the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall

be printed in plain letters the words, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 121 be entered in the minutes and records of the State Highway Commission as of the 28th day of October, 1954.

EXHIBIT "G-1"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: PACIFIC HIGHWAY EAST

Highway number 1 Route number US 99E

Location of Termini				Established Speed
M.P. 73.39	(250 feet north of Albany Airport Highway)	to M.P.	74.16 (north city limits of Albany)	45 M.P.H.

EXHIBIT "G-1" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 170 be entered in the minutes and records of the Commission as of the 28th day of October, 1954.

EXHIBIT "G-2"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: UMPQUA HIGHWAY

Highway number 45 Route number State Route 38

Location of Termini			Established Speed
M.P. 16.60 (0.20 mile east of the east end of the Umpqua River Bridge)	to	M.P. 16.93 (0.53 mile east of the east end of the Umpqua River Bridge)	35 M.P.H.

EXCEPT THAT BETWEEN

EXHIBIT "G-2" (cont)

M.P. 16.72 (300 feet west of the Scottsburg Post Office) and M.P. 16.84 (300 feet east of the Scottsburg Post Office) the indicated speed shall be 20 MILES PER HOUR during the hours of school crossings in accordance with the provisions of Subsection 1 (a) of ORS 483.104.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 171 be entered in the minutes and records of the Commission as of the 28th day of October, 1954.

EXHIBIT "H-1"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, the Pacific Highway West, a section of which highway located in Yamhill County passes through the city of McMinnville over streets selected and designated by the Highway Commission, is a part of the State Highway system; and

WHEREAS, said highway enters the city of McMinnville from the north and proceeds in a general southerly and southwesterly direction along Baker Street to the south city limits of the city of McMinnville; and

WHEREAS, for the purpose of relieving traffic congestion and to afford the traveling public a more convenient route through the city of McMinnville, the Highway Commission has found it advisable to alter the route of said highway through the city of McMinnville; and

WHEREAS, for such purposes the Highway Commission has heretofore authorized and directed the Highway Engineer to make a complete and final survey of the route and location for a south-bound route through the city of McMinnville in Yamhill County for the Pacific Highway West as part of a one-way couplet for said highway and in connection therewith to prepare maps showing the route and location of said highway through McMinnville to be known as the McMinnville (Adams Street) Section of the Pacific Highway West, and to file said reports and records with the Commission for consideration; and

WHEREAS, the engineer has completed said survey and has submitted same for approval or disapproval of the Commission; and

WHEREAS, the City Officials of the city of McMinnville have been apprised of the survey and have given their approval to the plans of the survey which provides for a one-way couplet in the city of McMinnville and have further advised the Highway Commission of the city of McMinnville's complete support and cooperation in this matter; and

WHEREAS, after due consideration of said survey, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission that:

1. The survey of the south bound route, being the McMinnville (Adams Street) Section of the Pacific Highway West in Yamhill County, beginning at Highway Engineer's Survey Station 86+38.7, being a point on the

EXHIBIT "H-1" (Cont)

center line of the Pacific Highway West approximately five (5) feet south of the north city limits of the city of McMinnville and extending from thence southwesterly across Baker Street and Walnut Way to a point east of the intersection of Adams Street and 14th Street, thence proceeding southerly parallel and easterly of Adams Street to 12th Street, thence crossing 12th Street and continuing in a southerly direction over Adams Street and an extension of Adams Street between the termination and resumption of Adams Street at 5th and 6th Streets, thence continuing southerly over Adams Street to a termination of said street at Handley Street, thence crossing Handley Street continuing southwesterly to intersect Baker Street just southwesterly of the concrete bridge over Cozine Creek at Highway Engineer's Survey Station 148+68.35, and being entirely located within the city of McMinnville, Oregon, which survey, together with the reconnaissance plan and profile of said southbound route dated November 8, 1951, the field notes and other engineering data submitted by the Highway Engineer are all hereby approved and the Highway Engineer is hereby directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. When said highway section is permanently constructed the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. The approval and adoption of said survey shall constitute and be deemed instructions to the Highway Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real property needed for and in connection with the construction, reconstruction and improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of right of way pursuant to the normal and approved method.

4. The route and location of the Pacific Highway West entering the city of McMinnville, as selected and designated by the State, under the authority and direction of ORS 373.010 shall be as follows:

> Southbound traffic shall enter the city of McMinnville at the north city limits of McMinnville at or near Baker Street, thence proceed in a southwesterly direction across Baker Street and Walnut Way to a point east of the intersection of Adams Street and 14th Street, thence proceeding southerly parallel and easterly of Adams Street to 12th Street, thence crossing 12th Street and continuing in a southerly direction over Adams Street and an extension of Adams Street between the termination and resumption of Adams Street at 5th and 6th Streets, thence continuing southerly over Adams Street to a termination of said street at Handley Street, thence crossing Handley Street continuing southwesterly to intersect Baker Street just southwesterly of the concrete bridge over

EXHIBIT "H-1" (Cont)

Cozine Creek, thence southwesterly along Baker Street to the south limits of the city of McMinnville; and

Northbound traffic shall enter the city of McMinnville on Baker Street at the south city limits and proceed in a general northwesterly direction over Baker Street to its intersection with Cowls Street, thence continuing northerly over Baker Street, leaving Baker Street and proceeding northwesterly just before reaching the north city limits of the city of McMinnville.

providing, however, that these above described routes shall not go into effect until the State has constructed and opened to traffic the southbound route, being the McMinnville (Adams Street) Section hereinbefore described in paragraph No. 1 above.

5. When the afore-described southbound route, being the McMinnville (Adams Street) Section of the Pacific Highway West, has been constructed and opened to public travel, the following streets are hereby designated and shall be established as one-way traffic streets:

a. For Southbound Traffic Only:

The surveyed route for the McMinnville (Adams Street) Section of the Pacific Highway West as afore-described extending from the intersection of Baker Street and the Pacific Highway West southwesterly across Walnut Way, thence southerly crossing 12th Street and continuing southerly over Adams Street and the surveyed route between the termination and resumption of Adams Street at 5th and 6th Streets, thence continuing over Adams Street to its termination at Handley Street, thence southwesterly over the afore-described surveyed route to Baker Street just southwesterly of the concrete bridge over Cozine Creek.

b. For Northbound Traffic Only:

Baker Street from its intersection with the afore-described survey for the southbound route of the McMinnville (Adams Street) Section just southwesterly of the concrete bridge over Cozine Creek in a northwesterly and a north direction to its intersection with the afore-described survey for the southbound route of the McMinnville (Adams Street) Section of the Pacific Highway West near the north city limits of the city of McMinnville.

Such one-way traffic shall not be put into effect or routed over the above course until the State has constructed the southbound route, being the McMinnville (Adams Street) Section of the Pacific Highway West in

EXHIBIT "H-1" (Cont)

Yamhill County, and opened the same to public travel.

6. The Municipal authorities of the City of McMinnville shall be requested to pass and adopt by appropriate procedure measures necessary to supplement the action of the Highway Commission so that those portions of the Streets of the city of McMinnville hereinbefore designated as "streets to be established as one-way traffic streets", shall be, when the southbound route has been constructed and opened to public travel, converted into one-way traffic streets.

This Resolution be entered into the minutes and records of the Highway Commission this 28th day of October, 1954, as Survey Resolution, File No. 119.

EXHIBIT "H-2"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Crow-Gillespie Corner Section of the Territorial Secondary Highway in Lane County, and in connection therewith to prepare a map showing the route and location of said highway section and to file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same sould be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively as follows:

1. That the survey of the Crow-Gillespie Corner Section of the Territorial Secondary Highway, beginning at Highway Engineer's Station 1344+54.31 in the community of Crow, and extending in a southerly and easterly direction to Highway Engineer's Station 1771+00 near Gillespie Corner, together with the map, which for identification purposes bears Map File No. 1R-5-610 and the date October, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the 28th day of October, 1954, as Survey Resolution No. 109.

October 28, 1954

EXHIBIT "H-3"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the route and location of the Reedsport-Dean Creek Section of the Umpqua Highway in Douglas County, and of the Sandy-Forest Boundary Section of the Mt. Hood Highway in Clackamas County, and in connection therewith to prepare maps showing the route and location of said highway sections and to file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively as follows:

1. That the survey of the Reedsport-Dean Creek Section of the Umpqua Highway, beginning at Highway Engineer's Station 32+40, approximately 0.75 mile east of a junction with the Oregon Coast Highway and extending in an easterly direction to Highway Engineer's Station 307+00 near Dean Creek together with the map, which for identification purposes bears Map File No. 1R-5-609 and the date of October, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building, Salem, Oregon.

2. That the survey of the Sandy-Forest Boundary Section of the Mt. Hood Highway in Clackamas County, beginning at Highway Engineer's Station 1+69.4 in the town of Sandy and extending in an easterly direction to State Highway Engineer's Station 919+95 (Mt. Hood National Forest Boundary and Zigzag), together with the map, which for identification purposes bears Map File No. 1R-3-1061 and the date October, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

3. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

EXHIBIT "H-3" (Cont)

4. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

5. That heretofore by resolution of this Commission dated November 3, 1948 and October 28, 1954 and known as Throughway Resolution No. 5 and 8 said sections of said highways were designated as throughways within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law", and, for the reasons stated therein, the above-named sections of said highways should be and it is hereby directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law except any portion of said sections which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said sections of highways were designated as throughways.

6. That this resolution be entered in the minutes and records of the Commission as of the 28th day of October, 1954, as Survey Resolution No. 110.

24139

EXHIBIT "I-1"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, the Commission heretofore, by resolution dated November 3, 1948 designated the Pacific Highway West as a "Throughway" within the meaning and scope of ORS 374.005; and

WHEREAS, the Commission heretofore authorized and directed the engineer to make a complete and final survey of the route and location of the Tualatin River-Middleton Section of the Pacific Highway West in Washington County, and in connection therewith, to prepare a map showing the proposed route and location of said section of highway and to file said report and record with the Commission for consideration; and

WHEREAS, the engineer completed the survey of the Tualatin River-Middleton Section of the Pacific Highway West, beginning at a point at Highway Engineer's Survey Station Ln 245+24, which is a point near the southerly bank of the Tualatin River and extending in a southwesterly direction to Highway Engineer's Survey Station Ls 490+69.29, which is a point near Middleton School; and

WHEREAS, the Commission approved and adopted the survey on the 21st day of January, 1953; and

WHEREAS, the Commission desires that the said Tualatin River-Middleton Section of the Pacific Highway West in Washington County be constructed as a Throughway.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Highway Commission that:

1. The construction of the Tualatin River-Middleton Section of the Pacific Highway West in Washington County should be accomplished, and it is hereby directed that construction of the same shall be accomplished, pursuant to and within the meaning and scope of the Oregon Throughway Law, except such portions of this section of highway which had 10 or more commercial businesses abutting thereon catering to the motoring public in any one mile as of the date the Pacific Highway West was designated as a throughway. Such excepted portions of the Tualatin River-Middleton Section of the Pacific Highway West in Washington County which shall not be built as a throughway extend from Highway Engineer's Survey Station Ln 245+24 to Highway Engineer's Survey Station 304+69 and from Highway Engineer's Survey Station Ln 352+00 to Highway Engineer's Survey Station Ls460+00.

2. That this resolution be entered in the minutes and records of the Commission as of the 28th day of October, 1954, as Survey Resolution No. 81-A.

October 28, 1954

EXHIBIT "I-2"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, by the authority granted in ORS 374.015 (1) the Highway Commission is empowered to lay out, locate, relocate, adopt, establish, construct, designate, maintain and supervise the use and operation of new highways which shall be known as "Throughways" as that term is defined in ORS 374.010; and

WHEREAS, ORS 374.015 (2) provides that any relocated section of an existing highway or such portions of existing highways, which at the time the same are designated as throughways have less than ten (10) commercial businesses abutting thereon in any one mile may be designated and constructed as, or converted into, throughways by the Highway Commission; and

WHEREAS, the Highway Commission, by resolution passed on March 17, 1931, adopted the Umpqua State Highway as a primary highway with its route extending from an intersection with the Oregon Coast Highway in the city of Reedsport, thence easterly through Scottsburg and Elkton to a connection with the Pacific Highway in Drain; and the State Legislature in 1953, due to the relocation of the Pacific Highway, has by ORS 366.271 extended the Umpqua Highway to a junction with the Pacific Highway at or near Anlauf; and

WHEREAS, the Highway Commission has directed the Highway Engineer to prepare and file in the offices of the Highway Department in Salem, Oregon a complete analysis and disclosure of which portion of the Umpqua Highway, commencing at its intersection with the Oregon Coast Highway in the city of Reedsport and extending easterly therefrom through Scottsburg, Elkton and Drain to a junction with the Pacific Highway at or near Anlauf in Douglas County, Oregon has less than ten (10) commercial businesses abutting thereon in any one mile catering to the motoring public and which portion has ten (10) or more commercial businesses abutting thereon in any one mile catering to the motoring public; and

WHEREAS, the Highway Engineer pursuant to the direction of the Highway Commission has caused such study and examination to be made and has filed in the offices of the Highway Department in Salem, Oregon a map on which there is shown a complete analysis and which discloses the location of all of the businesses on the Umpqua Highway from the beginning of said highway at its intersection with the Oregon Coast Highway in the city of Reedsport and extending easterly through Scottsburg, Elkton and Drain to a junction with the Pacific Highway at or near Anlauf; and

WHEREAS, the Highway Commission has considered the aforesaid study and investigation and after due deliberation does hereby find and declare that for the purposes of preserving human lives and minimizing

property damage and to facilitate the safe and convenient transportation of persons and property by motor vehicle and to promote the safety and welfare of the public in general that the portion of the Umpqua Highway which has less than ten (10) commercial businesses abutting thereon in any one mile catering to the motoring public shall henceforth be classified, reconstructed, relocated and maintained as a throughway as that term is defined in ORS 374.010.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Highway Commission that:

1. The Umpqua Highway commencing at its intersection with the Oregon Coast Highway in the city of Reedsport and extending thence easterly from Scottsburg, Elkton and Drain to a junction with the Pacific Highway at or near Anlauf and including any portion or units thereof which may hereafter be relocated is hereby selected, designated and established as a Throughway as that term is defined in ORS 374.010 except for the portions thereof which at the time of the adoption of this Resolution have ten (10) or more commercial businesses abutting thereon catering to the motoring public in any one mile which portions of the Umpqua Highway are specifically set forth herein as:

(1) Extending from the intersection of the Umpqua Highway with the Oregon Coast Highway in the city of Reedsport easterly along the Umpqua Highway to the city limits of Reedsport at approximately Highway Engineer's Survey Station 89+00;

(2) Extending from Highway Engineer's Survey Station 1007+00 westerly of Elkton to Highway Engineer's Survey Station 1111+00 easterly of Elkton;

(3) Extending from Highway Engineer's Survey Station 1755+00 westerly of Drain to Highway Engineer's Survey Station 558+00 of the existing Pacific Highway north of Drain which shall also be the route of the Umpqua Highway.

2. Whenever the said Umpqua Highway, or any section or portion thereof, is relocated, reconstructed, or otherwise permanently improved such relocation, reconstruction or improvement shall be accomplished so as to preserve the character of said Umpqua Highway as a Throughway.

3. The maps prepared and filed by the Highway Engineer in the offices of the Commission in Salem, Oregon, disclosing the location of the commercial businesses abutting on the Umpqua Highway, which maps are numberd 205, 206, 207 and 208, bearing date of October 28, 1954 and the signature of W. C. Williams, Deputy State Highway Engineer, hereby are adopted and approved for the purpose for which they were prepared and by this reference made a part of this Resolution.

EXHIBIT "I-2" (Cont)

4. This Resolution be entered in the minutes and records of the Highway Commission as of the 28th day of October, 1954 as Throughways & Rights of Access Resolution, File No. 8.

24143

EXHIBIT "J"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, the Herbert Hoover Foundation has urged that a resolution be adopted by the Highway Commission naming and designating that section of the Pacific Highway West, extending from the southwestern end of Barbur Boulevard in Portland, Oregon, to the city of Newberg, Oregon, as the Herbert Hoover Section of the Pacific Highway West; and

WHEREAS, it is the opinion of the Highway Commission that the traveling public should be made cognizant that Herbert Hoover, the 31st President of the United States of America, whose term of office extended from 1929 to 1933, spent the memorable and character building adolescent years of his life from a boy of ten years of age to a young man of seventeen in Newberg and Salem, Oregon; and

WHEREAS, it is the opinion of the Highway Commission that this episode of Oregon history can most suitably be brought to the attention of the traveling public by naming the afore-described section of the Pacific Highway West, where our former President, Herbert Hoover, spent the greater part of his boyhood in Oregon, the Herbert Hoover Section of the Pacific Highway West.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission that:

1. The section of the Pacific Highway West extending from the southwestern end of Barbur Boulevard in Portland, Oregon, to the City of Newberg, Oregon, is hereby designated and shall hereafter be known as the Herbert Hoover Section of the Pacific Highway West, to commemorate Herbert Hoover's residence in the Newberg, Oregon area during the greater part of the character formative period of his adolescence and in honor of his ceaseless endeavors in behalf of the American people.

2. This resolution be entered in the minutes and records of the Commission as of the 28th day of October, 1954, as Miscellaneous Resolution No. 128, and a true copy thereof filed with the Secretary of State.

October 28, 1954

EXHIBIT "K"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, rights of access to, from and between state highways and the abutting real property has been controlled, restricted or prohibited entirely by provision in the instrument of conveyance from the private owner to the State of Oregon or in judgments in condemnation proceedings against such owner; and

WHEREAS, in the past, limited rights of access reserved to the abutting owner have been subject to automatic forfeiture for all purposes in the event of any violation of the reserved right which results in the landowner losing all legal right to the access forever with no right to a return of the right of access for the previous authorized use, should the forfeiture be declared, even though the owner desist in subsequent violations; and

WHEREAS, it is reported that the legal consequence of such forfeiture provision has resulted, or will result, in increased compensation for the acquisition of rights of access; and

WHEREAS, it is deemed advisable to modify the language used in instruments of conveyance and judgments in condemnation by eliminating the present provision which effects a perpetual forfeiture of the right of access in the event of violation, and to substitute a provision that will effect a mere suspension of the use of the access for all purposes until such time as the offending use has been eliminated.

NOW, THEREFORE, BE IT RESOLVED by this Commission as follows:

1. That the following, or substantially similar, language be contained in all future options, deeds and condemnation proceedings:

> If, after written notice to desist, the Grantors, or any person holding under them, shall use any of said rights of access, including crossings, for any purpose not stated for that particular place, or shall permit or suffer any person to do so, such right of access shall automatically be suspended. The Grantee shall thereupon have the right to close such place of access for all purposes. The suspension shall terminate when satisfactory assurance has been furnished the Grantee that the place of access will be used only for the purpose hereinabove stated; provided, however, that the Grantee may first require a bond with sureties satisfactory to the Grantee in an amount not in excess of $1,000.00, conditioned upon faithful compliance with the above provisions concerning the use of access at said place. The Grantee's rights to close such place of access and require a bond shall be continuing as to each succeeding use for a purpose not herein stated.

2. That the Chief Counsel is authorized to make amendments in pending condemnation cases so as to substitute the above language for the access termination provisions now set forth in the complaints in such cases.

3. That this resolution be entered in full in the minutes and records of this Commission this 28th day of October, 1954, as Throughways and Rights of Access Resolution No. 11.

EXHIBIT "L-1"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting road; frontage roads; highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Tualatin River-Middleton Section of the Pacific Highway West; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Tualatin River-Middleton Section of the Pacific Highway West, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Tualatin River-Middleton Section of the Pacific Highway West and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A". *

3. That the widening, improvement and maintenance of the said Tualatin River-Middleton Section of the Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of October, 1954, as Condemnation Resolution No. 533.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 533, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-2"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Reedsport-Dean Creek Section of the Umpqua Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the Reedsport-Dean Creek Section of the Umpqua Highway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the widening, improvement and maintenance of the said Reedsport-Dean Creek Section of the Umpqua Highway and the highway

facilities for which the said parcel of real property, or interest therein, is required and being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 28th day of October, 1954, as Condemnation Resolution No. 549.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 549, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-3"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, the State Highway Commission on the 23rd day of June, 1954, by resolution declared the necessity for the acquisition of certain real property owned by Paul H. Connet, et al., bearing file number R-21893, and situated in Lots 3 and 4 of Section 1, Township 36 South, Range 15 West, Willamette Meridian, Curry County, Oregon, for right of way purposes, for the relocation, construction, improvement and maintenance of the Euchre Creek-Wedderburn Section of the Oregon Coast Highway, including its use for the relocation, construction, improvement and maintenance of a Curry County road, known as the Wedderburn-Giesel Monument County Road; and

WHEREAS, the said resolution declared the necessity for the acquisition or extinguishment of all rights of access to the right of way of the said relocated Euchre Creek-Wedderburn Section of the relocated Oregon Coast Highway and all of the contiguous real property of the owners, except for two rights of access to the said relocated Oregon Coast Highway for the production and transportation to market of farm products, and for the development, harvesting and transportation to market of forest products from the owners' remaining land, and for private residential purposes only, together with rights of access to the said relocated Curry County road, known as the Wedderburn-Giesel Monument County Road, where the same is to be relocated within the right of way of the said section of the said Oregon Coast Highway, and the reserving to the State of Oregon the right, at its option, to construct a frontage road; and

WHEREAS, the said State Highway Commission, after further investigation, has found that it will be to the best interests of the State and the owners to change the location of one of the above-mentioned rights of access to the said relocated Oregon Coast Highway, and in addition to allow the owners an additional right of access to the said relocated Oregon Coast Highway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That pages numbers 7 and 8 of Exhibit "A", wherein said pages refer to the access rights of the said owners of that certain resolution duly made and entered in full in the minutes and records of the Commission on the 23rd day of June, 1954, pertaining to the property owned by Paul H. Connet, et al., file number R-21893, be and the same hereby are amended to read as follows:

> It is necessary that there shall be no rights of access of any nature between the right of way of the said

relocated Oregon Coast Highway and all of the contiguous real property of the owners which abuts thereon remaining after the appropriation of the above described real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the relocated Oregon Coast Highway not to exceed 25 feet in width on the Westerly side of said highway, opposite Highway Engineer's center line Station 1123+00, only so long as no use is made thereof other than for the production and transportation to market of farm products, the development, harvesting, and transportation to market of forest products, mineral ores and/or concentrates, and for private residential purposes only.

A right of access to the relocated Oregon Coast Highway not to exceed 25 feet in width on the Westerly side of said highway, opposite Highway Engineer's center line Station 1134+25, only so long as no use is made thereof other than for the production and transportation to market of farm products, the development, harvesting, and transportation to market of forest products, mineral ores and/or concentrates, and for private residential purposes only.

A right of access to the relocated Oregon Coast Highway not to exceed 25 feet in width on the Easterly side of said highway, opposite Highway Engineer's center line Station 1137+50, only so long as no use is made thereof other than for the production and transportation to market of farm products, the development, harvesting, and transportation to market of forest products, mineral ores and/or concentrates, and for private residential purposes only.

Rights of access from the owners' remaining property lying Easterly of the said relocated Oregon Coast Highway to the relocated Curry County Road, known as the Wedderburn-Giesel Monument County Road, to be constructed upon a portion of the right of way of the said relocated Oregon Coast Highway and easterly of the center line thereof.

The State Highway Commission shall, however, have the right at its option to build at any future time,

at its sole cost, a frontage road, or roads, within the boundaries of any present or hereafter acquired right of way; thereupon the rights of access herein reserved to and from the aforesaid highway which are on or adjacent to any such frontage road, or roads, shall cease but the owners, their heirs and assigns, shall have access to the said frontage road, or roads. Said frontage road, or roads, shall be connected to the said relocated Oregon Coast Highway at a point not a greater distance to the North of the owners' remaining land than a point approximately opposite Highway Engineer's center line Station 1104+20, and at a point not a greater distance to the South of the owners' remaining land than a point approximately opposite Highway Engineer's center line Station 1208+00.

2. That this resolution be entered in full in the minutes and records of the Commission this 28th day of October, 1954, as Condemnation Resolution No. 551.

EXHIBIT "L-5"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, the State Highway Commission on the 21st day of January, 1954, by resolution declared the necessity for the acquisition of certain parcels of real property owned by Charles K. Buffington, et al., File No. R-21086, situated in Section 8, Township 35 South, Range 14 West, Willamette Meridian, Curry County, Oregon; and

WHEREAS, said resolution declared that that certain parcel therein described and referred to as "Parcel No. 2" is necessary for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system; and

WHEREAS, said reason or purpose given for the necessity of acquiring said Parcel No. 2 was and is erroneous, the true and correct reason or purpose being that said Parcel No. 2 is necessary for right of way purposes for the construction and maintenance of a connecting road between the existing Oregon Coast Highway and the relocated Oregon Coast Highway; and

WHEREAS, said resolution declared that that certain parcel therein described and referred to as "Parcel No. 3" is necessary for right of way purposes for the construction and maintenance of a connecting road between the existing Oregon Coast Highway and the relocated Oregon Coast Highway; and

WHEREAS, said reason or purpose for acquiring said Parcel No. 3 was and is erroneous, and this Commission, after further investigation, has determined that said Parcel No. 3 is not necessary for any public purpose at this time;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That that part of page 5, Exhibit A, of that certain resolution duly made and entered in full in the minutes and records of this Commission on the 21st day of January, 1954, pertaining to the acquisition of a certain Parcel No. 2 from Charles K. Buffington, et al., File No. R-21086, be and the same hereby is amended to read as follows:

The following described real property is necessary for right of way purposes for the construction and maintenance of a connecting road between the existing Oregon Coast Highway and the relocated Oregon Coast Highway, to wit:

EXHIBIT "L-5" (Cont)

Parcel No. 2:

A parcel of land lying in the West half ($W\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 8, Township 35 South, Range 14 West, W°M°, Curry County, Oregon, the said parcel being a strip of land 60 feet in width, 30 feet on each side of the center line of the connection road between the present Oregon Coast Highway and the relocated Oregon Coast Highway as said connection road has been located, which center line is described as follows:

Beginning at Engineer's centerline Station 0+00, said Station being coincident with center line Station 832+50 of the Oregon Coast Highway as said highway has been relocated and described in Parcel No. 1 above; thence North 74°04' 47" East 465 feet to Station 4+65, said strip of land extends from the Easterly line of said Parcel No. 1 above to the Westerly line of the said present Oregon Coast Highway, said center line crossing the Easterly line of said Parcel No. 1 above and the said Westerly line of the present highway approximately at Stations 1+15 and 4+56, respectively.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 0.45 acre.

2. That that part of page 6, Exhibit A, of said resolution describing Parcel No. 3 and stating the necessity for acquiring said parcel be, and the same hereby is, rescinded and deleted.

3. That this resolution be entered in full in the minutes and records of this Commission this 28th day of October, 1954, as Condemnation Resolution No. 583.

EXHIBIT "L-6"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to widen, construct, improve and maintain the Sylvan Section of the Sunset Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property

hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Sylvan Section of the Sunset Highway as a throughway, certain interests in or fee simple title to certain parcel of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and improved Sunset Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the widening, construction, improvement and maintenance of the said Sylvan Section of the Sunset Highway and the highway facilities, for which the said parcel of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records

of the Commission this 28th day of October, 1954, as Condemnation Resolution No. 629.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 629, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-7"

Minutes of October 28 and 29, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Territorial Highway; and

WHEREAS, for the purpose of widening, construction, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Territorial Highway, fee simple title to certain parcels of real property. The said parcels of real property, needed and required, the specific use to be made thereof, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner; the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the widening, construction, improvement and maintenance of the said Territorial Highway and the highway facilities for which each of

the said parcels of property is required and being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons having an interest in said parcels of real property as to the compensation to be paid for the taking; and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 28th day of October, 1954, as Condemnation Resolution No. 633.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 633, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

Portland, Oregon
December 7, 1954

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids for highway construction as follows were opened and read aloud by the Secretary who then announced that the Commission would award contracts at 4:45 p.m. in the same room:

BENTON COUNTY
BLODGETT OVERCROSSING ON CORVALLIS-NEWPORT HIGHWAY

L. B. Read, Portland	$123,775.00
A. H. Saxton & Son, Corvallis	127,870.00

The Commission approved the minutes of the Commission's meetings held on August 9, 10 and 14, 1954, September 23 and 24, 1954 and October 11, 1954.

The State Parks Superintendent, C. H. Armstrong, reported on the following matters:

1. Proposal of State Board of Forestry to transfer Loeb Park on the Chetco River in Curry County to the State Highway Commission as a state park: The Parks Superintendent stated that this is a 160 acre myrtlewood tract now owned by the State Board of Forestry and is situated about 7 miles from the Oregon Coast Highway. He recalled that a previous offer to convey the tract to the highway department was denied. He further stated that the area would be expensive to develop. He recommended that action be deferred pending appearance of a delegation on the subject on the following day. (Mr. Lynn Cronemiller, Assistant State Forester, came before the Commission on the following day and presented the offer in person. After due consideration the Commission again denied the request.)

2. Proposed development of a state park at Maxwell Point near Oceanside in Tillamook County: The Parks Superintendent reported that this area consists of a rocky promontory extending into the ocean immediately north of and adjoining the town of Oceanside. The Rosenbergs who own the property, he stated, have offered to donate the land for park purposes. He called attention to the fact that the property is adjacent to a developed community and also adjoins a rental unit, which unit would

necessarily use a portion of the proposed park area for car parking. Use of the area, he stated, would be limited to a view point, and he estimated the cost to improve it including construction of parking area, a guard fence and a trail, at $2,000. He pointed out that the State has an existing park development at Cape Lookout about 10 miles south of this place and also has a lease on an area at Cape Meares, a short distance to the north. It was his opinion that the property should not be acquired as a state park in view of the Commission's general policy not to establish park developments within or adjacent to cities or towns. The Commission accepted the recommendation.

3. Proposed membership in the American Shore and Beach Association: This organization, the Parks Superintendent stated, has written to the Governor requesting that Oregon become a member of the Association. The purpose of the Association, from the information provided, appears to be in the nature of assembling and disseminating information as to what other communities are doing in the preservation of beaches. The cost of membership, he said, is $100 annually, and he pointed out than an Oregon law apparently prohibits the State from joining an association requiring issuance of stock to its members. The State of Oregon, he commented, is somewhat different from other states in that the State owns most of the shoreline. After some discussion, the Commission decided not to take out membership in the association.

4. Request of S. O. Newhouse and Clarence Young, Wedderburn, that the State purchase property that they own, as an addition to Cape Sebastian State Park: This property, the Parks Superintendent stated, lies immediately west of Cape Sebastian Park in Curry County, and consists of 25 acres situated on steep ground sloping toward the ocean, no part of which touches the top of the mountain. They ask $2,500 for the land. As it appears that the State now owns all of the land that is needed for park purposes in this particular area, he recommended that the request to purchase the land be refused. The Commission accepted his recommendation.

5. Proposed developments in certain state park areas in 1955: The Parks Superintendent requested authority to prepare plans and to advertise for bids for improvements at Detroit Lake, Beverly Beach, Rooster Rock, Helmick, Holman, Tumalo and Hat Rock. Funds for these developments, he stated, are included in the 1955 Budget previously adopted by the Commission. The authority was granted as requested.

In discussing these improvements Commissioner Reynolds commented that the amount budgeted for Rooster Rock would provide only a start on this project. He inquired if the proposed permanent improvements would all be above high water level. The Parks Superintendent replied that plans have been prepared so that all permanent fixtures will be above the known high water level.

The Right of Way Engineer presented for consideration options secured for acquisition of real property needed for state highway improvements

and other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer commented that during the fiscal year ending December 1, 1954, right of way had been purchased totaling $6,085,000.

The Right of Way Engineer requested authority to negotiate the purchase of properties for which no specific authority previously has been granted, as follows:

COUNTY AND SECTION	FILE NO. AND NAME	PURPOSE	HIGHWAY
SHERMAN Wasco-John Day River	22562-Shull	Quarry Site	Wasco-Heppner
LANE Springfield-Walterville	22508-Bryant	Right of Way	McKenzie
LINCOLN Siletz Bay-Miner Creek	22602-Taylor	Park & Easement	Oregon Coast
WASHINGTON Beaverton-Forest Grove	22347-Stokes	Right of Way	Tualatin Valley

The Commission approved his request unanimously.

A report on miscellaneous properties sold since the last Commission meeting was also submitted by the Right of Way Engineer and accepted by the Commission. (For a list of properties sold, see copy of the report prepared by C. W. Parker, Property Manager, dated December 7 and 8, 1954, filed in the Secretary's office under the heading "Miscellaneous Sales".)

Consideration was given to a ground lease agreement with Mr. and Mrs. Charles Ager whereby the State secures the right to remove road building materials for use on the Great Northern Railroad-Midland Overcrossing Section of the Midland Secondary Highway in Klamath County. The Right of Way Engineer stated that a consideration involved is $.05 per cu. yd. for all materials removed and that it is expected that about 25,000 cubic yards will be taken. Upon the Right of Way Engineer's favorable recommendation, the Commission approved the lease.

A claim from the U. S. Bureau of Land Management in amount $75 for 5,000 board feet of ponderosa pine situate on a material site on the Cave Junction-California State Line Section of the Redwood Highway in Josephine County was discussed. The Right of Way Engineer explained that in securing material sites from the Federal Government it is necessary to pay for the timber located thereon. He recommended payment of $75 in this instance which is at the rate of $15 per thousand board foot. The Commission accepted the recommendation.

Changes in points of access for the following properties were recommended by the Right of Way Engineer and approved by the Commission:

a. Bland property, File No. 19616, on the North Unit of the Bend-Lapine Section of The Dalles-California Highway in Deschutes County.

b. Chambers property, File No. 20204, on the Rinehart Creek-Frankport Section of the Oregon Coast Highway in Curry County.

The Right of Way Engineer requested instructions whether or not to continue negotiations for exchange of timber properties in the Columbia Gorge. He advised that during the last year a highway right of way agent has spent 38 days in arranging exchanges of timber land along the Columbia River Highway in order to preserve the scenic aspects, as requested by the "Save the Gorge" Committee of the Portland Womens Forum, during which time he has completed three exchanges and has several others pending. The State Parks Superintendent stated that he felt the services of the right of way man should be continued as a matter of good public relations. The State Highway Engineer concurred and so recommended. It was the feeling of the Commission that the work should be continued on a part time basis, and it was so ordered.

The matter of leasing a parcel of land to H. M. Mallory at the junction of Oregon Highway 39 and Oregon Highway 66 in Klamath County was considered by the Commission. The proposed lease, the Right of Way Engineer explained, is the usual 4-year lease with a six months' cancellation clause, and extends from October 1, 1954 to September 30, 1958. The lease is made necessary by the fact that the abutting grocery store has changed hands and this lease is identical with the one approved by the Commission with the former owner on June 22, 1953. Consideration for the 4-year term is $600 payable in four installments of $150 on October 1 of each rental year. Upon his favorable recommendation the Commission approved the lease.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

The Right of Way Engineer presented, with his recommendation in each instance, a summary of billings that have been filed against the Highway Department by various cities for sewer, sidewalk and street construction, as follows:

1. City of Newport, Block 1, Phelps Addition sewer assessment-$81.80. No protest recommended.

2. City of Salem, Lot 7, Block 21, Nob Hill Addition street assessment-$22.95. No protest recommended.

3. City of Newport, Lots 1 to 12 inclusive, Block 32, Fredericksburg-$245.16 sewer assessment. No protest recommended.

4. City of Roseburg, a portion of Block 18 in Waite Addition -paving assessment-$577.67. No protest recommended.

5. City of Coquille, Lot 1, Burns Acres Sewer assessment-$80.29. No protest recommended.

6. City of Florence, a portion of vacated Seward Street sidewalk assessment-$152.10. No protest recommended.

7. City of North Bend, Blocks 31 and 32, Coos Bay Plat "B" Addition paving assessment-$368.24. No protest recommended.

8. City of Roseburg for sewer assessment-$1892.29. As this property is located almost entirely within the limits of the normal right of way, he recommended against paying this assessment.

9. City of Roseburg for sewer assessment on Lots 7, 8, and 9, Block 8 Jones Addition-$378.30. As this area was acquired for slide correction purposes, he recommended that the Commission protest payment of this assessment.

He explained that the law requires the billings to be filed with the Secretary of State who presents them to the legislature for approval or disapproval. The Secretary of State,he said,wishes to know if the Highway Commission intends to protest any of them. The Commission adopted the Right of Way Engineer's recommendations as shown.

Sale of a parcel of land to Mr. and Mrs. James A. Ball in Florence was considered by the Commission. The Right of Way Engineer explained that when a portion of Seward Street in Florence was vacated, a portion of the street became the property of the State Highway Department. This parcel of land, he stated, contains 0.02 acre and is approximately 32.5 feet by 63 feet in dimension. He further stated that there is a city assessment against the property in amount $152.10, which, in his opinion is all the land is worth. The Balls, however, have offered to pay $202.10 for the property. He said that the property is not needed for highway purposes, and he recommended acceptance of the offer with complete restriction of access to the highway. The Commission approved the sale at the price mentioned.

The Commission also considered sale of 1,250 square feet of land to Cecil and Ina Maestretti near the easterly city limits of Pendleton. The Right of Way Engineer explained that the property was acquired in 1937 for

an approach road to adjoining properties. Mr. Maestretti who built a home upon property in Block 10 and 11 assumed that he was wholly upon his own property, but it was later discovered that he had encroached upon state property about 11 or 12 feet. The Right of Way Engineer recommended that the property be sold to Mr. Maestretti for the sum of $100 inasmuch as it is not required for highway purposes. The Commission approved the sale.

Consideration was given to the sale of property in West View Addition to Eugene to Frank and Vera Reid. The Right of Way Engineer explained that when this property was acquired in 1941 the option provided that in the event it should develop that any portion of the property is not needed for highway or other public purposes, the original owner of the property shall have the right to purchase the excess property for the same price that was paid for it--$.015 per square foot. The Reids, he said, have now requested that the property the State does not need be sold back to them. He recommended that this be done for a consideration of $1,062.25 inasmuch as the area desired by the Reids is not needed for highway purposes and as the city of Eugene has advised that it is not required in city planning. The Commission approved the recommendation.

Upon the Right of Way Engineer's favorable recommendation, the Commission also approved the sale of 0.03 acre of excess right of way on Northeast 33rd Avenue near the Northeast Portland Secondary Highway, in Portland, to O.P. Bigoni for the sum of $200.

The Right of Way Engineer also recommended sale of 0.91 acre of excess right of way to Roy Mizner for the sum of $400, said property being located near the Cook Overcrossing on the Portland-Salem Expressway and no longer required for highway purposes. The Commission approved the sale.

Also presented for the Commission's attention was an option secured from the Union Oil Company in connection with a right of way transaction on the Tide Creek-St. Helens Section of the Columbia River Highway in Columbia County. The Right of Way Engineer advised that the Company is not willing to release its access rights. He recommended in view thereof, that the option be rejected and that authority be granted to condemn the property if agreement with the Company cannot be reached by further negotiations. He mentioned that the Company was offered the sum of $3,000. The Commission accepted the recommendation.

The Right of Way Engineer also presented options secured from Clarissa Price and Keith Tucker for purchase of right of way for the Weston-Weston Mountain Section of the Weston-Elgin Secondary Highway in Umatilla County in amounts $7403.50 and $11,035.50, respectively. He said that the severance damage items appear to be too high and he recommended that the options be rejected unless the amounts thereof can be substantiated by independent appraisals. The Commission approved the recommendation and authorized condemnation of the properties if reasonable settlements cannot be reached otherwise.

At the request of Chairman Chandler, the Right of Way Engineer reviewed the status of right of way acquisition for projects on which bids are to be received in the near future. It appeared that all of the projects appear to be in good shape so far as acquisition of right of way is concerned.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties which are needed as right of way in connection with various highway improvements or other highway purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Harbor Drive-City Limits Unit, Harbor Drive-Barbur Boulevard Section, Portland-Salem Expressway

R 19362- Mike M. DeCicco
Right of Way (Multnomah)
Parcel No. 1: 32,143 square feet

Hebo-Neskowin Section of the Oregon Coast Highway

R 11004- Homer M. Cross
(Tillamook)
Parcel No. 1 for haul road
Parcel No. 2 for manufacture of roadbuilding materials

The Commission approved the request by adopting the attached resolutions relative thereto marked EXHIBITS "K-1" through "K- 8", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and approved the Chief Counsel's written report of cases which have been tried in court by his staff since the October meeting of the Commission, as follows:

1. State vs. Ridgway Johnston, et ux., L 2105 (R 20599), for right of way at the intersection of Northeast 49th Avenue and Northeast Oregon Street, Portland.

The State offered to pay $6,100 for this property but the defendants demanded the sum of $23,200. The defendants also later rejected a compromise settlement for the sum of $9,000. The jury returned a verdict in the amount of $8,000 plus attorney's fees at $1,200.

2. State vs. Alameda Snyder, L 2284 (R 21904), for right of way for a connecting road between Ochoco Avenue and Avenue "A", city of Milwaukie: An offer in the amount of $1,350 was made and was rejected by the defendants who demanded the sum of $5,000. The jury returned a verdict in the amount of $3,000 plus attorney's fees in the sum of $500.

3. State vs. Phillip E. Yergen, et ux., L 2032A (R 20277), acquisition of 9.52 acres for right of way for the Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway: An offer in the amount of $5,950 was made but was rejected by the defendants who demanded the sum of $20,000. The jury returned a verdict in the amount of $12,250 plus attorney's fees in the amount of $1,500.

4. State vs. Glenn O. Lewis, et al., L 2138 (R 15173), for 295 square feet of right of way at the intersection of the Salem-Dallas and Salem-Dayton Highways at the west end of the Marion Street Bridge in the city of Salem: An offer was made for this property in the amount of $600. The defendants rejected the offer and demanded the sum of $27,500. The jury returned a verdict in the amount of $600.

5. State vs. Philip S. Holt, et ux., L 2091 (R 20509), for the acquisition of 1.26 acres for right of way on the Goshen-Divide Section of the Pacific Highway: An offer in the amount of $956 was rejected by the defendants who demanded the sum of $3,500. The jury returned a verdict in the amount of $700.

6. State vs. B. Vaughn, et al., L 2101 (R 20485) for 0.57 acre of right of way on the Goshen-Divide Section of the Pacific Highway with complete restriction of access from the defendants' remaining property to the Pacific Highway: The State offered $420 for this property, which offer was rejected by the defendants who demanded the sum of $2,000. The jury returned a verdict in the sum of $285. One fact which contributed to the favorable verdict was that the remaining property of the defendants will now have full access to the Goshen-Cresswell Section of the old Pacific Highway, whereas it had none before.

7. State vs. S. J. Godard, et al., L 2046 (R 20502), for 9.94 acres of land for use as a gravel pit in construction of the Goshen-Divide Section of the Pacific Highway: The defendants were offered the sum of $1,500 for this property, which offer they refused, demanding the sum of $23,000, subsequently increased to $25,000. The jury returned a verdict in the sum of $9,000. The verdict in this case, the Chief Counsel stated, illustrates the difficulty of convincing a jury that real property being acquired for road building materials should be

valued as acreage for farm use rather than being valued for road building materials.

8. State vs. J. C. Owre, et ux., L 2060 (R 20650), for 12.07 acres of right of way on the Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway and for 1.33 acres needed for a grade separation structure between the Portland-Salem Expressway and Marion County Market Road No. 8: The defendants were offered $7,000 for this property, which offer they rejected, demanding the sum of $24,000. The jury returned a verdict in the amount of $8,000.

9. Edward B. Hodges, et ux., vs. Stoen-Funderburk Construction Company, et al., L 2335, and P. J. Kaptur vs. Stoen-Funderburk Construction Company, et al., L 2334: Service of summons and complaint in both of these actions was made upon Mr. Ben R. Chandler, Chairman of the Commission, September 29, 1954, and on Mr. M. K. McIver on October 5, 1954, for recovery of the sum of $5,750 as damages resulting from the construction of the Oregon Coast Highway at Miroco Beach in Lincoln County. The Chief Counsel reported that the Attorney General had authorized his office to undertake the defense of this case insofar as the State Highway Commission is concerned. Motions to quash service were argued on November 1, 1954. The Hon. Judge Fred McHenry ruled in favor of the State. This ruling, he stated, does not prevent a later institution of a case against the Commission if the defendants can correct the difficulties in their original complaint.

10. State vs. J. O. Ledgerwood, et al., L 2285 (R 21866), for 7.16 acres needed for right of way on the Booth Ranch-Myrtle Creek Section of the Pacific Highway in Douglas County and for a temporary easement over 0.12 acre for an approach road to a county road: An offer in the amount of $9,600 was made and was rejected by the defendants who demanded the sum of $25,500. The jury returned a verdict in the amount of $9,600.

11. State vs. Richard Stevenson, et al., L 1965 (R 19345), for 14.1 acres for road building materials adjacent to the South Umpqua River approximately three miles south of Roseburg: The State offered to pay $6,000 for this property. The offer was rejected by the defendants who first demanded $50,670.95 and later offered to settle for $20,000. It was brought out in the trial that the property contained approximately 200,000 cubic yards of gravel and at least two offers had been made to purchase the property on a royalty basis of ten cents per cubic yard. Negotiations at the time of trial resulted in a stipulated settlement of the case in the sum of $15,000.

12. State vs. Raymond C. Laurence, et ux., L 2181 (R 21293), for 20.33 acres needed for right of way on the Shady Point-Booth Ranch Section of the Pacific Highway in Douglas County including complete restriction of access: An offer in the amount of $3,620 was made and was rejected by the defendants who demanded the sum of $12,150. The jury returned a verdict in the amount of $5,400.

13. State vs. Olivia R. Carnes, et al. L 2184 (R 21556), for 10.6 acres on the Shady Point-Booth Ranch Section of the Pacific Highway in Douglas County: An offer in the amount of $3,810 was made to the defendants and was rejected, their demand being in the sum of $7,900. The jury returned a verdict in the amount of $7,000 plus attorney's fees in the sum of $350.

14. State vs. John Bradford Fox, et ux., L 2097, (R 20526), for the acquisition of 7.64 acres on the Goshen-Divide Section of the Pacific Highway in Lane County and for the acquisition of 31.9 acres excess taking: The State offered to pay $9,760 for this property. This offer was rejected by the defendants who demanded the sum of $20,360. The jury returned a verdict in the sum of $9,862 plus attorney's fees in the amount of $550.

(For details see the Chief Counsel's letters to the Commission dated November 12, December 1, and December 4, 1954 in the General Files.)

The Commission also considered and accepted the Chief Counsel's report on court cases which have been settled by his office since the Commission meeting held October 28 and 29, 1954 as follows:

1. State vs. Elizabeth H. Schackelford, L 2283 (R 21903) for right of way for a connecting road between Ochoco Avenue and Avenue "A" in the city of Milwaukie: An offer was made in the amount of $300 which offer was rejected by the defendant who demanded the sum of $1,500. Subsequent appraisals were made running as high as $575, and as a result of further negotiations, settlement was effected in the amount of $750. In addition the State is to replace some ornamental fencing and place a small amount of gravel between the curb and the property line.

2. State vs. Faun E. Helmcke, L 1982 (R 15882), for 0.01 acre right of way of way on the Sylvan Section of the Sunset Highway: The State offered to pay $150 for this property. The defendants, however, demanded the sum of $3,500. It was found later that the State had been negotiating with the adjacent owners on the basis of $1 per square foot, and as the property to be acquired from Mrs. Helmcke consisted of 436 square feet the land value could amount to $436 plus damages for restriction of access. A settlement was effected in the sum of $750 with the provision that the previously specified clause providing for termination of a reserved right of access in the event of construction of a frontage road was deleted.

3. State vs. Ivan S. Rogers, et al., L 2228 (R 21320) for 0.28 acre of land on the Goble-St. Helens Section of the Columbia River Highway in Columbia County: An offer was made for this property in the amount of $10,500 which offer the defendant refused and demanded the sum of $25,000 plus $2,500 attorneys fees. This demand was later reduced to $15,000. Subsequent negotiations resulted in a settlement in the amount of $12,680.

4. State vs. Marie Schodde, et vir., L 1978 (R 19538) for 0.679 acre on the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway in Clackamas County: An offer was made for this property in the amount of $1,500, and a settlement was arranged for that amount.

5. State vs. Alger Chaney, et al., L 2232 (R 21308 R 21309) for 1.45 acres on the Goble-St. Helens Section of the Columbia River Highway in Columbia County: The State offered to pay $600 for this property which offer the defendants rejected. The defendants stipulated no certain amount in their rejection but insisted upon the installation of a culvert beneath the highway to carry an irrigation pipe. Subsequent negotiations resulted in a settlement by which the State pays $400 for the property and will install an 18" culvert at an estimated cost of $270.

6. State vs. Charles M. Gray, et ux., L 2330 (R 21767) for the acquisition of 22 acres on the Euchre Creek-Wedderburn Section of the Oregon Coast Highway in Curry County: An offer in the amount of $10,562 was made and a settlement was finally negotiated for the sum of $11,500.

7. State vs. Norman O. Moyer, et ux., L 2104 (R 20602) for the purchase of approximately 1,855 square feet of land to be exhanged with the Union Pacific Railroad Company for a like amount of land to be used for Unit No. 3 of the T. H. Banfield Expressway: An offer in the amount of $846 was made but was rejected by the defendants who demanded the sum of $4,522.50. Before the trial it was learned that the area of the property had been incorrectly computed, there being 2,540 square feet within the taking rather than 1855 square feet. Settlement was reached in the amount of $1,750.

8. State vs. Agnes Meehan, L 2204 (R 21654) for 1.03 acres on the Goble-St. Helens Section of the Columbia River Highway in Columbia County: An offer was made in the amount of $669, and after considerable negotiation a settlement was reached for that amount.

9. State vs. J. C. Hise, et ux., L 2337 (R 22266) for 0.79 acre on the Bear Creek Section of the Siuslaw Highway in Lane County: An offer was made in the amount of $545. The defendants refused this offer contending that damages would be considerably in excess of the offer made by the State. Subsequent negotiations resulted in a settlement of $700.

10. State vs. Richard S. Humphrey, et al., L 2180 (R 21280) for 0.3 acre on the Vale-Cairo Junction Section of the Central Oregon Highway in Malheur County: The State offered to pay $2,027.50 for the property. It was determined later that the right of way line would be 5 feet closer to their house than had first been anticipated and Mr. Anderson, upon whose original appraisal the offer of the State was based, revised his appraisal upwards to $4,714.50. Subsequent negotiations resulted in a settlement of $3,250 and the use of certain state land from year to year

under a land use permit.

11. State vs. James R. Thompson, et al., L 2133 (R 20090 R20250 A-3 R 20250 A-4), for 23.37 acres of land owned by the defendants and 27.99 acres of Indian land held under lease on the Pendleton-Deadmans Pass Section of the Old Oregon Trail: The defendants were offered $11,153 for property owned by them in fee, and $125 was offered for 10.8 acres of leased land, plus $515 for 17.15 acres of the remaining leased property. This offer was rejected. A later study disclosed that a settlement in the amount of $14,322 would be comparable to other negotiated acquisitions involving Indian lands. A settlement was finally effected for the sum of $14,000.

12. State vs. G. R. Sears, et al., L 2194 (R 21209) for 24.76 acres on the Goshen-Divide Section on the Pacific Highway in Lane County plus an easement on 0.52 acre for a haul road, a drainage easement and a slope easement: An offer for this property was made in the amount of $11,580 which offer was rejected by the defendants. A settlement was effected after further negotiations for the sum of $13,500 plus $100 for moving a telephone pole.

13. State vs. Jacob G. Scherrer, L 2127 (R 17804) to obtain specific performance of an option to convey three parcels of land containing 10.17 acres on the Rowena-The Dalles Section of the Columbia River Highway in Wasco County: The option was taken for the sum of $31,450 and was accepted by the Commission on April 8, 1953. As a result of further negotiations Mr. Scherrer has now executed the deed and the specific performance suit has been dismissed.

14. State vs. Julius Siller, et ux. L 1945 (R 17744) to obtain specific performance of an option executed on March 5, 1952 for 2.66 acres on the Winchester Bay-Forest Boundary Section of the Oregon Coast Highway in Douglas County in the amount of $600: The defendants refused to execute a deed containing the clause relative to construction of a frontage road contending that it had been their understanding that this clause would be deleted. A settlement was finally negotiated by which the defendants will convey to the State the property described in the option, and for the consideration stated in the option. The right to construct the frontage road will be reserved to the State, but it will be provided that if such frontage road is constructed it will be connected to the highway at the location of the two accesses reserved to the defendants.

15. Myrtle Smith vs. Louis E. Dearborn, et al., L 2045; Harvey Sherer, Administrator of the Estate of Vivian Thomas Smith, deceased, vs. Louis E. Dearborn, et al., L 2058 concerning an automobile accident which occurred on August 28, 1953 approximately ten miles north of Vale in Malheur County: The defense of Mr. Dearborn was undertaken by the Insurance Company which carries the public liability and property damage insurance for the State. As the cause of action against Parson, Johnson and McComb did not come within the terms of the insurance coverage, the defense of these employees was undertaken by the office

of the Chief Counsel. The Attorney General subsequently ruled, however, that no authority existed to appear and represent the defendants in the case, and it was necessary for the Chief Counsel to withdraw. Mr. Charles W. Swan, of Vale, offered to undertake the defense without cost to the defendants. Following a conference with attorneys for the plaintiffs, it was agreed that the cases against Mr. Parson, Mr. Johnson, and Mr. McComb would be dismissed. An order of dismissal was entered. The Chief Counsel also stated that he had been advised that the case against Mr. Dearborn, operator of the State vehicle, had been dismissed with the insurance carrier for the State paying the sum of $8,000.

(For details of all settlements see copy of the Chief Counsel's letter dated December 2, 1954 in General Files.)

The Chief Counsel reported the following offers for the acquisition of real property which were tendered to the owners prior to the institution of condemnation proceedings in conformity with a resolution adopted by the Commission on December 20, 1951:

Tualatin River-Middleton Section of the Pacific Highway West:

R-19694-Owner: Chester D. Pape, et ux. 140 square feet for right of way. Offer of $150 approved by Mr. McIver on December 1, 1954.

R-19701-Owner: John M. Burge, et ux. 0.028 acre for right of way. Offer of $160 approved by Mr. McIver on December 1, 1954.

R-19716- John M. Burge, et al. 600 square feet for right of way. Offer of $500 approved by Mr. McIver on December 1, 1954.

R-19723- Agnes M. Hite, et al. 3.08 acres for right of way. Offer of $20,725 approved by Mr. McIver on December 1, 1954.

R-19735-Owner: G. L. Westling, et ux. 0.308 acre for right of way. Offer of $506 approved by Mr. McIver on December 1, 1954.

R-19743-Owner: E. L. Beno, et al. 0.165 acre for right of way. Offer of $175 approved by Mr. McIver on December 1, 1954.

R-21593- J. M. Burge, et ux. 0.555 acre for right of way. Offer of $1,555 approved by Mr. McIver on December 1, 1954.

Sylvan Section of the Sunset Highway:

R-20652-Owner: Claire E. Helmcke, et ux. 10,900 square feet for right of way. Offer of $3,840 approved by Mr. McIver on December 1, 1954.

The Commission approved the offers as presented.

The Commission adopted a report submitted by the Chief Counsel concerning the following matters that have been before the Public Utilities Commissioner:

1. PUX 112. Temporary Impaired Clearances at N.E. 47th Avenue in the city of Portland, T. H. Banfield Expressway. PUC Order No. 33349 issued October 21, 1954.

2. PUX 115. C. H. Bogert private truck crossing on the Coos Bay-Roseburg Highway south of Coquille. PUC Order No. 33344 issued October 21, 1954.

3. PUX 118. Temporary impaired clearances at N.E. 42nd Avenue in the city of Portland, T. H. Banfield Expressway. PUC Order No. 33353 issued October 25, 1954.

4. PUX 116. Blodgett Overcrossing, Corvallis-Newport Highway, Benton County. PUC Supplemental Order No. 33388 issued November 3, 1954.

5. PUX 108. Biggs Grade Crossing, Oregon-Washington Railroad & Navigation Company, County Road, Sherman County. PUC Order No. 33392 issued November 5, 1954.

6. PUX 114. Crown Zellerbach private truck road overcrossing, Pacific Highway East north of Canby. PUC Order No. 33395 issued November 5, 1954.

7. PUX 109. Maryhill Ferry grade crossing, Oregon-Washington Railroad & Navigation Company, County Road, Sherman County. PUC Order No. 33405 issued November 16, 1954.

8. PUX 110. Rufus grade crossing, east of Boardman, Morrow County, PUC Order No. 33436 issued November 22, 1954.

9. PUX 122. Gladstone grade crossing of dedicated street in Clackamas County. PUC Order No. 33435 issued November 22, 1954.

(For details see copy of Chief Counsel's letter to the Commission, dated December 2, 1954 in the General Files.)

Authority to institute legal proceedings against Harry O. Payne and Lloyd Muaser, the P. M. Logging Company and others, for damages resulting from timber trespass was requested by the Chief Counsel. He explained that inspection of the Carpenterville-Brookings Forest Wayside Park in Curry County in April, 1954, revealed that loggers operating on adjoining property removed from the State's land eleven Douglas Fir trees valued at $100. Repeated efforts to collect such amount from the trespassers, he said, have been without success, for which reason he asked the Commission to

allow him to start proceedings to collect triple damages pursuant to authority granted by statute. The Commission approved the request.

The Chief Counsel presented a report which was accepted by the Commission on the case of John Brazil vs the State of Oregon. He explained that Mr. Brazil is seeking to recover damages due to a change in grade of the John Day Highway in front of his property on the Mt. Vernon-John Day Section, and is attempting to collect $3,000 for such damages. The Commission authorized the Chief Counsel to take such action as is necessary and appropriate to protect the interests of the State.

A report was submitted by the Chief Counsel concerning the Attorney General's opinion regarding defense of State employees when suit is instituted against members, officers, and employees of the State Highway Commission. He recalled that the Commission previously proposed submission of a bill to the Legislature through the Highway Interim Committee, which would authorize State agencies to purchase public liability and indemnity insurance for the protection of its members, officers and employees against claims by reason of acts or omissions in carrying out their official duties. It is the Attorney General's opinion, he stated, that sole authority rests with him to determine whether or not the State is "interested" in any particular cause or proceeding and should or should not take an active part in the case. It appears that if an action brought against a State officer or employee would adversely effect the interests of the State, authority may be granted for State Attorneys to defend such State officer or employee. However, if it is determined by the Attorney General that the action is one against a member, officer, or employee of a State agency active in his private capacity, and the State has no direct or indirect interest in the litigation because there will be no legal liability upon the State to pay the judgment, the defendant in the case then must provide his own legal counsel at his own expense, and payment of the judgment, if any, would be the employees personal liability and not that of the State. It also appears, he stated, that the Attorney General or his representative can represent members, officers, and employees when such persons are sued in their official capacity, but not when they are sued in their private capacity. He defined official capacity as involving the holding of an office including the members of the Highway Commission, the State Highway Engineer and Assistant State Highway Engineers, the Secretary and Assistant Secretary, the Auditor, the State Parks Superintendent, the Chief Counsel and the Assistant Counsel. Presumably, therefore, an action brought against a State highway employee who is not an officer would be against the employee in his private capacity, and the employee would not be entitled to legal representation from the State unless the State might ultimately be obligated to pay the judgment. It was his opinion that the need for public liability and indemnity insurance has not been eliminated but has been made more clearly necessary. He urged that the proposed bill to authorize the purchase of public liability and indemnity insurance be introduced in the Legislature for consideration, and requested, in the event suits are filed against employees before the insurance becomes available, that a copy of the summons be made available to his office promptly in order to permit immediate investigation. The Commission approved the report and the suggestions contained therein. (For details see copy of the report, dated December 3, 1954, in General Files.)

The Chief Counsel reported the settlement of claims against the state highway department for smoke damage that occurred to certain private property from smoke during state paving plant operations at North Bend. He recalled that claims were presented at the previous meeting from a Mr. Johnson, a Mr. Miller, and a Mr. Rowan and that settlement of the Johnson and Miller claims was authorized, but the Commission ordered further investigation of the Rowan claim. He advised that the first two of the claims have been paid and releases received; also, that agreement has been reached with Mr. Rowan whereby the State is to pay for the cost of washing, scraping and cleaning, and for two coats of paint on one wall, the total of which amounts to $218.19. He recommended that Mr. Rowan be paid such sum. The Commission approved such settlement.

The Engineer reported that under authority granted by law and pursuant to instructions from the Commission, he has awarded to successful bidders contracts as follows, which were referred to him by the Commission for award when certain conditions had been satisfied.

1. Grading and paving Battle Creek Junction-Illahee Unit, Battle Creek Junction-Jefferson Junction Section of Pacific Highway East, Marion County. Bids received September 24, 1954. Conditions of award satisfied November 5, 1954. Roy L. Houck & Son, Salem, contractor.

2. Grading and paving Beaverton-Multnomah County Line Section of Beaverton-Hillsdale Highway, Washington County. Bids received September 24, 1954. Conditions of award satisfied November 5, 1954. Porter W. Yett, Portland, contractor.

The Commission approved the report.

A plan for a proposed one-way couplet designation on the Pacific Highway through the business district of the city of Ashland was reported by the Engineer. The Engineer advised that the plan has been approved by the Ashland City Council and that the City has offered to contribute $50,000 toward the purchase of right of way which is estimated to cost $215,500. He explained that the plan provides for routing southbound highway traffic over the present Pacific Highway on East Main Street and northbound highway traffic over a projected route one block north of Main Street, between 4th Street and Helman Street, using a portion of "C" Street. He recommended Commission approval of such one-way street couplet and that authority be granted for preparation of an agreement with the City covering the matter whereby the City shall deposit with the Commission $50,000 in cash toward the right of way expense, and the State shall then acquire the right of way with no commitment whatsoever as to when construction will be undertaken. He further recommended early acquisition of the right of way in order to forestall developments on the proposed alignment. The Commission accepted the recommendations and thereupon adopted the attached resolution relative thereto marked EXHIBIT "G-3"

which resolution by this reference is made a part hereof with like effect as though extended in full herein. The Secretary was instructed to inform the City Council of the Commission's action.

A tabulation of bids received for the sale of used equipment and scrap materials at Salem, LaGrande and Portland on November 22 was considered. The Engineer advised that the total of the high bids received amounted to $16,025.88 whereas the estimated value of the equipment and scrap was $9,869. He recommended that the items be sold to the high bidder in each instance. The recommendation was approved by the Commission.

The Engineer reported on a survey for the relocation of the Oregon Coast Highway through the city of Seaside. He exhibited a map showing the proposed route along Roosevelt Drive and pointed out that such routing avoids the business district; also, that the plan calls for a four-lane curb section which will cost approximately $515,000 with a benefit quotient of 7.20, whereas, a route bypassing Seaside on the east which has a benefit quotient of 2.09 is estimated to cost $1,150,000. He recommended adoption of the Roosevelt Drive route and that authority be granted to purchase the necessary right of way which is estimated to cost $204,000. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported receipt of a check in the amount of $221.90 from the Highway Research Board, being a refund of monies advanced by Oregon to finance a cooperative project with twelve other states to determine the effect of wind stresses on highway bridges. He recalled that Oregon's share of the estimated cost was $800, all of which was not required, hence the refund. He further stated that the project has been completed and that the specifications for wind forces on highway bridges has been entirely rewritten on the basis of the data gathered in this project. The Commission accepted the report.

A report was also presented by the Engineer concerning a letter that appeared in the November 18, 1954 issue of the "Oregonian" over the name of Frank Branch Riley in which letter the Highway Commission is accused of neglecting the old route of the Columbia River Highway through the Columbia River Gorge. The Engineer pointed out that the tunnels at Mosier, Oneonta and Mitchell Point were closed when the new highway was built because of extreme danger to traffic from falling rocks. The old Columbia River Highway between Troutdale and Dodson, he stated, is being maintained in good condition and it is this section that takes in the most scenic part of the Columbia Gorge. He recommended in the interests of safety to the traveling public that none of the three tunnels mentioned be reopened. The Commission accepted the recommendation and instructed the Secretary to send a copy of the Engineer's letter to Mr. Riley and to others who may have registered similar complaints.

The installation of traffic lights on the Oswego Highway between the

south Portland city limits and the city of Oswego was considered. The Engineer recalled numerous complaints that have been received during the last few years that it is difficult for vehicular traffic to enter and leave important road intersections between the two cities. A recent study, he stated, reveals that traffic has reached a volume on this highway that justifies the installation of traffic signals. He, therefore, recommended the installation of traffic signals at Briarwood Road, Dunthorpe Avenue, Greenwood Avenue, Military Road and Palatine Road at an estimated total cost of $20,000, the same to be financed from funds authorized in the 1955 Betterment Program for such purposes. He added that, if the Commission authorizes the project, the signals will be synchronized to afford a through speed of approximately 40 miles per hour. The Commission approved the project as recommended.

The Commission discussed with the Engineer the following items of unfinished business as they appear on the Secretary's summary dated October 28, 1954:

1. Proposed new route for the Oregon Coast Highway between Astoria and Seaside: The Engineer recalled that he submitted a report on this subject at the October meeting of the Commission when a decision was deferred until the reaction of the local citizens could be ascertained. These people, he said, have asked him to meet with them in the near future and to explain the alternate routes and relative merits of each. The Commission took no action at this time other than to order the item deleted from the list of unfinished business.

2. Request of D. C. Burkes that the State purchase his property on US 101 immediately north of Boiler Bay for state park purposes: The Parks Superintendent stated that his report will be ready for the January meeting along with his overall report on the park situation in Lincoln County. The Commission ordered the item deleted from the list. It is to be considered as new business when the report is rendered.

3. Request for development of a state park at Maxwell Point near Oceanside, Tillamook County. This item was ordered deleted from the list of unfinished business, the Parks Superintendent having reported on it earlier in the day.

4. List of surveys for future construction projects: The Engineer submitted a written report dated December 2nd in which he lists surveys that will be completed by July 1st, 1955. The estimated cost of construction represented by the surveys, he stated, is slightly in excess of $110,000,000. He expressed his feeling that with this backlog of surveys the Commission can embark on a very material construction program when additional funds become available if there are no right of way difficulties. The Commission approved the report and ordered the item deleted frm the list of unfinished business.

5. Request of R. M. Knox for access to the Oregon Coast Highway near Wedderburn: The Engineer reported that as instructed by the Commission at the October meeting, this entire matter has been re-investi-

gated. He recalled that at a meeting in Gold Beach on July 14, 1954, the local people were told that unrestricted access to the new highway would be granted at each point where this highway crosses the old highway or a county road. At the location where Mr. Knox is concerned, he said, the new road does cross the county road, wherefore, in his opinion Mr. Knox's request is well founded. In order to solve the problem he recommended construction of a traffic interchange shown on a map which he presented to the Commission, and installation of a standard 15' x 24' underpass in lieu of a 12' x 12' structure originally proposed. This new plan, he stated, is estimated to cost $43,000 whereas the old plan is estimated to cost $18,000, an increase of $25,000. The Engineer further stated that Mr. Knox previously demanded $47,000 for right of way across his property, based on the old plan, but under the revised plan he has stated a willingness to reduce his price to $30,000 if he is given unrestricted access as would be provided in the new plan. The Right of Way Engineer stated that the highest price he can recommend as payment for Mr. Knox's property under the new plan is $23,000. After some further discussion the Commission approved an offer of $23,000 to Mr. Knox on the basis of the new plan for an interchange and underpass, and authorized condemnation of the right of way if the offer is not accepted. This item is to be deleted from the list of unfinished business.

6. Projects to be included in 1956 Forest Highway Program: The Engineer presented a tentative list of projects, dated October 29, 1954, consisting of 8 projects totaling $3,085,000. Action on the matter was deferred until the January meeting when a conference is to be had with representatives of the U. S. Bureau of Public Roads and U. S. Forest Service. The Commission ordered the item deleted from the list of unfinished business. It will be new business when it is again presented.

7. Request of Mr. Glenn Stanton, Portland, that the Dr. McLoughlin monument in Oregon City be moved to another location: The Engineer advised that this matter has been investigated and it does not appear desirable to move the monument because the site it now occupies is reputed to be the spot where Dr. McLoughlin used to stand to view the falls; moreover, moving it to the parking site probably would provoke a public controversy. He further stated that Mr. Stanton was interviewed during the investigation and it now appears that he is not going to press his request for movement of the monument. With respect to Mr. Stanton's suggestion that the State acquire the Latourette property on the river front west of the Post Office in Oregon City, the Engineer stated that Mr. Stanton has agreed to contact the Latourettes with the idea of getting them to donate the property so as to open up the view of the falls which is now obstructed by a building and some signs on the property. He also said that an investigation was made concerning signs along the right of way south of McMinnville on the Salmon River Highway, mentioned by Mr. Stanton, and that no illegal signs were found. The Commission approved the report and ordered the item deleted from the list of unfinished business.

8. Request of Clackamas County delegation for installation of traffic signals and crosswalks to eliminate traffic hazards at intersections of

Church Street and Carver Road with 82nd Avenue in the town of Clackamas: Concerning the Church Street intersection, the Engineer reported that an investigation discloses the need for a crosswalk and the establishment of a school boy patrol, which matter is now being taken care of. The investigation also disclosed that presently there exists a volume of traffic which warrants signal installation at the intersection of Carver Road with 82nd Avenue. However, this intersection will carry only minor traffic when the Clackamas overcrossing project is completed, and only a small amount of traffic will enter 82nd Avenue from Carver Road (Clackamas Secondary Highway). The accident record at this location, he added, is not unfavorable and he recommended that traffic signals not be installed. The recommendation was accepted by the Commission. This item is to be deleted from the list of unfinished business.

9. Request of South Tillamook County Chamber of Commerce for minor improvements to the Little Nestucca Secondary Highway. The Engineer reported that as previously instructed, an investigation has been made of this highway with a view to widening the narrowest portions, where it is difficult for two vehicles to pass. This highway, he said, is 9.71 miles long and for a distance of 5.41 miles east of US 101 is plenty wide for two vehicles to pass safely, and it is also sufficiently wide for a distance of 1.93 miles at the easterly end, which leaves a section 2.27 miles long that is restricted to one-way traffic. He estimated the cost to widen this narrow section for two-way traffic and to surface the same with quarry run materials at approximately $22,000. He recommended that such improvement be performed by contract in 1955 as a minor betterment project. The Commission approved the recommendation.

A request from the City of Hood River for State cooperation in widening and construction of curbs on May Street between 12th St. and 13th St. in the city was presented. The Engineer advised that the proposed improvement is on the route of the Hood River Secondary Highway, and if the project is approved by the Commission the City will pave the street at an estimated cost of $900 and the Hood River County Hospital will provide sidewalks at an estimated cost of $640. The State's cooperation, he said, will consist of grading, base surfacing and construction of curbs which is estimated to cost $900. He recommended approval of the project and that the arrangement be covered by an appropriate written agreement among the participating parties; also, that the work to be performed as early in the spring of 1955 as weather will permit. The Commission approved the recommendation.

Consideration was given to a request from the Ketell Construction Company, Portland, for construction and maintenance of a frontage road adjacent to the Portland-Salem Expressway along the Company's proposed residential development project immediately south of the Washington-Multnomah County line. The Engineer advised that the Company first wanted the State to construct the frontage road at State expense which he could not recommend because it would be of benefit mainly to the proposed

housing development. Mr. Ketell agreed, he said, that the Company would construct the road to a paved standard in accordance with state highway specifications if the State would assume its maintenance. He pointed out that the frontage road will connect with the Third Avenue interchange, so no additional hazard will be created by traffic from the frontage road entering or leaving the expressway. He recommended that the State maintain the frontage road at State expense after it has been properly constructed by the Ketell Construction Company at no expense to the State. The Commission adopted the recommendation.

The Commission discussed a report from the Engineer in which he recommends certain projects to be financed with Special City State Tax Street Funds during the year 1955, totaling $250,000. The Engineer pointed out that a total of 70 applications for the funds had been received from various cities, 21 of which are recommended for approval. He also said that in each of the 21 so recommended, there was ample evidence that the streets to be improved are in need of repair due to excessive wear through sudden increases in population or by reason of heavy and unusual industrial traffic. He recommended approval of the following program for the funds available:

City	Previous Projects	Division	State	City	Total
Chiloquin	1	IV	$ 10,300	$ --	$ 10,300
Falls City	0	II	14,900	--	14,900
Mt. Angel	0	II	15,000	5,000	20,000
Nyssa	2	V	15,000	1,300	16,300
Stayton	1	II	15,000	7,000	22,000
Silverton	2	II	5,000	--	5,000
Toledo	2	II	13,000	--	13,000
Yamhill	2	I	7,000	--	7,000
Molalla	1	I	15,000	1,500	16,500
Milton-Freewater	3	V	15,000	3,000	18,000
Shaniko	0	V	13,500	--	13,500
Elgin	1	V	15,000	8,700	23,700
Madras	1	IV	14,900	--	14,900
Enterprise	2	V	15,000	15,000	30,000
Cottage Grove	0	III	13,000	--	13,000
St. Helens	1	I	14,000	--	14,000
Phoenix	2	III	15,000	--	15,000
Talent	1	III	15,000	4,700	19,700
Myrtle Point	2	III	15,000	500	15,500
Union	1	V	15,000	1,500	16,500
Gladstone	1	I	15,000	--	15,000
			$285,600	$48,200	$333,800
Estimated Transfer to 1954 Fund			15,000		
Estimated Total 1955 Fund			$270,600		

NOTE: After actual costs have been determined, all State costs in excess of $250,000 will be transferred to the 1956 fund.

The Commission approved the program as recommended by the Engineer.

December 7, 1954

The Engineer presented for the Commission's consideration a suggested Federal-aid Secondary Program for the year 1957. He explained that this program pertains to state secondary highways only and that the county road portion will be presented later; also, that it is expected that the federal monies will become available for contracting on July 1. The Commission deferred action until the January meeting.

The Commission discussed a cooperative project with Southern Pacific Company to increase the vertical clearance at the undercrossing on the old Pacific Highway at Glenwood near Springfield. The Engineer advised that numerous accidents have occurred at this underpass during the past few years, caused principally by overheight log trucks, and that the Southern Pacific Company is fearful that a serious accident will occur to one of its main line trains. He pointed out that the vertical clearance at the underpass now is 12 feet, 11 3/4 inches, but it can be increased to 14 feet by lowering of the roadway. Such a project, he said, will involve construction of curbs and an outlet ditch about 1,200 feet long, mostly along railroad right of way. The cost he estimated at $5,400. As there is a definite hazard at this location, not only to railway traffic but to highway traffic, he recommended approval of the project as a cooperative one with Southern Pacific Company on the following basis: 1. Railroad Company to furnish free of charge such area of its right of way as is needed for the drainage ditch; and 2. The estimated $5,400 cost of construction to be divided equally between the Company and the State. The Commission approved the recommendation.

The Commission, upon request of the Engineer, approved an increase of $2,000 in the project authorization in connection with Contract No. 4261, grading and paving the West Hood River Connection of the new Columbia River Highway, in Hood River County.

The Engineer requested an increase of $78,000 in the project authorizatior for Contract No. 4064 for grading and paving the Seven Oaks-Medford Unit of the Pacific Highway in Jackson County. The overrun, he explained, is caused by three major items: (1.) Installation of 18" storm sewer pipe at a cost of $15,000. It was originally planned to take care of drainage on the surface, but due to right of way difficulties and increased building activities it was deemed necessary to install a storm sewer system; (2.) overrun of about $26,000 in gravel base materials. The materials found in the designated Bear Creek gravel pit were unsuitable and it was necessary to abandon the pit and obtain material from the Rogue River which involved a material increase in the haul distance; (3.) overrun in asphaltic concrete amounting to slightly in excess of $36,000. The original plans called for 1½ inches of asphaltic concrete over the old pavement but to secure a smooth riding surface, it was necessary to increase the thickness to 3½ inches. Additional financing, he said, will not be required as this overrun on this project will be offset by underruns on other projects. The Commission approved the increase as requested.

The Commission gave attention to a request from Jackson County Court that the State take over and maintain two sections of county roads adjacent to the newly constructed portion of the Pacific Highway between Rock Point and Blackwell Hill. The Engineer stated that under the terms of a perviously signed agreement, Jackson County is to take over for maintenance a section of the old Pacific Highway between Gold Hill and Seven Oaks, a distance of approximately seven miles; also, that the two county road sections that the County wants the State to maintain have a total length of 1.95 miles. These two roads, he said, are so situated that they act as frontage roads to the new highway and actually are a part of the State's frontage road system. In view thereof he recommended that the State assume maintenance of the two sections as soon as the County has completed transfer of the roads to the State. The Commission accepted the recommendation.

Attention was given by the Commission to a report from the Engineer with respect to the South Sixth Street viaduct in Klamath Falls. The Engineer recalled that the original plan provided for a two-lane viaduct adjacent to the present structure, using it for southbound traffic and the present viaduct for northbound traffic. Present thinking, he said, is that the existing bridge is so narrow and the approaches so steep (7o/o grades) that the structure would be hazardous even for one-way traffic, especially when frost and ice conditions prevail in the winter season. He estimated the cost to construct the new structure for two lanes with some temporary revisions on the old structure, and later to widen it to a four-lane standard, at $780,000. In contrast to this, he pointed out that a new four lane structure can be built and the old bridge torn down for $645,000. He recommended construction of a four-lane structure now, bids to be received as soon as plans can be prepared. The Commission approved the recommendation.

A request was considered from the city of Medford for installation of three additional traffic signals in Medford. The Engineer recalled that at the April, 1954, meeting the Commission authorized a traffic signal project on the Pacific Highway in this city at a total cost of $13,000, the expense to be shared equally between the City and the State. The City, he said, has now requested installation of three additional signals at the intersections of Manzanita Street with Court Street, Manzanita Street with Riverside Avenue and 9th Street with Riverside Avenue. A traffic study, he added, indicates that these signals are needed, and that the additional cost will amount to about $6,200, or a total of $19,200 for the entire project, the State's share being one-half of that amount, or $9,600. He recommended approval of the project on the basis of the original arrangement and that the work be performed as one unit. The Commission approved the recommendation.

A petition signed by 26 residents along the Powers Secondary Highway requesting a traffic signal at the junction of the Coos Bay-Roseburg Highway and the Powers Secondary Highway was considered. The Engineer reported that similar requests have been received in the past and that investigations indicate that the signal is not warranted. The investigation in response to this latest petition, he said, still shows that the traffic signal is not warranted. Also, due to inadequate sight distance, there would be an increased hazard for rear-end collisions. He recommended

that the request be denied. The recommendation was approved by the Commission.

The Engineer requested and the Commission granted authority to restore the proposed Clay Street-Columbia Street Traffic Interchange in Portland to the active schedule of contract lettings, with bids to be called in January, 1955. The plans he stated, are now complete for this interchange, and an agreement has been reached with the City relative to changing the one-way street couplets that are involved. The cost of the project he estimated at $800,000, of which $600,000 has been allocated from 1954 Federal-aid Urban funds. The additional $200,000 he felt could be secured from savings in urban funds on other contracts.

A request was also considered from the Tigard Business Men's Club for: (1.) Additional right-hand turn lanes for traffic entering US99W from ORE 217. (2.) Improvement of the Beaverton-Aurora Secondary Highway from Tigard to the Union High School. (3.) Removal of the fire hazard that exists on the banks of the overpass through Tigard. These requests, the Engineer stated, have been carefully investigated. Concerning the right-hand turn lanes for traffic entering US99W from ORE 217, he pointed out that a traffic signal and channelization project was recently installed and traffic is now being handled very well at this intersection. He recommended that no additional measures be undertaken at this point. Concerning the request for improvement of the highway from Tigard to the Union High School, the Engineer recalled that about two years ago a similar request received from Mr. J. O. Johnson was denied. As there are no funds available for this work, he recommended that the present request also be denied, but that the matter be given further consideration when funds are available. Concerning the alleged fire hazard on the banks of the overpass in Tigard, the Engineer questioned the danger from fire but stated that the weeds and blackberry bushes provide an unsightly appearance. He recommended that the weeds and other unwanted vegetation be removed from the embankments and that English ivy be planted at an estimated cost of $13,000. The Commission approved the recommendations as made by the Engineer.

The Engineer reported that the survey for the East Unit of the Yamhill-Newberg Secondary Highway has been completed. He exhibited a map showing the location and pointed out that the new route follows the existing right of way with the exception of a section near Newberg. He recommended that the survey be adopted so that bids can be called for construction of the unit at an early date. The Commission deferred action on this matter pending the appearance of a delegation on the following day. (The delegation appeared as scheduled and requested that the revision in alignment be made to the north of the existing highway rather than to the south as proposed by the Engineer. They were advised by the Commission that their request would be considered. Near the close of the second day the matter was again discussed and the Commission at that time approved the Engineer's recommended relocation.) (See ahead for additional entry and resolution.)

The Engineer reported that the towns of Eastside and Shaniko have

satisfied the legal requirements with respect to the expenditure of State Tax Street Funds accrued to them during the second six months period of 1953; also that the towns of Adams, Aurora, Canyon City, Cornelius, Creswell, Detroit, Dundee, Eastside, Granite, Ione, Island City, Long Creek, Manzanita, Maupin, Metolius, Powers, Rogue River, Siletz, Sisters, and Troutdale have satisfied the legal requirements with respect to State Tax Street Funds accrued to them during the first half of 1954. The plans for the projects proposed to be financed with the funds in each instance, he said, have been examined and found satisfactory and he recommended approval of the plans. The Commission approved the plans by adopting the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Authority to spend about $2,500 to demolish the remaining portion of the old Koberg Beach dance hall near Hood River was requested by the Engineer. He explained that the superstructure and floor have been removed because of their dilapidated and unsafe condition, and that the remaining substructure, portions of which are 12 feet above the ground, presents a hazard, particularly to children. The posting of warning signs, he stated, is not considered by the Chief Counsel to be sufficient to escape liability as many children cannot read and others might ignore the signs. He exhibited photographs of the existing structure and recommended that it be demolished. The Commission approved the recommendation.

A request from Santiam Lodge near the summit of the Cascade Mountains on the Santiam Highway for snow removal from an off-highway parking lot, was considered. The Engineer stated that the Lodge was constructed by the U.S. Forestry Service and is operated under lease by Kenneth I. Hanson, also, that snow has been plowed from the approaches to the Lodge since 1940. He recommended, in order to be consistent with the policy followed at Government Camp and in the State of California, that snow be plowed off this parking lot after the highway has been cleared for two-way traffic. The annual cost he estimated at $130. The Engineer's recommendation was approved by the Commission.

The Commission gave consideration to a request from the Woodburn City Council for improvement of the connection between the Hillsboro-Silverton Secondary Highway with Front Street in Woodburn. The Engineer stated an investigation reveals that the improvement requested would not result in any particular benefit unless a major rerouting of the highway through Woodburn was effected. He estimated the cost of such rerouting at $130,000. He pointed out that there will be an interchange at the intersection of the Hillsboro-Silverton Highway with the Salem-Portland Expressway which, undoubtedly, will cause a large increase in traffic over this highway from Woodburn, and he gave as his thought that improvement of the alignment of the Hillsboro-Silverton Highway probably will be desirable in the not distant future. He recommended that the City officials be informed of the ultimate plan and that their request will be given further consideration when the Expressway is opened for public use and the traffic pattern developed. The Commission approved the Engineer's recommendation.

Attention was given to a request from the Estacada City Council that a study be made relative to relocating the Estacada Secondary Highway in Estacada to avoid city schools. The existing highway through Estacada, the Engineer stated, is satisfactory for the traffic that it now bears, but it does pass in front of their principal school. He added that this condition exists in many towns and rural communities and that it is his belief that the State Highway Department is not in a position to start to make highway relocations in order to avoid school buildings. Actually, he said, in numerous instances, new schools have been built adjacent to existing highways and heavy traffic conditions. He recommended that the request be denied. The Commission adopted the recommendation.

The Commission considered and by affirmative vote granted the following requests for extensions of time within which to complete highway contracts, the Commission's action in each instance being in conformity with the Engineer's recommendation:

1. Lind & Marr Construction Company, Contract No. 4219 for Salem By-pass Fencing Project on the Pacific Highway East in Marion County, requested an extension of time from September 30, 1954 to November 30, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

2. M. C. Lininger & Sons, Contract No. 4126, for the Reese Creek-Prospect Rock Production Project on the Crater Lake Highway in Jackson County, requested an extension of time from October 31, 1954 to January 31, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

3. N. A. Toole Construction Company, Contract No. 4214, for the Suntex Rock Production Project on the Central Oregon and Lakeview-Burns Highways in Harney County, requested an extension of time from September 30, 1954 to December 31, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

4. Warren Northwest, Inc., Contract No. 4155, for paving First Street in Nyssa in Malheur County, requested an extension of time from September 30, 1954 to October 18, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

5. Porter W. Yett, Contract No. 4020, for grading and pavement widening on the Rice Hill Section of the Pacific Highway in Douglas County, requested an extension of time from October 31, 1954 to August 31, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

6. Lee Hoffman, Contract No. 4130, for bridge construction over Calapooya River on the Pacific Highway in Linn County, requested an extension of time from September 30, 1954 to December 31, 1954 within

which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

7. Tom Lillebo, Contract No. 3904, for construction of three structures on Deady-Winchester Unit of the Pacific Highway in Douglas County, requested an extension of time from April 30, 1954 to September 30, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

8. Johnston & Bryant, Contract No. 4051, for construction of the Glenwood-North Plains Structures on the Wilson River Highway in Washington County, requested an additional extension of time from September 30, 1954 to October 14, 1954 within which to complete this work. The Engineer recommended that this additional extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

9. Roseburg Paving Company, Contract No. 4165, for paving First Street in the town of Myrtle Creek in Douglas County, requested an extension of time from September 15, 1954 to October 15, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

10. Roseburg Paving Company, Contract No. 4189, for paving Front Street in the town of Riddle in Douglas County, requested an extension of time of 30 days from September 15, 1954 to October 15, 1954 within which to complete this work. The Engineer recommended that the extension of time be granted without penalty up to and including September 22, 1954 on which day the job was actually completed.

11. Roseburg Paving Company, Contract No. 4176, for grading and paving Sether Avenue in the town of Glendale in Douglas County, requested an extension of time from September 15, 1954 to October 15, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

12. R. H. Jones, Contract No. 4006, for construction of addition to Meacham Maintenance Building on the Old Oregon Trail Highway in Umatilla County, requested an additional extension of time from March 1, 1954 to October 31, 1954 within which to complete this work. The Engineer recommended that the additional extension of time as requested be granted without penalty.

13. Funderburk Construction Company, Contract No. 3877, for grading and oil mat surfacing on the South Umpqua River-Fairgrounds Unit, Deady-Shady Section of the Pacific Highway in Douglas County requested an extension of time from August 31, 1954 to November 5, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring

therein.

14. Porter W. Yett, Contract No. 4019, for paving the Anlauf-Rice Hill Unit, Divide-Rice Hill Section of the Pacific Highway in Douglas County requested an extension of time from October 31, 1954 to August 31, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

15. C. E. Leseberg, Contract No. 4199, for grading and oil mat surfacing on the Hy-Line Road in Malheur County, requested an extension of time from September 15, 1954 to November 1, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

16. Jed Wilson, Contract No. 4090, for paving on Grant Creek-Bradley Park Section of the Columbia River Highway in Clatsop County, requested an extension of time from September 30, 1954 to October 30, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

17. Warren Northwest, Inc., Contract No. 4067, for grading and paving the Brothers-Hampton Section of the Central Oregon Highway in Deschutes County, requested an extension of time from September 30, 1954 to October 31, 1954 within which to complete this work. The Engineer recommended that the extension of time be granted without penalty to October 22, 1954, the completion date of the contract. A letter was presented from the Bureau of Public Roads concurring therein.

18. Glen Ousley, Contract No. 4014, for grading and surfacing on the Reedy Creek-Beamer Creek Section of the Yachats River County Road in Lincoln County, requested an extension of time from July 31, 1954 to October 7, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

19. The Central Heating Company of Oregon Ltd. and F. L. Somers, Contract No. 3925, for grading and paving on the Provolt-Jacksonville Section of the Medford-Provolt Highway in Jackson County, requested an extension of time from July 31, 1954 to October 28, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

20. Morrison-Knudsen Company, Inc., Contract No. 4233, for bridge widening, grading and rock surfacing on the Enterprise-Brock Corner Section of the Fish Hatchery Road in Wallowa County, requested an ex-

tension of time from September 30, 1954 to and including November 8, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

21. R & M Construction Company, Contract No. 4250, for construction of guard rail on the Salem By-Pass of the Pacific Highway East in Marion County, requested an extension of time from November 30, 1954 to March 31, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

22. M. C. Lininger & Sons, Contract No. 4166, for slide correction and rock production on the Siskiyou Section of the Pacific Highway in Jackson County, requested an additional extension of time from October 15, 1954 to November 8, 1954 within which to complete this work. The Engineer recommended that the additional extension of time as requested be granted without penalty.

23. Fred Rouse and Henry H. Miller, Contract No. 4195, for grading and oil mat surfacing on the Burns Corner-Lewisville Section of the Burns Corner-Suver County Road in Polk County, requested an extension of time from October 31, 1954 to October 31, 1955 within which to complete this work. The Engineer recommended that the extension of time be granted without penalty only to July 31, 1955. A letter was presented from the Bureau of Public Roads concurring therein.

24. A. H. Saxton & Son, Contract No. 4073, for grading and paving the Canyonville-O'Shea Creek Section on the Tiller-Trail Secondary Highway in Douglas County, requested an extension of time from August 31, 1954 to July 1, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

25. The Central Heating Company, Oregon Ltd., Contract No. 4173, for grading and paving the West Unit, Eagle Rock-Post Section of the Paulina Secondary Highway in Crook County requested an extension of time from September 30, 1954 to January 1, 1955 within which to complete this work. The Engineer recommended that the extension of time be granted without penalty to November 18, 1954, on which day the job was actually completed. A letter was presented from the Bureau of Public Roads concurring therein.

26. Kissell & Robinson, Contract No. 4179, for fencing the Goshen-Divide Section of the Pacific Highway in Lane County, requested an extension of time from August 31, 1954 to August 31, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

27. Harold W. Salter, Contract No. 4243 for fencing the Rock Point-Seven Oaks Section of the Pacific Highway in Jackson County, requested an extension of time from November 30, 1954 to January 31, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

28. Gibbons and Reed, Contract No. 4053, for grading the 42nd Avenue-92nd Avenue Section on the T. H. Banfield Expressway in Multnomah County, requested an extension of time from November 30, 1954 to February 28, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

29. Kuckenberg Construction Company, Contract No. 3984, for bridge construction and grading on the Clatskanie-Delena Section of the Columbia River Highway in Columbia County, requested an extension of time from June 30, 1954 to November 22, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

30. Durbin Brothers, Contract No. 4065, for grading the Goshen-Coast Fork Willamette River Unit, Goshen-Divide Section of the Pacific Highway in Lane County, requested an extension of time from November 30, 1954 to June 30, 1955 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

31. Hutton-Kalkhoven, Contract No. 4286, for embankment and riprap repair on the Oneonta Section of the Columbia River Highway in Multnomah County, requested an extension of time from November 30, 1954 to December 15, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

FOOTNOTE The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. (For further details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.)

Chairman Chandler called attention to deferred construction projects as shown in the Engineer's schedule of contract lettings dated December 6, 1954, particularly the paving work on the Goshen-Divide Section of the Pacific Highway which is presently scheduled to be contracted after June, 1955. He pointed out that if bids are not received prior to July, the possibility of completing the paving work during the 1955 working season would be extremely remote. The Engineer was instructed to check all of the deferred projects with a view to letting contracts prior to July, and to submit a report to the Commission at the January meeting. The Engineer was also requested to prepare a map for each Commissioner, showing the present status and probable dates of completion for all current highway contracts.

The Engineer reported that Contracts Nos. 3876, 3879, 3904, 3970, 4006, 4051, 4060, 4066, 4067, 4071, 4083, 4084, 4087, 4091, 4096, 4100, 4105, 4110, 4117, 4143, 4155, 4165, 4166, 4167, 4168, 4176, 4189, 4192, 4216, 4221, 4245, 4247, 4255, 4260, and 4265 for construction of state highway projects have been completed according to the requirements of the contracts or modifications thereof, and that said projects are now ready for acceptance. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A petition from 51 residents of Long Creek and vicinity requesting completion of the oiling on the Kimberly-Long Creek Secondary Highway, was considered. The Engineer advised that the uncompleted section is about 8 miles long and that it will cost about $420,000 to build it; also that the petitioners are principally interested in improvement of the portion within and adjacent to the town of Long Creek. He further stated that an amount of $100,000 is included in the tentative 1957 Secondary Highway Budget for improvement of a two mile section extending westerly from the town of Long Creek. The Commission deferred action to the January meeting, when the programming of Federal Secondary Highway funds is discussed.

Consideration was given to a request from Lincoln County School District and others for paving the unpaved portion of the Siletz-Kernville Secondary Highway northerly from the town of Siletz. The Engineer stated that no money is available now to finance such a project but he gave as his thought that the improvement should be undertaken during the next 5-year period. The Commission deferred action in this matter pending the appearance of a delegation on the following day. (The delegation appeared as scheduled and was informed that an investigation will be made as to feasibility, cost and other features for consideration by the Commission in programming future highway funds. The Engineer thereupon was instructed to make such investigation and report the findings.)

The Commission gave attention to requests from Mr. F. C. Green, Polk County School Superintendent, and from a Mrs. Comstock, Independence, for speed zoning and other traffic improvements on the Independence Secondary Highway at the "Oak Point" School. An investigation has been made,

the Engineer stated, and the results indicated that a reduced speed zone is not warranted. In lieu of speed zoning, he recommended that 20 miles per hour speed signs be installed on existing school sign posts, on each side of the school, and that brush be removed from the right of way to improve sight distance at the school driveways. The recommendation was accepted by the Commission.

Consideration was also given to a request from Pleasant Valley Grange, Tillamook, for a speed zone designation on the Oregon Coast Highway south of Tillamook. The Engineer reported that because of facts obtained from a traffic engineering investigation, it is his recommendation that a 50-mile per hour speed zone be established from a point 0.19 mile north of Simmons Creek (M.P. 83.70) to a point 0.21 mile north of the Pleasant Valley Store (M.P. 85.00), and that a 40-mile per hour speed zone be established from M.P. 85.00 to a point 250 feet south of the Pleasant Valley Store (M.P. 85.26). He also recommended that 100 feet of guard rail be installed on the westerly side of the highway north of the Simmons Creek Bridge at an estimated cost of $350. The Commission approved the Engineer's recommendations and thereupon adopted the attached resolution relative thereto marked EXHIBIT "E-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that reconstruction of the Pacific Highway between M.P. 118.98 and the north city limits of Eugene (M.P. 122.25) was completed in October, 1954, with provision made for four moving traffic lanes and "jiggle-bar" separation and left-turn refuges. He recommended, in view of the improvements, that the existing 40-mile per hour speed zone established July 21, 1947 between the city limits of Eugene and Prairie Road Junction be rescinded and that a 50-mile per hour speed zone be established from a point 0.15 mile north of Prairie Road Junction (M.P. 118.83) to a point 0.19 mile south of Bonneville Substation (M.P. 120.22); also, that a 40-mile per hour speed zone be established from M.P. 120.22 to the north city limits of Eugene (M.P. 122.25). The Commission approved the Engineer's recommendations and thereupon adopted the attached resolution relative thereto marked EXHIBIT "E-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer brought to the attention of the Commission a complaint that the parking of vehicles within the triangular area at the junction of Weiser Spur and the Old Oregon Trail in Malheur County causes a traffic hazard. An investigation was made of this matter, he said, and it was found that there is considerable parking at the junction each day and that vehicles do restrict sight distance for vehicles entering US30 from Weiser Spur. He recommended that the parking of vehicles within the confines of the junction be prohibited, and that suitable barricades be erected to control this prohibition. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "F-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A report was submitted by the Engineer on a complaint received that

"head-in" parking of vehicles on the Alsea Highway in the community of Alsea constitutes a traffic hazard. He explained that through the central part of Alsea there is a 41-foot bituminous pavement with gravel shoulders ranging from $3\frac{1}{2}$ to 6 feet in width. The "head-in" parking of vehicles, he said, has been responsible for a number of accidents and he recommended in view thereof that parallel parking only be allowed on both sides of the Alsea Highway in this community between the easterly property line of First Street (M.P. 40.39) and the westerly property line of Third Street (M.P. 40.53). The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "F-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the City of Eugene, upon request of the Highway Department, has passed an ordinance authorizing the placement of "No Parking at Any Time" signs on the south side of Sixth Avenue between Garfield and McKinley Streets and on the north side of Seventh Avenue between Garfield and McKinley Streets in order to eliminate a serious traffic hazard that exists at this shopping center. He explained that both streets form a one-way traffic couplet for the Pacific Highway East and that the parking of motor vehicles, especially long truck combinations, presents a hazard to the traveling public and to people who patronize the businesses adjacent thereto. He recommended approval of such parking restrictions. The Commission accepted the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "F-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and upon the Engineer's favorable recommenation approved out of state travel expense for the following employees:

1. Carl W. Jordan, Director of Travel Information, to attend the Pacific Northwest Travel Association's Travel Show in Kansas City, Missouri, during January 28-February 6, 1955, at an estimated cost of $353.55; also that he attend the annual meeting of the Board of Directors of the Pacific Northwest Travel Association in Butte, Montana, on January 15 and 16, 1955, at an estimated cost of $93.75.

2. R. H. Baldock, State Highway Engineer, and G. S. Paxson, Assistant State Highway Engineer, to attend the annual meeting of the Highway Research Board in Washington, D. C. during January 10-14, 1955, at an estimated total cost of $710; also, to authorize Roy C. Edgerton, Research Engineer, and Louis E. Scott, Geologist, to attend the same meeting, their expenses to be paid by the Highway Research Board.

3. Gene Huntley, Personnel Director, to attend the Fifth Annual Conference of the Western College Placement Association in Seattle, Washington, on January 20 and 21, 1955, at an estimated cost of $72.

4. Confirmation of approval for George C. Hester, Jr., to attend a meeting of Western Interstate Committee on Highway Policy Problems, Council of State Governments, in Las Vegas, Nevada, on December 6 and 7, 1954, at an estimated cost of $185.

The Commission discussed and ordered filed a resolution from the Washington State Council of Carpenters urging construction of a toll bridge between Washington and Oregon at Astoria, and that the States of Washington and Oregon participate in the program with the U. S. Army Engineers.

Attention was given by the Commission to a request from the Union County Historical Society, La Grande, that the section of the Old Oregon Trail which extends from the railroad overcrossing structure at the junction of Blackhawk Trail, to Adams Avenue, near the Grande Ronde Hospital in La Grande be named "Oro Dell Boulevard" in commemoration of the once busy town of Oro Dell which was located at the mouth of Grande Ronde River Canyon. Also suggested was the placement of a suitable marker on the highway honoring George and Edith Currey, pioneers of the La Grande Valley whose greatest ambition was that this highway section be named "Oro Dell Boulevard." As a result of discussion the Commission unanimously approved the naming of this highway section "Oro Dell Boulevard", and the erection of a marker with appropriate text, subject, however, to the condition that the text shall first be approved by the Memorials Committee of the Oregon Historical Society and that it contain no reference to any individual in conformity with long established policy. The Commission adopted the attached resolution relative thereto marked Exhibit "H", which resolution by this reference is made a part hereof with like effect as though copied in full herein.

The Engineer reported that the following described highway sections have been reconstructed and that it now is in order for the Commission to dispose of the portions of the old highways that no longer are of value for state highway purposes, in conformity with the provisions of agreements heretofore entered into with the County Courts of the Counties involved, and he so recommended:

1. Mt. Vernon-John Day Section of the John Day Highway in Grant County.

2. Jackson Grade Unit, Provolt-Jacksonville Section of the Medford-Provolt Secondary Highway in Jackson County.

3. Vale-Cairo Junction Section of the Central Oregon Highway in Malheur County.

The Commission approved the recommendation by adopting the attached resolutions relative thereto marked EXHIBITS "C-1" through "C-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Consideration was given to a request from the City of Canby for the removal of two trees fronting the Girod Building on the Pacific Highway East in Canby. The Engineer advised that an examination was made of the trees by the Landscape Engineer who reports that the trees are not a hazard to traffic, and do not interfere with the parallel parking of vehicles between the trees and the paved traffic lanes, nor with sight distance along the highway. His recommendation that the trees not be removed was approved by the Commission.

The Engineer reported that a resolution has been adopted by the City Council of Sutherlin concerning rearrangement of stop signs within the City so as to make Central Avenue a "Through" street. He explained that prior to opening the new Pacific Highway which by-passes Sutherlin, the old route was naturally an arterial through the City and all traffic was required to stop before entering it, however, since opening the new highway Central Avenue which extends westerly from Sutherlin to an interchange with the new highway, carries a much higher traffic volume than the streets over which the old Pacific Highway was routed. The City Council, he stated, has taken action to allow traffic to flow freely on Central Avenue over which a portion of the Elkton-Sutherlin Secondary Highway is routed. An investigation of the City's plan, he said, indicates that it is a desirable one and he recommended approval of the same by the Commission. The Commission adopted the recommendation.

The Engineer requested authority to rearrange the "stop" signs at the intersection of Main Street and Monmouth Street on the old route of the Pacific Highway West in Monmouth so as to fit changed conditions. He explained that a flashing beacon was installed at this intersection when the Pacific Highway West was routed over the easterly and northerly legs of the intersection, and the Monmouth Highway was routed over the westerly leg of the intersection, and traffic from the south and west was required to stop before entering the intersection. The alignment of the Pacific Highway West, he stated, has recently been changed and the stop indications previously approved are no longer applicable. Since the Monmouth Secondary Highway has now been extended over Main Street easterly from Monmouth Street to East Street, and the majority of the traffic in the intersection moves east and west through it, he recommended that traffic on Monmouth Street from both the north and the south be required to stop before entering the intersection at Main Street, and that Main Street traffic (Monmouth Secondary Highway) be permitted to enter the intersection from the east and west without stopping; also, that the flashing beacon be adjusted accordingly. The Commission approved the recommendation and so ordered.

Attention was given to a letter from William E. Fuller, Gold Beach, an attorney who represents the Veteran's Memorial Association of that place, concerning the purchase of some of the Association's property for widening the Oregon Coast Highway in Gold Beach. Mr. Fuller explains that the Association wants to remodel its building but is reluctant to do so if the building is to be torn down for the highway improvement. The Engineer advised that the survey for the Gold Beach section has not yet been

approved, but it is an established fact that it will be necessary to cut off a portion of the building in order to meet the highway requirements. He recommended, in view thereof, that authority be granted the right of way department to negotiate acquisition of the property now. The recommendation was approved by the Commission.

The Engineer reported that in November 1954, the following new highway sections were opened to traffic: (1) A section of the Portland-Salem Expressway extending from its junction with US 99W in Tigard to its junction with the Wilsonville-Hubbard Highway just south of the Willamette River at Wilsonville. (2) The entire length of the Wilsonville-Hubbard Highway, formerly known as the West Portland Interim Highway and the Sandy Bypass section of the Pacific Highway East. These highway sections, as stated, have been posted to permit certain traffic including trucks, passenger buses, truck tractors or truck tractor combinations exceeding an overall length of 45 feet, from being authority to operate on these highways. He recommended that these highway sections be designated State Highways. The Commission approved the recommendation and so ordered.

The Engineer presented for the Commission's consideration a map showing a proposed system of highways over which various classes of vehicle combinations are permitted to operate. He reported that the Commission at its meeting in October 1953 approved by appropriate resolution the original of this map which had been used at hearings conducted prior to specific overall lengths and gross weights that are allowed in excess of the basic limits provided by statute. During the past year, however, several minor revisions have been made in the types of highways shown on the map as follows: (1) Black and white stripes (Class I Highways) over short trucks and trailer combinations 45 feet long and with a gross weight of 73,000 pounds are authorized on the Specified Highways or sections thereof designated for such operation. (2) Vertical black and white stripes (Class II Highways) over short trucks and trailer combinations 45 feet long and with a gross weight of 73,000 pounds are authorized and are designated as a system of Class II Highways over which vehicles may be operated to 45 feet in length, with a maximum gross weight of [illegible] pounds, in accordance with the table of weights given in the statutes. These revisions have been [illegible] and the map has been revised accordingly. [illegible] Engineer had stated that [illegible] Bend-Redmond [illegible] Highway [illegible] Bend-Redmond Highway [illegible]

highway. The Engineer stated that he would have an investigation made in the very near future and submit a report.

The Commission considered a revised form of permit covering the continuous operation of overwidth loads of forest products. The Engineer reported that approximately 150 overwidth permits for the hauling of forest products on a solo truck have been issued, the over-all length of which does not exceed 35 feet and the width limited to 8 feet 6 inches. He pointed out that the motor vehicle laws do not require loaded trucks to display clearance lights on the load when hauling during the hours of darkness. He, therefore, recommended that the form of permit previously approved by the Commission covering the transportation of forest products, be revised as follows:

1. To comply with the mandatory regulations governing the transportation of logs, poles, or piling, which are incorporated in the PUC permit.

2. That on any load in excess of eight feet in width, hauled during the hours of darkness between 4:00 a.m. and 8:00 p.m., there shall be displayed amber side-marker lamps at each bottom corner of the load in such manner as to be clearly visible to other vehicles approaching from the front and rear, in addition to such other lighted lamps and illuminating devices required to be on the equipment by statute.

The Commission approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A request was presented from the Waverly Shopping Center, Inc., Albany, that the Commission give its consent to annexation to the City of certain property adjacent to the east city limits of Albany. The Engineer pointed out that within the boundaries of the property proposed to be annexed to the City is a parcel owned by the State. He recommended nevertheless, that the Commission offer no objection to the proposed annexation. The recommendation was approved by the Commission.

The Commission confirmed renewal of Depositor's Forgery Bond with the Pacific Indemnity Company through its agents Pownall, Taylor & Hays for a three-year period beginning November 2, 1954, at a total premium of $356.61.

The Commission approved the Secretary's report on papers signed by himself in behalf of the Commission during the period of October 25, 1954 to December 3, 1954.

The Commission discussed a date for its next regular meeting and decided to hold such meeting on Tuesday and Wednesday, January 18 and 19, 1955 in the Benson Hotel, Portland. A tentative date for the next following meeting was set for Wednesday and Thursday, February 23 and 24,

1955. The Secretary was instructed to arrange for accommodations.

The Commission considered an application from Pexco, Inc., San Francisco, to lease the mineral, oil and gas rights on properties owned by the State Highway Department. The Engineer advised that the Company particularly requests the lease rights on ten properties located in Central and Eastern Oregon--only three of which include State Highway Department property, being right of way along a 15-mile section of the Central Oregon Highway between Bend and Burns, containing about 400 acres of land. He added that the Company offers to pay $0.25 per acre for such rights or a total of $100. It was his opinion that it would not be in the best interests of the State and the traveling public to allow exploratory drilling for oil and gas and etc. within the limits of the right of way; accordingly, he recommended that the request be denied. The Commission adopted the recommendation.

Attention was given to a form of agreement with George C. Dowell, owner of Stage Coach Pass Motel located north of Grants Pass on the Pacific Highway, for installation of lights at his place of business. The Engineer advised that the proposed installation has been investigated, and that it is his recommendation that the Commission approve the agreement which, he said, provides, among other things, that Mr. Dowell shall pay the entire cost of installing and maintaining the mercury vapor luminaire units, which shall be installed according to state specifications. The Commission approved the agreement as recommended.

The Commission discussed with the Engineer the problems that are to be presented by delegations on the following day but deferred action on them pending discussion with the delegations.

The Engineer reported briefly the status of the Federal-Aid highway construction plan as proposed by President Eisenhower.

The Engineer reported that the St. Helens Pulp and Paper Company, is conducting logging operations on the northerly side of the Sunset Highway about two and one-half miles east of Necanicum Junction and has inquired about the possibility of logging some snags and green timber on the highway right of way in connection therewith. The Company, he said, has made a firm offer to cut three or four fir snags containing approximately 20,000 MFBM for which it will pay at the rate of $20 per MFBM, and to pay $10 per MFBM for several large hemlock trees. He recommended sale of the fir snags to the Company at the price mentioned, Columbia River log scale, but that the hemlock trees be retained as they present no hazard to traffic should they blow down. The Engineer's recommendation was approved by the Commission.

A report was rendered by the Engineer on the collapse of the Snake River bridge at Nyssa on the morning of Saturday, December 4, 1954. He said that the structure is an old one built by Malheur County in 1911, and that it was taken over by the State in 1920; also, that the failure occurred as a result of the tongue of a truck-mounted trailer striking the portal

bracing on the west end of the easterly span and that temporary repairs will be made so that the bridge can be used within a week's time. The Engineer estimated the cost to construct a new bridge, including approaches, between $400,000 and $500,000. He pointed out that under the terms of an agreement with the State of Idaho, the cost to replace the structure is to be divided equally between the two States. According to the Engineer the old bridge, is of light construction and has a roadway width of only 19 feet one inch; also, that to repair the broken span only will cost approximately $30,000. The Engineer gave as his opinion that it would be much more desirable to build an entirely new structure than to repair the existing one. He requested authority to contact Idaho state officials with the view of constructing a new steel or prestressed concrete bridge. As to financing it, he pointed out that there is available about $700,000 of bond funds and additional funds from savings on contract lettings. As a result of discussion motion was made by Commissioner Reynolds that the Idaho state officials be contacted relative to construction of a new bridge. The motion was seconded by Commissioner McIver and was declared by Chairman Chandler to have received the unanimous vote of the Commission.

The Secretary read aloud two letters from the West Coast Telephone Company, Coos Bay, in one of which request is made for a review of the Commission's policy with respect to the placement of pole lines on state highway right of way, and in the other the Commission is requested to clarify a situation where the Company is required to pay the cost to move its pole line a second and third time to accommodate highway construction. It was pointed out that the Company has been requested to remove its pole line for the second time to accommodate a project at the north end of the Reedsport Elbow Lake project because of a change in the grade and alignment of the highway at this point, and in another instance, on the Bunker Hill-Delmar Section, the Company was required to move its pole line three different times at a cost of approximately $7,000. Also requested was that the procedure for processing permits be revised to eliminate costly delays that occur under present procedure. In connection with the first of the above-mentioned letters, the Company pointed out the present policy of the Commismission requires placement of poles one foot from the right of way line, which, it was stated, in many cases forces the securing of easements from private property owners for anchors, overhang on private property, and for permission to cut timber and brush which many times is difficult to obtain. It was the feeling of the Company that in some instances the placement of poles a greater distance from the right of way line would be satisfactory. The Commission referred both letters to the Engineer for investigation and report.

A letter was presented from the Baker County Commercial Club in behalf of improvements to the Baker-Homestead Highway and to the Anthony Lakes Secondary Highway. The Secretary was instructed to include it on the agenda for discussion at the meeting scheduled to be held in January.

The Commission discussed and approved a revised copy of the Commis-

sion's statement for use in the Biennial Report of the Commission covering the fiscal years 1953 and 1954, upon assurance of the Engineer that changes suggested at the previous meeting had been made.

Chairman Chandler inquired if there has been any interest shown in the purchase of the excess Fred Meyer property on the T. H. Banfield Expressway in Portland. The Chief Counsel stated that several people have evidenced interest, but that is all, and that until the property is sold a portion of it is being rented. Commissioner McIver commented that one party to his knowledge has indicated that he might offer $250,000 for the property.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4:45 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's decisions being by unanimous vote:

"Construction of Blodgett Overcrossing over the Yaquina Branch of the Southern Pacific Company and Marys River on the Corvallis-Newport Highway in Benton County: The Commission elects to accept the bid of L. B. Read, Portland, in the sum of $123,775, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Necanicum Rock Production Project on the Oregon Coast, Sunset and Necanicum Highways southeast of Seaside in Clatsop County: The Commission awarded the contract to the low bidder, C & W. Crushing Company, Seaside, at their bid price of $23,400.

"Birkenfeld-Washington County Line Rock Production Project on the Nehalem Highway north and south of Vernonia in Columbia County: The Commission awarded the contract to the low bidder, C. C. Meisel, McMinnville, at his bid price of $21,900.

"Regrading and paving on the Prineville-Eagle Rock Section of the Paulina Highway in Crook County: The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at their bid price of $258,469.

"Humbug State Park Expansion in Curry County. The Commission awarded the contract to the low bidder, Coastal Equipment and Repair Company, Empire, at their bid price of $7,592.30.

"Construction of four structures at Shady Point on new alignment of the Pacific Highway in Douglas County: The Commission awarded the contract to the low bidder, Tom Lillebo, Reedsport, at his bid price of $158,391.

"Grading on the Ritter-Rush Creek Section of the Ritter County Road westerly of Long Creek in Grant County: The Commission elects to accept the bid of White Brothers Company, Walla Walla, Washington, in the sum

of $91,074 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Grant County is received and the sum of $20,500 is deposited by the County.

"Grading, roadbed reshaping, paving and furnishing crushed materials in stockpile on the Crow-Gillespie Corner Section of the Territorial Highway about 14 miles west of Eugene in Lane County: The Commission elects to accept the bid of Warren Northwest, Inc., Portland, in the sum of $340,268.50, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Construction of Cottage Grove Connection Overcrossing on a connecting highway over the Siskiyou Line of the Southern Pacific Company between Cottage Grove and new alignment of the Pacific Highway in Lane County. The Commission elects to accept the bid of Columbia Empire Constructors, Inc., & P. S. Lord Mechanical Contractors, Portland, in the sum of $72,169.50, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of Row River Bridge on a county road near Culp Creek east from Dorena in Lane County: As this is a county project, all bids have been referred to Lane County for handling.

"Construction of Yaquina River Bridge on the Elk City Road in Lincoln County: The Commission elects to accept the bid of Charles E. Wiedeman in the sum of $28,361 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Lincoln County is received and the sum of $6,400 is deposited by the County.

"Installation of traffic signals in Albany on the Albany-Corvallis Highway in Linn County: The Commission awarded the contract to the low bidder, Trowbridge Electric Company, Roseburg, at their bid price of $9,700.

"Construction of Illahee Overcrossing structures over the Sunnyside-Turner Road on the Pacific Highway south of Salem in Marion County: The Commission awarded the contract to the low bidder, Tom Lillebo, Reedsport, at his bid price of $47,025.

"Construction of 42nd Avenue Ramp Section over Union Pacific Railroad Company's main line and spur tracks to connect Banfield Expressway with 42nd Avenue in Multnomah County: The Commission elects to accept the bid of Lord Brothers, Contractors, Portland, in the sum of $129,030.90, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Pavement widening on the Barbur Boulevard (Front Avenue-Hamilton Street) Section of the Pacific Highway West, south of Portland in Multnomah County: The Commission awarded the contract to the low bidder, Hutton-Kalkhoven, Portland at their bid price of $13,571.35.

"Grading and oiling on the Locust Grove-Mud Hollow Canyon Section of the Fulton Canyon-Wasco County Road in Sherman County: The Commission elects to accept the bid of C & W Crushing Company in the sum of $33,401.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Sherman County is received and the sum of $7,500 is deposited by the County.

"Clatsop County Line-Rockaway Rock Production Project on the Oregon Coast and Necanicum Highways in Tillamook County: The Commission awarded the contract to the low bidder, C & W Crushing Company, Seaside, at their bid price of $21,420.

"Hebo Rock Production Project on the Oregon Coast and Three Rivers Highways in Tillamook County: The Commission awarded the contract to the low bidder, Calkins Crushing Company, Oceanlake, at their bid price of $24,925.

"Grading and paving on the West Unit, Weston-Weston Mountain Section of the Weston-Elgin Highway in Umatilla County: The Commission elects to accept the bid of Rogers Construction, Inc., in the sum of $219,487, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired."

The meeting adjourned at 5:00 p.m. to reconvene at 9:00 a.m. on the following day in the same room.

Portland, Oregon
December 8, 1954

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
C. W. Enfield, Chief Counsel
Robert L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

W. W. Stiffler, Assistant State Highway Engineer, was excused because of illness.

The Commission signed agreements and papers as follows:

"Ground Lease" with Mr. and Mrs. Charles Ager governing removal of road building materials for use on Great Northern Railroad-Midland Overcrossing section of Midland Secondary Highway, Klamath County.

"Indentures of Access" for the following properties:

a. Bland property on North Unit, Bend-Lapine Section of The Dalles-California Highway, Deschutes County.

b. Chambers property on Rinehart Creek-Frankport Section of Oregon Coast Highway, Curry County.

"Lease for Land" re leasing to H. M. Mallory parcel of land situate at the junction of ORE 39 and ORE 66 in Klamath County.

"Bargain and Sale Deed" conveying to Mr. and Mrs. James A. Ball 0.02 acre of vacated Stewart Street in Florence.

"Bargain and Sale Deed" conveying to Cecil and Ina Maestretti 1,250 sq. ft. of excess property near easterly city limits of Pendleton.

"Agreement" with George C. Dewell, owner of Stage Coach Pass Motel north of Grants Pass, covering installation of mercury vapor luminaire unit at his place of business on Pacific Highway.

"Agreement" with City of Gresham re traffic signal installation at East Powell & N. E. Cleveland Avenue.

"Agreement" with City of Portland re channelization at west end of Sellwood Bridge.

"Throughway Agreement" with Malheur County covering the Olds Ferry-Ontario Section of Old Oregon Trail.

"Throughway Agreement" with Sherman County covering The Dalles Dam Section of the relocated Columbia River Highway.

"Maintenance & Finance Agreements" with Sherman County covering the Locust Grove-Mud Hollow Canyon Section of the Fulton Canyon Wasco Road, FAS 378.

"Maintenance & Finance Agreements" with Grant County covering the Ritter-Rush Creek Section of the Ritter Road. FAS 556.

"Agreement" with Board of Forestry granting to them the right to operate and maintain a private roadway across a portion of the Short Sand Beach State Park in Tillamook County.

"Agreement" with City of Albany covering installation of traffic signals and one-way street couplet in City of Albany.

"Bargain and Sale Deed" conveying to Bakers and Confectioners Supply Company of California, land lying within Dorris State Park in Lane County.

"Maintenance and Finance Agreements" with Lincoln County covering the Yaquina River Bridge on Elk City Road, FAS 584.

"Agreement" with Bureau of Public Roads covering removal and replacement of power poles and line along Oregon Forest Highway Project 25-A9, Mt. Hood.

"Agreement" with O.W.R. & N. covering an electric power transmission line crossing underneath the right of way and tracks of Railroad Company.

A delegation from the City of Newberg appeared before the Commission with regard to the proposed improvement of the Yamhill-Newberg Secondary Highway westerly from Newberg in Yamhill County. The following people were present: Kenneth M. Branchflower; Grace C. Branchflower; Mrs. Wesley Crow, Mrs. Glenn Scheidel, Glenn Scheidel, and Mr. and Mrs. John D. Burt; all property owners along the present road. Mr. Branchflower, who acted as spokesman, urged consideration of an alternate route northerly from the route recommended by the Engineer for the one mile section just west of Newberg. He alleged that such route is shorter than the other, that will be less costly to construct, and will not sever property as badly as will the route proposed by the Engineer. He declared that the southerly route, while it does not require the moving of any homes, does come close to some and will reduce the value of several farm properties by reason of being bisected by the highway. He also objected to the use of a bridge on the present highway just out of Newberg because it is on an "S" curve. W. C. Williams, Deputy Highway Engineer, explained that a survey made of the route proposed by the delegation reveals that it will require two 12 degree curves and that such route will be .05 mile longer than the proposed southern route which has a maximum curvature of 4 degrees, but that grading costs are comparable. He also pointed out that the estimated cost of right of way along the route proposed by the delegation is much higher than along the other. A careful analysis of the two routes from the engineering standpoint, he stated, shows definitely that the southerly route is the better route of the two. Mrs. Crow also spoke in favor of the alternate route.

Chairman Chandler advised that the Commission will give the matter further consideration and discuss it with the Engineers. (Discussion of the matter was resumed later in the session when the Engineer made further comparison of the merits of both routes and recommended definitely, adoption of the southerly route as covered by the survey. As a result thereof the Commission unanimously adopted the route and location recommended by the Engineer.) (See ahead for additional entry.)

A delegation from Tillamook, Clatsop, and Lincoln Counties came before the Commission to urge early construction of a new route for the

Oregon Coast Highway via Cascade Head, south of Neskowin. County Judge Effenberger who headed the group stated that the delegation represents people of the three contiguous coast counties, Clatsop, Tillamook and Lincoln, and that the County Courts of those Counties are in agreement that Cascade route should be constructed as rapidly as is possible. The following composed the group: Otto Effenberger, Tillamook County Judge; Charley Ross, Chairman, Roads & Highway Committee, Chamber of Commerce; Hans Paulson, Tillamook City Manager; Vern Tinnerstett, Manager, Tillamook Chamber of Commerce; Earl Sweet, Tillamook Chamber of Commerce; Ed Kiekhfer, Banker, Tillamook Chamber of Commerce; Art Waad, Oregon Coast Association, Manager; all of Tillamook; George F. Kennedy, City Recorder; Raymond G. Wood, City Attorney; Mrs. S. Kaufman, Dorchester House; Bill Elliott, President, Devils Lake Chamber of Commerce; all of Oceanlake; Mike Miller, Lincoln County Commissioner, Siletz; M. A. Christenson, Real Estate; L. E. Moore, Real Estate; both of Wecoma Beach; M. L. Walden, Vice President, Lincoln Bank, Taft; Berger Nielsen, Chamber of Commerce; Lester Raw, Mayor; Kenneth House, Pacific Power & Light; all of Seaside; Joe Flynn, Astoria Chamber of Commerce; and Vern Stratton, County Commissioner; both of Astoria. The members of the delegation were introduced by Mr. Ross who asked the Commission to consider this project with others when programming the next allotment of Forest Highway Funds so that construction can get started in 1955. He asked for a commitment of at least $500,000. Mr. Raw stated that the City of Seaside vigorously endorses the project. The Engineer pointed out that it will take several years to complete the project in its entirety and that it will be very difficult to make any one section available for public use until the whole project has been completed. Chairman Chandler advised that no State money is available and that construction of the project is dependent on getting Forest Highway funds. He pointed out that the project is estimated to cost about $2,500,000 and that it will take about 5 years to complete it; nonetheless, he added, the Commission will give the project very careful consideration when programming future Forest Highway funds. He indicated that a start might be made in the programming of funds at the January meeting of the Commission. (Applause.)

There appeared before the Commission a delegation from the City of Albany, which requested construction of full width paving on Queen Avenue, route of the Corvallis-Eastside Secondary Highway, in Albany. Present were Charles K. McCormack, Mayor; John Coy, Principal of Albany Union High #8; James K. Weatherford, Member of Union High School #8; Robert Groshong, Chairman of Union High School Board #8; Stephen Shelton, Regional Director, U.S. Bureau of Mines; William Wilkenson, Member of Union High School Board #8; and Donald J. Donahue, Managerof Albany Chamber of Commerce; all from the City of Albany. Mr. McCormack, who acted as spokesman, asked the Commission to construct a full width pavement on a section of Queen Avenue, about one mile in length, which passes in front of the Primary School, the High School, and the Bureau of Mines building, where traffic congestion is heavy. Mr. John Coy called attention to the fact that the existing street is narrow and is very congested during the morning hours and in the evening when the Bureau of Mines employees leave work and when school is out. The

Engineer remarked that a study has been made of the proposed improvement and it was found that to do what is requested will cost about $82,000. He also said that the existing pavement surface is inadequate and requires complete renovation. Mr. McCormack offered to contact some of the property owners to determine if they would be willing to assume part of the cost of the improvement. The Commission agreed to consider the project and thereupon instructed the Engineer to investigate it and report his findings.

Mr. Lynn F. Cronemiller, Assistant State Forester, came before the Commission and offered, in behalf of the State Board of Forestry, to convey to the Commission for park purposes a myrtlewood area on the Chetco River in Curry County, known as Loeb Park, situate about nine miles east of the Oregon Coast Highway. The State Board of Forestry, he stated, owns this myrtlewood area and has made some improvements on it, however, the project is difficult for the Board to handle. He offered to convey the property to the State Highway Commission without cost. Chairman Chandler recalled that similar offers in the past had been refused because the property is located too far from the highway and does not fit in with plans for future State park development. The Commission, he stated, feels that conditions have not changed so again refuses to take over the area although it appreciates the Board's generous offer.

A delegation representing the John Day Highway 19 Association came before the Commission to renew previous requests for improvements to the John Day Highway, (Oregon Route 19). The following people were present: James D. Burns, Gilliam County Judge, Condon; Frank Weatherford, Gilliam County Commissioner, Arlington; Charles Quinn, Gilliam County Commissioner, Mayville; R. W. Potter and E. R. Fatland, Condon; Jack Steiwer and G. V. VanHorn, Fossil Community Club; Lloyd Oglivie, Secretary, Highway 19 Association, John Day; William Smith, member of the John Day Chamber of Commerce; Fred Lemcke, Grant County Stock Association, John Day; and C. J. Born, Mayor of Prairie City. Mr. Born who headed the group introduced the several members and presented written requests from various organizations, as follows: Resolution from the John Day Chamber of Commerce requesting improvement of the John Day Highway; resolution from the Kiwanis Club of John Day making the same request; letter from the Morgan Truck Service, Inc., pointing out the advantages of the John Day Highway over other alternate routes, and a resolution adopted by the Grant County Court urging construction of an adequate highway to connect with the Columbia River Highway.

Judge Burns stated that the Gilliam County Court heartily endorses improvement of this highway, especially that section between Dayville and Condon. Mr. Fatland recalled that about 25 years ago he appeared before the Commission to urge improvement of this highway but it has not yet been accomplished. He pointed out that the absence of extreme vertical curvature makes the John Day Highway a better route to Portland from Central Oregon than US Highway 26 over the Ochoco Summit. There is no bus route, he stated between Arlington and Dayville, which makes it more difficult to hire teachers, to secure ministers and other people necessary to com-

munity life. He asked the Commission for a survey and to start improvement at an early date. County Commissioner Weatherford emphasized the value of improvements to the highway in shipping livestock and other products to market. County Commissioner Charles Quinn stated that all communities along the highway are in favor of its development. Jack Steiwer, representing the Fossil Community Club, stated that they are much in favor of a better highway. Mr. Lemcke, speaking in behalf of Grant County cattle raisers, called attention to the shrinkage in weight of cattle while being hauled to Portland. An improved highway, he stated, would provide cheaper freight rates and would reduce loss by shrinkage. He also pointed out that there is no railroad service in this part of the state. Many truckers, he said, prefer to haul products from John Day and vicinity over the John Day Highway even in its present condition rather than haul over Highway 26 because of the greater amount of vertical curvature on Highway 26.

Chairman Chandler commented that the Commission is familiar with the needs of the district served by this highway but is handicapped by lack of funds. The money derived from the sale of bonds, he said, is all obligated and indications are that increased federal participation which was expected, will not be nearly as large as had been hoped; however, the Commission is assembling a back log of up to date surveys on all highways so that projects can be contracted on short notice when funds are available to finance them. Commissioner Reynolds stated that he favors improvement of the route as requested by the delegation but the Commission has no funds at this time for construction. He moved that a location survey be made between Dayville and Condon. Commissioner McIver seconded the motion and Chairman Chandler declared it carried by the unanimous vote of the Commission. The Engineer thereupon was authorized to make such survey.

A delegation from the town of Siletz and vicinity, all members of the Siletz Highway Improvement Association, came before the Commission to urge additional improvements to the Siletz Secondary Highway. The following people composed the group: Mr. and Mrs. P. J. Muncey, Mr. and Mrs. Mike Miller, Mrs. Rachel Strome, Mr. and Mrs. Frank Strome, Mrs. Joe Stemkoski, Mrs. Oscar Crawford, Barbara Colvin, Charles Chandler, Mary Leonetti and Ernest Leonetti, all from the town of Siletz; and Mrs. Charles Parker and Mrs. Eddy Parker of South Beach. Mr. Miller also appeared as a member of the Lincoln County Court. Mrs. Strome who headed the delegation thanked the Commission for recent improvements made on a two-mile section of this highway between Siletz and Kernville, and urged completion of pavement construction between these two towns. A recent timber survey, she stated, reveals that there is approximately 100,000,000 board feet of timber to be hauled out over this highway. The unoiled road north of Siletz, she said, does not have sufficient rock surfacing and is in such poor condition that blade-grading the road does not do much good, so the road is left in very poor condition, entirely unfit for the traffic that uses it. Most of the people in the Siletz Valley, she stated, live near Siletz, and the improvement most needed is construction of the section of highway approximately nine miles long extending from Siletz north to Cedar Creek, which section, she said, should be hard surfaced. She presented a letter from the City of Siletz requesting such im-

provement and better maintenance of the highway north of Siletz; also, a resolution from Siletz Valley Grange No. 558, requesting a hard-surfaced road north of Siletz; and a letter from the Toledo Chamber of Commerce urging improvement of the highway in order to better the economic condition of the people in Siletz Valley. Chairman Chandler advised that construction in the Siletz area is expensive and that it probably will be several years before enough money is available to finance the requested construction. He also said that there appears to be a difference of opinion among the proponents of the project as to where further improvements should start--from the Siletz end and go north or from the Kernville end and go south. The Commission, he added, will have the Engineer to make an investigation to determine how much it will cost to improve the highway north of Siletz, and whether or not the alignment of the existing road is satisfactory. A decision in the matter will be reached when the report is rendered. The Engineer thereupon was instructed to make such investigation. Mrs. Strome presented letters from the City of Siletz, Siletz Valley Grange, and Toledo Chamber of Commerce, in support of their oral request.

A delegation from Milwaukie and Oregon City, including the Clackamas County Court, came before the Commission, and urged that something be done to eliminate a hazardous condition that exists at the intersection of Sixth Avenue (River Road) with McLoughlin Boulevard (US99E) just south of Milwaukie. Present were: Hon. Wallace R. Telford, Clackamas County Judge, Oregon City; Stan Skoko and Bob Jones, Clackamas County Commissioners, Oregon City; T. H. Fenton, Master, Grange No. 268, Milwaukie; W. R. Rohrer, Secretary, Grange No. 268, Milwaukie; and Dr. Curtis Miller and Judge Edna Thiessen, Legislative Committee, Grange No. 268, Milwaukie. Judge Telford who headed the delegation stated that action of some kind should be taken to safeguard traffic at this location. Mr. Fenton stated that Willamette View Manor, a dwelling structure of about 275 units for the aged, is now being built at a cost of $2,500,000 south of this location and that Milwaukie Grange #268 is erecting a Grange Hall nearby, both of which will create considerable cross traffic on the highway. He suggested in order to facilitate travel and to eliminate the dangers, installation of a traffic signal at the junction of Sixth Avenue with US99E and at the intersection of Seventh Avenue and 2nd Street; also that Sixth Avenue and Seventh Avenue be designated a one-way street couplet, Seventh Street to be used by traffic headed north and Sixth Avenue to be used by traffic headed south. People in this community, he stated, are opposed to a through lane for highway traffic northbound on the Pacific Highway East. Edna Thiessen, Judge of the Milwaukie Justice Court, and Dr. Miller mentioned that many accidents have occurred at this intersection and urged that corrective measures be taken. Mr. Skoko stated that as County Commissioner he favors the project, if it is deemed that a part of the proposed improvement is a County obligation then he will do all that he can to get the County to cooperate in the cost of the project. Judge Telford asked the Commission to conduct a survey to determine the best remedy. The Commission referred the matter to the Engineer for investigation and report.

A delegation from Klamath Falls headed by Hon. Paul O. Landry, Mayor and including Al Hatton, Chairman, Crosstown Traffic Committee;

Harry Boivin, Member, Crosstown Traffic Committee, State Senator-elect; James Barnes, City Councilman; and Lawrence Slater, City Councilman-elect came before the Commission concerning the proposed West Side By-Pass through the city of Klamath Falls. Mayor Landry acted as spokesman and introduced the members of the delegation. He presented a copy of a resolution passed by the Klamath Falls City Council accepting the plans for the proposed West Side By-Pass and offering to do everything in their power to consummate its completion. He asked the Commission to start construction at the south end (Link River Bridge) and proceed northerly if the entire project cannot be undertaken at one time. The Engineer pointed out that before any work can be done, it will be necessary to consummate an agreement with the City regarding the closure of certain streets and other matters; also, that formal approval of the location by the Commission, and the acquisition of necessary right of way, will carry no commitment by the Commission as to when construction will be started. Chairman Chandler stated that the Commission is willing to adopt the route recommended by the Engineer when the agreement has been signed by the City, and the City has taken appropriate action by resolution effecting the closure of certain city streets and changing certain street grades. When that is done, he added, the Commission will authorize negotiations for right of way as may be required, but the Commission does not have funds to finance early construction and is not in position now to say when construction will start. He gave as his understanding that the City and the County will acquire the right of way marked in green and yellow on the map which was exhibited by the Engineer.

The Chief Counsel brought up the matter of acquisition of land from a Mr. Perkins near Zigzag on the Mt. Hood Highway in Clackamas County. He explained that when the option was secured from Mr. Perkins, it was thought that no change in grade of the highway was involved, however, the grade was raised about 4½ feet and Mr. Perkins' remaining property was apparently damaged to that extent. The State's offer to raise the buildings to fit the new grade, he said, was refused by Mr. Perkins whose attorney filed an action to set aside the deed. Subsequently, the deed was set aside and Mr. Perkins then filed action for damages. He has now agreed to settle for the sum of $10,165.25, which amount is to allow him to raise and alter his buildings, the work to be performed by Mr. Perkins. The Chief Counsel recommended approval of the settlement and that a new deed be obtained. The Commission accepted the recommendation.

The Commission gave further consideration to the adoption of a survey for the revision of the East Unit of the Yamhill-Newberg State Secondary Highway No. 151, particularly the section between the City of Newberg and a place known as Carlton Junction, as recommended by the Engineer earlier in the session. The facts as presented at that time were reviewed, and as a result thereof, the Commission unanimously approved the location recommended by the Engineer by adoption of the attached resolution relative thereto, marked EXHIBIT "G-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein. The Right of Way Engineer was thereupon authorized to conduct negotiations to acquire necessary rights of way.

Chairman Chandler, speaking in behalf of the Commission, expressed appreciation to officers and employees of the Commission for the work they have performed and the accomplishments made during the year 1954. The Commission, he stated, is very proud of the work that has been done and extends to one and all a Merry Christmas and a Happy New Year.

There being no further business to come before the Commission at this time, the meeting adjourned at 11:45 a.m.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

Minutes of

December 7 and 8, 1954

EXHIBIT "A"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

TIDE CREEK-ST. HELENS UNIT-GOBLE-ST. HELENS SECTION - COLUMBIA RIVER HIGHWAY

21364 Einhaus, Leo A. and Elizabeth (Johnson)
Slope easement and access restriction
Option expires May 17, 1955

0.03 ac. easement and restriction of access	$ 1.00	
Allowance for moving garage	350.00	
Total to be paid owners		$ 351.00
Cost of constructing frontage road. Estimate -		1550.00
GRAND TOTAL - chrg to Right of Way Estimate		$1901.00

THINGS TO BE DONE BY THE STATE

22503 Amanda C. Patterson Estate (*SEE FOOTNOTE) (Chidsey & Norlin)
Gravel Pit and Right of Way
Option expires December 15, 1954

104 acres, lump sum, including house, barn, sheds $100,000.00
Subject to:
State Land Board rights, if any in tideand overflow lands.
Easements for City of Eugene water mains and transmission lines.
Easements for existing county roads.
Confirmation by Circuit Court for sale of said property.
Loren S. Christofferson lease which expires Jan. 1, 1955.

Taxes to be pro-rated over date of deed State's share of taxes. Estimate	750.00	$ 750.00
Amount to be paid to owners - chrg to Gravel Pit		100,000.00
GRAND TOTAL (Estimate) chrg to Gravel Pit		$ 100,750.00

Entire taking -

* The Commission approved purchase of the Patterson Estate property (File No. 22503) at the price mentioned above. The Commission also authorized purchase of whatever interest the State Land Board may have in the property for an amount of $5000.00 and the purchase of the private interests of other parties for $350.30, all being in conformity with the recommendations of the Right of Way Engineer and the State Highway Engineer.

EXHIBIT "A" (cont)

GOSHEN-DIVIDE SECTION - PACIFIC HIGHWAY

22072 Vaughn, B. and Estella SUPPLEMENTAL REPORT (Holt)
Dike and Haul Road Easement
Option expires April 30, 1955

1.57 acres, easement	$ 1.00

This option taken to correct 1.53 acre dike and haul road easement description on Aug. 6, 1954, $306 option approved by Highway Commission, August 9, 1954.

Access not controlled -

RICE HILL-CHENOWETH PARK SECTION - PACIFIC HIGHWAY

21197 Churchill, Leroy and Minnie A. (Holt)
Right of Way
Option expires May 19, 1955

1.1 acres at $1000 per acre	$ 1,100.00
5.0 acres at $300 per acre	1,500.00
1.0 acre at $200 per acre	200.00
4.0 acres at $100 per acre	400.00
House, 1260 sq. ft. at $5.40 per sq.ft.	6,800.00
192 rods fence at $4 per rod	768.00
Severance damage	2,000.00

Amount to be paid owners - chrg to Right of Way $12,768.00

Grantor to vacate premises by July 31, 1955 or within 6 months of date of acceptance, whichever date is later.
Grantor to fence Westerly R/W line from North property line to Sta. 1377+00, and Easterly R/W line, Sta's 1379+60 to 1383+00.
Grantor to remove calf shed by July 31, 1955.
Grantor may salvage his R/W fencing.

THINGS TO BE DONE BY THE STATE

Install 6 in. conduit at approx. Sta. 1372+00. Reconstruct Grantor's existing approach to frontage road, Sta. 1371+52 Westerly side. Pipe springs approx. opposite Sta's 1364+50 Easterly side and 1367+00 Westerly side, to Westerly R/W line. Protect drainage field Easterly of Sta. 1372+00. Grantor gives State 20 ft. easement to remove house. State use precaution to protect trees and shrubbery. Construct 18 in. ditch paralleling frontage road between Sta's 1371+00 and 1377+00. Construct road approach to frontage road approx.

EXHIBIT "A" (cont)

Minutes of December 7 and 8, 1954

R E S O L U T I O N

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3876, with White Brothers Company for grading on the Deady-Winchester Unit, Deady-Shady Section of the Pacific Highway in Douglas County, completed August 14, 1954.

"Contract No. 3879, with Parker-Johnson Co. for constructing bridges, grading and paving on the 122nd Avenue-Arata Road Section of the T. H. Banfield Expressway in Multnomah County, completed October 19, 1954.

"Contract No. 3904, with Tom Lillebo for constructing three structures on the Deady-Winchester Unit, Deady-Shady Section of the Pacific Highway in Douglas County, completed September 21, 1954.

"Contract No. 3970, with Peter Kiewit Sons' Company for constructing the Rinehart Creek Bridge on the Oregon Coast Highway in Curry County, completed August 30, 1954.

"Contract No. 4006, with R. H. Jones for construction of an addition to the Meacham Maintenance Building in Umatilla County, completed October 31, 1954.

"Contract No. 4051, with Johnston & Bryant for constructing four reinforced concrete bridges on the Glenwood-North Plains Section of the Wilson River Highway in Washington County, completed October 9, 1954.

"Contract No. 4060, with Barney B. Helser for grading and oil mat surfacing on the Mud Hollow Canyon-Wasco Section of the Fulton Canyon-Wasco Road in Sherman County, completed May 15, 1954.

"Contract No. 4066, with Young & Smith Construction Company for reconstruction of the Halsey Street Undercrossing on the T. H. Banfield Expressway in Multnomah County, completed October 29, 1954.

"Contract No. 4067, with Warren Northwest, Inc. for grade widening and paving on the Brothers-Hampton Section of the Central Oregon Highway in Deschutes County, completed October 22, 1954.

"Contract No. 4071, with C. J. Eldon for constructing the North Santiam Highway Overcrossing and Mill Creek Bridge on the North Santiam Highway in Marion County, completed October 29, 1954.

EXHIBIT "B" (cont)

"Contract No. 4083, with Acme Construction Company for paving on the Treharne-Washington County Line Section of the Nehalem Highway in Columbia County, completed September 1, 1954.

"Contract No. 4084, with Bessonette and Graff for constructing two grade separation structures on the Blackwell Hill-Seven Oaks Unit, Blackwell Hill-Medford Section of the Pacific Highway in Jackson County, completed October 31, 1954.

"Contract No. 4087, with Rogers Construction Company for pavement widening on the Hamilton St. -Vermont St. (Portland) Section of the Pacific Highway West in Multnomah County, completed August 19, 1954.

"Contract No. 4091, with R. H. Jones for constructing three structures on the Goshen-Coast Fork Willamette River Section of the Pacific Highway in Lane County, completed November 30, 1954.

"Contract No. 4096, with Rogers Construction Company for furnishing crushed materials in stockpiles on the Hermiston Section on four State highways in Umatilla County, completed October 20, 1954.

"Contract No. 4100, with P. S. Lord Mechanical Contractors and Columbia Empire Constructors, Inc., for building four structures on the Goshen-Coast Fork Willamette River Section of the Pacific Highway in Lane County, completed November 30, 1954.

"Contract No. 4105, with Arthur Simonsen for furnishing crushed materials in stockpiles on the Meacham Section of the Old Oregon Trail Highway in Umatilla and Union Counties, completed October 19, 1954.

"Contract No. 4110, with E. H. Itschner Company for furnishing crushed materials in stockpiles on the Canyon City-Seneca Section of the John Day-Burns Highway in Grant County, completed August 18, 1954.

"Contract No. 4117, with Babler Brothers, Inc. for constructing the Chemawa Overcrossing on the Portland-Salem Expressway in Marion County, completed November 5, 1954.

"Contract No. 4143, with Cascade Construction Company for paving on the N. W. Vaughn St. -W. Burnside St. (Portland) Section of the Columbia River Highway in Multnomah County, completed September 2, 1954.

"Contract No. 4155, with Warren Northwest, Inc. for paving on the Nyssa (First Street) City Street Section in Malhuer County, completed October 18, 1954.

EXHIBIT "B" (cont)

"Contract No. 4165, with Roseburg Paving Company for paving on the Myrtle Creek (First St.) City Street Section in Douglas County, completed September 22, 1954.

"Contract No. 4166, with M. C. Lininger & Sons for slide correction and furnishing crushed materials in stockpiles on the Siskiyou Section of the Pacific Highway in Jackson County, completed November 8, 1954.

"Contract No. 4167, with Trowbridge & Flynn Electric Company for installation of traffic signals in the city of Ashland on the Pacific Highway in Jackson County, completed September 17, 1954.

"Contract No. 4168, with Hamilton & Thoms for grading, paving and constructing the Crabtree Creek Bridge on the Albany-Lyons Highway in Linn County, completed November 2, 1954.

"Contract No. 4176, with Roseburg Paving Company for grading and paving on the Glendale (Sether Avenue) City Street Section in Douglas County, completed October 15, 1954.

"Contract No. 4189, with Roseburg Paving Company for paving on the Riddle (Front St.) City Street Section in Douglas County, completed September 22, 1954.

"Contract No. 4192, with K. F. Jacobsen & Company, Inc. for grading and paving Ochoco Avenue and O. L. C. C. Frontage Road Section of the Pacific Highway East in Clackamas County, completed October 29, 1954.

"Contract No. 4216, with Hamilton & Thoms for constructing channel change bridges on the Springfield-Creswell Highway in Lane County, completed November 30, 1954.

"Contract No. 4221, with Bechtel Brothers for constructing the Ladd Canyon Sand Storage Shed in Union County, completed October 29, 1954.

"Contract No. 4245, with Lee Buildt Homes for constructing a latrine in the Hendricks Bridge State Park in Lane County, completed November 17, 1954.

"Contract No. 4247, with John Helstrom for constructing latrines in the Big Creek State Park in Lincoln County, completed November 12, 1954.

"Contract No. 4255, with Trowbridge Electric Company for installation of the Eugene Traffic Signals on the Pacific Highway in Lane County, completed November 21, 1954.

"Contract No. 4260, with Mann Construction Company for constructing the Burns Maintenance Building in Harney County, completed November 9, 1954.

EXHIBIT "B" (cont)

"Contract No. 4265, with C. A. Lantz for constructing an addition to Santiam Junction Trailer Shelter in Linn County, completed November 19, 1954."

THEREFORE BE IT RESOLVED that the work covered by State Highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 38 shall be entered in the minutes and records of the Commission as of the 7th day of December, 1954.

EXHIBIT "C-1"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the John Day Highway, State Highway No. 5, known as the Mt. Vernon-John Day Section in Grant County, the westerly terminus of which is at Highway Engineer's Station 17+00 on the reconstructed highway and the easterly terminus of which is at Highway Engineer's Station 430+03.17 on the reconstructed highway; and

WHEREAS, as a consequence of the relocation of said section of highway, portions or units of the old right of way have been eliminated from the boundaries of the relocated highway and are no longer needed for state highway purposes; and

WHEREAS, Grant County and the Highway Commission entered into an agreement under date of June 26, 1953, relating to the disposition to be made of the eliminated portions or units; and

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel the Commission would notify the County of same by letter and that, effective upon the date of said letter, the eliminated portions or units, therein and herein referred to as Units "A", "B", and "C", would be abandoned as part of the said highway and would be maintained thereafter by Grant County as county roads under the jurisdiction and control of said county; and

WHEREAS, Grant County was duly notified by letter dated November 22, 1954, that the said section had been completed and opened to public travel and that as of November 22, 1954, jurisdiction and control over Units "A", "B", and "C" became vested in Grant County; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the section of the John Day Highway, State Highway No. 5, located in Grant County and known as the Mt. Vernon-John Day Section, the westerly terminus of which is at Highway Engineer's Station 17+00 on the reconstructed highway and the easterly terminus of which is at Highway Engineer's Station 430+03.17 on the reconstructed highway, was completed on September 16, 1954.

EXHIBIT "C-1" (cont)

2. That the portions or units of the old right of way which by reason of the relocation of the said highway are no longer within the boundaries of the new right of way and which are identified herein as Units "A", "B" and "C" are shown colored in red on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof. The locations of Units "A", "B" and "C" are more particularly described as follows: *

Unit "A"

Beginning at State Highway Engineer's Station 7+30 of the former route of the John Day Highway in the northeast quarter of the northeast quarter ($NE\frac{1}{4}$ $NE\frac{1}{4}$) of Section 27, Township 13 South, Range 30 East, W.M.; thence southerly and easterly via the former route of the John Day Highway to State Highway Engineer's Station 104+00 of the relocated John Day Highway in the southwest quarter of the Northwest quarter ($SW\frac{1}{4}NW\frac{1}{4}$) of Section 26, Township 13 South, Range 30 East, W.M.

Unit "B"

Beginning at State Highway Engineer's Station 125+00 of the relocated John Day Highway in the southwest quarter of the northeast quarter ($SW\frac{1}{4}NE\frac{1}{4}$) of Section 26, Township 13 South, Range 30 East, W.M.; thence easterly via the former route of the John Day Highway to State Highway Engineer's Station 155+50 of the relocated John Day Highway in the southwest quarter of the northwest quarter ($SW\frac{1}{4}NW\frac{1}{4}$) of Section 25, Township 13 South, Range 30 East, W.M.

Unit "C"

Beginning at State Highway Engineer's Station 346+00 of the relocated John Day Highway in the southwest quarter of the southeast quarter ($SW\frac{1}{4}SE\frac{1}{4}$) of Section 21, Township 13 South, Range 31 East, W.M.; thence easterly via the former route of the John Day Highway to State Highway Engineer's Station 385+00 of the relocated John Day Highway in the southeast quarter of the southwest quarter ($SE\frac{1}{4}SW\frac{1}{4}$) of Section 22, Township 13 South, Range 31 East, W.M.

3. That, pursuant to the aforesaid agreement, Units "A", "B" and "C" were duly abandoned as part of the John Day Highway, State Highway No. 5, on November 22, 1954, the date of said letter to Grant County, and that all right, title and interest which the State had in the right of way of Units "A", "B" and "C" passed to and vested in the said County as of that date.

4. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway

EXHIBIT "C-1" (cont)

and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

5. That the boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the State Highway Engineer or his authorized representative, and such boundary monuments shall thereafter be maintained in place.

6. That this resolution shall be entered in the minutes and records of the Commission on this 7 day of December, 1954, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Grant County.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 277, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-2"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Medford-Provolt Highway, known as the Jacksonville Grade Unit of the Provolt-Jacksonville Section in Jackson County, the southerly terminus of which is at Highway Engineer's Station 257+00 on the reconstructed highway and the northerly terminus of which is at Highway Engineer's Station 322+00 on the reconstructed highway; and

WHEREAS, by reason of the relocation of said section of said highway, portions or units of the right of way of the highway, as formerly located, have been eliminated from the boundaries of the new location, which eliminated portions or units are no longer needed for state highway purposes; and

WHEREAS, Jackson County and the Highway Commission have heretofore entered into an agreement under date of April 9, 1953, relating to the disposition to be made of the said eliminated portions or units; and

WHEREAS, pursuant to said agreement, it was agreed that when the construction of said relocated section of the Medford-Provolt Highway was completed and the section opened to public travel the State would notify the County of same by letter, and that effective upon the date of said letter jurisdiction and control over one of the said eliminated portions or units would vest in Jackson County; and

WHEREAS, the Highway Commission, by and through its authorized officers and agents, formally notified Jackson County by letter dated November 12, 1954, that the said section has been completed and opened to public travel and that as of that date jurisdiction and control over one of the said eliminated portions or units of the right of way of the said highway as formerly located became vested in Jackson County; and

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the section of the Medford-Provolt State Secondary Highway No. 272 located in Jackson County and known as the Jacksonville Grade Unit of the Provolt-Jacksonville Section, the southerly terminus of which is at Highway Engineer's Station 257+00 of the reconstructed highway and the northerly terminus of which is at Highway Engineer's Station 322+00 of the reconstructed highway, was completed on October 28, 1954, and the said County was formally notified of the completion thereof by letter dated November 12, 1954. Pursuant to the aforementioned agreement

EXHIBIT "C-2" (cont)

between the Commission and said County, entered into on April 9, 1953, the said County became vested with complete jurisdiction and control over the portion or unit herein defined and described as Unit "C" upon the date ofthe said letter, and pursuant to the said agreement Unit "C" was eliminated and removed as a part of the route of the Medford-Provolt Highway upon the date of the said letter.

2. That the portion or unit of the old right of way which by reason of the relocation of said highway is no longer within the boundaries of the new right of way and which for the purpose of this resolution is identified as Unit "C" is shown colored in red on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof. The location of Unit "C" is more particularly described as follows: *

UNIT "C"

Beginning at State Highway Engineer's Station 309+50 of the relocated Medford-Provolt Highway in the southwest quarter of the southwest quarter of Section 31, T. 37 S., R. 2 W., W.M.; thence northerly via the former route to the Medford-Provolt Highway to State Highway Engineer's Station 318+60 in the southwest quarter of the southwest quarter of Section 31, T. 37 S., R. 2 W., W.M.

3. That from the date of the aforementioned letter and thereafter Unit "C" shall be maintained by the said County as a county road for the benefit and service of persons living thereon and communities served thereby. The Commission confirms the disposition heretofore made of Unit "C" in the said letter and declares that Unit "C" has been abandoned pursuant to said agreement on the date of said letter and that all right, title and interest which the State had in said right of way passed to and vested in the said County as of the date of said letter.

4. That the portions or units of the old right of way which by reason of the relocation of said highway are no longer within the boundaries of the new right of way and which for the purpose of this resolution are identified as Units "A" and "B" are shown colored in brown on the attached Exhibit "A". The locations of Units "A" and "B" are more particularly described as follows: *

UNIT "A"

Beginning at State Highway Engineer's Station 265+50 of the relocated Medford-Provolt Highway in the northeast quarter of the southeast quarter of Section 1, T. 38 S., R. 3 W., W.M.; thence northerly via the former route of the Medford-Provolt Highway to the range line between T. 38 S., R. 3 W., W.M., and T. 38 S., R. 2 W., W.M.

EXHIBIT "C-2" (cont)

UNIT "B"

Beginning on the township line between T. 37 S., R. 2 W., W.M., and T. 38 S., R. 2 W., W.M.; thence northerly via the former route of the Medford-Provolt Highway to State Highway Engineer's Station 309+50 in the southwest quarter of the southwest quarter of Section 31, T. 37 S., R. 2 W., W.M.

5. That said Unit "A" and Unit "B" shall be and hereby are abandoned as part of said highway, and hereafter all right, title, and interest which the State has in said right of way shall be permitted to revert to the owners of the abutting land.

6. The area shown colored in green on the attached Exhibit "A" includes right of way acquired for the relocated section of the said highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way and other highway purposes and uses. Therefore the commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State.*

7. That the boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with monuments, and such boundary monuments shall thereafter be maintained in place.

8. That this resolution shall be entered in the minutes and records of the Commission on this 7th day of December, 1954, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Jackson County.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 272, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-3"

Minutes of December 7 and 8, 1954

R E S O L U T I O N

WHEREAS, the section of the Central Oregon Highway, State Primary Highway No. 7, located in Malheur County and known as the Vale-Cairo Junction Section, the westerly terminus of which is at Highway Engineer's Station 864+04. 22 on the relocated highway and the easterly terminus of which is at Highway Engineer's Station 615+01 on the relocated highway is now open for public travel;

WHEREAS, as a consequence of the relocation of said section of highway, a portion or unit of the old right of way has been eliminated from the boundaries of the relocated highway and is no longer needed for state highway purposes; and

WHEREAS, Malheur County and the Highway Commission entered into an agreement under date of February 25, 1954, relating to the disposition to be made of the eliminated portion or unit; and

WHEREAS, the said agreement provided that after the said relocated section was opened to public travel the Commission would notify the County of same by letter and that, effective upon the date of said letter, the eliminated portion or unit, therein and herein referred to as Unit "A", would be abandoned as part of the said highway and would be maintained thereafter by Malheur County as a county road under the jurisdiction and control of said county; and

WHEREAS, Malheur County was duly notified by letter dated November 22, 1954, that the said section had been completed and opened to public travel and that as of November 22, 1954, jurisdiction and control over Unit "A" became vested in Malheur County; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the portion or unit of the old right of way which by reason of the relocation of the said highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "A" is shown colored in red on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof. The Location of Unit "A" is more particularly described as follows:*

EXHIBIT "C-3" (cont)

Unit "A"

Beginning at State Highway Engineer's Station 271+50 of the relocated Central Oregon Highway in the northwest quarter of the northeast quarter (NW 1/4 - NE 1/4) of Section 30, Township 18 South, Range 46 East, W. M.; thence easterly via the former route of the Central Oregon Highway to State Highway Engineer's Station 311+60 of the former route of the Central Oregon Highway in the northeast quarter of the northwest quarter (NE 1/4 - NW 1/4) of Section 29, Township 18 South, Range 46 East, W. M.

2. That, pursuant to the aforesaid agreement, Unit "A" is hereby duly abandoned as part of the Central Oregon Highway, State Primary Highway No. 7, and the jurisdiction and control over said unit is hereby transferred to Malheur County, effective as of November 22, 1954, the date of said letter to Malheur County, and that all right, title and interest which the State has in the right of way of Unit "A" hereby passes to and vests in the said County and shall hereafter be maintained by said County as a county road, so long as it is needed or valuable for public use.

3. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore the Commission does hereby declare and order that possession of and title or other such interest as the State may have to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

4. That this resolution shall be entered in the minutes and records of the Commission on this 7 day of December, 1954, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Malheur County.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 287, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D"

Minutes of December 7 and 8, 1954

R E S O L U T I O N

WHEREAS, pursuant to the provisions of ORS 366.810, there have been by the Oregon State Highway Commission apportioned to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Funds accruing during second half of 1953 and allocated in first half of 1954:

Eastside	$3,129.31	Shaniko	$ 214.48

Funds accruing during first half of 1954 and allocated in second half of 1954:

Adams	438.51	Island City.....	392.95
Aurora.....	689.09	Long Creek.....	820.07
Canyon City	1,446.52	Manzanita	965.30
Cornelius	2,841.79	Maupin	888.41
Creswell	1,885.03	Metolius	447.05
Detroit.....	780.21	Powers	2,548.50
Dundee	877.02	Rogue River....	1,680.01
Eastside	2,534.26	Siletz	1,623.06
Granite	113.90	Sisters	2,058.73
Ione	948.21	Troutdale	1,463.61

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive

EXHIBIT "D" (cont)

and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 7th day of December, 1954.

EXHIBIT "E-1"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and moreparticularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: OREGON COAST HIGHWAY (Tillamook County)

Highway number 9 Route number US 101

Location of Termini			Established Speed
M.P. 33.70 (0.19 mile north of Simmons Creek)	to M.P.	85.00 (0.21 mile north of the Pleasant Valley Store)	50 M.P.H.
M.P. 85.00 (0.21 mile north of the Pleasant Valley Store)	to M.P.	85.26 (250 feet south of the Pleasant Valley Store)	40 M.P.H.

EXHIBIT "E-1" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 175 be entered in the minutes and records of the Commission as of the 7th day of December, 1954.

EXHIBIT "F-1"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, the Old Oregon Trail Highway No. 6 (US30) is a major state primary highway and likewise a Federal highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that a hazardous condition is created and sight distance impaired by the parking of vehicles within the confines of the triangular area at the junction of US 30 with Weiser Spur; and

WHEREAS, in the opinion of this Commission, in order to provide for safe and efficient movement of traffic, and to eliminate the hazard of impaired sight distance at the afore-mentioned junction, the parking of vehicles should be prohibited within the confines of said triangular area.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigations, reports, and recommendation by members of its staff, that the parking of vehicles shall be prohibited within the confines of the triangular area at the junction of US 30 with Weiser Spur (M.P. 402.46 on US 30), in Malheur County.

2. That the State Highway Engineer be and he hereby is instructed to erect signs at such points as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared, the signs to bear in plain, legible letters the words, "NO PARKING AT ANY TIME".

3 That the State Highway Engineer hereby is authorized to erect suitable barricades as he may consider necessary to control such prohibition.

4. That a certified copy of this resolution be mailed to the Superintendent of the Department of State Police for his information and guidance.

5. That this resolution be entered in the minutes and records of the State Highway Commission as of the 7th day of December, 1954, as "No Parking" Resolution No. 122.

EXHIBIT "F-2"

Minutes of December 7 and 8, 1954

R E S O L U T I O N

WHEREAS, the Alsea Highway is a primary state highway and is under the jurisdiction and control of the State Highway Commission, being identified in the Commission's records as State Highway No. 27; and

WHEREAS, it appears that on said highway in the community of Alsea, Benton County, "head-in" parking is practiced; and

WHEREAS, in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit the "head-in" parking of vehicles and at the same time provide the degree of safety and convenience which in the opinion of this Commission should be provided the traveling public; and

WHEREAS, "head-in" parking of vehicles in said community creates a hazard not only to through traffic on the highway but to the owners and occupants of said parked vehicles; and

WHEREAS, in the opinion of this Commission, public safety requires that "head-in" parking of vehicles be prohibited and parallel parking only be allowed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations made by and under the supervision of the State Highway Engineer, that "head-in" parking of vehicles in the community of Alsea between the easterly property line of First Street (M. P. 40.39) (Engineer's Station 650+85.3) and the westerly property line of Third Street (M. P. 40.53) (Engineer's Station 658+25.5) be prohibited and that parallel parking only on both sides of the highway be substituted therefor.

2. That the State Highway Engineer be and he hereby is instructed to erect "PARALLEL PARKING ONLY" signs at said termini and at such points between said termini as in the judgment of said Engineer are necessary to accomplish the purposes of this resolution and the action of the Highway Commission as herein declared.

3. That a certified copy of this resolution be mailed to the Superintendent of the Department of State Police for his information and guidance.

4. That this resolution be entered in the minutes and records of the State Highway Commission as of the 7th day of December, 1954 as "Parallel Parking" Resolution No. 6.

EXHIBIT "F-3"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, North Sixth Avenue and North Seventh Avenue in the City of Eugene are streets heretofore selected and designated as streets over which to route Pacific Highway Traffic within the corporate limits of Eugene; and,

WHEREAS, investigations conducted by the Engineer have determined that the parking of vehicles on the south side of Sixth Avenue between Garfield Street and McKinley Street (Engineer's Station 657+00 to 662+25), and on the north side of Seventh Avenue between Garfield Street and McKinley Street (Engineer's Station 654+65 to 669+35), in said city constitutes and is a hazard to traffic and interferes with the safe and easy flow or movement of vehicles over said streets; and,

WHEREAS, it appears that the Common Council of the City of Eugene on the 22nd day of November, 1954, passed a resolution amending the City's Traffic Ordinance No. 10419 making it unlawful for any person to park any motor vehicle or trailer on the south side of said Sixth Avenue between Garfield and McKinley Streets and on the north side of said Seventh Avenue between Garfield and McKinley Streets; and,

WHEREAS, it is the judgment of this Commission that the State through its Highway Commission should cooperate with the City of Eugene in the accomplishment of the purpose of said ordinance.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the Commission does hereby ratify and approve said amended Ordinance No. 10419 as adopted November 22, 1954 by the Common Council of the City of Eugene, and hereby offers the cooperation of the State Highway Department to the end that the full benefit of said ordinance may be accomplished and the convenience and safety of the traveling public thereby advanced.

2. That the State Highway Engineer be and he hereby is instructed to erect "NO PARKING AT ANY TIME" signs on the southerly side of Sixth Avenue between Garfield Street and McKinley Street and on the northerly side of Seventh Avenue between Garfield Street and McKinley Street and at such points between said termini as in the judgment of the said Engineer are necessary to accomplish the purpose of said city ordinance and the action of the Highway Commission as herein declared.

EXHIBIT "F-3" (cont)

3. That a certified copy of this resolution be sent to the Eugene City Council for its information and guidance.

4. That this resolution be entered in the minutes and records of the State Highway Commission as of the 7th day of December, 1954, as "No Parking" Resolution No. 123.

EXHIBIT "G-1"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final survey of the route and location of the Seaside Section of the Oregon Coast Highway in Clatsop County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports, and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Seaside Section of the Oregon Coast Highway, beginning at Highway Engineer's Station 525+00, at Necanicum River Bridge near the north city limits of the City of Seaside, and extending southerly therefrom on "Roosevelt Drive", to Highway Engineer's Station 625+00, near the south city limits of the City of Seaside, together with the map, which for identification purposes bears Map File No. 1R-5-618 and the date, November, 1954, field notes and other engineering data submitted by the Engineer hereby are approved and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

EXHIBIT "G-1" (cont)

4. That heretofore by resolution of this Commission dated November 3, 1948, said section of the Oregon Coast Highway has been designated as a "Throughway" within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law", and, for the reasons stated therein, the above-named section of said highway should be declared a "Throughway", and it hereby is directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law, except any portion of said section which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said section of highway was designated as a "Throughway".

5. That this resolution be entered in the minutes and records of the Commission as of the seventh day of December, 1954, as "Survey Resolution No. 112."

24275

EXHIBIT "G-2"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Carlton Junction-Newberg Section of the Yamhill-Newberg Secondary Highway in Yamhill County and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Carlton Junction-Newberg Section of the Yamhill-Newberg Secondary Highway, beginning at Highway Engineer's Station 290+39.44 at the junction of a County road leading to Carlton, and extending therefrom in an easterly direction to Highway Engineer's Station 576+50 near the westerly city limits of the city of Newberg, together with the map, which for identification purposes bears Map File No. 1R-5-616 and the date of November, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the 7th day of December, 1954, as Survey Resolution No. 111.

EXHIBIT "G-3"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, the Pacific Highway, a section of which highway located in Jackson County passes through the city of Ashland over streets selected and designated by the Highway Commission, is a part of the State highway system; and

WHEREAS, said highway enters the city of Ashland from the north and proceeds in a general southeasterly direction along North Main Street to East Main Street, thence along East Main Street to Siskiyou Boulevard, thence along Siskiyou Boulevard to the city limits in the southeastern portion of the city of Ashland; and

WHEREAS, for the purpose of relieving traffic congestion and to afford the traveling public a more convenient route through the city of Ashland and for the further purpose of accommodating local business concerns and industries the Highway Commission has found it advisable to alter the routing of said highway through the city of Ashland; and

WHEREAS, for such purpose the Highway Commission has heretofore authorized and directed the Highway Engineer to make a complete and final survey of the route and location of a northbound route in Ashland Section of the Pacific Highway in Jackson County as part of a one-way couplet for said highway and in connection therewith to prepare maps showing the route and location of said section and to file said reports and records with the Commission for consideration; and

WHEREAS, the engineer has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, the City Officials of the city of Ashland have been apprised of the survey and have given their approval to the plans of the survey which provide for a one-way couplet in the City of Ashland and have further advised the Highway Commission of the city of Ashland's complete support and cooperation in this matter; and

WHEREAS, after due consideration of said survey, field notes and other engineering data it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission that:

1. The survey of the northbound route in Ashland Section of the Pacific Highway in Jackson County beginning on the center line of North Main Street in the city of Ashland approximately 115 feet west of Helman Street and extending southeasterly across Helman Street where said

EXHIBIT "G-3" (Cont)

Helman Street intersects North Main Street, across Water Street, Oak Street and North Pioneer Street to "C" Street, thence along "C" Street crossing 1st Street and 2nd Street, thence leaving "C" Street and proceeding more southerly across 3rd Street and East Main Street to intersect the center line of Siskiyou Boulevard approximately 20 feet west of the west line of 4th Street extended southerly, and being entirely located within the city of Ashland, Oregon, which survey together with the reconnaissance plan and profile of said northbound route dated September 19, 1954, the field notes and other engineering data submitted by the Highway Engineer are all hereby approved and the Highway Engineer is hereby directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. When said highway section is permanently constructed the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. The approval and adoption of said survey shall constitute and be deemed instructions to the Highway Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real property needed for and in connection with the construction, reconstruction or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of right of way pursuant to the normal approved method.

4. The route and location of the Pacific Highway entering the city of Ashland, as selected and designated by the State, under the authority and direction of ORS 373.010, shall be as follows:

> Southbound traffic shall enter the city of Ashland at the northerly city limits on North Main Street and shall proceed in a southeasterly direction along North Main Street, thence along East Main Street to Siskiyou Boulevard, thence along Siskiyou Boulevard to the city limits of the city of Ashland; and
>
> Northbound traffic shall enter the city of Ashland on Siskiyou Boulevard at the southeasterly city limits and proceed in a general northwesterly direction along Siskiyou Boulevard to the intersection with the survey for the northbound route in Ashland Section as afore-described, thence leaving Siskiyou Boulevard and proceeding along the route of said survey in a general northwesterly direction to its intersection with North Main Street, thence proceeding along North Main Street in a general northwesterly direction to the north city limits of the city of Ashland,

provided, however, that these above-described routes shall not go into effect until the State has constructed and opened to traffic the northbound route in Ashland Section hereinbefore described in paragraph No. 1 above.

5. When the afore-described northbound route of Ashland Section of the Pacific Highway has been constructed and opened to traffic the following streets are designated and established as one-way traffic streets:

a. For southbound traffic only:

North Main Street, from its intersection with the afore-described survey for the northbound route of the Ashland Section, in a southwesterly direction to its intersection with East Main Street.

East Main Street, from its intersection with North Main Street, in a southwesterly direction to its intersection with Siskiyou Boulevard.

Siskiyou Boulevard, from its intersection with East Main Street, in a southeasterly direction to its intersection with the afore-described survey for the northbound route of the Ashland Section.

b. For northbound traffic only:

The surveyed route for the northbound route of Ashland Section, as afore-described, from the intersection with Siskiyou Boulevard, in a northwesterly direction, to its intersection with North Main Street.

Such one-way traffic shall not be put into effect or routed over the above course until the State has constructed the northbound route of the Ashland Section of the Pacific Highway in Jackson County, and opened same to public travel.

6. The municipal authorities of the city of Ashland be requested to pass and adopt by appropriate procedure, measures necessary to supplement the action of the Highway Commission so that those portions of the streets of the city of Ashland hereinbefore designated as streets to be converted to one-way traffic shall be, when the northbound route has been constructed and made ready for use, converted into one-way traffic streets.

This Resolution be entered in the minutes and records of the Commission this 7th day of December, 1954, as Survey Resolution No. 118.

EXHIBIT "H"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, the Union County Historical Society has urged that a resolution be adopted by the Highway Commission naming and designating that section of U. S. Route #30, which in Oregon is known as the Old Oregon Trail Highway, extending from the railroad over-crossing structure near the junction of Blackhawk Trail with the Old Oregon Trail Highway to Adams Avenue near the Grande Ronde hospital in La Grande, the "Oro Dell Boulevard", in honor of the former community of Oro Dell; and

WHEREAS, it is the opinion of the Highway Commission that this community, one of Oregon's oldest pioneer communities, which during its existence was located in a little dell at the mouth of the Grande Ronde River Canyon and which did so much, in its setting, to cause the Oregon pioneers to fall in love with the distinctive greenery of Oregon's scenery, as well as to assist Oregon pioneers to achieve their objectives in Oregon, should be suitably commemorated; and

WHEREAS, it is the further opinion of the Highway Commission that such commemoration can be most suitably depicted by naming a section of the illustrious road used by the pioneers in the early days of Oregon's birth, the Old Oregon Trail, in honor of one of Oregon's first pioneer communities, the former town of Oro Dell:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Highway Commission that:

1. That section of the Old Oregon Trail Highway which extends from the railroad over-crossing structure near the junction of Blackhawk Trail with the Old Oregon Trail Highway to Adams Avenue near the Grande Ronde hospital in La Grande, is hereby designated, and shall hereafter be known as "Oro Dell Boulevard".

2. The said Oro Dell Boulevard section of the Old Oregon Trail Highway shall, in honor of the former pioneer community of Oro Dell be appropriately marked with tablets and ornaments to give life and perpetuity to this resolution and its purpose.

3. The Highway Engineer be, and he hereby is instructed to prepare and bring to this Commission for consideration designs of tablets and ornaments, and upon selection and approval of the type, design, number and locations of the tablets and ornaments, the said engineer is hereby instructed to erect and thereafter maintain the same along the aforesaid section of the Old Oregon Trail Highway.

4. The Engineer be, and he hereby is instructed to have prepared for submission to the Memorials Committee of the Oregon Historical Society a suitable text to be inscribed upon the said tablets. That the text

shall contain no reference to any individual in conformity with long-established policy, and said tablets shall not be erected until approval of such text has been obtained from the Memorials Committee of the Oregon Historical Society.

5. This resolution be entered in the minutes and records of the Commission on the 7th day of December, 1954, as Miscellaneous Resolution No. 129, and a true copy thereof filed with the Secretary of State.

"EXHIBIT "I"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, Chapter 483 of Oregon Revised statutes sets forth maximum limits with respect to the size and weight of vehicles or combination of vehicles, and the number of vehicles that may be coupled together in a combination of vehicles; and

WHEREAS, under the provisions of said law the State Highway Commission is authorized to issue permits for the operation, upon state highways, of vehicles and combinations of vehicles having a size, weight and number in combination in excess of said maximum limits; and

WHEREAS, under the provisions of ORS Section 483.525, when in the judgment of the State Highway Commission any state highway, or section thereof, is capable of carrying any combination of vehicles having a combination of vehicles gross weight in excess of that authorized in subsection (3) of ORS 483.506, or an over-all length in excess of that authorized in subsection (4) of ORS 483.504. the Commission is authorized to so declare be resolution and to fix the maximum gross weight and length and types and classes of combinations of vehicles which may be operated thereon. Said law further provides that after such resolution is filed with the Secretary of State no permit shall be required for the operation upon such highway, or section thereof, of any combination of vehicles not exceeding the maximum gross weight and length fixed for combinations of vehicles of that type and class; and

WHEREAS, the State Highway Engineer has made investigations and studies and has compiled information and statistics relative to the strength, stability, design and alignment of all state highways;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That based upon the studies, investigations, information and statistics made and compiled by the State Highway Engineer, it is the judgment of this Commission that certain highways, or sections thereof, as set forth hereinafter, are capable of carrying combinations of vehicles having a combination of vehicles gross weight in excess of that authorized in subsection (3) of ORS 483.506, or an over-all length in excess of that authorized in paragraph subsection (4) of ORS 483.504, or a number of vehicles in the combination in excess of that authorized in subsection (1) of ORS 483.508.

2. That except when engaged in the transportation of logs, poles or piling, any combination of vehicles having an over-all length not in excess of 50 feet and a combination of vehicles gross weight not in excess of 68,000 pounds may be operated without a permit upon all those highways or sections of highways listed on the attached list of "Group II Highways", which for identification is marked "Attachment A", the attached list of "Group I Highways", which for

EXHIBIT "I" (Cont)

identification is marked "Attachment B", and the attached list of "Special Group I Highways", which for identification is marked "Attachment "C".

3. That except when engaged in the transportation of logs, poles or piling, any combination of vehicles consisting of a truck and full trailer, or of a truck-tractor and semitrailer drawing one trailer, or of a truck-tractor and semitrailer drawing one additional semitrailer mounted on a dolly equipped with a fifth wheel, having an overall length not in excess of 60 feet and a combination of vehicles gross weight not in excess of 76,000 pounds, may be operated without a permit upon all those highways or sections of highways listed on the attached list of "Group I Highways", which for identification is marked "Attachment B".

4. That except when engaged in the transportation of logs, poles or piling, any combination of vehicles consisting of a truck-tractor and semitrailer having an over-all length not in excess of 55 feet and a combination of vehicles gross weight not in excess of 72,000 pounds may be operated without a permit upon all those highways or sections of highways listed on the attached list of "Special Group I Highways", which for identification is marked "Attachment C".

5. That nothing contained in this resolution shall be deemed to authorize the operation of vehicles having any gross weight in excess of the applicable gross weights set forth in the tables of weights in subsection (3) and (4) of ORS 483.524, nor any gross wheel, axle or tandem axle weight in excess of that set forth in subsection (3) of ORS 483.506. Nothing contained in this resolution shall be deemed to authorize the operation of any combination of vehicles which is not properly licensed, or does not carry proper Oregon P. U. C. plates and certificates or, except as otherwise expressly provided herein, which does not comply in all respects with the Oregon motor vehicle laws and the Oregon Motor Transportation Code.

6. That the State Highway Engineer shall prepare, or have prepared, prints of a map to be issued to any person requesting the same, showing in contrasting colors the Group I Highways, the Group II Highways, and the Special Group I Highways referred to in paragraphs 2, 3 and 4 of this resolution. Attached hereto, and for identification marked "Attachment D" is a map showing such highways in contrasting colors. Said map and table of permissible dimensions and weights is hereby approved by this Commission and prints thereof shall be issued to any interested person requesting the same.

7. That the provisions of this resolution are subject to any order heretofore or hereafter made by this Commission pursuant to ORS 483.532, and the posting of any highway, section of highway, or highway structure to reduced limits of weights or dimensions shall be to that extent a modification of the weights or dimensions authorized by this resolution. This resolution may be changed, amended or rescinded at any time by resolution adopted by this Commission.

EXHIBIT "I" (Cont)

8. That this resolution revokes and supersedes a previous resolution of September, 1953, dealing with this subject.

9. That this resolution be entered in the minutes of this Commission as of the 7th day of December, 1954, that the original of this resolution be filed in the records of the Secretary of the Commission, and that a duly certified copy thereof be filed with the Secretary of State, the Public Utilities Commissioner, and the Superintendent of State Police.

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, the State Highway Commission is authorized by the provisions of ORS 483.520 (2) to issue permits for the movement of any single vehicle engaged in the transportation of peeler bolts, blocks, cores, railroad ties, logs or poles loaded crosswise of the vehicle, having an over-all width and load thereon in excess of eight feet but not in excess of eight and one-half feet, if it is first determined by trial load that the vehicle with load thereon, moving in a normal manner, can stay on the right side of the center line of the traveled way at all times and that there is sufficient room in the opposing traffic lane for the safe movement of other vehicles, and

WHEREAS, based upon the advice and recommendation of the State Highway Engineer, it is the judgment and opinion of the Commission that permits may be issued upon application therefor when meeting requirements of the provisions of ORS 483.520 (2), which permits shall authorize the movement over highways set forth therein of single vehicles engaged in the transportation of peeler bolts, blocks, cores, railroad ties, logs or poles loaded crosswise on the vehicle, having an over-all width in excess of eight feet but not in excess of eight and one-half feet.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by the Commission as follows:

1. That subject to such action as the Commission may hereafter deem to be in the public interest, the issuance of permits pursuant to the provisions of ORS 483.520 (2), hereby is authorized in a form of permit attached hereto, marked Exhibit "A", and by this reference made a part hereof. Said form of permit is hereby approved and adopted as to form and as to all provisions and regulations contained therein.

2. That no permit on said form marked Exhibit "A" shall be issued pursuant to the provisions of ORS 483.520 (2), authorizing the movement of any vehicle including any load thereon having a width in excess of eight feet until it is first determined by trial load that the vehicle with load thereon, moving in a normal manner, can stay on the right side of the center line of the traveled way at all times and that there is sufficient room in the opposing traffic lane for the safe movement of other vehicles, and in no event shall such permit authorize the movement of any single vehicle including any load thereon having a width in excess of eight and one-half feet.

3. That permits on said permit form marked Exhibit "A" may be issued for and by the State Highway Commission within the meaning, purpose and intent of ORS 483.520 (2), and shall be valid when bearing the facsimile signature of R. H. Baldock, State Highway Engineer, and signed by any other of the following designated persons:

EXHIBIT "J" (Cont)

State Highway Engineer
First Assistant State Highway Engineer
Second Assistant State Highway Engineer
Director of Permits
Transportation Permit Supervisor

4. That any permit issued upon said permit form marked Exhibit "A", as above provided, shall be in full force and effect until the date of expiration specified upon the permit, which said date shall not extend beyond one year from the date of issuance of the permit.

5. That no permit shall be issued under the authority of ORS 483.520 (2) and this resolution and order unless and until the permittee shall have furnished to the Director of Permits evidence satisfactory to the Director of Permits that he has procured and has in full force and effect, covering the proposed operation of the vehicle pursuant to the permit to be issued, a policy or policies of public liability and property damage insurance in any insurance company duly qualified and licensed to do business in the State of Oregon; said public liability insurance shall be not less than $10,000/$20,000, and said property damage insurance shall be not less than $10,000.

6. That the Commission hereby reserves the right to change or modify the action hereby taken, but any change or modification should be evidenced by resolution or order entered in the minutes and records of the Commission.

7. That this resolution revokes and supersedes a prior resolution of November, 1951, on the same subject; provided, however, that all valid and outstanding permits issued under authority of said prior resolution shall remain in full force and effect according to the terms of each such permit until cancelled as hereinafter provided.

8. It is the judgment and opinion of this Commission that the public interest requires the cancellation of all outstanding permits issued under the said prior resolution and issuance of a new permit as herein provided; therefore, the State Highway Engineer is hereby authorized and directed to cancel all permits presently outstanding and issue a new permit under and pursuant to the terms and conditions hereof.

9. That this resolution be entered in the minutes and records of the Commission as of the 7th day of December, 1954, and that the original of this resolution be filed in the office of the Secretary of the State Highway Commission, and that a copy of this resolution be furnished to each the Superintendent of State Police and the Public Utilities Commissioner.

Subject to each and all of the following terms and conditions, printed, typed or written below, and on the reverse side hereof, and not otherwise, the above named permittee is hereby authorized to

DESCRIPTION OF HAULING EQUIPMENT

MAKE OF TRUCK | MOTOR No. | PUC or PLATE No. | LICENSE No. | FIRM No.

This permit is issued under authority of ORS 483.520.

1. The overall length of any vehicle, including any load thereon, operated under this permit shall not exceed 35 feet. The OVERALL WIDTH of load thereon may exceed 8 feet, but SHALL NOT EXCEED 8½ feet.

2. The gross weight of any single axle of a vehicle operated under this permit shall not exceed 18,000 pounds, and the gross weight of any tandem axle of a vehicle shall not excede 32,000 pounds. The gross weight of any vehicle shall not exceed the applicable gross weight set forth in the table of weights on the reverse side of this permit or the sum of the permissible axle weights, whichever is the lesser.

3. The posting of any highway or structure to reduced limits of weight or dimensions shall be to that extent a modification of the weights or dimensions allowed under this permit.

4. All equipment operating under authority of this permit shall be properly licensed, shall carry proper Oregon P.U.C. authorization, and shall conform in all other respects with the Oregon Motor Vehicle Laws, the Oregon Motor Transportation Code and the mandatory regulations issued by the Public Utilities Commissioner governing the transportation of logs, poles or piling by motor truck, in particular paragraphs B 5, B 6 and C 5, except that on any load in excess of 8 feet in width hauled during hours of darkness between 4:00 a.m. and 8:00 p.m. there shall be displayed at each bottom corner of the load in such manner as to be clearly visible to other vehicles approaching from the front and rear, amber side marker lamps, in addition to such other lighted lamps and illuminating devices required to be on the equipment by statute.

5. Notwithstanding anything in this permit to the contrary, the permittee shall be subject to all regulatory powers vested in the Interstate Commerce Commission, and shall be subject also to the regulatory powers vested in the Public Utilities Commissioner, but any such regulatory power, or any order of any Federal or State office, Board, or Commission having regulatory power over transportation, shall not be construed as permitting the operation of vehicles exceeding in any respect the provisions of this permit in regard to weight or dimensions.

6. Any vehicle operated pursuant to this permit shall at all times keep to the extreme right hand side of the traveled roadway. At no time shall any such vehicle or any portion of the load carried thereon extend over, beyond or to the left of the painted center stripe, or over, beyond or to the left of the center line of the traveled roadway in case there be no painted stripe, except when overtaking or passing other vehicles or obstructions on the highway.

7. This permit must be carried at all times in the cab of the truck and shall be available for inspection by any police officer and any representative of the State Highway Commission or the Public Utilities Commissioner.

8. This permit is of a temporary nature only and will expire on ....., provided that any time prior thereto this permit may be cancelled by the State Highway Commission for violation of any of the terms or provisions of this permit, or when, in the judgment of the Highway Commission, public interest requires cancellation of this permit.

(OVER)

TABLE OF PERMISSIBLE WEIGHTS

9. The gross weight of any vehicle where the distance between the first and last axles is 18 feet or less, shall not exceed that set forth in the following table; or the sum of the permissible axle weights, whichever is the lesser:

Distance Between First and Last Axles (feet)	Maximum Gross Weight (pounds)	Distance Between First and Last Axles (feet)	Maximum Gross Weight (pounds)
less than 6	32,000	12	36,400
6	32,200	13	37,100
7	32,900	14	43,200
8	33,600	15	44,000
9	34,300	16	44,800
10	35,000	17	45,600
11	35,700	18	46,400

The maximum gross weights in the above tables are for axle spacings measured to the nearest foot. If the axle spacing as actually measured is exactly one-half foot, the gross weight allowed is that given in the table for the next higher spacing.

EXHIBIT "K-1"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, the State Highway Commission, on the 29th day of October, 1953, by resolution declared the necessity for the acquisition of certain real property owned by George E. Hill and Dorothy Hill, File No. R-18456, situated in Section 24, Township 18 South, Range 3 West, W.M., Lane County, Oregon, for right of way purposes for the relocation, construction, improvement and maintenance of the Goshen-Divide Section of the Pacific Highway; and

WHEREAS, the said resolution declared the necessity for the acquisition or extinguishment of all rights of access between the right of way of the said relocated Goshen-Divide Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property described in said resolution, except for two rights of access for the production and transportation to market of farm products and for private residential use only; and,

WHEREAS, the said State Highway Commission, after further investigation, has found that it will be to the best interests of the State and the said owners to change the location of one of the said rights of access;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That paragraph B on page 3, Exhibit A, of that said certain resolution duly made and entered in full in the minutes and records of the Commission on the 29th day of October, 1953, pertaining to the property owned by George E. Hill and Dorothy Hill, File No. R-18456, be and the same hereby is amended to read as follows:

> A right of access to the Eastbound leg of the Willamette Highway of a width not to exceed 25 feet on the Southerly side of the said highway, opposite Highway Engineer's center line Station L^2 81+75, for the production and transportation to market of farm products of the owners' remaining land, and for private residential use only.

2. That this resolution be entered in full in the minutes and records of the Commission this 7th day of December, 1954, as Condemnation Resolution No. 530.

December 7, 1954

EXHIBIT "K-2"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the establishment, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

EXHIBIT "K-2" (Cont)

and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 7th day of December, 1954, as Condemnation Resolution No. 541.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission. Salem, being Resolution No. 541, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-3"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry site; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads, highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goshen-Divide Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the

EXHIBIT "K-3" (cont.)

interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, construction, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment, and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Goshen-Divide Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Goshen-Divide Section of the relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Goshen-Divide Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking,

and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 7th day of December, 1954, as Condemnation Resolution No. 595.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 595, under heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-4"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway; and,

EXHIBIT "K-6"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits; storage sites, stock pile sites, or for the acquisition or manufacture of road-building materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and

WHEREAS, for the purpose of constructing and maintaining certain sections of the state highway system, the Commission plans and proposes to acquire a stockpile site for the storage of roadbuilding materials, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to said real property;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "K-6" (Cont)

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners or other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 7th day of December, 1954, as Condemnation Resolution No. 636.

---

*FOOTNOTE

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 636, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-7"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, the State Highway Commission on the 24th day of September, 1953, by resolution declared the necessity for the acquisition of certain real property owned by Dale M. Cornelius, et ux., File No. R-20587, situated in the Milton Riggs Donation Land Claim No. 57, and also in the Northwest quarter ($NW\frac{1}{4}$) of Section 24, Township 18 South, Range 3 West, Willamette Meridian, Lane County, Oregon, for right of way purposes, for the improvement and betterment of the Willamette Highway; and

WHEREAS, said resolution declared the necessity that there shall be no rights of access between the right of way of the said Willamette Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property therein described, except that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land certain rights of access therein more specifically set forth; and

WHEREAS, the State Highway Commission after further investigating the necessity for the control of access from said remaining land to the said Willamette Highway has found that it will be to the best interest of the State and the owners to make certain changes with respect to the access to said Willamette Highway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the access control language contained in subparagraph "a" in that certain resolution duly made and entered in full in the minutes and records of the Commission on the 24th day of September, 1953, pertaining to the property owned by Dale M. Cornelius, et ux., File No. R-20587, as set forth on page 1 of Exhibit "A" in said resolution, be and the same is amended to read as follows:

> a. Rights of access to a service road to be constructed by the State Highway Commission, at its sole cost, within the right of way of the said Willamette Highway and North of the center line thereof, between Highway Engineer's centerline Stations 91+40 and 90+00, which said service road will connect with the relocated Lane County Road No. 95 approximately opposite Highway Engineer's centerline Station I 12+40 thereof.

2. That this resolution be entered in full in the minutes and records of the Commission this 7th day of December, 1954, as Condemnation Resolution No. 458a.

EXHIBIT "K-8"

Minutes of December 7 and 8, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Adams-Milton Section of the Oregon-Washington Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the Adams-Milton Section of the Oregon-Washington Highway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "K-8" (Cont)

2. That the widening, improvement and maintenance of the said Adams-Milton Section of the Oregon-Washington Highway and the highway facilities for which the said parcel of property, or interest therein, is required and being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 7th day of December, 1954, as Condemnation Resolution No. 646.

---

*FOOTNOTE

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 646, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

24603		EXHIBIT "G". Acquisition of Land Approved. Susan Creek State Park.
24605		EXHIBITS "H-1" through "H-5". Condemnations.

Portland, Oregon
January 18, 1955

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Tyrolean Room of the Benson Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

The minutes of the meetings held on October 28 and 29, 1954, and on December 7 and 8, 1954, were approved by the Commission unanimously.

The State Parks Superintendent, C. H. Armstrong, reported on the following park matters:

1. Request of Mr. D. C. Burkes that the State purchase his property immediately north of Boiler Bay for state park purposes: The Parks Superintendent recalled that the Commission at the September meeting asked him to re-examine the area. That has been done, he said, and a thorough study has been made of the recreational possibilities in Lincoln County, which discloses that other and more suitable areas could be developed at less expense. He, therefore, recommended that the request be again denied. The Commission accepted the recommendation.

2. Request of Mr. and Mrs. J. L. Campbell for an extension of their lease to operate concessions in Silver Falls State Park: The Parks Superintendent reported that these people satisfactorily operated the concession in 1954 under agreement which expired December 31, 1954; that it is their wish to renew the lease for the year 1955. The concession, he said, serves a useful purpose in the park, and because the operation by the Campbells has been satisfactory, he recommended that the agreement be extended for the calendar year 1955 under the same terms as contained in the former agreement. The recommendation was approved by the Commission.

3. Request from the Daughters of the American Revolution through Mrs. Albert Powers, for use of an area in Champoeg State Park on which to construct a caretaker's garage: The Parks Superintendent stated that there is no suitable space for a garage in the area that the

D.A.R. now occupies and that the proposed garage will not be detrimental to the state park. He recommended approval of the request. The recommendation was approved by the Commission.

4. Adoption of rate schedule for use of facilities in state parks during the year 1955: The State Parks Superintendent presented a proposed schedule with the comment that the rates proposed are the same as those contained in the 1954 schedule. He recommended approval of the same. The Commission approved the rates as recommended by adoption of the attached resolution relative thereto marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

5. Report concerning expenditures for and use of swimming facilities in Jessie M. Honeyman State Park during 1954: The Parks Superintendent reported that the total expense for operating the swimming facilities was $2,151.42 whereas the income from the swimmers amounted to $1,617.55, a net loss of $533.87 compared with a net loss in 1953 of $628.47. He also said that there was a decrease in the number of swimmers from 7,539 during 1953 to 5,799 in 1954. It was his thought that the decrease may not have been due altogether to the additional charge made in 1954, but that it could have been partially attributed to unusually damp, cool weather during the summer months which curtailed interest in swimming. As to adverse criticism as to the manner in which the facilities are being handled, he advised that he has heard none. He recommended that they be handled in the same manner during 1955. The Commission accepted the report.

6. Request of Henry Zorn for renewal of a lease of an area in the south part of Champoeg State Park during the year 1955: The Parks Superintendent commented that this area of 45 acres has been leased to Mr. Zorn for a number of years for the purpose of growing grass, the consideration being $225 per year. He further stated that it is not planned to develop the area in 1955, and he recommended in view thereof that the request be granted. The Commission accepted his recommendation.

7. Five-Year program for the development of state parks: The State Parks Superintendent submitted a written report on this subject which included a five-year development and budgetary plan for state parks with a budget of $3,100,000 for development and $3,000,000 for operation, and acquisition of some 720 acres of land. He explained that the contemplated program anticipates that 3,000,000 additional people would use park facilities during this five-year period. He pointed out that additional land purchases are not expected to be large but that accent has been placed on development and operation of existing property. He called attention to the fact that the trend to overnight camping and the use of lake and river facilities by boat enthusiasts and fishermen is very much on the increase; also, that leeway has been left within the plan to shift the development of the parks to fit the demands of the park users which cannot be accurately foretold so far in the future.

The State Highway Engineer expressed his opinion that the report is an excellent one. Commissioner Reynolds commented that the report should be adopted. Commissioner McIver gave as his feeling that the report is fine, but should be given careful study before adoption. Chairman Chandler inquired if the report contains information as to what park work has been done during the past five years. It was his thought that such information will reflect the Commission's attitude with respect to development of state parks better than will a statement of future plans. As a result of the discussion the Commission indicated its approval of the program as prepared but deferred a final decision pending further study. (On the following day the matter was again discussed and at that time the Commission by unanimous vote approved the program as presented by the Parks Superintendent. In approving the program the Commission called attention that there has been a big increase in the use of the parks during the past five years as a result of the Commission's action in spending funds for development purposes, making possible greater use of the recreational facilities that have been provided. For details, see copy of the Parks Superintendent's letter of January 10, 1955 with program attached, in General Files.)

8. Possibilities of State Park development in Lincoln County during the next 20-year period: The Parks Superintendent reported that pursuant to instructions of the Commission a study of probable use in the area up to 1975 has been made. He pointed out that the areas most in need of park development are (1) south of Yaquina Bay (2) at Fogarty Creek about 5 miles south of Kernville and (3) the district at the south end of Devils Lake. Mr. and Mrs. James C. Drury own 80 acres of land south of Yaquina Bay which would be suitable, and a small area is now owned at Fogarty Creek, but no land has been acquired in the Devils Lake area. Overnight camp use, he stated, could be expanded by purchasing additional areas adjoining the Big Creek area on the south, and by acquiring the land to the east of the present site at Beverly Beach. If these developments cannot be made, he said, it will be necessary to expand either in the Fogarty Creek area or south of Yaquina Bay. He recommended that authority be granted to negotiate the purchase of the 80-acre tract south of Yaquina Bay owned by the Drurys , and acquisition of land in the Fogarty Creek area. The Commission accepted the report and approved the recommendations.

9. Designation of state parks and wayside areas: The Parks Superintendent advised that pursuant to legal authority the Commission has acquired during past years numerous parcels of land for use as state parks and other parcels for wayside purposes,but the several parcels have not always been segregated in the department records as to which are to be used for park purpose and which are to be developed as waysides. In order to clarify the status of each group, he suggested that the Commission take appropriate action to defining each. He presented for the Commission's consideration two resolutions--one listing those areas that are known as highway waysides and the other listing those areas that are known as state parks. He recommended adoption of both resolutions. The Commission deferred action in this matter

until the following day. (See ahead for additional entry adopting both resolutions.)

10. Proposed Susan Creek State Park on the North Umpqua River about 30 miles east of Roseburg: Commissioner Reynolds recalled that there had been several requests during the past few years that this area be developed as a state park. He suggested that it might be advisable to reopen the matter in view of changed conditions and the fact that there now is a good road leading to the area. The State Parks Superintendent commented that it is an unusually beautiful area; that it provides very good bank fishing and is built up with a number of summer homes. Chairman Chandler recalled that the matter had been previously denied as the area was located on an unimproved road at a considerable distance from the state highway. He pointed out, however, that the highway now is oiled up to this point and eventually will be constructed easterly to Diamond Lake. The matter was discussed at some length but the Commission deferred action until the following day. The Parks Superintendent was requested to bring in a report at that time. (On the following day the Commission again considered this matter. The Parks Superintendent pointed out that the area consists of county and federally owned lands, some of which cannot be leased. He requested authority to conduct negotiations for the acquisition of this area as a state park. The Commission approved the request and instructed the Parks Superintendent to present at the next meeting an estimate of cost to acquire the property and to develop it. See additional entry ahead.)

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway improvements and for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer requested authority to negotiate purchase of the following properties for which no specific authority previously has been granted:

COUNTY AND SECTION	FILE NO. AND NAME	AREA	PURPOSE	HIGHWAY
COOS				
Coquille-Myrtle Point	22782-McCloskey James H.	3.83	Stockpile Site	Coos Bay-Roseburg
DOUGLAS				
Suicide Creek-Winston	22785-Cyril H. Nichols	.64	Loado-meter	Coos Bay-Roseburg

DESCHUTES				
Horse Ridge-Brothers	22707-Martha Good	28.48	Gravel Pit	Central Oregon
UMATILLA				
Boardman-Stanfield Junction	22626-Geo. J. & Irene Hanel	.21	R/W	Old Oregon Trail

The Commission unanimously granted the request.

A report on miscellaneous properties sold since the last Commission meeting was submitted by the Right of Way Engineer and was approved by the Commission. (For a list of properties sold, see copy of the report prepared by C. W. Parker, Property Manager, dated January 18 and 19, 1955, filed in the Secretary's office under the heading "Miscellaneous Sales Report".)

Changes in points of access to state highways, as follows, were approved by the Commission on recommendation of the Right of Way Engineer who explained that in each instance with the exception of access from the Olsen property in Salem, no additional access is involved:

a. Chenoweth property, File No. 20203, on the Rinehart Creek-Frankport Unit, Rocky Point-Gold Beach Section of the Oregon Coast Highway in Curry County.

b. Shelton property, File No. 19793, on the Noble Slough-Foster Section of the South Santiam Highway in Linn County.

c. Doran property, File No. 20314, on the Clatskanie-Delena Section of the Columbia River Highway in Columbia County.

d. Van Volkinburg property, File No. 20268, on the Clatskanie-Delena Section of the Columbia River Highway in Columbia County.

e. Olsen property, File No. 13891, on the Salem-Hayesville School Section of the Pacific Highway East in Marion County.

f. Holden property, File No. 20315, on the Clatskanie-Delena Section of the Columbia River Highway in Columbia County.

g. Stevenson-Herried property, File No. 18382, on the Medford-County Farm Section of the Pacific Highway in Jackson County.

h. Boyd property, File No. 19171, on the Medford-County Farm Section of the Pacific Highway in Jackson County.

i. Stancliffe property, File No. 19159, on the Medford-County Farm Section of the Pacific Highway in Jackson County,

j. Barnum property, File No. 19170, on the Medford-County Farm Section of the Pacific Highway in Jackson County.

k. Anderson property, File No. 18380, on the Medford-County Farm Section of the Pacific Highway in Jackson County.

l. Jackson County property, File No. 18379, on the Medford-County Farm Section of the Pacific Highway in Jackson County.

Consideration was given to reconveying to the US Government a gravel pit and haul road adjacent to the Jefferson County Line-Prineville Section of the Madras-Prineville Secondary Highway in Jefferson County. The Right of Way Engineer explained that the property originally acquired from the Government no longer is needed for highway purposes and he recommended that it be reconveyed to the Government for a consideration of $1.00. The Commission approved the recommendation.

The Right of Way Engineer reported that during construction of the Coast Fork-Divide Section on the Pacific Highway in Lane County, the contractor inadvertently trespassed upon property owned by George and Dorothy Molitor who now demand damages. The contractor, he said, took some gravel from the Molitor property by reason of a wrongly placed survey stake, but additional material was removed as a result of his own error. As a result of negotiation, settlement has been reached with the Molitors whereby the State is to pay for the material secured within the State stakes amounting to $154, and the contractor is to compensate the Molitors for the amount taken beyond the State stakes. He recommended approval of the settlement. The Commission approved the payment of $154 as recommended by the Right of Way Engineer.

"Renewal of Lease" with Mrs. and Mrs. Homer H. Cross for use of a roadway on the Cross property adjacent to the Hebo-Neskowin Section of the Oregon Coast Highway in Tillamook County, was discussed. The Right of Way Engineer stated that the present lease expires on January 25, 1954, and it is desirous to renew it for another 10-year period, from January 25, 1954 to January 25, 1964, the consideration for the entire period to be the sum of $500. The Commission unanimously approved extension of the lease.

The sale of 1.43 acres in the Southeast quarter of the Southwest quarter of Sections 27 and 34, Township 30 S., R. 5 W. in Douglas County, was considered by the Commission. The Right of Way Engineer advised that the land lies adjacent to the Canyonville Section of the Pacific Highway and no longer is needed for highway purposes. Access to the property, he said, would be by limited access to a frontage road. He added that the property was purchased at the rate of $1,000 per acre and that an offer has been received in the sum of $2,250 for 1.43 acres. He recommended sale

of the property at not less than such amount and requested authority to advertise it for sale by public auction at a minimum sale price of $2,250. The Commission approved the request by adopting the attached resolution relative thereto marked EXHIBIT "B-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported a conference with the City Manager of Corvallis regarding acquisition of the Corvallis Lumber Co. property at the south end of First Street, in Corvallis, in connection with the proposed rerouting of US99W along Front Street through the City. He recalled previous discussions of this matter by the Commission and advised that the Company now is willing to sell the property for $125,000. He further stated that the City of Corvallis has offered to cooperate in the expense on the basis, one-third city and two-thirds State. He said that the property will be needed in connection with the ultimate improvement in view of which he suggested that negotiations be authorized with the City and the Company to acquire the property on the basis that the City will pay one-half of the cost and the State the balance. The matter was discussed at some length and as a result thereof the Engineer was instructed to submit a "refresher" report on the subject at the next meeting, covering commitments and other details in full.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties which are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Clackamas Overcrossing Section of the Cascade Highway

R 21880- Harmony Development Company
Roadbuilding Materials (Clackamas)
8.76 acres

Clatskanie-Delena Section of the Columbia River Highway

R 22645- Ola F. Pratt
Haul Road (Columbia)
0.60 acre

Myrtle Creek-Umpqua Bend Section of the Pacific Highway

R 21024- George D. Weaver
Right of Way (Douglas)
3.14 acres

R 21015- Eleanor Jones
Right of Way (Douglas)
Parcel No. 1: 4.16 acres
Parcel No. 2: 0.14 acre

Sylvan Section of the Sunset Highway

R 20695- George Aloysius Raab
Right of Way (Multnomah)
Parcel No. 1: 548 square feet
Parcel No. 2: 0.1 acre

R 20696- Joseph Raab
Right of Way (Multnomah)
0.306 acre

Carlton Junction-Newberg Section of the Yamhill-Newberg Highway

R 22399- Adolph Wohlgemuth
Right of Way (Yamhill)
1.00 acre

R 22414- Wesley I. Crow
Right of Way (Yamhill)
0.44 acre

R 22411- Kenneth Branchflower
Right of Way (Yamhill)
Parcel No. 1: 80 square feet
Parcel No. 2: 2.55 acres

R 22398- Harry H. Daniel
Right of Way (Yamhill)
0.15 acre

R 22648- Daisy Hall, Melvin D. Hall, Velda Hall Jungwirth
Right of Way (Yamhill)
0.12 acre

Pistol River-Macks Arch Section of the Oregon Coast Highway

R 22386- Harvey D. Crook
Right of Way (Curry)
Parcel No. 1: 31.27 acres
Parcel No. 2: 6.5 acres
Parcel No. 3: 0.67 acre

R 22387- Harvey D. Crook
Curry
Parcel No. 1: 29.75 acres for right of way
Parcel No. 2: 31.5 acres for park

Euchre Creek-Wedderburn Section of the Oregon Coast Highway

L 2328- Ruby A. Bailey, et al.
New resolution required for change of access

January 18, 1955

Washburn-North Plains Section of the Wilson River Highway

R-22910- James L. Chapman, et al.

New resolution required for additional taking of 0.01 acre

Adams-Milton Section of the Oregon-Washington Highway

R 22371- W. S. Price, et al.
Right of Way (Umatilla)
0.93 acre

R 22505- Lwayne O'Harra, et ux.
Right of Way (Umatilla)
0.37 acre

Weston-Weston Mountain Section of the Weston-Elgin Highway

R 22372- Lester D. Wilsey
Right of Way (Umatilla)
Parcel No. 2: 1 acre

The Commission approved the request by adopting the attached resolutions relative thereto marked EXHIBITS "M-1" through "M-5 ", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and approved the Chief Counsel's written report of cases which have been tried in court by his staff since the December meeting of the Commission as follows:

1. State vs. Dale M. Cornelius, et ux., L 2095 (R 20578), for 0.79 acre for relocation of Lane County Road No. 95. An offer in the amount of $2,305 was made which the defendants rejected and demanded the sum of $5,500. The jury returned a verdict in the amount of $2,300 plus interest since June 18, 1954, plus $350 attorney's fees.

2. State vs. John Jurgens, et al., L 2162 (R 19684), for 3.83 acres on the Tualatin River-Midland Section of the Pacific Highway West. Prior to filing of the complaint the defendants were offered $17,200 for this property which they refused demanding the sum of $45,000. The jury returned a verdict in the sum of $30,000 plus attorney's fees of $1,500.

January 18, 1955

3. State vs. Philip S. Holt, et ux., L 2091 (R 20509), for 1.26 acres on the Goshen-Divide Section of the Pacific Highway. This case, the Chief Counsel stated, had been reported by letter December 1, 1954, indicating that the attorneys for the defendants would demand a new trial. The jury had awarded $700, being $256 less than the offer of the State. On December 31 the court overruled the motion of the defendants and a letter has been received that an appeal will be taken to the Supreme Court.

4. State vs. Albert Diss, et al., L 2199 (R 21329), for 0.46 acre on the Goble-St. Helens Section of the Columbia River Highway and for 0.72 acre of excess taking. The defendants were offered $28,000 for this property which they rejected, demanding the sum of $50,000 plus $5,000 attorney's fees. The jury returned a verdict in the amount of $34,700 plus attorney's fees in the amount of $2,000.

5. State vs. Horace J. Smith, et ux., L 2136 (R 13926), for 6.5 acres at the Hayesville interchange in connection with construction of the Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway. Prior to filing of the complaint, the defendants were offered $31,550 which they rejected and demanded the sum of $50,000. The jury returned a verdict in the amount of $35,000.

(For details, see copies of the Chief Counsel's letters to the Commission, dated January 14 and 17, 1955 in the General Files.)

The Commission also considered and accepted the Chief Counsel's report on court cases which have been settled by his office since the Commission meeting held December 7 and 8, 1954, as follows:

1. State vs. Gladis E. Peterson, et al., L 2227 (R 21830), for 3.76 acres on the Goble-St. Helens Section of the Columbia River Highway. The owners of this property were offered the sum of $19,500 which they rejected contending that the offer did not represent the fair value of the property. Subsequent to this offer an appraisal was received from Mr. Jeffery Holbrook in the amount of $25,275 and Mr. Leroy Draper increased his estimate from $19,350 to $23,850. Further negotiations resulted in a settlement of $25,000.

2. State vs. N. Cromwell Norene, et ux., L 2341 (R 21954), for 0.14 acre on the Beaverton-Multnomah County Line Section of the Beaverton-Hillsdale Highway. The defendants were offered $900 for this property, which offer was rejected and a demand made for the sum of $4,000. Further negotiations resulted in the defendants signing an option in the amount of $924.

3. State vs. Chester D. Pape, et al., L 2349 (R 19694), for 140 square feet of real property on the Tigard-Newberg Section of the Pacific Highway West. An offer was made in the amount of $150,

which offer was rejected by the owners although they failed to state any reason. Subsequently, they agreed to accept the sum of $150 and have executed a deed to the property.

4. State vs. James Oules, et ux., L 2342 (R 21939), for 0.146 acre on the Beaverton-Multnomah County Line Section of the Beaverton-Hillsdale Highway. The sum of $2,025 was offered for this property and was rejected by the defendants who demanded the sum of $6,750 plus $1,500 attorney's fees. Subsequent discussions with Mr. Wiener, attorney for the defendants, revealed that the defendants had in their possession a note written by Mr. Carl Smith, Right of Way Agent, setting forth the sum of $4,435 as the amount which he was willing to recommend for the purchase of the property; however, Mr. Smith at this time did not have the benefit of the independent fee appraisals which were later furnished and his recommendation was based upon that of Mr. William Witt, staff line appraiser. A settlement was made in the sum of $4,435 and the State to construct a black-topped approach to serve the defendant's driveway. In discussing this matter, the Commission instructed the Chief Counsel to caution the right of way agents about making future commitments of this sort.

5. State vs. William I. Fisher, et al., L 2192 (R 18647 and R 18648), for 1.945 acres on the Tigard-Tualatin River Section of the Pacific Highway West. Prior to filing the condemnation complaint, an offer was made in the amount of $11,320, which offer was rejected by the defendants who demanded the sum of $25,000 plus $5,000 attorney's fees. Subsequent negotiations have resulted in a settlement of $11,000.

6. State vs. Harriet E. Harsch, et vir., L 2164 (R 19688), for 0.128 acre on the Tigard-Newberg Section of the Pacific Highway West. The defendants were offered $285 for this property, which offer they rejected and demanded direct access to the improved Pacific Highway West instead of access to a frontage road as had been originally contemplated. However, plans for the frontage road have since been eliminated and the area to be acquired reduced to 0.092 acre with access completely restricted to the improved Pacific Highway West. As a result of numerous conferences, a settlement has been reached whereby the defendants will be allowed access to the county road very near its intersection with the improved Pacific Highway West and will be paid the sum of $220.

7. State vs. John M. Burge, et al., L 2346 (R 19701, R 19716 R 21593), for three parcels of property containing 600 square feet, 0.028 acre and 0.555 acre on the Tualatin River-Middleton Section of the Pacific Highway West. The existence of a lease prevents settlement with respect to Parcel No. 1. On Parcel No. 2, an offer was made in the amount of $160 and an offer in the amount of $1,555 was made for Parcel No. 3. As a result of subsequent appraisals and further negotiations, options have been executed by the defendants to convey Parcel No. 2 for the sum of $310 and Parcel No. 3 for the sum

of $1,690. The option for Parcel No. 3 provides that the previous owners will be granted a permit to remove to their own land, earth between the right of way line and the highway ditch to a level conforming with the highway elevation. The option also provides that the State will construct and pave a 40-foot approach; however, the approach is not to be constructed unless Mr. Burge has removed the dirt between the highway ditch and the right of way line not later than 30 days prior to the date upon which the paving contractor completes his contract.

8. State vs. Elizabeth Rose, et al., L 2348 (R 19743), for 0.165 acre on the Tualatin River-Middleton Section of the Pacific Highway West. The State offered to pay $175, which offer was rejected by the defendants who demanded the sum of $1,000. Further negotiations resulted in a settlement for the sum of $200 with the State to reconstruct the defendants' existing access road.

9. State vs. Julius Siller, et ux., L 1945 (R17744), for specific performance of an option for real property on the Winchester Bay-Forest Boundary Section of the Oregon Coast Highway. The Chief Counsel explained that under the terms of the settlement approved by the Commission at its last meeting the State retained the right to construct a frontage road and thereby terminate the defendants' right of access to the main highway. He pointed out that in some sixteen cases in this area it had been necessary to renegotiate because of errors of survey and description on the part of the Bureau of Public Roads. If the precedent is established of obligating the State to connect frontage roads to the main highway at points which coincide with accesses allowed for the service of abutting property, it is almost certain that owners of the property involved in the sixteen cases mentioned will demand similar treatment. To avoid the establishment of such a precedent, he recommended elimination of the frontage road clause entirely. The Commission approved the change in settlement as recommended.

10. Harry Perkins, et ux., vs. State, L 2296, concerning a settlement approved by the Commission at the December meeting. The Chief Counsel explained that during negotiations for this property on the Zigzag-Rhododendron Section of the Mt. Hood Highway, it had been the impression of all concerned that the grade of the existing highway would not be materially changed, but it later appeared that the grade in front of the Perkins' property would be raised approximately four feet. A suit has now been filed against the Highway Commission demanding the sum of $25,000 as damage to the property by reason of the change in grade. After considerable negotiations, a settlement has been reached based on the cost of raising the residence building plus the cost of raising and moving away from the highway those buildings which fronted upon the portion of the property acquired for right of way purposes. In addition the sum of $150 is to be paid for replacing a driveway and $65.25 for 0.01 acre of land. A bid in the amount of $9,950 has been received for raising and moving the buildings, making a total settlement in the amount of $10,165.25.

11. William S. Walton vs. State, L 2175 (R 21757), for the recovery of damages allegedly caused the plaintiff's property by the change of grade of Center Street in connection with construction of the Center Street Bridge in Salem. The plaintiff demanded the sum of $70,000. Total damages were appraised by the State at a high figure of $25,000. A settlement was finally effected in the sum of $23,000.

12. State vs. G. C. Long, et ux., L 1972 (R 19958), for 38.38 acres as a quarry site on the Elk Head Road-Rice Hill Section of the Pacific Highway and for easement for a haul road across 0.43 acres. An offer in the amount of $5,275 was made, which offer the defendants rejected demanding payment upon a royalty basis which would have totaled $94,000. Upon opening of the quarry site, it was found that it did not contain the amount or quality of materials anticipated, and a settlement was effected for the sum of $9,000.

13. State vs. Nels Holmberg, et ux., L 1892 (R 18242), for 0.78 acre from the Forest Boundary-Hauser Section of the Oregon Coast Highway. An offer was made to the defendants in the amount of $390 which they refused, demanding the sum of $3,000 or unrestricted access to the Oregon Coast Highway. Negotiations over a $2\frac{1}{2}$-year period have resulted in a settlement of $695. He stated that Mr. McKeown, attorney for the defendants, had insisted that he ask the Commission for a settlement in the amount of $780, but indicated his clients would accept the sum of $695. The Commission approved settlement in the amount of $695.

(For details see copies of the Chief Counsel's letters of October 26, 1954, January 14 and January 17, 1955 to the Commission in General Files.)

The Chief Counsel reported that the following offers for the acquisition of real property were tendered to the owners prior to the institution of condemnation proceedings in conformity with the resolution adopted by the Commission on December 20, 1951:

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway:

R-21553-Owner: Schnitzer-Wolf Investment Company. 0.85 acre for right of way. Offer of $17,000 approved by Mr. McIver on January 5, 1955.

Clackamas Overcrossing Section of the Clackamas Secondary Highway.

R-21575-Owner: Raymond W. Piper, et ux. 1.18 acres for right of way. Offer of $2,000 approved by Mr. McIver on January 5, 1955.

R-21576-Owner: Franz O. Kruschke, et ux. 0.69 acre for right of way. Offer of $1,850 approved by Mr. McIver on January 5, 1955.

Clackamas Overcrossing Section of the Clackamas Secondary Highway (cont)

R-21592-Owner: M. C. Curtis, et ux. 4,300 square feet for right of way. Offer of $600 approved by Mr. McIver on January 5, 1955.

R-21753-Owner: Christian Cadonau, et al. 1.1 acres for right of way purposes and 0.9 acre for the acquisition of roadbuilding materials. Offer of $800 approved by Mr. McIver on January 5, 1955.

Siuslaw Junction-Smithfield Section of the Territorial Highway:

R-21667-Owner: Ray A. Sweet, et ux. 0.16 acre for right of way. Offer of $179 approved by Mr. McIver on January 5, 1955.

Reedsport-Dean Creek Section of the Umpqua Highway:

R-22447-Owner: City of Reedsport, et al. 0.11 acre for right of way. Offer of $100 approved by Mr. McIver on January 5, 1955.

Anlauf-Rice Hill Section of the Pacific Highway:

L-1972-Owner: G. C. Long, et ux. 26.46 acres for easement for roadbuilding materials, 9.30 acres for easement for stockpile site and 0.43 acre for easement for haul road. Offer of $5,275 approved by Mr. Reynolds on December 16, 1954.

The Commission approved the offers as presented.

The Commission considered and approved the following offers in condemnation cases heretofore authorized for acquisition of real property required for various highway purposes, as recommended by the Chief Counsel.

	Recommended Offer
Adams-Milton Section of the Oregon-Washington Highway	
R-22371- J. M. Price (Umatilla) 0.93 acre for right of way	$ 580.00
R-22505- Lwayne O'Harra (Umatilla) 0.37 acre for right of way	$ 680.00
Weston-Milton Section of the Weston-Elgin Highway	
R-22372- Lester D. Wilsey (Umatilla) 7.83 acres for right of way 1.00 acre for right of way	$6,000.00
R-22376- Keith E. Tucker (Umatilla) 14.49 acres for right of way	$6,500.00

The Chief Counsel requested confirmation of the appointment of Mr. James B. Daniels as an Assistant Attorney to serve in the legal department. Daniels, he stated, is well qualified and he recommended that he be employed at a beginning salary of $459 per month, effective January 1, 1955. He also requested approval of the appointment of Prentice K. Puckett as an additional member of the legal staff at a beginning salary of $410 per month, effective February 14, 1955. The Commission approved both appointments as recommended.

The matter of combining into one resolution the various actions taken by the Commission in granting the Chief Counsel authority to dispose of buildings, personal property, etc., and the rental of real property was presented by the Chief Counsel. He pointed out that during the past several years the Commission has taken action, separately, authorizing the Chief Counsel to sell real and personal property not needed for highway purposes. As an aid to efficient and economical administration of property owned by the State, he recommended that these various grants of authority, including the right to rent property, be combined in one resolution. The proposed resolution, he stated, would authorize the Chief Counsel to sell at private sale, without calling for bids, items of personal property, structures, trees and timber having an appraised value of $500 or less. Items valued at more than $500 would be sold only after calling for bids or at public auction. The resolution would also authorize the Chief Counsel to issue land use permits for periods not exceeding one year and would also authorize him, subject to approval by the State Highway Engineer, to rent buildings and other property owned by the highway department. The Commission accepted the recommendation unanimously by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Salary increases for attorneys in the Legal and Right of Way Department were recommended by the Chief Counsel to be effective February 1, 1955 as follows:

Name	Position Title	Present Monthly Salary	Recommended Monthly Salary
C. W. Enfield	Chief Counsel	$700.00	
Robert L. May, Jr.	Assistant Counsel	610.00	$651.00
Leonard I. Lindas	Chief, Trial Section	651.00	672.00
J. W. DeSouza	Chief, Options-R.R.-P.U.C. Section	630.00	651.00
Charles Peterson	Trial Attorney	610.00	630.00
George E. Rohde	Chief, Office Section	551.00	570.00
Fred A. Morgan	Chief, Title Section	495.00	513.00
Ralph Wyckoff	Trial Attorney	590.00	610.00

Name	Position Title	Present Monthly Salary	Recommended Monthly Salary
Frank C. McKinney	Trial Attorney	$551.00	$590.00
Owen McAdams	Office Attorney	477.00	495.00
John McLean	Office Attorney	426.00	459.00
Leslie Hampton	Office Attorney	410.00	442.00

He explained that the increases have been approved by the Attorney General and were designed to make the salary of each individual reflect his experience, abilities and responsibilities, and as far as possible to bring the salaries of the State's attorneys more in line with private practitioners. The Commission approved the increases, effective as of the date recommended.

Abandonment of a damage claim against Stowers Logging Company was presented by the Chief Counsel. He explained that the claim involves a collision between a logging truck and a State pick-up which occurred on September 20, 1954, on the Trask River Road east of Tillamook. It appears that the statement made by the driver of the State vehicle, and on which the State's claim was based, could not be verified. Instead, it appeared that the driver of the State vehicle was at fault and the owner of the log truck has submitted a claim in excess of $2,000 to the insurance carrier for the State. Upon his favorable recommendation, the Commission approved abandonment of the claim.

Sale of a portion of the former Fred Meyer property on the T. H. Banfield Expressway in Portland was discussed. The Chief Counsel explained that the sale of this property, which is no longer needed for highway purposes, was authorized by the Commission at the meeting of June 23 and 24, 1954, at a price not less than $250,000, and the property was offered for sale at public auction but no bid equalling the minimum price was received. Since that time, he said, negotiations have been conducted with the Friedman Bag Company, Inc., which has offered to purchase the property for the sum of $250,000,and has deposited $25,000 as earnest money. He asked the Commission to approve the sale at such figure, and to take formal action with respect thereto in order that legal aspects of the transaction may be completely and adequately covered. The Commission approved the sale of the property as recommended, by adopting the attached resolution relative thereto, marked EXHIBIT "B-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The matter of consenting to vacation of portions of N.E. 84th Avenue, N. E. Clackamas Street and Blocks A, B and C, Gannon Addition to the City of Portland, was discussed. The Chief Counsel explained that this property fronts on the T. H. Banfield Expressway and because the State has title to the right of way it is necessary for the petitioners to ob-

tain the consent of the Highway Commission to the vacation of the above-mentioned highway and streets. The matter, he stated, has been carefully studied and discussed with the Engineering Department and there appears to be no good reason why the vacation should be opposed. He recommended that the Commission consent to the vacation and that he be authorized to execute the necessary instruments of consent. The Commission approved the recommendation.

The Chief Counsel and the Assistant Counsel reviewed briefly for the Commission's information the status of highway bills before the State Legislature. It appears that Legislative Committees to date have taken little action other than to establish matters of policy. The Chief Counsel advised that, starting shortly, a weekly summary re legislative matters will be issued by his office to keep all concerned up to date on matters in which they are interested. Chairman Chandler commented that some other states propose severe penalties for depositing litter on state highways. He suggested that similar legislation be discussed with the Highway Committee.

The Engineer reported that as previously authorized by the Commission he awarded contracts for the following projects which were referred to him by the Commission to award when certain conditions had been satisfied:

1. Grading, paving and construction of two concrete bridges on Siletz Bay-Depoe Bay Unit, Siletz Bay-Miner Creek Section of Oregon Coast Highway, Lincoln County. Bids received October 28, 1954. Conditions of award satisfied December 9, 1954. J. C. Compton, McMinnville, contractor.

2. Grading and oiling on West Unit, Reedsport-Dean Creek Section of Umpqua Highway, Douglas County. Bids received October 28, 1954. Conditions of award satisfied December 10, 1954. Coos Bay Dredging Company, Coos Bay, contractor.

3. Grading, paving and construction of a concrete bridge on Tualatin River-Middleton Unit, Tigard-Newberg Section of Pacific Highway West, Washington County. Bids received October 28, 1954. Conditions of award satisfied December 10, 1954. Rogers Construction, Inc., Portland, contractor.

4. Construction of reinforced concrete bridge on Elk City Road over Yaquina River, Lincoln County. Bids received December 7, 1954. Conditions of award satisfied December 16, 1954. Chas. E. Wiedman Dallas, contractor.

5. Grading and oiling on Locust Grove-Mud Hollow Canyon Section of Fulton Canyon-Wasco County Road, Sherman County. Bids received December 7, 1954. Conditions of award satisfied December 17, 1954. C & W Crushing Company, Seaside, contractor.

6. Grading on Ritter-Rush Creek Section of Ritter County Road, Grant County. Bids received December 7, 1954. Conditions of award satisfied December 17, 1954. White Bros. Co., Walla Walla, Washington, contractor.

7. Grading, paving, roadbed reshaping and furnishing crushed materials in stockpile on Crow-Gillespie Corner Section of Territorial Highway west of Eugene, Lane County. Bids received December 7, 1954. Conditions of award satisfied December 20, 1954. Warren Northwest, Inc., Portland, contractor.

8. Construction of concrete viaduct over Union Pacific Railroad tracks to connect Banfield Expressway with 42nd Avenue, construction of pedestrian overcrossing and concrete retaining walls, Multnomah County. Bids received December 7, 1954. Conditions of award satisfied December 23, 1954. Lord Bros., Contractors, Portland, contractor.

9. Construction of Cottage Grove Connection Overcrossing, Lane County. Bids received December 7, 1954. Conditions of award satisfied December 29, 1954. Columbia Empire Constructors, Inc., and P. S. Lord Mechanical Contractors, Portland, contractor.

10. Construction of the Blodgett Overcrossing on Corvallis-Newport Highway, Benton County. Bids received December 7, 1954. Conditions of award satisfied December 30, 1954. L. B. Read, Portland, contractor.

The Commission accepted his report.

The Commission gave attention to the following items of unfinished business as they appear on the Secretary's summary dated December 8, 1954:

1. Adoption of construction program for 1957 Federal-aid Secondary Highway Funds: The Engineer presented a list of eligible projects dated December 2, 1954, totaling $3,120,000, from which the Commission after careful consideration, selected and approved the following for such program:

PROGRAM, 1957 FEDERAL-AID FUNDS, SECONDARY

ON STATE HIGHWAYS

County	Highway, Section and Description	Miles	Allotted Amount
	Division No. 1		
Yamhill	Hillsboro-Silverton Highway. Chehalem Mt.-Newberg, Grade and Pave	2.1	$100,000
Washington	Hillsboro-Silverton Highway. Baker Creek Bridge Replacement, Fill and Culvert or Bridge	1.0	50,000
Yamhill	Hillsboro-Silverton Highway. Willamette River Bridge. Piers only or hold funds until another year.		500,000
Clackamas	Woodburn-Estacada Highway. Meadowbrook Bridge		100,000
	Subtotal, Division No. 1		$750,000
	Division No. 2		
Marion	North Santiam Highway. Units 3 and 4, Sublimity Gun Club-Stout Creek, Grading	9.475	$300,000
Tillamook	Little Nestucca Highway. Meda Bridge Section, Grade, Pave and Bridge	2.0	150,000
Linn	Corvallis-Eastside Highway. Calapooya River Bridge, Bridge and Approaches		50,000
Columbia	Nehalem Highway. Nehalem River Bridge at M.P. 39.32		100,000
	Subtotal, Division No. 2		$600,000
	Division No. 3		
Coos	Coos River Highway. Millicoma River Bridge		$ 75,000

January 18, 1955

1957 Federal-aid Funds, Secondary, Division No. 3 (cont)

Coos	Powers Highway. Yellow Creek Bridge		$ 25,000
Lane	Richardson-Eugene Highway. Richardson-Siuslaw River Crossing, Grading	3.75	200,000
	Reserve		400,000
	Subtotal, Division No. 3		$700,000
	Division No. 4		
Crook	Paulina Highway. East Unit, Eagle Rock-Post, Grading and Paving	4.8	140,000
Klamath	Klamath Falls-Malin Highway. Lost River-Hatfield Junction, Grading and Paving	4.3	220,000
Wheeler	Service Creek-Mitchell Highway. John Day River Bridge		100,000
	Subtotal, Division No. 4		$460,000
	Division No. 5		
Malheur	I.O.N. Highway. Idaho Line-Sucker Creek, Grade Stabilization and Pavement	2.2	$100,000
Baker	Baker-Homestead Highway. Black Bridge-Richland, West Unit, Grading, Surfacing and Paving	3.5	150,000
Umatilla	Ukiah-Starkey Highway. West Unit, Ukiah-Forest Boundary, Grading	8.0	285,000
Umatilla	Havana-Helix Highway. Havana Section, Grade and Pave	1.0	75,000
Grant	Kimberly-Long Creek Highway. East Unit, Hamilton-Long Creek, Grading and Paving	2.0	100,000
	Subtotal, Division No. 5		$610,000

Division No. 1	$ 750,000
Division No. 2	600,000
Division No. 3	700,000
Division No. 4	460,000
Division No. 5	610,000
Total, all Divisions	$3,120,000

2. Report on deferred contract projects as shown on the schedule of contract lettings dated December 6, 1954: The Engineer recalled that at the last Commission meeting he was requested to ascertain if some of the deferred projects can be advertised for bids prior to the first of July so that paving work could be completed in 1955. He recommended as follows: (1). that Item No. 1 reserved tentatively for the Merrill Hill Section, in the amount of $420,000, and that Item No. 2 in the sum of $367,000 for the Durkee Overcrossing be retained on the deferred list; (2). that Item No. 3 for the T. H. Banfield Expressway in the amount of $450,000 and Items No. 4, 5 and 6 for the Goshen-Divide Section of the Pacific Highway in the amounts of $85,000, $572,000 and $926,000 respectively, be transferred to the active list, and that these projects be contracted prior to July, 1955; (3). that Items 7, 8, 9 and 10 on the Shady-Canyonville Section of the Pacific Highway in the amounts of $150,000, $460,000, $320,000 and $50,000 respectively, be retained on the deferred list pending further clarification of President Eisenhower's suggested highway program; (4). that Item No. 11 for guard rail construction on the Emigrant Hill Section of the Old Oregon Trail, in the amount of $75,000, be transferred to the active list and the work contracted so it will be completed by the time the paving work is completed. The Commission unanimously approved the Engineer's recommendations. The Engineer was authorized to advertise the several projects for bids in conformity therewith.

3. Proposed oiling on the Kimberly-Long Creek Secondary Highway: This item was ordered removed from the list of unfinished business inasmuch as the Commission already had made provision for improving a 2-mile section of this road in the program just adopted for 1957 Federal-aid Secondary Highway Funds.

4. Request for reclassification of the Blackbridge -Richland Section of the Baker-Homestead Highway as a Group I Highway: The Engineer reported that pursuant to authority previously granted him, he had approved reclassification of the section between Baker (M.P. 0.00) and Richland (M.P. 42.81) as a Group I Highway, based upon test runs observed over the route in both directions; also, that he had reclassified as a Group I Highway the section of the Stanfield-

Pendleton Secondary Highway, between Rieth (M. P. 22.00) and the junction with US30 near the west city limits of Pendleton, (M. P. 24.65). The Commission approved such reclassifications and ordered this item removed from the list of unfinished business.

5. Request of West Coast Telephone Company that the State pay the cost to move its pole line facilities a second and a third time to accommodate highway construction: The Engineer stated that his report on this matter is not yet complete. The Commission ordered this item retained on the list of unfinished business.

6. Request of Albany delegation for full width paving on Queen Avenue in Albany, route of the Corvallis-East Side Secondary Highway: Action was deferred pending the appearance of a delegation on the following day. (The Commission informed the delegation that it would undertake improvement of this street at an estimated cost of $82,000 if the City and adjoining property owners will contribute 25 per cent of $82,000 or $20,500.) This item is to be deleted from the list of unfinished business.

7. Request of Siletz delegation for improvement of a 9-mile section of the Siletz Secondary Highway immediately north of the town of Siletz: The Engineer recalled that the delegation particularly urged the oiling of this 9-mile section. An investigation of the entire uncompleted section, he stated, reveals that with the addition of approximately two inches of rock and the stabilizing of a few weak spots, the road can be oiled in its existing location and maintained in a satisfactory condition for travel for a construction cost of $150,000. He estimated the cost to reconstruct the section to high standards at $1,000,000. He recommended improvement of the entire uncompleted 16½-mile section to an oiled standard on its existing location at $150,000, such improvement to be divided into two projects costing approximately $75,000 each, one to be performed in 1955, and the other in 1956. The Commission approved the recommendation.

8. Request of Clackamas County delegation for installation of a stop light at the junction of US99E with River Road, a short distance south of the town of Milwaukie: The Engineer stated that his report on this matter is not yet complete. The Commission ordered the item retained on the list of unfinished business.

The Engineer reported that under authority previously granted him by the Commission, he has approved reclassification of a portion of Coos River Secondary Highway from a Group III Highway to a Group I Highway, particularly from M. P. 0.00, at its junction with the Oregon Coast Highway, to M. P. 1.13 in the town of Eastside, and that he has reclassified the balance of the highway, from M. P. 1.13 to M. P. 18.86, as a Group II Highway. These changes, he explained, were based on the results of test runs conducted over the highway. The Commission accepted the report.

A report was submitted by the Engineer concerning the relative values to be obtained in improving the Lake-of-the-Woods Highway and the Green Springs Highway. He pointed out that the study indicates that improvement of the Green Springs Highway will cost about $5,549,030 and will provide a benefit quotient of 1.12, whereas improvement of the shorter of the two Lake-of-the-Woods routes will cost about $5,684,044 and will provide a benefit quotient of only 0.70. The longer of the two Lake-of-the-Woods alternates, he said, will cost slightly less than the other, but will provide a benefit quotient of 0.53. It was his opinion that the study clearly indicates the impracticability of the Lake-of-the-Woods route and the meager benefits that would be secured by reconstruction of the Green Springs Highway. He recommended against improvement of either route at this time. The Commission accepted his report.

Consideration was given to a request from the City of Eugene that the property that the State purchased some years ago as right of way for a proposed revision of U.S. 99 between Seventh Avenue and 11th Avenue in Eugene, be conveyed to the City. The Engineer explained that it was originally planned to route the Pacific Highway via Fox Hollow and right of way between Seventh and 11th Avenues was purchased with that thought in mind; however, subsequently the highway was routed to the east of the City so that the right of way that was acquired between Seventh Avenue and 11th Avenue no longer is required for highway purposes. The City of Eugene, he said, wishes to construct at its expense a connecting street between Seventh and 11th Avenues by extending Garfield Street, and would like to have the State's property to trade for right of way needed for that connection. He recommended, in view of the fact that the State will have no use for the right of way after the city street connection is constructed, that the property be conveyed to the City of Eugene at cost or $2,908.20 which is the amount the State paid for it. The Commission approved the recommendation subject to the condition that the transfer shall not become effective unless the City actually constructs the Garfield Street connection between Seventh Avenue and 11th Avenue.

In this connection the Engineer pointed out that inasmuch as the property between Seventh Avenue and 11th Avenue was purchased for and designated as a part of the W. 7th Street-W. 11th Street Secondary Highway No. 224, it would be necessary for the Commission to remove this section of highway from the state highway system by adoption of an appropriate resolution, and he so recommended. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G-9", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission gave attention to a memorandum filed by the "Property Owners Committee" of Klamath Falls protesting against the closing of streets and the adoption of the West Side By-Pass route through the City of Klamath Falls; and requesting a public hearing on the subject in Klamath Falls. The Engineer called attention to some misstatements in the memorandum, particularly the cost to construct the West Side route

when compared with the cost to construct the East Side Route which the Committee prefers. The estimated cost to construct the West Side route, he said, is $3,082,000 compared with $3,221,000 to construct the East side route; furthermore, the East Side route is 0.5 mile longer than the West Side route. He added that a very careful study has been made of the relative costs and benefits of both routes which reveals that the West Side route is far better than the other. He recommended adoption of the West Side By-Pass route. Chairman Chandler recalled the understanding had with the City that the Commission would adopt the West Side By-Pass route if the City would agree to perform certain obligations. The City, he said, has agreed to the conditions by signing an agreement, so in his estimation the Commission is committed to the project as planned. Commissioner Reynolds expressed himself similarly whereupon the Commission approved and signed the agreement. Motion was then made by Commissioner Reynolds that the survey for the West Side routing as reported by the Engineer be adopted. Commissioner McIver seconded the motion and it was declared unanimous by Chairman Chandler. The Commission thereupon adopted the attached resolution relative thereto marked EXHIBIT "J-1 ", which resolution by this reference is made a part hereof with like effect as though extended in full herein. The Secretary was instructed to inform the Property Owners Committee of the action taken.

The matter of allowing State Highway Department photographs to be used by private publications was discussed. The Engineer stated that quite frequently requests are received for permission to reprint and publish pictures taken by the State Highway Department photographers, and that up to the present time the Commission has not authorized any officer of the Highway Department to permit the use of the pictures by private publications. It was his thought that the State would benefit were pictures illustrating the scenic beauty and other advantages be given the widest possible publication. He recommended adoption of a resolution authorizing the Director of the Travel and Information Department to permit publication of Highway Department photographs if they are not to be used for advertising purposes, and provided further that appropriate credit is given the State Highway Department; also, that in the event recognizable persons appear in the pictures, the Director of the Travel Department shall not permit publication of the pictures without having in his files a release from such person or persons. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A tentative Forest Highway Program for the year 1956 was discussed with the Engineer, who recommended that the Commission approve the projects which he had listed in order of construction priority. Action was deferred pending the appearance of representatives of the U. S. Forest Service and Bureau of Public Roads later in the day. (See ahead for results of the conference.)

Consideration was given to tentative construction programs suggested by the Engineer for Fiscal Year 1957 Interstate, Urban and Primary

Federal Aid Funds. As a result of careful study, the Commission selected the following projects for such programs and authorized the Engineer to submit them to the Bureau of Public Roads for confirmation:

PROGRAM, 1957 FEDERAL FUNDS, INTERSTATE

County	Highway, Section and Description	Allotted Amount
	Division No. 3	
Douglas	Pacific. Myrtle Creek-Canyonville Section, Grading and Structures	$ 570,000
	Division No. 5	
Malheur	Old Oregon Trail. Olds Ferry-Ontario Section, Paving	1,290,000
	Total, All Divisions	$1,860,000

PROGRAM, 1957 FEDERAL FUNDS, URBAN

County	Highway, Section and Description	Allotted Amount
	Division No. 1	
Multnomah	Banfield Expressway. East Unit, Union Ave.-42nd Ave. Section, Grade and Pave	$1,110,000
Multnomah	Banfield Expressway. 39th Ave. Interchange	310,000
	Total, All Divisions	$1,420,000

January 18, 1955

24345

PROGRAM, 1957 FEDERAL FUNDS, PRIMARY

County	Highway, Section and Description	Allotted Amount
	Division No. 1	
Multnomah	Banfield Expressway. Unit of Union Ave.-42nd Ave. Section, Grade and Pave	$ 251,000
Washington	Tualatin. Forest Grove-Hillsboro Section, Pave	600,000
	Subtotal, Division No. 1	$ 851,000
	Division No. 2	
Clatsop	Columbia River. Bugby Loops-Wauna Section, Grade and Pave	$1,140,000
Tillamook	Wilson River. Tillamook-Donaldson Creek Section, Grade and Pave	500,000
	Reserve	315,000
	Subtotal, Division No. 2	$1,955,000

January 18, 1955

Program, 1957 Federal Funds, Primary (cont)

	Division No. 3	
Douglas	Pacific. Myrtle Creek-Canyonville Section, Grade and Bridge	$ 158,000
Josephine	Redwood. Bridges over East and West Forks Illinois River, Bridges	310,000
Lane	McKenzie. Willamette River Bridge at Springfield, Bridge	700,000
Coos	Coos Bay-Roseburg. Coquille-East Section, 2 Miles, Grade and Pave	350,000
	Subtotal, Division No. 3	$1,518,000
	Division No. 4	
Sherman	Sherman. Unit of Moro-Grass Valley Section, Grade and Pave	$ 400,000
Klamath	The Dalles-California. Lapine-Diamond Lake Jct. Intermittent Units, Grade, Pave and R.R. O'Xing	600,000
Deschutes	McKenzie. Deep Canyon & Deschutes River Sections, Grade, Pave and Bridge	435,000
	Subtotal, Division No. 4	$1,435,000
	Division No. 5	
Malheur	Central Oregon. Juntura-Vale Section, Grade and Pave	$ 246,000
Malheur	Old Oregon Trail. Olds Ferry-Ontario, Pave	335,000
	Subtotal, Division No. 5	$ 581,000
	Total, All Divisions	$6,340,000

The Engineer reported completion of surveys for a number of proposed highway improvements as follows:

1. Reedville-Beaverton Section of the Tualatin Valley Highway in Washington County. Widening only-"no change" in location.

January 18, 1955

2. Buell Slide Section of the Willamina-Salem Highway (formerly known as the Dallas Coast Highway) in Polk County. Short relocation necessary to avoid the slide area.

3. S.E. Flavel Street-Lake Road Section of the Cascade Secondary Highway in Clackamas and Multnomah Counties. Widening only to accommodate four traffic lanes.

4. Meacham-Hilgard Section of the Old Oregon Trail Highway in Umatilla and Union Counties for relocation.

5. Wilderville-Grants Pass Section of the Redwood Highway in Josephine County. New location. Survey required in connection with construction of new bridge over Applegate River which carries a No. 1 priority in Josephine County. The Engineer recommended that $347,000 tentatively allocated in the 1956 Federal Aid Program to finance construction of the East and West Illinois River Bridges on the Redwood Highway be used to finance the Applegate Bridge and that funds for the two Illinois River bridges be placed in the 1957 Program. He pointed out that the connections on either side of the Applegate Bridge will cost an additional $53,000, making a total for that project of approximately $400,000. The Commission approved the tranfer of funds as recommended.

6. Hess Creek (Newberg) Section of the Pacific Highway West in Yamhill County. It was explained that this survey provides for replacement of a narrow bridge spanning Hess Creek in north Newberg with a box culvert and a fill.

The Engineer explained details of each survey and recommended their approval by the Commission and that negotiations for needed right of way be authorized. The Commission accepted the recommendation by adoption of the attached resolutions relative thereto marked EXHIBIT "J-2" and "J-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission approved increases in project authorizations in connection with the following highway contracts as recommended by the Engineer who explained details:

1. Contract No. 4065 on the Goshen-Coast Fork Willamette River Section of the Pacific Highway increased by $59,000 due to unanticipated costs for moving power lines, additional fill material necessitated by swampy conditions and unsuitable clay materials which had to be wasted.

2. Contract No. 3986 on the Mt. Vernon-John Day Section of the John Day Highway increased by $28,000 to pay for additional special borrow surfacing materials, extra drainage items, riprap, movement

of power poles, and some minor slide removal.

3. Contract No. 3959 for construction of the China Camp Marsh Section of the Oregon Coast Highway increased by $10,000 due to additional materials required because of subsidence in a swampy area.

4. Contract No. 4201 on the Modoc Point-Barkley Springs Section of The Dalles-California Highway increased by $12,000 to pay for removal of unstable talus material.

5. Contract No. 4200 on the Willamette Jct.-Diamond Lake Jct. Section of The Dalles-California Highway increased by $40,000 to pay extra grading and paving costs. The Commission also confirmed an additional expenditure of $45,000 in connection with this project to finance construction of a traffic interchange structure in lieu of an intersection at grade at the junction of the Willamette Highway and The Dalles-California Highway.

6. Contract No. 3940 for construction of an overnight camping area at Harris Beach Park in Curry County increased by $4,000, because of unfavorable soil conditions which required additional excavation and surfacing materials.

7. Contract No. 3914 on the Hayesville School-Battle Creek Junction Unit of the Salem By-Pass increased by $41,000 due to increasing the thickness of the pavement from $3\frac{1}{2}$ inches to 4 inches and the addition of 4-foot paved shoulders.

A letter from the Oregon Roadside Council, signed by Glenn Stanton and Alfred A. Loeb, requesting additional allocations for "rest area" construction, was presented. The letter commended the Commission for the establishment and development of wayside or picnic areas along state highways and urged establishment of more of them. The letter was ordered acknowledged and filed.

A request from Mr. Alfred A. Loeb, Portland, requesting installation of traffic signals at the intersection of Lombard Street and N. E. 27th Avenue in the City of Portland was considered. The Engineer pointed out that this is a four-way intersection and that Lombard Street is used as a by-pass route for US30. The traffic condition at the intersection, he stated, was carefully investigated, and upon comparison with minimum warrants for signalization of intersections of this type, it was found that none of the warrants are met because of the low side street volume. He, therefore, recommended that the request for signalization be denied but that a flashing beacon be installed provided the City of Portland will pay the operation and maintenance costs. The Commission adopted the recommendation.

Consideration was also given to a request from the Monmouth Chamber of Commerce for installation of traffic signals at the intersection

of East Street (US99W) and Main Street (ORE 51) in the City of Monmouth. The Engineer advised that presently traffic entering the intersection from Main Street is required to stop before proceeding and that a flashing beacon is now installed at this point; also that a traffic engineering investigation discloses that the volume of traffic entering the intersection is almost evenly distributed between the two streets, and the total volume of traffic is such that signalization is warranted. He therefore recommended that a fully actuated traffic signal be installed at this intersection at an estimated cost of $4,000, to be financed from 1955 Minor Betterment Funds, provided the City of Monmouth will pay 50 per cent of the cost (not to exceed $2,000) and will agree to furnish electrical energy and to maintain the signal after the installation is completed. The recommendation was approved by the Commission.

Attention was given to a suggestion submitted by the Illinois Valley Chamber of Commerce concerning installation of caution lights on US 199 through Cave Junction. This matter, the Engineer stated, was investigated by the Traffic Engineering Department, and it was explained to local officials that the installation of flashing beacons would not offer a remedy for excessive speed. In the course of this investigation it was found that there is justification for the installation of a flashing beacon at the junction of US199 and ORE46 as the stop signs on ORE46 are not easily seen. He therefore recommended that a flashing beacon be installed at this junction with an amber light facing traffic on US199 and a flashing red indication to vehicles approaching on ORE46. He estimated the cost of this installation at $500 and he recommended approval of the installation on the usual arrangement whereby the State pays the cost of installation and the City pays for maintenance and the cost of electrical energy to operate the signal. The Commission approved the project as recommended.

The Engineer reported that there is a channelized grade intersection in the town of Talent on the Pacific Highway in Jackson County which is a hazard during hours of darkness and that an engineering study indicates that the intersection should be illuminated as a safety measure for the traveling public. He therefore recommended the installation of five luminaire units at an estimated total cost of $2,000. The Commission approved the installation.

A petition from taxpayers and users of the Sumpter Valley Secondary Highway requesting improvement and oiling of a portion of this highway was considered. The Engineer recalled that the Commission sometime ago authorized an experimental treatment on a five-mile section of this highway, using calcium chloride. He advised that the work has not yet been done although it is planned for this coming summer, so it is not known if the treatment will prove successful. He recommended that no action be taken until the results of the experiment are ascertained which will require at least one season's use of the section. The Commission accepted his recommendation and ordered that the petitioners be advised of the facts. In this connection the Engineer reported several short sections of this highway through a canyon suitable for one-way traffic only. He requested authority to conduct a survey of such sections to determine the cost to widen them. The Commission ap-

proved the request and instructed the Secretary to bring this action also to the attention of the petitioners.

A letter from the Wheeler City Council requesting the paving of the Oregon Coast Highway full width through the City of Wheeler was discussed. It was referred to the Engineer for a report on the cost and feasibility of the project.

The Commission gave attention to a request from Mr. D. R. Mobley, Sherwood, Oregon, for a merging traffic entrance to the Portland-Salem Expressway, or a service road from Avery Road to Sagert Road. The Engineer advised that right of way for the expressway was acquired from Leonard and Juanita J. Pohl and that later the Pohls sold their remaining land to Mr. Mobley. He also said that Mr. Pohl was paid an additional sum of $1,500 when it was decided to close Avery Road at its junction with the expressway, and that the Pohls executed an agreement releasing the State from all claims, present and future, arising out of the closing of the road. The release of damages, he stated, runs with the property and Mr. Mobley has no reason or right to demand either an overcrossing or construction of frontage roads. For this reason and because the road serves only two people he recommended that the request be denied. The Commission accepted the recommendation and so ordered.

Attention was given to a letter from Mr. Roy Webster, President of the Hood River County Chamber of Commerce, regarding construction of 5½ miles of road leading to Cloud Cap Inn on Mt. Hood, construction of a parking lot and removal of snow at Cloud Cap Inn, and development of the Mt. Hood Highway into a year round facility. The Engineer commented that the letter had been addressed to the Hon. Paul L. Patterson, Governor, and referred to the Commission. He pointed out that no investigation has been made as the road requested is now covered with snow. Chairman Chandler gave as his opinion that it is more important to rebuild the Mt. Hood Highway between Sandy and Government Camp than to improve the section between Wapinitia Junction and Parkdale. The Commission took no action on the request.

The Commission gave attention to a request from the Medford City Council for widening, installation of curbs and gutters and the resurfacing of South Riverside Avenue (US99) from 9th Street to the intersection of South Central Avenue in Medford. The Engineer advised that the length of the section is about 3,600 feet and that a portion of it is already curbed, the average distance between curbs being 36 feet. The existing paved surface, he said, is adequate to accommodate two lanes of traffic in one direction and the only particular advantage of the improvement would be to obtain a full street-width pavement. He estimated the cost of the improvement at about $100,000, and he recommended that the request be denied because it does not have high priority status. The Commission accepted the recommendation.

Requests from Mr. C. A. Eberhardt of United Airlines and Mr. R. A. Finlayson, Eugene City Manager, for construction of a left turn re-

fuge at the junction of the Pacific Highway and the road leading to the Eugene Airport, a short distance north of Eugene, was considered. The Engineer advised that investigation reveals that on a weekday in December, 1954, 196 vehicles made a left-turn off US99 in conflict with 3,031 vehicles moving from north to south; also, that due to the presence of a bridge on the Pacific Highway a short distance south of the intersection and the presence of the Oregon Electric Railroad on the easterly side of the highway, it is not feasible to construct an outrigger left-turn lane. In lieu of the construction requested, he recommended as a trial proposition that the easterly shoulder of the highway be paved for a distance of 100 feet north and south of the Junction point at an estimated cost of $700. The Commission approved his recommendation.

Also considered by the Commission was a request from the Baker County Commercial Club for improvements to the Baker-Homestead Highway and the Anthony Lakes Highway. The discussion revealed that funds are not available to finance both projects and that improvement of the Baker-Homestead Highway should be made first. It was recalled that an amount of $150,000 of 1957 Federal Aid Secondary funds already has been allocated to improve the West Unit of the Black Bridge-Richland Section of the Baker-Homestead Highway. The Commission ordered that the Commercial Club be informed accordingly.

The Engineer reported receipt of a bill from Linn County in the sum of $791.91 representing one-third of the total cost which the County is obligated to pay for repairs to a revetment in the Santiam River upstream from the Sanderson Bridge. He advised that in 1945 a cooperative project was entered into between the State, Linn County and the U. S. Corps of Engineers which provided for construction of a modern revetment and that the work was accomplished at a total cost of $85,107.98, the State's share being $30,000. During the winter of 1953-54, he said, the revetment was damaged and repairs were made apparently on order of Linn County, at a total cost of $2,375.75. He recommended that the State pay one-third or $791.00. The Commission approved the payment.

A request submitted by Emma L. Barzee of Myrtle Point that the State develop and maintain a new highway route between Myrtle Point and Roseburg via Sitkum was discussed. The Engineer pointed out that this route is approximately 60 miles long and to build it would cost between $6,000,000 and $12,000,000. He estimated the cost of an economic analysis at $25,000 and gave as his considered opinion that the road would not be justified for a long time in the future. He recommended that the request be denied. The Commission accepted the recommendation.

The Commission considered the matter of allocating to the towns and cities of the State their proportionate shares of highway revenues that accrued to them during the last half of the year 1954, amounting to $2,687,067.93. The Engineer presented a statement showing the distributive share of each and advised that the amounts have been carefully checked and are accurate. The Commission approved the apportionments as presented by adopting the attached resolution relative thereto marked

EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer presented for the Commission's consideration a list of the cities and towns that have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds that accrued to them during the last half of 1952, the last half of 1953 and the first half of 1954. The plans for the projects proposed to be financed with the funds, he said, have in each instance been examined and found satisfactory, and he recommended approval of the plans. The Commission approved the plans by adopting the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that photographic equipment in the basement of the State Highway Building in Salem is being damaged by dust from the concrete basement floor. To correct the condition he recommended that the floor be covered with asphalt tile at an estimated cost of $238. He also recommended like treatment on the floor of the Multilith Room at an additional cost of $230. The Commission approved both recommendations.

Attention was given by the Commission to a resolution submitted by Wasco County Pomona Grange No. 11 requesting construction of a connecting link 500 feet long, between Marine Drive and the cloverleaf on Union Avenue (US99E) in Portland. Investigation of this matter, the Engineer stated, revealed that the major movement of livestock arrives either Sunday evening or early Monday morning. A traffic count made on Sunday, November 28, and on Monday, November 29, disclosed only 18 vehicles hauling livestock. He gave as his feeling that very little difficulty should be experienced at this location as livestock trucks that enter Union Avenue from Marine Drive merge with traffic after stopping, and after proceeding a short distance on Union turn right onto a one-way traffic lane to the stockyards. As the estimated cost of the project is $10,000, and as it carries a very low priority rating, he recommended that the request be denied. The recommendation was accepted by the Commission.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. in the same room with the same persons present and participating.

The Chief Counsel brought up for discussion the sale of the Fred Meyer warehouse property on the T. H. Banfield Expressway, Portland. He recalled that the Commission previously authorized the sale at $250,000, but, he said, in effecting the sale, it has become necessary to agree to perform certain maintenance work on the property consisting of replacing broken glass, steel panels, repairs to roof and to some electric motors, repairs to the heating system, all of which totals the sum of $1,204. He asked the Commission to approve payment of such amount for the work involved, which, he said, already has been completed. The Commission authorized the expenditure as requested.

Authority was requested by the Engineer to authorize the contracting of three projects as follows, the same to be financed with "Reserve" money designated in the 1955 maintenance budget as "Contract Maintenance Budget":

Old Oregon Trail, Stanfield Jct.-Pendleton Section, 20.82 miles 0-30	$36,200
Old Oregon Trail, Pendleton-Emigrant Hill Section, 8.18 miles 0-31	9,800
Weston-Elgin Highway, M.P. 7.3 to M.P. 29.0 Section, 21.7 miles 0-30	34,000
Total	$80,000

The Commission approved the request.

The Commission gave attention to a petition from residents of the Sylvan District west of Portland for elimination of a hazardous condition which they allege was created by relocation of S. W. Humphrey Boulevard at Canyon Road, (Sunset Highway). This matter, the Engineer stated, was investigated and the facts ascertained do not substantiate the allegation. The superelevation of curves in no place is adverse, and while the curves are rather sharp, they are no sharper than other curves along the length of Humphrey Boulevard. Humphrey Boulevard, he added, is a County road and the plans for the highway improvement were approved by Multnomah County officials and the County has assumed maintenance of the reconstructed portion. The Commission accepted his recommendation that no change be made in the existing conditions.

The matter of filing a claim against the driver, the owner of the truck, and the surety, for damages caused to the easterly span of the bridge over the Snake River at Nyssa, was discussed. The Engineer reported that according to evidence disclosed by investigation at the bridge after collapse, there appears to be little doubt that the collapse of the bridge was caused by the tongue of the trailer mounted "piggy-back" on the chassis of the truck striking the west portal bracing of span No. 4, which is on the Idaho side of the bridge. The truck, he said, is owned by Don Weilmunster, Box 91, Ontario, Oregon, and was being driven in a westerly direction by William McCarver, Route 2, Box 443-E, Ontario, Oregon, and the collapse of the bridge occurred at approximately 6:00 a.m., Mountain Time, December 4, 1954. The driver of the truck, he stated, claims that the bridge fell down without being struck by the truck or trailer. He advised that it cost $18,000 to install a temporary timber trestle to replace the collapsed span, and he recommended that action be taken to recover such sum; also, that an agreement be entered into with the State of Idaho, covering construction of a new bridge. The Commission unanimously approved both recommendations and so ordered.

A request was considered from the Albany Planning Commission for an investigation of conditions at the intersection of West Queen Avenue (Corvallis Eastside Secondary Highway) and Broadway Street in the City of Albany. The Engineer advised that the records disclose only one accident at this intersection during each of the years 1952-53-54. The intersection,

he said, now is located in a 25-mile per hour speed zone and advance crossroad symbol signs are in place on the westerly approach. He recommended no further treatment of the intersection at this time. The Commission accepted the recommendation.

Consideration was given by the Commission to a petition from owners of property located on the west side of the Pacific Highway East just north of the underpass in North Salem, requesting the widening of the highway at this point, including construction of curbs, so as to permit the parking of vehicles in front of business establishments located on the property. The Engineer advised that the buildings are located very close to the right of way line and were the highway to be widened, it would be necessary to cut off the front of the buildings because it is not feasible to move them. He pointed out that the Commission has already provided parking space for cars on state property just south of these buildings, which in his estimation is ample. He gave as his feeling that the expense of the widening work is not justified, and he, accordingly, recommended that the request be denied. The Commission adopted the recommendation.

A request was discussed from Allison H. Dean, Portland, for installation of enclosed sewer pipe on two open sections along Canyon Road (Sunset Highway) to enable conversion to a city sanitary sewer system. The Engineer said that while it may be necessary to enclose the pipes when Canyon Road is widened to six lanes sometime in the future, it is not definitely certain that such will be the case; moreover, the exact location for the sewer is not presently known. He estimated the cost to do what is requested at between $15,000 and $20,000, and he recommended, since there would be no particular benefit to the State, that the request be denied. The Commission accepted his recommendation.

The Commission considered and upon recommendation of the Engineer, approved the following requests for extensions of time within which to complete highway contracts:

1. Coast Construction & Excavating Co. and Jeske Bros. Construction Co., Contract No. 4180, for grading and surfacing the Paris Section of the Alsea-Deadwood Secondary Highway in Lane County, requested an additional extension of time from November 30, 1954 to December 31, 1954. Extension approved as requested, without penalty.

2. F. O. Laws, Contract No. 4261, for grading and paving West Hood River Connection of the Columbia River Highway in Hood River County, requested an extension of time from October 15, 1954 to April 15, 1955 within which to complete this work. Extension approved as requested subject to contractor paying engineering costs incurred from October 15, 1954 (specified completion date), to the date the job is actually completed.

3. Vernie Jarl, Contract No. 4227, for rock surfacing the Hilgard Junction-Meadow Brook Section of the Starkey Highway in Union County, requested an extension of time from November 30, 1954 to February 28, 1955. Extension approved without penalty, provided, however, that engineering costs shall be assessed against the contractor after February 28, 1955 if the job is not completed by that time.

4. Fred Stubbert, Contract No. 4262, for installation of guard rail on the Rock Point-Seven Oaks Section of the Pacific Highway in Jackson County, requested an extension of time from November 30, 1954 to January 1, 1955. Extension approved as requested, without penalty.

5. Witzig Construction Co., Contract No. 4256, for installation of traffic signals at the intersection of 4th Street and Harrison Street on the Pacific Highway West in the City of Corvallis in Benton County, requested an extension of time from November 30, 1954 to December 30, 1954. Extension approved as requested, without penalty.

6. George L. Rochat & Son, Contract No. 4237, for illumination installation on the Barbur Boulevard-White School Section of the Portland-Salem Expressway in Clackamas, Marion, Multnomah & Washington Counties, requested an additional extension of time from November 30, 1954 to February 28, 1955. Extension approved as requested, without penalty.

7. C. E. Leseberg, Contract No. 4170, for rock production on the Buchanan-Vale Section of the Central Oregon and Vale West Highways in Malheur and Harney Counties, requested an additional extension of time from December 1, 1954 to April 1, 1955. Extension approved without penalty.

8. Rogers Construction Co., Contract No. 4094, for rock production on the Lexington Section of the Heppner and Lexington-Echo Highways in Morrow and Gilliam Counties, requested an additional extension of time from November 30, 1954 to December 15, 1954. Extension approved to December 9, 1954 (actual completion date), without penalty.

9. Funderburk Construction Co. and Stoen Construction Co., Contract No. 3805, for grading and paving of the Depoe Bay-Miner Creek Unit of the Siletz Bay-Miner Creek Section on the Oregon Coast Highway in Lincoln County, requested an extension of time from August 31, 1954 to July 31, 1955. Extension to December 31, 1954 granted without penalty, but contractor is to be charged with engineering expense incurred subsequent to December 31, 1954 except no charge is to be made for expense of paving inspectors.

10. Warren Northwest, Inc., Contract No. 3914, for paving the Hayesville School-Battle Creek Junction Unit, Salem By-Pass Section of the Pacific Highway East in Marion County, requested an extension of time from September 30, 1954 to November 15, 1954. Extension approved up to November 1, 1954,(actual completion date) without penalty.

11. J. R. Taggart, Contract No. 4183, for grading and surfacing of the Lewisburg Loop Section of the Armstrong, Lane & Dickinson County Roads in Benton County, requested an extension of time from October 31, 1954 to November 8, 1954. Extension approved as requested, without penalty.

12. Rogers Construction Inc., Contract No. 3853, for paving the Boones Ferry Road-Willamette River Unit, Barbur Boulevard-White School Section of West Portland-Hubbard Highway in Washington and Clackamas Counties, requested an extension of time from June 30, 1954 to November 30, 1954. Extension approved as requested, without penalty.

13. Warren Northwest, Inc., Contract No. 4154, for grading and paving the Vale-Cairo Section of the Central Oregon Highway in Malheur County, requested an extension of time from October 15, 1954 to November 30, 1954. Extension approved as requested without penalty.

14. The Colorado Fuel and Iron Corp., Pacific Coast Div., Contract No. 4270, for fencing the 42nd Avenue-Sundial Section of the T. H. Banfield Expressway in Multnomah County, requested an extension of time from December 31, 1954 to December 31, 1955. Extension approved as requested, without penalty.

15. F. O. Laws, Contract No. 4201, for slope grading the Modoc Point-Barkley Springs Section of The Dalles-California Highway in Klamath County, requested an additional extension of time from November 30, 1954 to January 31, 1955. Extension approved as requested,without penalty.

16. Birkemeier & Saremal, Contract No. 4102, for construction of the 60th Avenue Overcrossing on the T. H. Banfield Expressway in Multnomah County, requested an extension of time from November 30, 1954 to January 29, 1955. Extension approved as requested, without penalty.

17. Hamilton & Thoms, Contract No. 3906, for construction of Harvard Avenue-Portland Street Overcrossing on the Pacific Highway in Douglas County, requested an extension of time from February 28, 1954 to November 5, 1954. Extension approved as requested, without penalty.

18. Columbia Empire Constructors, Inc., and P. S. Lord, Mechanical Contractors, Contract No. 4112, for construction of six structures of the Goshen-Coast Fork Willamette River Unit, Goshen-Divide Section of the Pacific Highway in Lane County, requested an extension of time from November 30, 1954 to March 1, 1955. Extension approved as requested, without penalty.

19. J. C. Compton Co., Contract No. 4149, for paving the Burns-Foley Drive Section (City Streets) in Harney County, requested an additional extension of time of sixteen days from October 31, 1954 to and including November 15, 1954. Extension approved as requested without penalty.

20. Brookings Red-E-Mix Concrete Co., Contract No. 4107, for

rock production on the Lone Ranch Creek-California State Line Section of the Oregon Coast Highway in Curry County, requested an additional extension of time from November 1, 1954 to December 31, 1954. Extension approved up to December 21, 1954, (actual completion date) without penalty.

21. Mann Construction Company, Contract No. 4263, for construction of Keno Maintenance Building on the Green Springs Highway in Klamath County, requested an extension of time from December 31, 1954 to February 28, 1955. Extension approved as requested, without penalty.

22. Lind & Marr Construction Co., Contract No. 4219, for Salem By-Pass Fencing Project of the Pacific Highway East in Marion County, requested an additional extension of time from November 30, 1954 to December 31, 1954. Extension approved as requested, without penalty.

23. Warren Northwest, Inc., Contract No. 3929, for grading and paving the 32nd Avenue-Halsey Street Connections of 92nd Avenue-Fairview Section of the T. H. Banfield Expressway in Multnomah County, requested an additional extension of time from July 1, 1954 to December 15, 1954. Extension approved as requested, without penalty.

24. Roy L. Houck & Son, Contract No. 3818, for grading and paving the Willamette River-Marion County Line Unit of the West Portland-Hubbard Highway in Clackamas County, requested an extension of time from June 30, 1954 to September 30, 1954. Extension approved as requested, without penalty.

25. R. A. Heintz Construction Co., Contract No. 4063, for grading and paving the Blackwell Hill-Seven Oaks Unit, Blackwell Hill-Medford Section of the Pacific Highway in Jackson County, requested an extension of time from October 31, 1954 to July 1, 1955. Extension approved to December 20, 1954 (actual completion date) without penalty.

26. Scarader Construction Company, Contract No. 4203, for construction of 47th Avenue Undercrossing of the T. H. Banfield Expressway in Multnomah County, requested an extension of time from December 31, 1954 to April 1, 1955. Extension approved as requested, without penalty.

27. Tom Lillebo, Contract No. 4152, for construction of Coast Fork Willamette River Bridge on the Goshen-Divide Section of the Pacific Highway in Lane County, requested an extension of time from November 30, 1954 to December 30, 1954. Extension approved as requested, without penalty.

28. The Colorado Fuel & Iron Corporation, Contract No. 4206, for fencing the Oakland Junction -Boomer Hill Road Section of the Pacific Highway in Douglas County, requested an additional extension

of time from December 31, 1954 to March 31, 1955. Extension approved as requested, without penalty.

29. E. C. Swaggart Company, Contract No. 4162, for rock surfacing the Enegren Ferry-Marlow Creek Section of the Coos River Secondary Highway in Coos County, requested an extension of time from September 30, 1954 to February 28, 1955. Extension approved as requested, without penalty, however, the contractor is to be charged with engineering expense subsequent to February 28, 1955 if the job is not completed by that time.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. (For further details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.)

The Engineer reported that Contracts Nos. 3749, 3906, 3914, 3925, 3929, 4014, 4058, 4059, 4089, 4090, 4094, 4107, 4108, 4109, 4126, 4149, 4152, 4160, 4183, 4219, 4233, 4244, 4259, 4262, 4280, 4286, 4293, 4295, and 4299 for construction of state highway projects have been completed according to the requirements of the contracts or modifications thereof, and that said projects are now ready for acceptance. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed briefly a request from the Salem and Stayton Chambers of Commerce for early construction of the North Santiam Highway between Salem and Mehama. It was pointed out that an amount of $300,000 of 1957 Federal Aid Secondary funds was allocated to this highway in the program that was adopted earlier in this session, the particular project being the grading of the Sublimity Gun Club-Stout Creek Section.

A request from Lane County School District No. 112 for improvements to the Alsea-Deadwood Secondary Highway in Lane County was presented. The Engineer was instructed to investigate the matter and report the findings at the next meeting.

Attention was given to a request from W. I. Manion, Chairman of the Seaside Safety Council, for designation of a speed zone and prohibition of shoulder parking on the Oregon Coast Highway from a point south of the Youngs Bay Bridge to the south city limits of Astoria. The Engineer advised that a careful study of this 2.47 mile section disclosed that because of open access to the highway it would be impractical to prohibit shoulder parking because there is no place to install signs. He recommended that the request be denied. Concerning the reduced speed zone, he recommended that the existing 35-mile per hour zone, that was established October 21, 1947, be rescinded between M.P. 4.12 and M.P. 5.64 and that a new 35-mile per hour speed zone be designated from the south city limits of Astoria (M.P. 2.88) to a point 0.51 mile south of the south end of the Youngs Bay Bridge (M.P. 3.72), and that a 45-mile per hour speed zone be designated from M.P. 3.72 to a point 150 feet south of the south end of the Lewis and Clark Bridge (M.P. 5.35). The Engineer's recommendations were accepted by the Commission by adoption of the attached resolution relative thereto marked EXHIBIT "H-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was also given to requests from Hon. Francis Cook, Justice of the Peace, Beaverton, and Mrs. Peter F. Butler, Secretary of the Hazeldale Happy Hour Club, Beaverton, for an extension of the existing 45-mile per hour speed zone on the Farmington Secondary Highway, including installation of a flashing beacon at the intersection of the Farmington Highway and 185th Avenue. The Engineer advised that this request was investigated by the Traffic Engineering Department, and from the facts assembled it was determined that installation of a flashing beacon is not warranted. He recommended that the request in that respect be denied. Concerning the reduced speed zone, he said that the facts disclosed that there is a need for a reduced speed zone on the Farmington Highway No. 142 west of Beaverton. He recommended designation of a 45-mile per hour speed zone from a point 300 feet west of Hagg Road at M.P. 5.26 to a point 500 feet west of Kinnaman Road at M.P. 7.33, except that the speed shall be 20-miles per hour during the hours of school crossings between M.P. 5.68 and M.P. 5.97. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "H-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission approved out of state travel for highway personnel as follows:

W. W. Stiffler, Assistant State Highway Engineer, and Roy Edgerton, Research Engineer, to attend the 1955 Road Builders Clinic at Washington State College in Pullman, Washington, during March 17 and 18, 1955 at an estimated total expense of $95. The Engineer explained that Mr. Stiffler is to participate in a panel discussion on the subject "Snow and Ice Removal and Control, Frost Action, and Spring Breakup", and that Mr. Edgerton is to speak on the subject "Heating of Bridge Decks and Pavements".

The Commission discussed a letter from the Depoe Bay Chamber of Commerce inquiring if the highway department will construct public restrooms on state property in Depoe Bay if a recreational district were formed to operate and maintain the facilities. Chairman Chandler pointed out that the Commission has always been willing to provide such facilities if a local agency could be found to operate and maintain them and see that they are properly cared for, but in this instance no such agency has been willing to assume the responsibility. If the people of Depoe Bay are agreeable to assumption of such obligation, he said, then the Commission, in his estimation, should go ahead with the project; however, it probably would be desirable for them to furnish a bond to guarantee performance. In the discussion on this matter, location of the facility was discussed and the property at the mouth of the bay, owned by a Mrs. Moore was suggested. Also discussed was the possibility of including concession privileges in the plan, similar to those at Crown Point and Silver Creek Falls. The Commission instructed the Right of Way Engineer to contact Mrs. Moore with respect to purchase of her property. The Commission also ordered that inquiry be made to determine if a responsible agency can be found to operate the facilities were the highway department to provide them.

The Engineer presented a supplementary abandonment agreement between Marion County and the State covering the old section of the North Santiam Secondary Highway between Stout Creek and Mehama, which has been replaced with a new highway section. The supplemental agreement, he stated, provides for a connecting road between two abandoned sections and he recommended that it be approved. The Commission accepted the recommendation. The Engineer also said that inasmuch as the new section of the North Santiam Highway has been completed between Stout Creek and Mehama and the road opened to traffic, the old section of highway can now be abandoned to Marion County as provided in an agreement previously executed. The Commission approved the abandonment by adopting the attached resolution relative thereto marked EXHIBIT "G-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Also presented was a supplemental agreement with Clatsop County concerning the abandonment of an old section of the Gnat Creek-Bradley Park Section of the Columbia River Highway. The supplemental agreement, the Engineer stated, is to take care of construction and maintenance of a connecting road between units of the old section. He pointed out that the County has agreed to maintain the connection. The Commission approved the arrangement. In this connection, the Engineer advised that the new highway between Gnat Creek and Bradley Park has been completed and is now open for public use. He recommended that the Commission formally abandon the old highway route to the County. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Abandonment of a number of sections of old highway right of way which no longer are useful for highway purposes by reason of revisions,

was presented by the Engineer who advised that the new highway sections have been completed and opened to public travel. He recommended that the sections described below, be abandoned to the counties concerned as provided for in agreements previously executed with the counties:

a. Douglas County Line-Glasgow Section of the Oregon Coast Highway, Coos County.

b. Blackwell Hill-Seven Oaks Section of the Pacific Highway, Jackson County.

c. Orr Corner-Monmouth Section of the Pacific Highway West, Polk County.

d. Canyonville-O'Shea Creek Section of the Tiller-Trail Secondary Highway, Douglas County.

e. Certain portions of the Beaverton-Aurora Highway, Clackamas and Marion Counties, between Washington County Line and Aurora.

The Commission approved the Engineer's recommendation by adopting the attached resolutions relative thereto marked EXHIBITS "G-3" through "G-8", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The matter of the State paying a part of the cost of tuition for Highway Department employees who take specialized training courses directly related to their work was considered. The Engineer advised that during the past five years a number of training courses have been arranged by the Personnel Division in cooperation with the Extension Service of the System of Higher Education, and in all cases the employees have paid the full tuition. The Legal Department, he said, advises that there is no legal barrier to the State participating in the expense; and that it can be accomplished with the Civil Service Commission as a co-sponsor, either by making the instructor a temporary employee of the Highway Department for the period of the course or by the Highway Department entering into a contract with the college or group providing the training. He recommended that the Commission approve payment of 50 per cent of the fee on the basis of the latter mentioned arrangement because of the benefits the State would receive from better trained workers. He estimated the annual cost to the State at between $1,500 and $2,500. The Commission approved the recommendation on a trial basis for one year.

A request was considered from the City of John Day, that the intersection of the John Day Highway and the John Day-Burns Highway be designated a four-way stop. The Engineer advised that traffic counts reveal that traffic volumes on three of the legs of this intersection are quite evenly balanced and that the accident record, while not alarming, shows 21 reported accidents from January 1, 1949, to September 30, 1954. At the present time, he said, there is a flashing beacon in the intersection showing amber on the John Day Highway and red on the John Day-Burns Highway.

Because the intersection is the junction of two primary state highways, and because most of the traffic in the City passes through the intersection, he recommended that it be made a four-way stop and that the flashing beacon be changed to show red in all directions. The Commission accepted the recommendation.

Consideration was given to a request from Hudspeth Pine, Inc., Prineville, for permission to haul logs 24 hours a day over the Ochoco and John Day highways between Dayville and Prineville. The Commission denied the request as a matter of policy on recommendation of the Engineer.

Payment of $35 to Mr. Ray C. Johnson, Payette, Idaho, for damages to his automobile caused by the fall of an overhead highway sign was considered. The Engineer explained that on December 6, 1954, a plywood sign mounted above the intersection where US30 intersects with Oregon Street in Ontario blew down while Mr. Johnson was driving his car beneath it, necessitating repairs to the car amounting to $35. He recommended the payment of such sum to Mr. Johnson conditioned upon his execution of the standard form releasing the State from further liabilities. The Commission approved the recommendation.

The Engineer reported receipt of a letter from Mrs. A. J. Gissel of Wamic, Oregon, containing much information concerning the history of the crossing of the Deschutes River at Sherrars Bridge in Wasco County and requesting that a textboard be erected at such point, which is one of the most important landmarks in Oregon history. He gave as his feeling that the request is justified and he recommended that permission be given to erect the board if and when the Memorials Committee of the Oregon Historical Society approves the text to be inscribed thereon. The Commission approved the recommendation.

The Commission discussed and approved a form of agreement with Crown-Zellerbach Corporation and Weyerhaeuser Timber Company covering construction of a private road over the Pacific Highway East north of Canby in Clackamas County. The Engineer explained that the agreement provides an easement for right of way across the highway for a new overhead road crossing structure, and that upon completion of the new structure, the existing structure nearby, which was granted under easement dated December 6, 1943, shall be removed and the old agreement terminated. The new structure, he said, was authorized by order of the Public Utilities Commissioner on November 5, 1954.

The Commission approved payment of membership dues for the year 1955 in the American Association of State Highway Officials and in the Western Association of State Highway Officials, amounting to $1,013 and $50, respectively.

The Commission approved the Secretary's report listing papers that he signed in behalf of the Commission during the period of December 3, 1954, to January 14, 1955.

January 18, 1955

The Commission discussed a meeting date for its next regular meeting and decided to hold such meeting on Wednesday and Thursday, March 2 and 3, 1955 in Portland. A tentative date for the next following meeting was set for April 13 and 14. The Secretary was instructed to make the usual arrangements for use of the Green Room, Imperial Hotel for both meetings.

The Engineer presented a form of sublease agreement with the Central Paving Company providing for stockpiling materials to be used in construction of the Gervais Road-Hayesville Section of the Portland-Salem Expressway. He explained that the Central Paving Company is producing rock for this job as a subcontractor and is stockpiling the materials on property not under control of the Highway Commission. The Central Paving Company, he said, has requested advance payment for the materials so stockpiled, but he is reluctant to approve payment without having control of the land on which the material is located. He recommended approval of the sublease in order to clarify the situation. The Commission approved the sublease as recommended.

The Commission discussed briefly with the Engineer problems to be presented by delegations who are scheduled to appear before the Commission on the following day, but took no action on any of them at this time.

The following persons representing the U. S. Bureau of Public Roads and the United States Forest Service were present and discussed with the Commission adoption of a Forest Highway Program for the 1956 fiscal year forest highway funds: Representing the U. S. Bureau of Public Roads were F. E. Andrews, Division Engineer, Portland; R. N. Kellogg, Assistant Division Engineer, Portland; and C. G. Polk, District Engineer, Salem; representing the United States Forest Service were J. Herbert Stone, Regional Forester; R. G. Grefe, Assistant Regional Forester; J. M. Rands, Engineer; and C. E. Remington, Assistant Regional Engineer. Mr. Andrews advised that there is available for program action, in addition to $883,000 previously programmed, the sum of $3,430,000, of which $1,534,788 represents the amount that can be contracted immediately, and the balance, $2,191,118, represents new funds that will become available if the Congress appropriates the remaining funds that were authorized for the fiscal year 1954. Such unappropriated fund, he said, amounts to $15,900,000, of which Oregon's share is the balance stated above, $2,191,118. The State Highway Engineer suggested adoption of a program for the full amount of the funds authorized, $3,725,906, and that the projects be listed in the order of priority so as to expedite the contracting of improvements for which no funds immediately are available. He presented a list of eligible projects from which the following were selected by mutual agreement among all parties concerned as a result of careful study, said projects being estimated to cost about $3,430,000.

1956 Projects for Which Funds are Immediately Available

Curry County		
Oregon Coast	Greggs Creek-Wedderburn 8.4 miles Surf., Pav. & Br. Wid.	$ 450,000
Douglas County		
W. Diamond Lake	Lost Creek Section 6 miles Grading & Paving	250,000
Umatilla County		
Ukiah-Hilgard	Lehman Spr.-Union Co. Line 5 miles Grading	200,000
Clackamas County		
Mt. Hood	Laurel Hill-Government Camp Grading & Paving, 4 Lanes	500,000
Deschutes County		
Cascade Lakes	Bachelor Butte-Elk Lake 12.2 miles Surfacing & Oiling	150,000
Linn County		
Belknap Springs	Advance Clearing	50,000
		$1,600,000

1956 Projects for Which Funds are Not Immediately Available

Douglas County		
Umpqua	Koepke Slough-East (To supplement previous allotment of $320,000)	$ 250,000
North Umpqua	Steamboat Creek-Apple Creek 4.5 miles Surfacing	100,000
North Umpqua	Apple Creek-Copeland Creek 10 miles Advance Clearing	90,000
Baker County		
John Day	Grant Co. Line-Forest Boundary 4 miles Grading & Paving	260,000
Harney County		
John Day-Burns	Poison Creek-Burns 9 miles Grading & Paving	390,000

January 18, 1955

Linn County Belknap Springs	Anderson Creek-Middle Falls 5 miles Grading & 3 Bridges	$ 300,000
Tillamook County Oregon Coast	Neskowin-Salmon River Summit Unit, Grading	440,000
		$1,830,000

The Commission also confirmed the following program, heretofore approved, for $883,000 of Forest Highway money:

Prior Program Projects Not Contracted

Douglas County Umpqua	Koepke Slough-East 2.5 miles Grading (1953)	$ 320,000
Lane County Willamette	Deception Creek-Oakridge 1.2 miles Grading 4.04 miles Paving (1955)	316,000
Wallowa County Enterprise-Lewiston	Forest Boundary-Flora Junction 7.94 miles Paving (1954)	247,000
		$ 883,000

The Engineer presented for consideration and signature a form of release whereby the United States Government is relieved from all further claims and demands arising under the terms of Contract No. W-35-026-ENG-2210, dated June 27, 1946, for engineering services required for the location of County Road No. 360, Lane County, in connection with the Lookout Point Reservoir Project. The Engineer explained that upon signing of this release, the Government will pay to the State the sum of $10,290 which represents the balance due for this service. The release was approved and signed by the Commission.

The meeting adjourned at 5:00 p.m. to reconvene at 9:00 a.m. on the following day.

Portland, Oregon
January 19, 1955

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Crystal Room of the Benson Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary who then announced that the Commission would award contracts at 3:00 p.m. in the same room:

COLUMBIA COUNTY
GRADING AND PAVING ST. HELENS PAPER COMPANY-MILDREDS CORNER SECTION OF THE KASTER AND OLD PORTLAND ROADS

Parker-Schram Co., Portland	$ 82,785.90
United Contracting Co., Portland	100,680.00

COOS COUNTY
MYRTLE POINT-POWERS ROCK PRODUCTION PROJECT ON THE COOS BAY-ROSEBURG AND POWERS HIGHWAYS

Carl P. Tallon, Roseburg	26,730.00
Coos Bay Dredging Co., Coos Bay	36,190.00
E. C. Hall Co., Portland	38,720.00
F. L. Somers, Medford	39,600.00

CROOK COUNTY
OCHOCO CREEK BRIDGE WIDENING ON THE PAULINA SECONDARY HIGHWAY

T. W. Thomas, Portland	9,573.00
Jackson & Ray, Hermiston	9,745.00
C. P. Patterson, Redmond	9,806.00
R. H. Jones, Hillsboro	11,218.00
George E. Berry, Beaverton*	12,924.00
Babler Bros. Inc., Portland	14,280.00

Ochoco Creek Bridge Widening (cont)

The Central Heating Co., Ore. Ltd., Eugene	$ 18,110.00

*Bidder will not accept award of contracts in excess of $150,000.00.

CURRY COUNTY
FRANKPORT VIADUCT AND EUCHRE CREEK BRIDGE ON THE OREGON COAST HIGHWAY

Tom Lillebo, Reedsport	$149,014.00
Valley Construction Co., Portland	154,655.00
Hamilton & Thoms, Eugene	154,895.00
Peter Kiewit Sons' Co., Longview, Wash.	177,410.00
C. J. Eldon Contractor, Portland	194,730.00

DOUGLAS COUNTY
BOOMER HILL ROAD OVERCROSSING ON NEW ALIGNMENT OF THE PACIFIC HIGHWAY

A. H. Saxton & Son, Corvallis	50,204.00
Hamilton & Thoms, Eugene	51,275.00
R. & M. Construction Co., Central Point	53,035.00
Johnson & Amens, McMinnville	53,153.00
Orlando C. Bennard, Portland *	53,910.00
Valley Construction Co., Portland	54,910.00
Todd Building Co., Roseburg	56,620.00
Tom Lillebo, Reedsport	59,900.00

A delegation from Wasco County was present relative to rerouting US197 northerly from a point known as Eight Mile Creek to a connection with U.S. 30 at The Dalles Bridge across the Columbia River, a distance of about 6 miles. The following people composed the group: Mrs. Katherine Musa, State Representative, Wasco County; Ward R. Webber, Wasco County Judge; Rupe Kennedy, Chairman, Roads and Highways Committee, The Dalles Chamber of Commerce; Ed Chambers, Chairman, Industrial Committee, The Dalles Chamber of Commerce; Wm. Seufert and Wm. Dielschneider, all of The Dalles; Howard Corner and Ralph Kaiser, both from Maupin, representing Southern Wasco County. Judge Webber acted as spokesman and introduced the members of the delegation. Mr. Kennedy pointed out that the existing highway was built by Wasco County in 1922 and he alleged that the alignment has not been materially changed since that time, consequently the road is very crooked and contains a number of narrow bridges. He mentioned that traffic across The Dalles Bridge is far greater than was anticipated, being about 1,800 vehicles daily, and he gave as his feeling that the highway should be reconstructed to take care of the increased traffic that the bridge stimulates. He suggested the use of Federal Interstate Highway funds to finance the improvement. Mr. Kaiser stated that he came from the southern part of the County and that it would shorten the travel distance for the people of that district about five miles in going to The Dalles to trade. Mr. Dielschneider endorsed the statements of the other speakers. Mrs. Musa called attention to the dangerous condition of the existing road due to the great number of curves. She also stated that State Representative Hounsell from Hood River County wants to

be recorded in favor of the project. Judge Webber pointed out that no major work has been done on the north end of this highway for many years, and because traffic over The Dalles Bridge is far greater than was expected, the need for improving the section is emphasized. He asked that the improvement be placed in an early program. Chairman Chandler stated that the Commission is very familiar with the project, but there is a question when money will be available to finance it. The money derived from the sale of bonds, he said, has been practically all spent, and at the present time the State is back on the old schedule of construction. The Commission, he added, recognizes the problem and will keep the project in mind for the future.

Messrs. William Hammond, Ken Golliet, George Tate and O. K. DeWitt, representing the Salem and the North Santiam Chambers of Commerce, came before the Commission to urge construction of the North Santiam Highway from the fish hatchery near Mehama to Salem. Mr. Hammond, who acted as spokesman, introduced the other members of the delegation. He pointed out that during the last year or two there has been a considerable increase in travel over this highway which has been rebuilt to modern standards northerly and westerly from its junction with the South Santiam Highway to Mehama, but from that point to Salem, there remains an old road, narrow and with many sharp curves. It was his thought that there would be even more traffic on the road if it were designated as a U.S. route and were shown as a first class highway on travel maps. The Marion County Court and the City of Salem, he stated, are very much in favor of further improvement. Chairman Chandler stated that the Commission at its meeting on the previous day allocated an amount of $300,000 of Federal-aid Secondary Funds to finance the grading of all or part of the 9½-mile section from Stout Creek to an intersection with the old highway near Sublimity. He inquired if the people in Stayton and Sublimity still feel that their towns should not be by-passed. Mr. Golliet replied that the North Santiam Chamber of Commerce has been quite successful in ironing out misunderstandings and animosities in the communities affected. Mr. Hammond left with the Commission a resolution passed by the Salem Common Council endorsing improvement of the North Santiam Highway, and a resolution from the Santiam Chamber of Commerce making the same request.

Mr. L. M. Pfeifer, Director of Public Relations for the Oregon State Employees Association, appeared before the Commission with reference to the making of payroll deductions to cover premiums for disability and life insurance protection by California-Western States Life Insurance Company and also for deductions to cover premiums for medical and hospital coverage by Oregon Physician's Service. He explained that Oregon State Employees Association has agreements with both of these organizations and that in order to secure the benefits available under the agreements it would be necessary that Department employees be members in good standing of Oregon State Employees Association. The Commission advised Mr. Pfeifer it would take the matters under consideration and make its decision later.

Following Mr. Pfeifer's departure, the matter presented by him was again discussed by the Commission. As a result thereof, the Commission instructed the Chief Counsel to prepare in writing a resolution or statement covering the opinions expressed at this time and to present the same at the next Commission meeting.

Mr. Chet Hubbard, Mr. Bob Root, and Mr. E. B. DeVoe, members of the Jackson County Chamber of Commerce, came before the Commission concerning improvement of certain highways in Southern Oregon. Mr. Hubbard headed the group. He inquired as to what progress has been made in plans for improving the Flounce Rock Section of the Crater Lake Highway. He pointed out that there is much timber being hauled over this road and he urged early construction as a safety measure to the traveling public. He also commented that the proposed Medford By-pass of the Pacific Highway appears to be a fine idea. He asked that this project also be brought to an early planning stage. Mr. DeVoe urged the Commission to keep the West Diamond Lake Highway open for year-around travel, which road now is closed by snow during the winter season. The main problem, he said, is snow removal. He was informed that to keep the road open as requested is a very expensive undertaking. Mr. Root mentioned a rumor to the effect that private loggers are not allowed to construct a logging road on the alignment of the proposed road leading from Eagle Point to Klamath Falls via Lake-of-the-Woods. He asked the Commission to grant such permission and to build the road at least to Fish Lake. Chairman Chandler stated that the Commission had heard nothing concerning this matter, but the Commission has no intention of taking any action which would stop logging. He expressed the feeling that the Commission would cooperate in allowing use of any right of way which is owned by the State Highway Commission. Concerning the Flounce Rock section of the Crater Lake Highway, he said that a survey of that section now is under way. Mr. W. C. Williams, Deputy Highway Engineer, stated that he believed that most of the right of way needed for the Lake-of-the-Woods Road is owned by Jackson and Klamath Counties, and that the right of way the loggers want to use is not state property. Mr. Hubbard commented that Klamath County is in favor of the improvements requested by the delegation. The Commission ordered a report from the Engineer re snow removal on the West Diamond Lake Road.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

Mr. Charles McCormack, Mayor of the City of Albany, Mr. John Cox, Superintendent of Union High School District #8, Albany, and Mr. D. J. Donahue, representing the Albany Chamber of Commerce, came before the Commission concerning improvement of Queen Avenue in the City of Albany. Mr. McCormack recalled that a delegation appeared before the Commission at the December meeting and requested such improvement and that the Commission referred the matter to the Engineer for investigation. Since that time, he said, he discussed the matter with Mr. Baldock, State Highway Engineer, who advised him that the project would cost approximately $82,000. He advised that the City and adjoining

property owners are willing to pay 25 per cent of the cost of the improvement up to a maximum of $20,500. After some discussion, the Commission approved the project on such basis.

County Judge Lloyd Rea, Baker County, appeared before the Commission concerning improvements to the Baker-Homestead Highway, the Sumpter Valley and the Haines-Anthony Secondary Highways. He was informed by Commissioner Reynolds that no funds are available for the improvement of the Haines-Anthony Secondary Highway, but the Commission has approved an allocation of $150,000 for improvement of the Black Bridge-Richland Section of the Baker-Homestead Highway. As to the Sumpter Valley Highway, he said that the Engineer has been instructed to investigate the cost to widen certain sections through a canyon which are narrow and limited to one-way travel.

The County Court of Sherman County represented by Vernon I. Miller, County Judge; Charles Kuypers and Kenneth Sather, County Commissioners, appeared before the Commission to request that the Commission cooperate financially in an economic study as to the feasibility of constructing a bridge across the Columbia River at Maryhill. Klickitat County in Washington and the State of Washington have agreed, Mr. Miller stated, to contribute $6,000 each toward such expense if Sherman County and the State of Oregon will provide a like amount, making a total of $18,000. Commissioner Reynolds inquired if this project is endorsed by the State of Washington. Mr. Miller replied in the affirmative. Chairman Chandler commented that the Commission previously advanced funds to Umatilla and to Wasco Counties for similar investigations, and may contribute in this case when more is known about the project. After some discussion, Commissioner Reynolds moved that the State contribute the sum of $3,000 on the condition that Sherman County furnishes a like amount and provided further that the State of Washington and Klickitat County each contributes $6,000. Commissioner McIver seconded the motion and it was declared unanimous by Chairman Chandler.

The Coramission resumed discussion started on the previous day, relative to defining certain recreational areasas state parks and other areas as waysides. The Parks Superintendent again recommended such segregation of recreational areas and approval of the two resolutions to effect the same as presented by him at that time. The Engineer concurred in the recommendation. The Commission accepted the recommendations by adoption of the attached resolutions relative thereto, marked EXHIBIT "I-1" and EXHIBIT "I-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Discussion was also resumed on the five-year tentative park program which was presented by the Parks Superintendent on the previous day. The Commission expressed satisfaction with the program as presented and thereupon adopted the same by unanimous vote. In approving the program the Commission called attention to the fact that park usage has increased tremendously during the past five years as a result of the Commission's action in approving larger expenditures for park development purposes

thereby making possible a more extensive use of the recreational facilities that have been provided. (For details of the program see copy of same attached to Park Superintendent's letter of January 10, 1955 in General Files.)

Chairman Chandler mentioned receipt of a copy of a letter from Mr. George C. Hester, Jr., to Mr. Baldock, announcing his resignation from Highway Department service as of January 31. The Secretary was instructed to convey to Mr. Hester, by letter, the regrets of the Commission that he is leaving the Department and to extend to him the Commission's best wishes for success in his new position.

The Chairman also mentioned receipt of a letter from Miss Amanda Wicklander thanking the Commission for the retirement certificate recently given to her. The Commission instructed the Secretary to convey to Miss Wicklander thanks for the splendid service she rendered the State during the past 35 years and to express to her the best wishes of the Commission for a long and happy life in her retirement.

In this connection the Secretary was also instructed to direct similar communications to all other employees when they retire from Highway Department service if they have served five years or more.

As requested by the Commission on the previous day the Park Superintendent reported additional information concerning the area that is proposed as a state park on the North Umpqua River at Susan Creek, about 30 miles east of Roseburg. He said that most of the land is owned by the Federal Government, being O & C land, but Douglas County has title to some of it; also that it is a beautiful area and will make a fine addition to the state park system. He requested authority to negotiate acquisition of the property. The Commission granted the request with the comment that it is reviewing the matter at this time because there now exists a very good road (North Umpqua Highway) leading to the area. The Park Superintendent was instructed to report at the next meeting the cost of the initial development of the property and the eventual cost of complete development.

The Engineer reported that under authority previously granted by the Commission he placed a reduced load limit on a 12-mile section of the Wapinitia Highway, effective 8:00 a. m., January 17, 1955, allowing 11,000 pounds gross on any single axle, 20,000 pounds gross on any pair of tandem axles and 36,000 pound maximum gross load, such section extending from M.P. 28.00 to M.P. 40.00 near Maupin. This load limitation, he stated, was placed to prevent damage to the highway by alternate freezing and thawing during the past week. The Commission accepted the report.

Commissioner Reynolds recalled that some interstate highway projects had been deferred pending action that might be taken by the National Congress for allocation of additional highway funds. He inquired if there is any news in this respect. The Engineer stated that he understands the President intends to mention this matter in his message to Congress on January 27th and that a bill providing for additional Federal grants will be

introduced. Increased Federal-aid, he stated, probably will be based on the "Clay" report, a copy of which will be sent to each member of the Commission when received. He explained briefly the substance of the "Clay" report and requested authority to go to Washington, D. C. about the middle of February at state expense, to present arguments in support of the President's bill re this subject which will be presented to the Congress about that time. The Commission approved the request.

The matter of deferred contract projects which had been discussed under the heading of unfinished business on the previous day was again considered. Chairman Chandler commented that it was essential that the paving on the Goshen-Divide Section of the Pacific Highway be completed during the summer season of 1955. The Engineer stated that his letter concerning recommendations for construction of these deferred projects had been previously considered but due to a misunderstanding he had made comments regarding the status of surveys; however, the Commission's wishes as he understands them have been outlined in his letter concerning these deferred projects.

Commissioner Reynolds inquired concerning the status of plans for the overcrossing in Pendleton on the Old Oregon Trail. This project, the Engineer commented, is a very difficult one and an agreement should be arranged with the City concerning parking before the contract is let. The engineering studies indicate that the structure should be built for four lanes of traffic and plans are being prepared on that basis; however, the City has not agreed to the parking regulations.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 3:00 p m. Commissioner McIver publicly announced the Commission's decision with respect to each project as follows, the Commission's decisions being by unanimous vote:

"Grading and paving the St. Helens Paper Company-Mildreds Corner Section of the Kastor and Old Portland Roads in Columbia County: The Commission elects to accept the bid of Parker-Schram Co., Portland, in the sum of $82,785.90 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Columbia County is received and the sum of $18,600 is deposited by the County.

"Myrtle Point-Powers Rock Production Project on the Coos Bay-Roseburg and Powers Highways south and east from Myrtle Point in Coos County: The Commission awarded the contract to the low bidder, Carl P. Tallon, Roseburg, at his bid price of $26,730.

"Ochoco Creek Bridge Widening on the Paulina Secondary Highway over Ochoco Creek near Prineville in Crook County: The Commission awarded the contract to the low bidder, T. W. Thomas, Portland, at his bid price of $9,573.

"Construction of Frankport Viaduct and Euchre Creek Bridge on the Oregon

Coast Highway south of Port Orford in Curry County. The Commission awarded the contract to the low bidder, Tom Lillebo, Reedsport, at his bid price of $149,014.

"Construction of Boomer Hill Road Overcrossing on new alignment of the Pacific Highway northwest of Myrtle Creek in Douglas County: The Commission awarded the contract to the low bidder, A. H. Saxton & Son, Corvallis, at their bid price of $50,204.

"Paving and furnishing crushed material in stockpile on the Booth Ranch and Booth Ranch-Myrtle Creek Units, Shady-Canyonville Section of the Pacific Highway in Douglas County: The Commission awarded the contract to the low bidder Warren Northwest, Inc., Portland, at their bid price of $219,650.

"Eagle Point-Lake Creek Rock Production Project on the Little Butte Highway in Jackson County: The Commission awarded the contract to the low bidder, J. C. Compton Co., McMinnville, at his bid price of $16,100.

"Cave Junction-Oregon Caves Rock Production Project on the Oregon Caves Highway in Josephine County: The Commission awarded the contract to the low bidder, M. C. Lininger & Sons, Medford, at their bid price of $26,700.

"Grading, paving, and furnishing crushed rock in stockpile on the South Unit, Klamath Falls-Midland Overcrossing Section of the Midland Highway in Klamath County: The Commission awarded the contract to the low bidder, Peter Kiewit Sons' Co., Longview, Washington, at their bid price of $152,792.

"Grading and stone surfacing on the South Unit, Hayden Bridge-Donna Section of the Eugene-Marcola Road about 2 miles northeast of Springfield in Lane County: The Commission elects to accept the bid of Allum Bros., Eugene, in the sum of $126,179.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Lane County is received and the sum of $28,350 is deposited by the County.

"Construction of three structures on the Coast Fork Willamette River-Divide Unit on new alignment of the Pacific Highway between Cottage Grove and Divide in Lane County. The Commission awarded the contract to the low bidder, W. H. Shields Construction Co., Eugene, at their bid price of $140,187.

"Construction of Coyote Creek Bridge over Coyote Creek on the Territorial Highway in Lane County: The Commission awarded the contract to the low bidder, H. C. Werner Inc., Eugene, at their bid price of $35,303.

"Construction of Bilyeu Creek Bridge on County Road No. 831 east of Scio in Linn County: As this is a county project, all bids have been referred to Linn County for further handling.

"Construction of McDowell Creek Bridge overMcDowell Creek on County Road north of Sweet Home in Linn County: The Commission elects to accept the bid of Lind & Marr in the sum of $10,565 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Linn County is received and the sum of $2,350 is deposited by the County.

"Construction of Illahee Undercrossing over the Pacific Highway East south of Salem in Marion County: The Commission awarded the contract to the low bidder, Tom Lillebo, Reedsport, at his bid price of $29,952.

"Roadside improvement of the Hayesville School-Battle Creek Junction Section of the Portland-Salem Expressway on the Salem By-Pass east of Salem in Marion County: The Commission awarded the contract to the low bidder, Knight Pearcy, Salem, at his bid price of $11,432.

"Shoulder oiling and furnishing crushed material in stockpile on the Arlington-Boardman Section of the Columbia River Highway east from Arlington in Morrow, Gilliam and Umatilla Counties: The Commission awarded the contract to the low bidder, Babler Bros. Inc., Portland, at their bid price of $73,069.

"Installation of traffic signals at the intersection of the Mt. Hood Highway with Cleveland Avenue in the City of Gresham in Multnomah County: The Commission awarded the contract to the low bidder, Trowbridge Electric Co., Roseburg, at their bid price of $3,780.

"Union Rock Production Project on the La Grande-North Powder and Medical Springs Highways near Union in Union and Baker Counties: The Commission awarded the contract to the low bidder, Arthur Simonsen & Co., Baker, at their bid price of $46,640.

"Tigard Overcrossing Roadside Improvement Project on the Pacific Highway West at Tigard in Washington County: The Commission awarded the contract to the low bidder, Knight Pearcy, Salem, at his bid price of $5,921.

"Grading and paving the East Unit, Carlton Junction-Newberg Section of the Yamhill-Newberg Highway west from Newberg in Yamhill County: The Commission elects to accept the bid of C. C. Meisel, McMinnville, in the sum of $146,040.90 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired."

The Engineer recommended that 1.55 acres of land on the north side of Pilot Butte east of Bend be deeded to Deschutes County for the sum of $1.00. He explained that the County wishes to use this land as right of way for a county road that it proposes to build; also, that the property is of no value for highway purposes. The Commission approved the transfer.

The matter of constructing the proposed Clay Street Interchange in the City of Portland was brought up by Chairman Chandler. The Commis-

sion, he said, is concerned as to just how much additional construction is involved in order to make this project function as it should, and what projects will be necessary in the future to assure proper functioning, the cost of right of way and of depressed drives, connections, etc. He also inquired if the Portland City Engineer has been contacted relative to the plan. It is the desire of the Commission to have before it complete facts before it authorizes the contracting of the work. The Engineer advised that when the project was planned consideration was given to future traffic needs, twenty years ahead, and that the Engineers of Multnomah County as well as those of the City of Portland were contacted relative thereto. Studies are still being made, he added, and he anticipated that results would be available in about a week. This matter was discussed at some length and as a result thereof, the Commission instructed the Engineer to submit a report showing the overall effect of the interchange, the various projects needed to provide effective city-wide functioning, the cost of these projects and the priority in which they should be constructed. The contracting of the project is to be held up pending further instructions from the Commission.

The Chief Counsel reported that in connection with construction of the Clackamas Overcrossing on the Clackamas Secondary Highway in Clackamas County, it is necessary to reestablish a loading ramp for the National Guard, and to provide a roadway leading to the same. The owner of the land, he said, refuses to sell and the State Highway Commission does not have authority to condemn the property; however, the State Land Board does have such authority. He requested authority to ask the State Land Board to initiate the condemnation proceedings. The request was approved by the Commission.

The Commission signed the following agreements and other papers.

"Indentures of Access" re change of access points for the following.

a. Chenoweth property on Rinehart Creek-Frankport Unit, Rocky Point-Gold Beach Section of Oregon Coast Highway, Curry County.

b. Shelton property on Noble Slough-Foster Section of South Santiam Highway, Linn County.

January 18 and 19, 1955

EXHIBIT "A"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

EXHIBIT "B-1"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land in Canyonville, Oregon, lying along and adjacent to the Pacific Highway described as follows:

A parcel of land lying in the North half of the Northwest quarter ($N\frac{1}{2}NW\frac{1}{4}$) of Section 34, Township 30 South, Range 5 West, Willamette Meridian, Douglas County, Oregon, and being a portion of the following described property:

Beginning on the Northwesterly line of said property at the point where the Southwesterly line of Oak Street intersects said Northwesterly property line, from which point the Northwest corner of the J. Roberts Donation Land Claim bears North 60° 30' East 250 feet, North 19.05 chains and West 19.12 chains and running thence along the outer boundaries of said property as follows: South 60° 30' West 113 feet, South 30° 30' East 3.63 chains, South 60° 30' West 1.54 chains, South 6° 30' East 1.50 chains, North 70° 30' East 3.93 chains and North 62° 30' East 42.22 feet to a point on the Southeasterly line of said property which point is 200 feet from the most Easterly corner; thence North 36° 49' 40" West 380.3 feet to the point of beginning.

The parcel of land to which this description applies contains 1.43 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2250.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 122 be entered in the minutes and records of the Commission as of 18th day of January, 1955.

EXHIBIT "B-2"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, by resolution dated June 23, 1954, the State Highway Commission, after consideration, found and declared that a certain parcel of real property containing 108,197 square feet situate in Multnomah County, Oregon, and more particularly described therein, was no longer needed, required or useful for highway purposes; and

WHEREAS, by said resolution the Secretary of the Commission was authorized and instructed to advertise the said parcel of real property for sale in accordance with the terms and provisions of ORS 273.060, et seq.; and

WHEREAS, the notice required by law to be given was duly and regularly given in the form, for the time, and in the manner required by law for the sale of said real property on October 18, 1954, and no satisfactory bid was received; and

WHEREAS, the Commission has determined that the sale of said real property at private sale will further the public interest; and

WHEREAS, in order that the sale of said real property may be accomplished, it is necessary that an easement be granted as hereinafter more particularly described for the sole purpose of repairing and maintaining the walls of the building located on the said real property; and

WHEREAS, in order that the sale of said real property may be accomplished, it is necessary that all the rights of the State of Oregon, by and through its State Highway Commission, for the use of the Easterly 12.5 feet of N. E. 44th Avenue, as reserved in that deed to the City of Portland, recorded May 27, 1947, in PS Deed Book 1175, page 57, Deed Records of Multnomah County, Oregon, lying South of the T. H. Banfield Expressway be sold and conveyed; and

WHEREAS, the said easement and reserved rights are of no value apart from the land described in said resolution of June 23, 1954, and as advertised for sale, and it is necessary that the said easement and reserved rights be conveyed for the proper use of the parcel of real property authorized for sale by the said resolution and to which they are appurtenant; and

WHEREAS, the land over which said easement is granted, as well as the rights reserved in the deed aforementioned, are not needed, required or useful for any public purpose which will be interferred with by the grant of said easement and conveyance of said reserved rights, and the public interest will be furthered by granting of said easement

EXHIBIT "B-2" (cont)

and conveyance of said reserved rights, and under the provisions of applicable law may therefore be sold without calling for competitive bids; and

WHEREAS, the Friedman Bag Company, Inc., a California corporation, has agreed to purchase the said parcel of real property set forth in the saidresolution hereinabove mentioned, dated June 23, 1954, and as advertised for sale on October 18, 1954, containing 108,197 square feet, together with the easements and reserved rights hereinabove described for the sum of $250,000.00, which said sum is not less than the minimum terms offered in the said notice of sale; and

WHEREAS, it has been found upon recheck and resurvey on the ground that the description of said tract of real property containing 108,197 square feet as set forth in said resolution hereinabove mentioned dated June 23, 1954, and the notice of sale contains a slight deviation as to certain courses and distances as they were found to exist on the ground and should be corrected for accuracy.

NOW, THEREFORE, BE IT RESOLVED that the hereinafter described real property now belonging to the State of Oregon, by and through its State Highway Commission, together with the hereinafter described easement and hereinafter described reserved rights in N. E. 44th Avenue, but with no rights of access to the T. H. Banfield Expressway, be sold and conveyed to Friedman Bag Company, Inc., a California corporation, for the sum of $250,000.00, and that a good and sufficient bargain and sale deed in the form as hereinafter set out be executed and delivered conveying to the said Company the following described real property, to wit:

> A parcel of land lying in the Northwest quarter (NW¼) of Section 31, Township 1 North, Range 2 East, W. M., Multnomah County, Oregon; the said parcel being described as follows:
>
> Beginning at a point 20.625 chains East and 60.78 chains North of the Southwest corner of said Section 31, said point being in the center line of N.E. 47th Avenue, as now existing, and being also the beginning point in the description of said State of Oregon tract; thence North 1° 33' 16" East along the center line of N.E. 47th Avenue, 137.70 feet; thence North 88° 16' 19" West 117 feet to the true point of beginning, thence continuing North 88° 16' 19" West a distance of 242 feet; thence along the boundary of said State of Oregon tract as follows: South 1° 33' 44" West, 73.04 feet, North 88° 16' 19" West 15.00 feet, South 1° 33' 44" West 64.66 feet, and North 88° 16' 19" West 186.70 feet, to the East line of N.E. 44th Avenue, as now existing; thence North 1° 33' 44" East along the East line

EXHIBIT "B-2" (cont)

30 feet from the center line of N.E. 44th Avenue 445.60 feet; thence South 88° 26' 16" East, 9.35 feet; thence North 1° 33' 44" East along a line parallel to and 9.35 feet East of the East line of N.E. 44th Avenue, 11.16 feet, more or less, to a point 53 feet southerly from, when measured radially to the T. H. Banfield Expressway center line at Engineer's Station L4 148+65.98; thence parallel to and 53 feet Southerly from said expressway center line on a 1584.02 foot radius curve to the right (the long chord of which bears South 56° 33' 11" East 312.36 feet) a distance of 312.86 feet; thence continuing parallel to and 53.00 feet Southerly from said center line on a spiral curve to the right (the long chord of which bears South 47° 38' 44" East, 223.36 feet) a distance of 223.46 feet to a point, said point being opposite Engineer's center line Station L4 154+18.06, said point also being on a line 117 feet Westerly of and parallel to the center line of N.E. 47th Avenue; thence South 1° 33' 16" West 9.41 feet, to the true point of beginning.

The parcel of land to which this description applies contains 108,197 square feet.

Also those rights for the use of the Easterly 12.5 feet of N.E. 44th Avenue as reserved in that deed to the City of Portland, recorded May 27, 1947 in PS Deed Book 1175, Page 57, Deed Records of Multnomah County, Oregon, lying South of said Banfield Expressway.

Provided, however, there is reserved to the grantor, and waived and relinquished by the grantee, all right of access between the above described real property and the right of way of the 42nd Avenue-92nd Avenue Section of the T. H. Banfield Expressway abutting on the Northerly side of said parcel, which public highway is further identified as State Highway No. 56, except there is granted the right of access to the Southerly five feet of the right of way of the said Expressway for the sole purposes set out in the maintenance easement granted below. This reservation and exception shall run with the land and shall not be subject to modification, cancellation or destruction by adverse user or estoppel, no matter how long continued. Nothing in this conveyance contained shall be construed as conveying any estate, right, title or interest in and to the public highway right of way or any rights of reversion therein or thereto.

Also an easement for the sole purpose of repairing and maintaining the North wall of a building located upon

EXHIBIT "B-2" (cont)

the above described property. The property included in said easement is described as follows, to-wit:

Beginning at the Northwest corner of the above described parcel; thence North 1° 33' 45" East 5.56 feet to a line which is parallel to and 5 feet Northerly of the North line of said parcel; thence Southeasterly along said parallel line on a 1589.02 foot radius curve right 315 feet more or less to a point opposite and 48 feet Southwesterly of Engineer's Station L4 151+89.31 on the center line of the T. H. Banfield Expressway; thence continuing Southeasterly along said parallel line on a spiral curve right 225 feet more or less to a line which is parallel to and 5 feet Easterly of the most Easterly line of said parcel; thence South 1° 33' 16" West 12 feet more or less to a point which is South 88° 16' 19" East of the true point of beginning of said parcel; thence North 88° 16' 19" West 5 feet; thence along the Northerly line of said parcel as follows: North 1° 33' 16" East 9.41 feet, on a spiral curve left (the long chord of which bears North 47° 38' 44" West 223.36 feet) a distance of 223.46 feet and on a 1584.02 foot radius curve left (the long chord of which bears North 56° 32' 25" West 311.64 feet) a distance of 312.08 feet to the Northwest corner of said parcel and the point of beginning of this description.

Also a 5 foot maintenance easement along the Westerly boundary of the property referred to above, containing 108,197 square feet, extending from a point 445.60 feet Northerly of the Southerly boundary of said property to its intersection with the Northerly 5 foot maintenance line extended Westerly, for the sole purpose of repairing and maintaining the Northerly and Westerly walls of the building.

Nothing herein contained shall grant any rights of access to the said T. H. Banfield Expressway, except to the property included in the easement for the sole purposes hereinabove stated.

BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 120 be entered in the minutes and records of the Commission as of the 18th day of January, 1955, and that a certified copy thereof be forwarded to the purchaser.

EXHIBIT "C"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, in the acquisition of real property for public use by the State of Oregon, by and through its State Highway Commission, the State often acquires title to real property not immediately needed for public use, and also often acquires title to buildings, structures, trees, timber, shrubs and items of personal property that are not required or useful for public purposes, and must be sold, removed or otherwise disposed of; and

WHEREAS, the acquisition of property is now of such magnitude and the instances and occasions requiring administration and disposition of various properties have increased to such an extent as to warrant the adoption of a procedure which will eliminate the necessity of submitting to the Commission the many and detailed problems concerning the administration and disposition of such properties and the securing of the approval of the Commission before appropriate and necessary action may be taken; and

WHEREAS, it is the judgment and opinion of the Commission that the adoption of the policy and procedure herein set forth will promote and serve the public welfare by permitting the economical and efficient administration of property;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by the Commission as follows:

1. That the Chief Counsel of the Highway Department, or his duly authorized representative, is authorized to dispose of by private sale and without the necessity of calling for competitive bids any buildings, structures, trees, timber, shrubs or any items of personal property acquired at any time by the State of Oregon, by and through its State Highway Commission, in connection with the acquisition of real properties, if such property is not needed, required or useful for public purposes, and if the appraised value therof does not exceed Five Hundred Dollars ($500.00).

2. That if the appraised value of any such property exceeds Five Hundred Dollars ($500.00), then the same may be sold by the Chief Counsel, or his duly authorized representative, only after calling for competitive bids, or by selling the same at public auction, as the Chief Counsel may elect, and said sale, if made, shall be to the highest responsible bidder, and the sale price may be less that the appraised value; provided, however, that if no bids are received, or if the highest bid is less than the appraised value of the property, then and in that event the property may be disposed of by the Chief Counsel, or his duly authorized representative, at a private sale.

EXHIBIT "C" (cont)

3. That the Chief Counsel, or his duly designated representative, may for and on behalf of the State Highway Commission, transfer title by bill of sale to any and all of the property sold or disposed of pursuant to the authority granted in this resolution.

4. (a) That, with the approval of the State Highway Engineer, the Chief Counsel may issue land use permits at a reasonable rental, or without rental, respecting real property owned by the State, by and through its State Highway Commission, which is not immediately needed, required or useful for any public purpose.

(b) That such land use permits may be executed by the Chief Counsel, or his duly designated representative, for and on behalf of the State Highway Commission, shall be for periods not exceeding one year, shall contain provisions prohibiting any use of the property for commercial purposes, or for any purpose which will injure, damage or interfere with any highway, or highway facility, or the use, maintenance, operation or repair thereof, and shall expressly provide that such land use permit may be revoked and conceled and possession of the property taken by the State without liability for loss, injury or damage of any nature whatsoever, in the event such action is deemed necessary in the public interest.

5. (a) That, with the approval of the State Highway Engineer, the Chief Counsel may rent, upon a month-to-month basis only, buildings, structures or any real property owned by the State, by and through its State Highway Commission, when such building, structure or real property is not immediately needed, required or useful for any public purpose.

(b) That the rental charged shall be not less than an amount sufficient to pay all taxes levied against the property by reason of the rental, and the necessary costs of administration.

(c) That such rental agreements may be executed by the Chief Counsel, or his duly designated representative, for and on behalf of the State Highway Commission, and shall contain express provisions that the Commission undertakes no obligation to maintain or repair the property rented and that the property shall not be used in any manner or for any purpose which will injure, damage, or interfere with any highway or highway facility, or the construction, use, maintenance, operation or repair thereof.

6. That the Chief Counsel may make expenditures not exceeding One hundred and Fifty Dollars ($150.00) for the purpose of maintaining or repairing any building or structure which the Chief Counsel is authorized to rent to the extent that such maintenance or repair is necessary to render the building or structure habitable or to reasonably preserve the same.

EXHIBIT "C" (cont)

7. That when requested to do so by the State Highway Engineer, the Chief Counsel may sell, upon the terms and conditions set forth in paragraphs 1, 2 and 3 of this resolution any trees, timber, logs, poles or piling which the State Highway Engineer is authorized to remove, destroy or dispose of under the provisions of that certain resolution identified as "Exhibit F" of the minutes of the meeting of the Highway Commission of August 6, 1953.

8. That the Chief Counsel shall prepare or supervise the preparation of a written report to the Commission, to be submitted at each meeting of the Commission, setting forth a general description of all property sold or rented during the period since the preceding meeting of the Commission, the appraised value of such property, and the price for which it was rented or sold.

9. That that certain resolution identified as "Exhibit D" of the minutes of the meeting of the Highway Commission of April 21, 1952, and such portions of any other resolutions or orders of the Highway Commission that may conflict with the provisions of this resolution are hereby superseded.

10. That this resolution may be amended, superseded or rescinded by the Commission, when such action is deemed in the public interest.

11. That this resolution be entered in the minutes and records of the Commission as Miscellaneous Resolution No. 123, this 18th day of January, 1955.

EXHIBIT "D"

Minutes of January 18 and 19, 1955

R E S O L U T I ON

WHEREAS, ORS 366.800 provides that:

"There shall be and hereby are apporpriated out of the highway fund annually such sums of money as will equal 10 percent of all moneys credited to the highway fund by the State Treasurer between January 1 and December 31 of each year and which have accrued from funds transferred to the highway fund by the State Treasurer under ORS 319.410, 481.540, 767.635 and from fines and penalties collected for violations of the motor vehicle and transportation laws. The appropriation shall be distributed among the several cities as provided in ORS 366.785 to 366.820."

AND, WHEREAS, ORS 366.805 provides:

"The appropriation specified in ORS 366.800 shall be allocated to the cities as follows:

(1) The sum of $250,000 shall be withdrawn from the appropriation each year and set up in a separate account to be administered by the commission.

(2) Such account shall be spent each year by the commission upon streets not a part of the state highway system within cities which are receiving excessive wear through sudden increases in population in the area or heavy and unusual industrial traffic.

(3) The commission shall determine the distribution of the expenditures after considering applications made to it therefor from the cities.

(4) The balance remaining in the appropriation after the withdrawal of the $250,000 shall be distributed to all the cities.

(5) Each city shall receive such share of the balance as its population bears to the total population of the cities."

AND, WHEREAS, ORS 366.810 provides that:

"Funds accrued and payable to cities under ORS 366.785 to 366.820 shall be remitted semiannually by the Secretary of State to the financial officer of each city. The funds appropriated shall be apportioned on a semiannual basis immediately following June 30 and December 31 of each year by the commission, which shall certify the apportionment to

EXHIBIT "D" (cont)

the Secretary of State. Upon receipt of such certificate the Secretary of State shall issue his warrants therefor payable to the cities in the amounts set out."

WHEREAS, the funds or moneys which have been by the State Treasurer credited to the state highway fund during the period of July 1 to December 31, inclusive, of the year 1954, and which have accrued from the sources named herein, produced the following amounts:

Funds resulting under the provisions of ORS 481.540 (motor vehicle registration and operators' license fees) total	$ 4,541,548.34
Funds resulting under the provisions of ORS 319.410 (gasoline tax) total	17,676,199.15
Funds resulting under the provisions of ORS 767.635 (motor carrier fees) total	5,677,201.77
Funds resulting from fines and penalties collected for violations of the motor vehicle and transportation laws total	225,730.02
	$ 28,120,679.28

AND, WHEREAS, the statutory ten percent of said total produces for allocation and distribution by the Highway Commission to the benefited cities and towns a total of $2,812,067.93, from which sum there is to be deducted one-half of the sum of $250,000, or $125,000, thus leaving for allocation and distribution for the period July 1 to December 31, 1954, the sum of $2,687,067.93, and

WHEREAS, by applying the factors of allocation or distribution provided for in ORS 366.800 to 366.810, the State Highway Commission has determined upon an opportionment of said balance among the cities of the state as shown in the tabulation given below;

NOW, THEREFORE, be it and it hereby is resolved and ordered by this Commission as follows:

1. The Commission does hereby find, declare and order that the funds made available for allocation and distribution to the several cities of the State of Oregon pursuant to law, are hereby allocated and appropriated to the cities and/or towns named below in the amounts set opposite the names of the respective cities:

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies

of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 18th day of January, 1955.

EXHIBIT "F"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3749, with White Bros. Company for grading and paving work on the Oakland Junction-Deady Unit, Chenoweth Park-Deady Section of the Pacific Highway in Douglas County, completed August 30, 1954.

"Contract No. 3906, with Hamilton & Thoms for constructing the Harvard Avenue and Portland St. Overcrossings on the Pacific Highway in Douglas County, completed November 5, 1954.

"Contract No. 3914, with Warren Northwest, Inc. for paving on the paving on the Hayesville School-Battle Creek Junction Unit, Salem By-Pass Section of the Pacific Highway East in Marion County, completed November 1, 1954.

"Contract No. 3925, with The Central Heating Co., Oregon Ltd. for grading and paving work on the Jacksonville Grade Unit, Provolt-Jacksonville Section of the Medford-Provolt Highway in Jackson County, completed October 28, 1954.

"Contract No. 3929, with Warren Northwest, Inc. for grading and paving on the 82nd Ave. -Halsey St. Connection, 92nd Ave. -Fairview Section of the T. H. Banfield Expressway in Multnomah County, completed December 14, 1954.

"Contract No. 4014, with Glen Ousley for grading and surfacing work on the Reedy Creek-Beamer Creek Section of the Yachats River Road in Lincoln County, completed October 7, 1954.

"Contract No. 4058, with Babler Bros., Inc. for grading and surfacing work on the Winchester-South Umpqua River Unit, Deady-Shady Section of the Pacific Highway in Douglas County, completed November 2, 1954.

"Contract No. 4059, with Parker-Schram Co. for grading work on the Fairgrounds-Shady Unit, Deady-Shady Section of the Pacific Highway in Douglas County, completed November 4, 1954.

THEREFORE BE IT RESOLVED that the work covered by State Highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 39 shall be entered in the minutes and records of the Commission as of the 18th day of January, 1955.

EXHIBIT "G-1"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, the relocated Stout Creek-Mill City section of the North Santiam Secondary Highway No. 162 in Marion County has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section of highway, portions of the former right of way are no longer needed for State Highway purposes and may be eliminated from the State Highway System; and

WHEREAS, the State Highway Commission and Marion County entered into an agreement on the 29th day of September, 1950, and thereafter entered into a supplemental agreement on the 22nd day of December, 1954, relating to the disposition to be made of that portion of the former highway that may be eliminated; and

WHEREAS, the agreement entered into on the 29th day of September, 1950, provided that certain units, therein and hereinafter described as Unit "A" and Unit "B" and shown colored in red on the map attached hereto marked Exhibit "A" and by this reference made a part hereof, would be abandoned by the State as part of the North Santiam Secondary Highway No. 162 and the State Highway System and would be maintained thereafter by Marion County as a county road under the jurisdiction and control of the County; and*

WHEREAS, the supplemental agreement entered into on the 22nd day of December, 1954, provided that Connecting Road No. 1, therein and hereinafter described and shown colored in purple on Exhibit "A", and Connecting Road No. 2, therein and hereinafter described and shown colored in orange on Exhibit "A"would be abandoned by the State as part of the North Santiam Secondary Highway No. 162 and the State Highway System and would be maintained thereafter by Marion County as a county road under the jurisdiction and control of the County; and *

WHEREAS, it is the judgment of the Highway Commission that certain portions of the former right of way of the Stout Creek-Mill City section of the North Santiam Secondary Highway No. 162, together with other real property acquired by the State for roadway right of way and other public purposes as are shown colored in green on Exhibit "A" attached hereto is needed and valuable for right of way purposes and public use; and*

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of the highway referred to herein

EXHIBIT "G-1" (cont)

as Unit "A", Unit "B", Connecting Road No. 1, and Connecting Road No. 2, which are affected by reason of the said relocation;

NOW THEREFORE, based on the authority vested in the State Highway Commission by the State of Oregon, Be It And It Hereby Is Resolved as follows:

1. That the portions or units of the former right of way, which are not within the relocated right of way and no longer needed for State Highway purposes, are identified and described as follows:

UNIT "A"

Beginning opposite State Highway Engineer's Survey Station 329+30 of the relocated North Santiam Highway in the Southwest quarter of the Northeast quarter (SW¼ NE¼) of Section 14, Township 9 South, Range 1 East, W. M.; thence Easterly via the former route of the North Santiam Highway to State Highway Engineer's Survey Station 370+65 in the Southeast quarter of the Northwest quarter (SE¼ NW¼) of Section 13, Township 9 South, Range 1 East, W.M.

UNIT "B"

Beginning at State Highway Engineer's Survey Station 377+35 of the relocated North Santiam Highway in the Southeast quarter of the Northwest quarter (SE¼ NW¼) of Section 13, Township 9 South, Range 1 East, W.M.: thence Easterly via the former route of the North Santiam Highway to the West line of the Fern Ridge Road in the town of Mehama in the Southwest quarter of the Northwest quarter (SW¼ NW¼) of Section 18, Township 9 South, Range 2 East, W. M.

Connecting Road No. 1

Beginning opposite and Southerly of Highway Engineer's Survey Station 370+65 of the relocated route of the North Santiam Secondary Highway No. 162 where the former North Santiam Secondary Highway enters the present right of way, thence Easterly parallel with the center line of the relocated North Santiam Secondary Highway No. 162 to a place opposite and Southerly of Highway Engineer's Survey Station 377+35 of the relocated North Santiam Secondary Highway No. 162, where the former highway leaves the boundaries of the present relocated North Santiam Secondary Highway.

Connecting Road No. 2

That portion of the former North Santiam Secondary Highway No. 162 commencing at the West line of Fern Ridge Road, thence Easterly via the former route of the

EXHIBIT "G-1" (cont)

North Santiam Secondary Highway No. 162 to that place where it intersects the relocated Mehama-Mill City Secondary Highway No. 213.

2. That pursuant to the agreement dated September 29, 1950 and the supplemental agreement dated December 22, 1954, Unit "A", Unit "B", Connecting Road No. 1 and Connecting Road No. 2 as hereinabove described are duly abandoned as part of the North Santiam Secondary Highway No. 162 and the State Highway System and all the right, title and and interest which the State has in such right of way passes to and vests in Marion County.

3. That the right of way of the former and of the relocated Stout Creek-Mill City section of the North Santiam Secondary Highway No. 162 in Marion County, together with the real property acquired by the State for roadway right of way and other public purposes as shown colored in green on Exhibit "A", attached hereto, shall be retained and held in the State. *

4. That this resolution No. 220, be entered in the minutes and records of the Oregon State Highway Commission as of the 18th day of January, 1954 and the Secretary is ordered to mail a duly certified copy hereof to the County Clerk of Marion County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 220, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-2"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, the section of the Columbia River Highway in Clatsop County known as the Gnat Creek-Bradley Park Section, the westerly terminus of which is at Highway Engineer's Survey Station 0+00 on the relocated highway and the easterly terminus of which is at Highway Engineer's Survey Station 105+00 on the relocated highway, was opened to public travel on October 28, 1954; and

WHEREAS, as a consequence of the relocation of said section of highway, portions or units of the old right of way have been eliminated from the boundaries of the relocated highway and are no longer needed for state highway purposes; and

WHEREAS, Clatsop County and the State Highway Commission entered into an agreement dated July 11, 1952, relating to the disposition to be made of said eliminated portions or units; and

WHEREAS, Clatsop County and the State Highway Commission entered into a supplemental agreement dated January 19, 1955, modifying some of the provisions of said agreement of July 11, 1952; and

WHEREAS, said agreements together provided that after said relocated section was completed and opened to public travel the eliminated portions or units of highway therein and herein referred to as Units "A", "B" and "D" would be abandoned as part of said highway so as to revert to the abutting property owners; and

WHEREAS, said agreements further together provided that after said relocated section was completed and opened to public travel the portion or unit of highway therein and herein referred to as Unit "C" would be abandoned as a part of said highway and would be maintained thereafter by Clatsop County as a county road under the jurisdiction and control of said county; and

WHEREAS, it is the purpose of this Commission to take official action and impress upon its records the disposition made of said portions or units of right of way of said highway affected by reason of the said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The section of the Columbia River Highway in Clatsop County known as the Gnat Creek-Bradley Park Section, the westerly terminus

of which is at Highway Engineer's Survey Station 0+00 on the relocated highway, and the easterly terminus of which is at Highway Engineer's Survey Station 105+00 on the relocated highway, is now open to public travel.

2. The portion or unit of the old right of way which by reason of the relocation of the said section of highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "C" is indicated on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof. The location of Unit "C" is more particularly described as follows:

Unit "C"

All of the right of way of the former Columbia River Highway beginning at a line extending at right angles to the center line at State Highway Engineer's Survey Station 848+16.8 of the former route of the Columbia River Highway in the southeast quarter of the southwest quarter ($SE\frac{1}{4}$ $SW\frac{1}{4}$) in section 17, Township 8 North, Range 6 West, W.M.; thence easterly via the former route of the Columbia River Highway to the intersection of said highway with the east boundary of the Clifton County Road extended southerly in the southwest quarter of the southeast quarter ($SW\frac{1}{4}$ $SE\frac{1}{4}$) of Section 17, Township 8 North, Range 6 West, W.M.

3. Pursuant to the aforesaid agreements, Unit "C" is hereby declared to be no longer a part of the Columbia River Highway, and all right, title and interest which the State has in the right of way of Unit "C" hereby passes to and vests in Clatsop County, said Unit "C" to be maintained hereafter by Clatsop County as a county road.

4. The portions or units of the old right of way which by reason of the relocation of said section of highway are no longer within the boundaries of the new right of way and which are identified herein as Units "A", "B" and "D", are indicated on the attached Exhibit "A". The location of Units "A", "B" and "D" are more particularly described as follows:

Unit "A"

All of the right of way of the former Columbia River Highway beginning at a line extending at right angles to the center line at State Highway Engineer's Survey Station 31+80 of the relocated Columbia River Highway in the southeast quarter of the southeast quarter ($SE\frac{1}{4}$ $SE\frac{1}{4}$) of Section 18, Township 8 North, Range 6 West, W. M.; thence easterly via the former route of the Columbia River Highway to its inter-

section with the northerly boundary of the relocated Columbia River Highway and terminating opposite State Highway Engineer's Survey Station 41+30 of said relocated highway in the northwest quarter of the northwest quarter (NW¼ NW¼) of Section 20, Township 8 North, Range 6 West, W. M.

Unit "B"

All of the right of way of the former Columbia River Highway beginning at the northerly boundary opposite State Highway Engineer's Survey Station 44+20 of the relocated Columbia River Highway in the northwest quarter of the northwest quarter (NW¼ NW¼) of Section 20, Township 8 North, Range 6 West, W. M.; thence easterly via the former route of the Columbia River Highway to a line extending at right angles to the center line at State Highway Engineer's Survey Station 848+16.8 of the former route of the Columbia River Highway in the southeast quarter of the southwest quarter (SE¼ SW¼) of Section 17, Township 8 North, Range 6 West, W. M.

Unit "D"

All of the right of way of the former Columbia River Highway beginning at the intersection of said former Highway with the east boundary line of the Clifton County Road extended southerly in the southwest quarter of the southeast quarter (SW¼ SE¼) of Section 17, Township 8 North, Range 6 West, W. M.; thence easterly via the former route of the Columbia River Highway to the westerly boundary of Bradley State Park on the east line of the southwest quarter of the southwest quarter (SW¼ SW¼) of Section 16, Township 8 North, Range 6 West, W. M.

5. Said Units "A", "B" and "D" are no longer needed for the service of persons living thereon or for any community served thereby or for any right of way or other public purpose, and therefore they shall be and hereby are abandoned as part of the Columbia River Highway; and all right, title and interest which the State has in the rights of way of Units "A", "B" and "D" hereby passes to and vests in the owners of the abutting land.

6. The area indicated by a solid black line on the attached Exhibit "A" includes right of way acquired for the said relocated section of highway, parts or areas of the old right of way not now incorporated within the boundaries of the new right of way proper, and State park land. In connection with the area indicated by a solid black line, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way or other highway or public purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title to all

of the land or area indicated by the solid black line on the attached Exhibit "A" shall be retained and held by the State.*

7. This resolution shall be entered in the minutes and records of the Commission on this 18th day of January, 1955, as Abandonment & Retention Resolution File No. 266; and the Secretary is directed to mail a duly certified copy thereof to the County Court of Clatsop County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 266, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-3"

Minutes of January 18 and 19, 1955

R E SO L U T I O N

WHEREAS, the relocated Douglas County Line-Glasgow Section of the Oregon Coast Highway located in Coos County, the northerly terminus of which is at the Douglas County line on the said relocated section of highway and the southerly terminus of which is at Highway Engineer's Survey Station 228+26 on the said relocated section of highway, has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, portions of the former right of way are no longer needed for state highway purposes and may be eliminated from the boundaries of the said highway; and

WHEREAS, Coos County and the State Highway Commission entered into an agreement under date of March 10, 1953, relating to the disposition to be made of those portions of the former highway that may be eliminated, therein and hereinafter referred to as Unit "A", "B", "C" and "D"; and

WHEREAS, said agreement provided that after the aforesaid relocated section of the Oregon Coast Highway was completed and open to public travel the Commission would notify the County of such occurrence by letter and that, effective upon the date of said letter, the eliminated portions, therein and herein referred to as Units "A", "B" and "D" and the "Connecting Road" between Highway Engineer's Survey Station 28+00 on the relocated section of the Oregon Coast Highway and the Highway Engineer's Survey Station 6+50 on the former route of the Oregon Coast Highway would be abandoned as part of the Oregon Coast Highway and the State Highway System and would be maintained thereafter by Coos County as a county road under the jurisdiction and control of said county; and

WHEREAS, Coos County has been duly notified, by a letter dated October 11, 1954, and placed in the United States mail, that the relocated Douglas County Line-Glasgow Section of the Oregon Coast Highway in Coos County has been completed and open to public travel and that as of October 11, 1954, jurisdiction and control over said units became vested in said County; and

WHEREAS, the aforesaid agreement further provides that an eliminated portion therein and herein referred to as Unit "C" would be abandoned as part of the Oregon Coast Highway System; that said unit would revert to the owners of the abutting property; and

WHEREAS, it is the judgment of the Highway Commission that certain portions of the former right of way of the Oregon Coast Highway together with other real property acquired by the State for roadway right

EXHIBIT "G-3" (cont)

of way and other public purposes which is indicated by solid black marking on the map attached hereto marked Exhibit "A" and by this reference made a part hereof, is needed and valuable for right of way purposes and public use; and*

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of the said highway referred to herein and affected by reason of the said relocation;

NOW THEREFORE, based upon the power and authority vested in this Commission by the State of Oregon, BE IT AND IT HEREBY IS RESOLVED, as follows:

1. That the portions or units of the right of way, which by reason of the relocation of the Oregon Coast Highway are not within the boundaries of the new right of way, are identified and described, as follows:

Unit "A"

Beginning opposite Highway Engineer's Survey Station 249+60 of the relocated Oregon Coast Highway No. 9 in the southwest quarter of the southeast quarter (SW¼ SE¼) of Section 23, Township 23 South, Range 13 West, W. M.; thence southerly via the former route of the Oregon Coast Highway No. 9 to a point opposite Highway Engineer's Survey Station 172+55 of the relocated Oregon Coast Highway No. 9 in the southeast quarter of the northwest quarter (SE¼ NW¼) of Section 35, Township 23 South, Range 13 West, W. M.

Unit "B"

Beginning opposite Highway Engineer's Survey Station 136+80 of the relocated Oregon Coast Highway No. 9 in the southeast quarter of the southwest quarter (SE¼ SW¼) of Section 35, Township 23 South, Range 13 West, W.M.; thence southerly via the former route of the Oregon Coast Highway No. 9 to Highway Engineer's Survey Station 19+50 of the former route of the Oregon Coast Highway No. 9 in the northwest quarter of the northwest quarter (NW¼ NW¼) of Section 14, Township 24 South, Range 13 West, W.M.

Unit C"

Beginning at Highway Engineer's Survey Station 19+50 of the former route of the Oregon Coast Highway No. 9 in the northwest quarter of the northwest quarter (NW¼ NW¼) of Section 14, Township 24 South, Range 13 West, W.M.; thence southerly via the former route of the Oregon Coast Highway No. 9 to Highway Engineer's Survey Station 7+50 of the former route of the Oregon

EXHIBIT "G-3" (cont)

Coast Highway No. 9 in the southwest quarter of the northwest quarter (SW¼ NW¼) of Section 14, Township 24 South, Range 13 West, W.M.

Unit "D"

Beginning at Highway Engineer's Survey Station 7+50 of the former route of the Oregon Coast Highway No. 9 in the southwest quarter of the northwest quarter (SW¼ NW¼) of Section 14, Township 24 South, Range 13 West, W.M.; thence southerly via the former route of the Oregon Coast Highway No. 9 to a point opposite Highway Engineer's Survey Station 225+00 of the relocated Oregon Coast Highway No. 9 in the southwest quarter of the southwest quarter (SW¼ SW¼) of Section 35, Township 24 South, Range 13 West, W. M.

"Connecting Road"

That certain road connecting the relocated Douglas County Line-Glasgow Section of the Oregon Coast Highway with the right of way of the former Oregon Coast Highway from and opposite Highway Engineer's Survey Station 28+00 on the relocated Douglas County Line-Glasgow Section of the Oregon Coast Highway to and opposite Highway Engineer's Survey Station 6+50 on the former route of the Oregon Coast Highway located in the southwest quarter (SW¼) of the northwest quarter (NW¼) of Section 14, Township 24 South, Range 13 West, W. M., Coos County, Oregon

2. That pursuant to the agreement entered into with Coos County on March 10, 1953, Units "A", "B", "D" and the "Connecting Road" as afore described and shown on Exhibit "A" attached hereto, are hereby duly abandoned as part of the Oregon Coast Highway and the State Highway System, and the jurisdiction and control of such right of way is hereby transferred to Coos County, and all the right, title and interest which the State has in the right of way of Units "A", "B", "D", and the "Connecting Road" hereby passes to and vests in the said Coos County, effective as of the 11th day of October, 1954, and such right of way shall hereinafter be maintained by said Coos County as part of the county road system.

3. That pursuant to the agreement entered into with Coos County on March 10, 1953, Unit "C", as afore described and shown on Exhibit "A" attached hereto, because it is no longer needed for highway purposes or for the service of persons living thereon, or for any community served thereby, is hereby duly abandoned as part of the Oregon Coast Highway and the State Highway System and all of the right, title, and interest which the State has in the right of way of Unit "C" hereby passes to and vests in the abutting property owners according to law.

4. That the right of way of the relocated Douglas County Line-

EXHIBIT "G-3" (cont)

Glasgow Section of the Oregon Coast Highway and the right of way of the former Oregon Coast Highway, together with the real property acquired by the State for roadway right of way and other public purposes, which have not been duly abandoned herein and which are further indicated by solid black marking on Exhibit "A" attached hereto, is being retained and held by the State. *

5. That this Resolution No. 273, be entered in the minutes and records of the Oregon State Highway Commission as of the 18th day of January, 1955, and the secretary is ordered to mail a duly certified copy hereof to the County Court of Coos County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 273, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

24439

EXHIBIT "G-4"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, The Highway Commission has found it necessary and desirable to relocate the section of the Pacific Highway, State Primary Highway No. 1, known as the Blackwell Hill-Seven Oaks Section in Jackson County, the northwesterly terminus of which is at Highway Engineer's Station 232+50 on the relocated highway and the southeasterly terminus of which is at Highway Engineer's Station 466+00 on the relocated highway; and

WHEREAS, as a consequence of the relocation of said section of highway, a portion or unit of the old right of way has been eliminated from the boundaries of the relocated highway and is no longer needed for state highway purposes; and

WHEREAS, Jackson County and the Highway Commission entered into an agreement under date of October 30, 1953, relating to the disposition to be made of the eliminated portion or unit; and

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel the Commission would notify the County of same by letter and that, effective upon the date of said letter, the eliminated portion or unit, therein and herein referred to as Unit "A", would be abandoned as part of the said highway and would be maintained thereafter by Jackson County as a county road under the jurisdiction and control of said county; and

WHEREAS, Jackson County was duly notified by letter dated December 31, 1954, that the said section had been completed and opened to public travel and that as of December 31, 1954, jurisdiction and control over Unit "A" became vested in Jackson County; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the section of the Pacific Highway, State Primary Highway No. 1, located in Jackson County and known as the Blackwell Hill-Seven Oaks Section, the northwesterly terminus of which is at Highway Engineer's Station 232+50 on the relocated highway and the southeasterly terminus of which is at Highway Engineer's Station 466+00 on the relocated highway, was completed on December 20th, 1954.

EXHIBIT "G-4" (cont)

2. That the portion or unit of the old right of way which by reason of the relocation of the said highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "A" is shown colored in red on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof. The location of Unit "A" is more particularly described as follows: *

Unit "A"

Beginning at State Highway Engineer's Station 420+00 on the former route of the Pacific Highway in the southwest quarter of the southeast quarter (SW 1/4-SE 1/4) of Section 23, Township 36 South, Range 3 West, W.M.; thence easterly and southerly via the former route of the Pacific Highway to State Highway Engineer's Station 172+75 on the former route of the Pacific Highway in the northwest quarter of the southeast quarter (NW 1/4-SE 1/4 of Section 28, Township 36 South, Range 2 West, W.M.

3. That, pursuant to the aforesaid agreement, Unit "A" is hereby duly abandoned as a part of the Pacific Highway, State Primary Highway No. 1, effective as of December 31st, 1954, the date of said letter to Jackson County, and that all right, title and interest which the State had in the right of way of Unit "A" passed to and vested in the said County as of that date.

4. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

5. That the boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the State Highway Engineer or his authorized representative, and such boundary monuments shall thereafter be maintained in place.

6. That this resolution shall be entered in the minutes and records of the Commission on this 18th day of January, 1955, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Jackson County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the

original resolution on file in the office of the State Highway Commission Salem, being filed under File No. 282, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-5"

Minutes of January 18 and 19, 1955

R E S O L U T I O N

WHEREAS, the relocated Orr Corner-Monmouth Section of the Pacific Highway West in Polk County, the northerly terminus of which is at Highway Engineer's Survey Station 789+00 and the southerly terminus of which is at Highway Engineer's Survey Station 1037+60 on the relocated highway, has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section of said highway, a portion of the former right of way is no longer needed for State Highway purposes and may be eliminated from the State Highway System; and

WHEREAS, Polk County and the Highway Commission entered into an agreement under date of September 25, 1953, relating to the disposition to be madeof the portion that may be eliminated, therein and hereinafter referred to as Unit "A"; and

WHEREAS, said agreement provided that Unit "A" would be abandoned by the State Highway Commission as part of the Pacific Highway West and the State Highway System and would be maintained thereafter by said county as a county road under the jurisdiction and control of said county; and

WHEREAS, the Highway Commission by and through an authorized officer has, as provided in the aforesaid agreement, formally notified Polk County by letter dated October 26, 1954, that the aforesaid section has been completed and opened for public travel and that as of that date jurisdiction and control of said Unit "A" has passed to and become vested in Polk County; and

WHEREAS, it is the judgment and opinion of the Highway Commission that certain portions of the former right of way of the Orr Corner-Monmouth Section of the Pacific Highway West, together with other real property acquired by the State for roadway right of way and other public purposes, as is shown colored in green on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof, is needed and valuable for right of way purposes and public use; and *

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the right of way of said highway referred to herein as Unit "A" and affected by reason of the said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Highway Commission that:

EXHIBIT "G-5" (cont)

1. Unit "A" hereinbefore mentioned is identified and described as follows:

Unit "A"

All of the right of way of the former Orr Corner-Monmouth Section of the Pacific Highway West beginning at the westerly boundary of the relocated Orr Corner-Monmouth Section of the Pacific Highway West opposite Highway Engineer's Survey Station 792+50 of the relocated highway where said boundary intersects the right of way of the said former Orr Corner-Monmouth Section of the Pacific Highway in the northeast quarter (NE¼) of the northwest quarter (NW¼) of Section 6, Township 8 South, Range 4 West, W. M.; thence westerly and southerly via the former route of the said section of highway to the northerly city boundary of the city of Monmouth at Highway Engineer's Survey Station approximately 1006+00 in the southeast quarter (SE¼) of the southeast quarter (SE¼) of Section 24, Township 8 South, Range 5 West, W. M., Polk County, Oregon.

as is shown in red on Exhibit "A" attached hereto.*

2. Pursuant to the agreement entered into with Polk County on September 25, 1953, Unit "A" is hereby duly abandoned as part of the Pacific Highway West and the State Highway System, and the jurisdiction and control of said Unit is hereby transferred to Polk County, and all the right, title and interest which the State has in the right of way of Unit "A" hereby passes to and vests in the said Polk County, effective as of the 26th day of October, 1954, and shall hereafter be maintained by said county as a county road.

3. The right of way of the former and of the relocated Orr Corner-Monmouth Section of the Pacific Highway West, together with the real property acquired by the State for roadway right of way and other public purposes, shown colored in green on Exhibit "A" attached hereto, shall be retained and held by the State.*

4. This Resolution shall be entered in the minutes and records of the Highway Commission on the 18th day of January, 1955, as Resolution File No. 281; and the secretary is directed to mail a duly certified copy hereof to the County Court of Polk County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission Salem, being filed under File No. 281, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

21444

EXHIBIT "G-6"

Minutes of January 18. and 19, 1955

RESOLUTION

WHEREAS, the relocated Canyonville-O'Shea Creek Section of the Tiller Trail Secondary Highway in Douglas County, the westerly terminus of which is at Highway Engineer's Survey Station 0+40 and the easterly terminus of which is at Highway Engineer's Survey Station 42+00 on the relocated highway has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section of a portion of the former right of way is no longer needed for State Highway purposes and may be eliminated from the State Highway System; and

WHEREAS, Douglas County, the City of Canyonville and the Highway Commission entered into an agreement under date of December 11, 1953, relating to the disposition to be made of the portion that may be eliminated, therein and hereinafter referred to as Unit "A"; and

WHEREAS, said agreement provided that Unit "A" would be abandoned by the State Highway Commission as part of the Tiller Trail Secondary Highway and the State Highway System and would be maintained thereafter by the county as a county road until said Unit "A" could be transferred to the jurisdiction and control of the city of Canyonville and thereafter maintained as a city street under the jurisdiction and control of the said city of Canyonville; and

WHEREAS, the Highway Commission, by and through an authorized officer has, as provided in the aforesaid agreement, formally notified Douglas County and the city of Canyonville by letter dated October 21, 1954, that the aforesaid relocated section has been completed and opened for public travel and that as of that date jurisdiction and control of the said Unit "A" has passed to and become vested in Douglas County; and

WHEREAS, it is the judgment and opinion of the Highway Commission that certain portions of the former right of way of the Canyonville-O'Shea Creek Section of the Tiller Trail Secondary Highway, together with other real property acquired by the State for roadway right of way and other public purposes, as is shown colored in green on the map attached hereto marked Exhibit "A" and by this reference made a part hereof, is needed and valuable for right of way purposes and public use; and *

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the right of way of said former highway referred to herein as Unit "A" and affected by reason of the said relocation;

EXHIBIT "G-6" (cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Highway Commission that:

1. Unit "A" hereinbefore mentioned is identified and described as follows:

Unit "A"

All of the right of way of the former Canyonville-O'Shea Creek Section of the Tiller Trail Secondary Highway beginning at Highway Engineer's Survey Station 11+30 of the relocated Tiller Trail Secondary Highway in the southwest quarter (SW$\frac{1}{4}$) of the southeast quarter (SE$\frac{1}{4}$) of Section 27, Township 30 South, Range 5 West, W. M.; thence southerly via the former route of the Tiller Trail Secondary Highway to the easterly boundary opposite Highway Engineer's Survey Station 56+30 of the former route of the Pacific Highway in the northeast quarter (NE$\frac{1}{4}$) of the northwest quarter (NW$\frac{1}{4}$) of Section 34, Township 30 South, Range 5 West, W. M.

2. Pursuant to the agreement entered into with Douglas County on December 11, 1953, Unit "A" is hereby duly abandoned as part of the Tiller Trail Secondary Highway and the State Highway System, and the jurisdiction and control of the said Unit is hereby transferred to Douglas County and all the right, title and interest which the State has in the right of way of Unit "A" hereby passes to and vests in the said Douglas County, effective as of the 21st day of October, 1954, and shall hereafter be maintained by said County as a county road.

3. The right of way of the former and of the relocated Canyonville-O'Shea Creek Section of the Tiller Trail Secondary Highway, together with the real property acquired by the State for roadway right of way and other public purposes, shown colored in green on Exhibit "A" attached hereto, shall be retained and held by the State.*

4. This Resolution shall be entered in the minutes and records of the Highway Commission on the 18th day of January, 1955, as Resolution File No. 283; and the secretary is directed to mail a duly certified copy hereof to the County Court of Douglas County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 283, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-7"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, the Wilsonville-Hubbard State Highway was opened to public travel on the 15th day of December, 1954, and the Portland-Salem Expressway from the Wilsonville-Hubbard Highway to the Pacific Highway West was opened to public travel on the 15th day of December, 1954; and

WHEREAS, as a consequence of the construction of the said throughway, certain sections or units of the Beaverton-Aurora State Secondary Highway No. 141 have been eliminated and are no longer needed for state highway purposes; and

WHEREAS, Clackamas County and the State Highway Commission entered into an agreement on the 11th day of September, 1954, relating to the disposition to be made of the eliminated sections or units; and

WHEREAS, the said agreement provided that after the Wilsonville-Hubbard State Highway and the Portland-Salem Expressway from the Wilsonville-Hubbard Highway to the Pacific Highway West were opened to public travel, the eliminated sections or units therein, and herein referred to as Sections "A", "B" and "C", would be abandoned as part of the state highway system and would be maintained thereafter by said County as county roads under the jurisdiction and control of said County so long as needed or valuable for public use; and

WHEREAS, the aforementioned highways have been opened to public travel, and the jurisdiction and control of Sections "A", "B" and "C" have become vested in the said County; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the sections or units of the Beaverton-Aurora State Secondary Highway No. 141 affected by reason of the construction of said Portland-Salem Expressway;

NOW, THEREFORE, Be It and It Hereby is Resolved by this Commission, as follows:

1. That the sections or units of the Beaverton-Aurora State Secondary Highway No. 141, which, by reason of the construction of the Portland-Salem Expressway, are no longer required for state highway purposes, and which are identified herein as Sections "A", "B" and "C", as shown colored in red on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof, are described as follows: *

EXHIBIT "G-7" (cont)

Section "A"

From the intersection of the Beaverton-Aurora Highway with a Frontage Road at a point opposite to and easterly of Station 461 of the Portland-Salem Expressway, southerly to the intersection of the Beaverton-Aurora Highway with a Frontage Road at a point opposite to and easterly of Survey Station 524 of the Portland-Salem Expressway.

Section "B"

From the intersection of the Beaverton-Aurora Highway with a Frontage Road at a point opposite to and westerly of Survey Station 528 of the Portland-Salem Expressway, southerly to the intersection of the Beaverton-Aurora Highway with the westerly right of way boundary of the Portland-Salem Expressway opposite to and westerly of Survey Station 606 of the Portland-Salem Expressway.

Section "C"

From the intersection of the Beaverton-Aurora Highway with the easterly right of way boundary of the Portland-Salem Expressway opposite to and easterly of Survey Station 607 of the Portland-Salem Expressway, easterly and southerly of the Clackamas-Marion County line.

2. That pursuant to the aforesaid agreement, Sections "A", "B" and "C" are hereby duly abandoned as part of the Aurora State Secondary Highway No. 141, effective as of the 15th day of December, 1954, and that all right, title and interest which the State has in the right of way Sections "A", "B" and "C" hereby passes to and vests in the said County.

3. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said Portland-Salem Expressway, and includes some parts or areas of the Beaverton-Aurora State Secondary Highway No. 141 not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State.*

4. That this resolution was entered in the minutes and records of the Commission as of the 18th day of January, 1955, as Abandonment and Retention Resolution, File No. 293; and the Secretary is directed to mail a duly certified copy thereof to the County Court of Clackamas County.

EXHIBIT "G-7" (cont)

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 293, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-8"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, the Wilsonville-Hubbard State Highway and the Portland-Salem Expressway from the Wilsonville-Hubbard Highway to the Pacific Highway West have been open to public travel; and

WHEREAS, as a consequence of the completion and opening to public travel of said throughways certain sections or units of the Beaverton-Aurora State Secondary Highway No. 141 are no longer needed for state highway purposes and may be eliminated; and

WHEREAS, Marion County and the State Highway Commission entered into an agreement on the 17th day of April, 1936, relating to the disposition to be made of that certain section or unit hereinafter referred to as Unit "A" and described as follows:

UNIT "A"

Beginning at the Clackamas-Marion County line; thence Southerly via the existing Beaverton-Aurora Highway to an intersection with the Pacific Highway East, State Primary Highway 1E, in the City of Aurora; and

WHEREAS, the said agreement provided that after the highway presently referred to as the Wilsonville-Hubbard Highway, was open to public travel the section or unit herein referred to as Unit "A" would be abandoned as part of the state highway system and would be maintained thereafter by said county as a county road under the jurisdiction and control of said county so long as needed or available for public use; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the certain section or unit of the Beaverton-Aurora State Secondary Highway No. 141 herein referred to as Unit "A";

NOW, THEREFORE, based upon the power and authority vested in the Highway Commission by the State of Oregon, it is hereby resolved and ordered:

1. That the section or unit of the Beaverton-Aurora State Secondary Highway No. 141 and referred to and described herein as Unit "A" and shown colored in red on the map attached hereto, and which map is marked Exhibit "A" and made a part hereof by reference, is pursuant to the aforesaid agreement hereby duly abandoned as part of the Beaverton-Aurora State Secondary Highway No. 141 of the state highway system, and that all right, title and interest which the state has in the right of way of

EXHIBIT "G-8" (cont)

Unit "A" herein described, hereby passes to and vests in the said Marion County.*

2. That this resolution is entered into the minutes and records of the Commission on the 18th day of January, 1955, as Abandonment and Retention Resolution, File No. 296, and the secretary mail a duly certified copy thereof to the County Court of Marion County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 296, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-9"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, on November 13, 1940 the Highway Commission, by resolution, established and designated as Secondary State Highway No. 224 the following described property:

> Beginning at a point in the Pacific Highway approximately 1,130 feet southerly from the south end of the viaduct crossing over the Coos Bay Branch of the S.P.R.R. Co.; thence in a southerly direction to the extension of West 11th Street at a point approximately 1,000 feet westerly of the west city limits of Eugene and near the intersection of Hayes Street with the extension of West 11th Street, a distance of approximately 0.821 miles.

and

WHEREAS, said Secondary State Highway No. 224, known on the records of the State Highway Commission as West 7th Street-West 11th Street Secondary State Highway No. 224, was established for the purpose of connecting the Pacific Highway and the Eugene-Swisshome Secondary State Highway No. 220 now known as the Richardson-Eugene Secondary State Highway No. 220; and

WHEREAS, the State Highway Commission revised and improved its plans for the routing of State Highway traffic on the Pacific Highway and the Eugene-Swisshome Secondary State Highway No. 220, now known as the Richardson-Eugene Secondary State Highway No. 220, in the City of Eugene and by such revision and improvement made the construction of the West 7th Street-West 11th Street Secondary State Highway No. 224 unnecessary; and

WHEREAS, the State Highway Commission after due and careful consideration, based upon their knowledge of the needs of the traveling public in the State, are of the opinion that the West 7th Street-West 11th Street Secondary State Highway is not a necessary integral part of the State Highway system; and

WHEREAS, it is the purpose of the State Highway Commission to take official action and impress upon its records the disposition made of such Secondary State Highway.

NOW, THEREFORE, be it and it hereby is resolved by the Highway Commission, that

1. The West 7th Street-West 11th Street Secondary State Highway No. 224 and described as follows

EXHIBIT "G-9" (cont)

Beginning a t a point in the Pacific Highway approximately 1,130 feet southerly from the south end of the viaduct crossing over the Coos Bay Branch of the S.P.R.R. Co.; thence in a southerly direction to the extension of West 11th Street at a point approximately 1,000 feet westerly of the west city limits of Eugene and near the intersection of Hayes Street with the extension of West 11th Street, for a distance of approximately 0.821 miles,

is hereby eliminated and removed from the Secondary State Highway system.

2. The property acquired for the West 7th Street-West 11th Street Secondary State Highway No. 224, except for that portion that coincides with the Pacific Highway right of way, is not required, necessary or essential for right of way purposes; but such property is needed and valuable to the State Highway Commission and is therefore retained for future public use.

3. This resolution be entered in the minutes and records of the Highway Commission this 18th day of January, 1955, as Abandonment & Retention Resolution, File No. 298.

EXHIBIT "H-1"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: OREGON COAST HIGHWAY

Highway number 9 Route number US101

Location of Termini					Established Speed
M.P. 2.88	(south city limits of Astoria)	to M.P.	3.72	(0.51 mile south of the south end of the Youngs Bay Bridge)	35 M.P.H.
M.P. 3.72	(0.51 mile south of the south end of the Youngs Bay Bridge)	to M.P.	5.35	(150 feet south of the south end of the Lewis & Clark Bridge)	45 M.P.H.

EXHIBIT "H-1" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to the highway section described herein which is in conflict with the provisions of this order, particularly Speed Limit Resolution No. 15, approved by the State Highway Commission on October 21, 1947, establishing a 35-mile per hour speed zone on that section of the Oregon Coast Highway between M.P. 4.12 (0.12 miles north of Miles Crossing) and M.P. 5.64 (0.53 miles south of Lewis & Clark Bridge) hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 177 be entered in the minutes and records of the Commission as of the 18th day of January, 1955.

EXHIBIT "H-2"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: FARMINGTON SECONDARY HIGHWAY

Highway number 142 Route number

M.P. 5.26 (300 feet west of Hagg Road) to M.P. 7.33 (500 feet west of Kinnaman Road) 45 M.P.H.

EXCEPT THAT BETWEEN

M.P. 5.68 (500 feet west of Miller Hill Road) and M.P. 5.97 (100 feet east of S. W. 198th Avenue) the speed shall be 20 MILES PER HOUR during the hours of school crossings as per the provisions of Subsection 1.a. of ORS 483.104.

EXHIBIT "H-2" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 178 be entered in the minutes and records of the Commission as of the 18th day of January, 1955.

EXHIBIT "I-1"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, the State Highway Commission is authorized to acquire real property, or any interest therein, for highway and park purposes by donation, negotiation, agreement, or by the exercise of the right of eminent domain; and

WHEREAS, the Highway Commission has acquired numerous and diverse parcels of land, during past years to be used for said highway and park purposes; and

WHEREAS, said parcels of land have not always been segregated in the Commission's records as to which parcels are to be used for park purposes and which parcels are to be used for highway purposes; and

WHEREAS, the Highway Engineer and the Parks Superintendent have prepared maps which clearly outline the boundaries of said state parks;

NOW THEREFORE, BE IT AND IT HEREBY IS ORDERED AND RESOLVED by this Commission as follows:

1. That the parcels of land acquired by the Highway Commission for park and highway purposes under authority of the laws of Oregon be segregated as to which parcels or portions thereof are for park purposes and which are for highway purposes by establishing the boundaries of said state parks.

2. That the following is a complete list of all state parks, and the boundaries thereof are established in accordance with the attached sketch maps. Said maps shall be attached hereto, marked consecutively in numerical order beginning with "Exhibit 1", and by this reference incorporated herein and made a part hereto:

*FOOTNOTE

The map referred to as Exhibits 1 through 88 mentioned in the above resolution are on file in the office of the Secretary of the State Highway Commission, Salem.

EXHIBIT "I-2"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, the State Highway Commission under the provisions of ORS 366.345 has authority to acquire and develop scenic places or other objects of attraction of scenic value adjacent to, along or in close proximity to State highways, or which may be conveniently reached from or by a public highway, and which will contribute to the general welfare and pleasure of the motoring public or road used; and

WHEREAS, the State Highway Commission has acquired at many places land for highway right of way which is of sufficient width for the development of such scenic places. Such scenic places are usually designated as "Highway Waysides", however, some highway wayside areas from time to time have been called parks, or by other names; and

WHEREAS, it is desirable that all waysides be designated or named as such;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED BY THE COMMISSION AS FOLLOWS:

1. That the following parcels of land are designated and set apart as waysides and are named in the manner set forth below, with their respective boundaries being established in accordance with sketch maps, marked with a specific exhibit number opposite the name of each wayside, which maps are attached hereto marked "Exhibits Nos. 1 through 68", and by this reference made a part hereof, all of which is set forth below, to wit: *

Exhibit 1	Unity Forest Wayside
Exhibit 2	Washburne Wayside
Exhibit 3	Bradley Wayside
Exhibit 4	Gearhart Ocean Wayside
Exhibit 5	Sunset Highway Forest Wayside
Exhibit 6	Bandon Ocean Wayside
Exhibit 7	Barview Wayside
Exhibit 8	Conde B. McCullough Bridgehead and Wayside
Exhibit 9	Hoffman Memorial Wayside
Exhibit 10	Simpson Wayside
Exhibit 11	Ochoco Wayside
Exhibit 12	Battle Rock Wayside
Exhibit 13	Buena Vista Ocean Wayside

EXHIBIT "J-1"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized the Engineer to make a complete and final survey of the route and location of the Klamath Falls, West Side By-Pass Section of The Dalles-California Highway in Klamath County; and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Klamath Falls West Side By-Pass Section of the The Dalles-California Highway, beginning at Highway Engineer's Station 0+00 near the north corporate limits of the City of Klamath Falls and extending in a southerly direction therefrom to Highway Engineer's Station 138+00 near Link River in the southern part of the City of Klamath Falls, together with the map which for identification purposes bears Map File No. 1R-5-617 and the date, January, 1955, field notes and other engineering data submitted by the Engineer hereby are approved and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights-of-way pursuant to the normal and approved method.

EXHIBIT "J-1" (cont)

4. That heretofore by resolution of this Commission, dated November 3, 1948, said section of said highway was designated as a throughway within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law", and for the reasons stated therein, the above-named section of State highway should be declared a "Throughway", and it hereby is directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law, except that portion of said section which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said section of highway was designated as a "Throughway".

5. That this resolution be entered in the minutes and records of the Commission as of the 18th day of January, 1955, as Survey Resolution No. 113.

EXHIBIT "J-2"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized the Engineer to make complete and final surveys of the route and location of the Buell Slide Section of the Willamina-Salem Highway in Polk County; the Meacham-Hilgard Section of the Old Oregon Trail in Umatilla and Union Counties; the Wilderville-Grants Pass Section of the Redwood Highway in Josephine County; and the Hess Creek (Newberg) Section of the Pacific Highway West in Yamhill County, and in connection therewith to prepare maps showing the route and location of each of said sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed each of said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. a. That the survey of the Buell Slide Section of the Willamina-Salem Highway, beginning at Highway Engineer's Station 255+00, a short distance south of Mill Creek Bridge, and extending in a southerly and easterly direction approximately one mile to Highway Engineer's Station 315+00, near the top of Butler Hill, together with the map which for identification purposes bears Map File No. 1R-5-624 and the date, December, 1954, hereby is approved and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

b. That the survey of the Meacham-Hilgard Section of the Old Oregon Trail Highway, beginning at Highway Engineer's Station 902+00, about one and one-half mile southeast of Meacham, and extending in a southerly and easterly direction to Highway Engineer's Station 600+00 about one mile west of the community of Hilgard, together with the map which for identification purposes bears Map File No. 1R-5-630 and the date, January, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

c. That the survey of the Wilderville-Grants Pass Section of

the Redwood Highway, beginning at Highway Engineer's Station 418+50, approximately west of the Applegate River Bridge, and extending in an easterly direction to Highway Engineer's Station 841+50, at a junction with the Pacific Highway near Grants Pass, together with the map which for identification purposes bears Map File No. 1R-5-633 and the date of January, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

d. That the survey of the Hess Creek (Newberg) Section of the Pacific Highway West, beginning at Highway Engineer's Station 825+00, at the east city limits of the town of Newberg, and extending in a westerly direction a distance of 1629 feet to Highway Engineer's Station 841+29.2, a short distance west of Hess Creek in the town of Newberg, together with the map which for identification purposes bears Map File No. 1R-5-608 and the date, October, 1954, field notes, and other engineering data submitted by the Engineer hereby are approved and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right-of-Way Department to proceed promptly with the acquisition of rights-of-way pursuant to the normal and approved method.

4. That heretofore by resolution of this Commission, dated November 3, 1948, said sections of said highways were designated as throughways within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law", and for the reasons stated therein, each of the above-named sections of State highways should be declared a "Throughway", and it hereby is directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law, except that portion of each of said sections which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said section of highway was designated as a "Throughway".

5. That this resolution be entered in the minutes and records of the Commission as of the 18th day of January, 1955 as Survey Resolution No. 114.

EXHIBIT "J-3"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the route and location of the S. E. Flavel Street-Lake Road Section of the Cascade State Secondary Highway in Clackamas and Multnomah Counties, and the Reedville-Beaverton Section of the Tualatin Valley Highway in Washington County, and in connection therewith to prepare maps showing the route and location of said sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. (a) That the survey of the S.E. Flavel Street-Lake Road Section of the Cascade State Secondary Highway, beginning at Highway Engineer's Station 365+87.5 (S.E. Flavel Street, south limits of the City of Portland) and extending in a southerly direction to Highway Engineer's Station 468+50, which point is approximately one-quarter mile south of the Southern Pacific railroad track, north of the town of Clackamas, together with the map which for identification purposes bears Map File No. 1R-5-620 and the date December, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

(b) That the survey of the Reedville-Beaverton Section of the Tualatin Valley Highway, beginning at Highway Engineer's Station 199+74.23, about one-eighth mile west of the junction with the Beaverton-Hillsdale Highway, and extending in a westerly direction to Highway Engineer's Station 234+84.5 in the community of Reedville, together with the map which, for identification purposes, bears Map File No. 1R-5-621 and the date of December, 1954, field notes and other engineering data submitted by the Engineer hereby are approved and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

EXHIBIT "J-3" (cont)

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the 18th day of January, 1955, as Survey Resolution No. 115.

EXHIBIT "K"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, the Highway Commission is authorized and empowered by ORS 366.475 to compile and publish with respect to the public highways of the State and with respect to public parks, recreational grounds, scenic places and other public places and scenic areas or objects of interest, data as to distances, special and peculiar advantages, historical facts and other items or matters of interest, and assemble, compile and publish such other information with respect thereto as in the opinion of the Commission will be of interest and value to the general public and road users; and

WHEREAS, in the natural course of compiling and publishing such data it is of interest and value to the general public and road users to include various pictures, scenes and photgraphs which have been obtained for and by the Director of the Travel Information Division of the Oregon State Highway Department; and

WHEREAS, many of the pictures, scenes and photographs do not have identifiable human beings thereon and many other pictures, scenes and photographs do have identifiable human beings thereon; and

WHEREAS, various corporations, associations, individuals and other parties often desire to reprint, reproduce, republish or otherwise use such pictures, scenes and photographs and request authority of the Oregon State Highway Department to reprint or reproduce such pictures, scenes and photographs; and

WHEREAS, the Highway Commission is desirous of allowing original pictures, scenes and photographs obtained by employees of the Oregon State Highway Department to be reprinted or reproduced, provided no damage or harm will result therefrom to anyone and especially to the Highway Commission, its members, officers, agents and employees.

NOW, THEREFORE, BE IT AND IT HEREBY IS ORDERED AND RESOLVED by the Highway Commission that:

1. The Director of Travel Information of the Oregon State Highway Department is authorized and empowered to allow the reprinting, the publication, the reproduction or other use of any or all original pictures, scenes or photographs obtained by employees of the Oregon State Highway Department which do not have an identifiable human being thereon.

2. The Director of Travel Information of the Oregon State Highway Department is authorized and empowered to allow the reprinting, the publication, the reproduction or other use of any or all original pictures, scenes or photographs obtained by employees of the Oregon State Highway

EXHIBIT "K" (Cont)

Department which have an identifiable human being thereon, if in the discretion of the said Director the corporation, association, individual, or any other party is responsible and desires to use said pictures, scenes or photographs for a purpose meeting with the approval of said Director, provided there is in the files of the Oregon State Highway Department a release from the identifiable human being thereon and provided further that said Director authorizes the reprinting, reproduction, or republishing, or any other use of such pictures, scenes or photographs by an authorization explicitly setting forth the position of the Oregon State Highway Department, and the party so authorized to reprint, reproduce, republish or otherwise use such pictures, scenes or photographs assumes, by the reprinting, reproduction, republishing or other use of such pictures, scenes, or photographs, responsibility for all damages to any person resulting from such reprinting, reproduction, republishing or other use of such pictures, scenes or photographs.

3. The blank form of the authorization which the Director of the Travel Information Division, of the Oregon State Highway Department, shall properly fill in and execute shall be as follows:

AUTHORIZATION

The Oregon State Highway Commission in return for publicity value and other valuable consideration, including the promise of indemnity, on the part of, _____, as hereinafter set forth, hereby grants, insofar as it is authorized under the following release form, the right to use the pictures, scenes or photographs listed below in all editions whenever published of the book presently entitled, _____, edited by _____, such use to include only the reproduction of the pictures, scenes or photographs in the book named and in connection with the publicity and promotion of this title.

The credit line to be used is, "Photographs: OREGON STATE HIGHWAY COMMISSION".

The authority of the Oregon State Highway Commission to grant permission to use the photographs listed hereunder is founded upon, and the execution of this authorization on its behalf by the Director of the Travel Information Division constitutes affirmation by the Oregon State Highway Commission that it holds in its file, the following form of release from each person who appears in the listed pictures, excerpt:

> "In consideration of the promise of the State of Oregon, by and through its State Highway Commission, to deliver to me, free of cost, by mailing to the address below, prints of the black and white pictures taken of me, I do hereby give to the State Highway Commission, and those acting pursuant to its direction or authority, the unqualified right and permission to

EXHIBIT "K" (Cont)

reproduce, copyright, publish, circulate or otherwise use photographs, including motion pictures, taken of me in black and white or colors."

By the reprinting, reproduction, publication or other use of any of such pictures, scenes or photographs _____ agrees that it shall be responsible for all damages to any person resulting from the reprinting, reproduction, publication or other use of any of such pictures, scenes or photographs and shall hold harmless the State of Oregon, its State Highway Commission and members thereof, its officers, agents and employees against any and all claims, demands, damages, actions and costs of actions whatsoever, which they or any of them may sustain by reason of the reprinting, reproduction, publication or other use of any pictures, scenes or photographs listed hereunder.

RESOLUTION

WHEREAS, pursuant to ORS 366.205, the State Highway Commission has jurisdiction and control over all state parks; and

WHEREAS, pursuant to ORS 366.345 (2), the State Highway Commission may develop, construct, improve, operate and maintain park facilities in a manner as will best afford the motoring public necessary conveniences and accommodations; and

WHEREAS, pursuant to ORS 366.350, the State Highway Commission may make regulations and provisions for the use and administration of such facilities, including reasonable charges for the use of accommodations provided in such parks and areas; and

WHEREAS, for the purpose of maintaining and operating such accommodations for the benefit of the motoring public, it is the judgment of the Commission that reasonable charges should be made; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the rates and charges so set;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. That the Commission does hereby find and declare that the following charges are reasonable, such charges being necessary to defray the cost of special services and supplies furnished in connection with the use of accommodations in certain park facilities, to wit:

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, the State Highway Commission on the 23rd day of June, 1954, by resolution declared the necessity for the acquisition of certain real property owned by Ruby A. Bailey, et al., bearing file No. R-21896, and situated in Section 13 and Section 24, Township 36 South, Range 15 West, W.M., Curry County, Oregon, for right of way purposes for the relocation, construction, improvement and maintenance of the Euchre Creek-Wedderburn Section of the Oregon Coast Highway, including its use for the relocation, construction, improvement and maintenance of the Curry County Road known as the Wedderburn-Giesel Monument County Road; and

WHEREAS, the said resolution declared the necessity for the acquisition or extinguishment of all rights of access to a right of way of the said relocated Euchre Creek-Wedderburn Section of the relocated Oregon Coast Highway and all of the contiguous real property of the owners, except for two rights of access to the said relocated Oregon Coast Highway for the production and transportation to market of the farm products of the owners' remaining land, for the development, harvesting and transportation to market of forest products of the owners' remaining land, and for private residential purposes, and the reserving to the State of Oregon the right, at its option, to construct a frontage road; and

WHEREAS, the said State Highway Commission, after further investigation, has found that it will be to the best interests of the State and the owners to change the above-mentioned rights of access to the said relocated Oregon Coast Highway and to allow the owners additional access rights to the said relocated Oregon Coast Highway via the Wedderburn-Giesel Monument County Road;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That page 13, Exhibit A, of that certain resolution duly made and entered in full in the minutes and records of the Commission on the 23rd day of June, 1954, pertaining to the property owned by Ruby A. Bailey, et al., file No. R-21896, be and the same hereby is, amended to read as follows:

> Rights of access to the said relocated Oregon Coast Highway via the Wedderburn-Giesel Monument Curry County Road, which said Curry County Road will connect with the said relocated Oregon Coast Highway, on the easterly side thereof, opposite Highway Engineer's center line Station 1249+00.

EXHIBIT "M-1" (Cont)

2. That this amending resolution be entered in full in the minutes and records of the Commission this 18th day of January, 1955, as Condemnation Resolution No. 516.

EXHBIT "M-2"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right of interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Carlton Junction-Newberg Section of the Yamhill-Newberg Highway; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Carlton-Junction-Newberg Section of the Yamhill-Newberg Highway, certain interest in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "M-2" (Cont)

2. That the relocation, construction, improvement and maintenance of the said Carlton Junction-Newberg Section of the Yamhill-Newberg Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the lease private injury or damage

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 18th day of January, 1955, as Condemnation Resolution No. 529.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 529, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-3"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the State Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing of any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct, improve and maintain the Washburn-North Plains Section of the Wilson River Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the

EXHIBIT "M-3" (Cont)

owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction, improvement and maintenance of the said Washburn-North Plains Section of the Wilson River Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the establishment, construction, improvement and maintenance of the said Washburn-North Plains Section of the Wilson River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 18th day of January, 1955, as Condemnation Resolution No. 544.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 544, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-4"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites, or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to State highways; or for the maintenance of an unobstructed view of any State highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myrtle Creek-Canyonville Section of the Pacific Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the

owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final

determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon

6. That this resolution be entered in full in the minutes and records of the Commission this 18th day of January, 1955, as Condemnation Resolution No. 662.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 662, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-5"

Minutes of January 18 and 19, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Weston-Weston Mountain Section of the Weston-Elgin Highway; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Weston-Weston Mountain Section of the Weston-Elgin Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or the reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "M-5" (Cont)

2. That the relocation, construction, improvement and maintenance of the Weston-Weston Mountain Section of the Weston-Elgin Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 18th day of January, 1955, as Condemnation Resolution No. 663.

Portland, Oregon
March 2, 1955

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Ben R. Chandler, Chairman, was excused from attending this meeting.

At the request of Commissioner Reynolds, Mr. R. H. Baldock, State Highway Engineer, explained briefly two plans that are being considered by Congress to provide an increased amount of Federal Funds to assist the States in highway construction, one plan being embodied in the provisions of Senate Bill S-1048, known as the Gore Bill, and the other plan being covered by the provisions of Senate Bill S-1160, known as the Administration Bill. He gave as his feeling that Bill S-1160 is the better of the two because it provides more Federal funds and requires less State match funds. For instance, the Gore Bill provides $23,300,000 of Federal funds and requires $12,500,000 of State match funds per year while the Administration Bill provides $40,700,000 of Federal funds and requires only $7,000,000 of State match money per year. In addition the Administration Bill would reimburse the State for State funds, both bond and current funds, expended in the building of US99 and US30 to the high standards used, to approximately $50,000,000.

Bids for highway construction, as follows, were then opened and read aloud by the Secretary, who announced that the Commission would award contracts at 4:30 p.m. in the same room:

CLACKAMAS COUNTY
GRADING AND PAVING ROCK CREEK-DAMASCUS SECTION OF THE CLACKAMAS-BORING COUNTY ROAD

K. F. Jacobsen & Co., Inc., Portland	$148,125.00
Vernie Jarl, Gresham	153,905.50
Warren Northwest, Inc., Portland	155,845.50
Acme Construction Co., Eugene	163,710.00
Logan Taylor & Co., Portland	167,436.50

The Commission approved the minutes of the meeting held January 18 and 19, 1955.

The State Parks Superintendent, Mr. C. H. Armstrong, reported on the following matters:

1. Request of Mr. Leonard F. Van Leuven for permission to establish a novelty concession in a small state-owned building at Lava Caves State Park: The Parks Superintendent recalled that a concession was permitted in Lava Caves Park a number of years ago and

there was no objection to the operation. Mr. Van Leuven, he stated, plans to sell novelties constructed of juniper and other materials, also post cards, candy bars, gum, pop, et cetera, and has offered to pay as rental ten per cent of the proceeds. It was his thought that the concession would not be a detriment to the park and he recommended that Mr. Van Leuven be allowed to operate the concession during the 1955 season on the terms previously mentioned which will be covered in more detail by a formal agreement. The Commission accepted his recommendation.

2. Proposed state park at Susan Creek on the North Umpqua River, about 30 miles east of Roseburg in Douglas County: The Parks Superintendent stated that, in compliance with the Commission's instructions at the last meeting, he contacted members of the Douglas County Court concerning acquisition of this area and was advised by letter that the county-owned lands in that area would be made available. He pointed out that a considerable portion of the area needed for park purposes is O & C land owned by the federal government. Under provisions of a 1954 Federal law, the land cannot be purchased or leased but must be set aside for park purposes either under the Recreation Act or by Presidential Order, and application for the land has been filed with the Bureau of Land Management. Also, Douglas County has obtained use of some of the federal land under a Special Use Permit obtained prior to the passage of the 1954 Federal law, which the County will turn over to the State. He recommended that the area be acquired and formally designated as a state park. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein. The Commission also authorized an expenditure of $2,000 in the year 1955 for maintenance of the park.

3. Offer of Mrs. W. S. Sickels to sell to the State for park purposes 3.83 acres of land which lies within the boundaries of the City of Bandon: The Parks Superintendent reported that this land provides a beautiful overlook from which the beach and off-shore rocks may be viewed but is located approximately 1.5 miles north of the area recently purchased for state park purposes at Bandon Beach. The Sickels property, he stated, while desirable from the view standpoint, cannot be used to good advantage for any other purpose. He also said the asking price of $7,500, or approximately $2,000 per acre, is not out of line, but in his estimation, it would be of greater benefit to the public to develop the recently acquired area than to acquire an additional area. He recommended that the Sickels property not be purchased at this time. The Commission adopted the recommendation.

4. Request of State Representative Thomas R. McClellan for repairs to the Yaquina lighthouse building in order to retain its present appearance as an attraction to tourists in Yaquina Bay State Park. The Parks Superintendent recalled several requests from the Lincoln County Historical Society that the lighthouse building remain intact,

and that the Commission granted the Society until the end of the present legislative session to raise the necessary funds to provide for rehabilitation of the structure. Mr. McClellan, he stated, indicates that the majority of the people interested in retaining the building will be satisfied if the building is left in its natural state without rebuilding in any way that would require expenditure of a considerable amount of money.

With this procedure in mind, the Parks Superintendent stated that the cost of reroofing, replacing windows, and repairing the building sufficiently so that it will stand in its present condition, plus some landscaping, would be approximately $2,000. This expenditure, he pointed out, is merely to keep the building in a standing position and is based on the premise that people will not be allowed in the building. The expenditure of this money, he added, will keep the structure as a tourist attraction and will eliminate the danger to visitors as long as they are not allowed within the building. He recommended, therefore, that the improvements be made as outlined. The Commission accepted his recommendation.

5. Proposed easement covering diversion of water and a ditch across a small portion of the Idaho Methodist Conference property adjoining Wallowa Lake State Park: This easement, the Parks Superintendent explained, was obtained by the State Game Commission in the name of the Highway Commission to provide primarily a spawning ground for fish. The 1955 budget, he said, contains an item for diverting some water from the Wallowa River to the Wallowa Lake State Park, which involves diversion at two places, one a short distance south of the State property, and the other a short distance above the outlet on the State property. It was his thought that the diversion of the water will not only be an added attraction to tourists, but will also provide spawning grounds for fish. He recommended that the easement be approved so that work may be started. The Commission approved the recommendation.

6. Request of Depoe Bay Chamber of Commerce for installation of an information booth on the west side of the Oregon Coast Highway in Depoe Bay: The Parks Superintendent stated that the Chamber of Commerce wants to install a small booth, 4 feet x 4 feet, 16 feet north of the steps leading to the park area, to be used from Memorial Day through Labor Day. He gave as his opinion that the location of the booth will be objectionable from the standpoint of use of the area as a park and will detract from the scenic view; moreover, it could lead to demands for installation of other facilities. The Commission accepted his recommendation that the request be denied.

7. In discussing the development of state park property at Depoe Bay, Commissioner McIver brought up the matter of constructing a building on the Moore property at the outlet of the bay which would provide not only rest room facilities as requested by residents of Depoe Bay, but would also provide a view point to see the ocean and as a concession building to be operated in a manner similar to the one at Crown Point on the Columbia River Highway. The Chief Counsel commented that Mrs.

Moore, who owns the property referred to, has plans to construct a gift shop and restaurant on the property this coming summer, and has indicated that she does not wish to sell the land but will give the State an easement for the portion that she does not need in the development of her plans. The Engineer objected to the placing of State buildings on land which has not been acquired outright by the State. He suggested that a building to house toilet facilities be constructed at the location previously agreed upon as soon as the Depoe Bay people can furnish a proper agreement to provide for its maintenance. The Chief Counsel observed that to obtain the Moore property it will probably be necessary to condemn it, and he felt that the cost would be very high. As a result of the discussion, the Commission instructed the Right of Way Engineer to obtain appraisals on the Moore property and, if possible, to get Mrs. Moore's price for which she will sell it. The Commission stated a desire to inspect the location before taking final action.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway improvements and for other purposes. After careful consideration, the Commission approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer requested authority to negotiate the purchase of properties for which no specific authority previously has been granted, as follows:

COUNTY AND SECTION	FILE NO. AND NAME	PURPOSE	HIGHWAY
BAKER			
Huntington Section	22308- Mack	Cinder Pit	Old Oregon Trail
LANE			
	22508- Bryant	Right of Way	McKenzie

The Commission approved the request.

A report on miscellaneous properties sold since the last Commission meeting was also submitted by the Right of Way Engineer and accepted by the Commission. (For a list of the properties sold, see copy of the report prepared by Mr. C. W. Parker, Property Manager, dated March 2 and 3, 1955, filed in the Secretary's office under the heading "Miscellaneous Sales").

March 2, 1955

Changes in location of several access points heretofore authorized were presented by the Right of Way Engineer who explained that except for the Nellie Fromm and the Mark properties the changes are in location only, and in no case is additonal access being granted. Concerning the Nellie Fromm property and the Mark property, he said that the changes involve type of usage only in order to allow the Bonneville Power Administration to use the existing access in connection with the maintenance and operation of its power transmission line. The Commission approved changes in access on the following properties:

a. Smith property, File 19125, on the Medford County Farm Section of the Pacific Highway in Jackson County: Change in location only.

b. Nellie Fromm property, File 3257 and L-1968, on the Brush Creek-Rinehart Creek Section of the Oregon Coast Highway in Curry County: Change in use of access only.

c. Mark property, File 20202, on the Rinehart Creek-Frankport Unit of the Oregon Coast Highway in Curry County: Change in use of access only.

d. Moore property, File 21846, on the Sherman Junction-Willowdale Section of The Dalles-California Highway in Wasco County: Change in location only.

e. Thomas property, File 18332, on the Medford County Farm Section of the Pacific Highway in Jackson County: Change in location only.

f. Zell property, File 19736, on the Onion Flat-Middleton Unit of the Tigard-Newberg Section of the Pacific Highway West in Washington County: Change in location only.

Consideration was given to an option secured from R. H. Gollihur for property on the Sylvan Section of the Sunset Highway in Multnomah County The Right of Way Engineer recommended that this option in the amount of $10,746 be rejected as it is entirely too high. The Commission rejected the option.

Consideration was given to an easement obtained from the Southern Pacific Company which would allow the State Highway Commission to construct a dike on railroad property on the Goshen-Divide Section of the Pacific Highway in Lane County. Based on the Right of Way Engineer's favorable recommendation, the Commission approved the easement.

In connection with the project for the Hess Creek Fill on US99W in Newberg, the Right of Way Engineer requested authority to pay $500 to the Spaulding Pulp and Paper Company for approximately 65,000 cu. yds. of borrow material to be removed from the Company's property and used

in the Hess Creek Fill Project. The Commission approved the payment.

The matter of reconveying a parcel of property to Albert Johnson on the Tigard-Newberg Section of US99W in Washington County was considered. The Right of Way Engineer explained that due to a change in design of the highway, it is not necessary to secure anyof the property from Mr. Johnson as was originally contemplated. The original transaction, he stated, has not been completed and no consideration has been paid to Mr. Johnson. He recommended that the property acquired from Mr. Johnson and not needed for highway purposes be reconveyed to him by quitclaim deed. The Commission approved the recommendation.

The Right of Way Engineer requested permission to sell by public auction portions of Lots 2 and 3 of Block 9 in the original townsite of Florence on the Oregon Coast Highway. This property, he stated, no longer is required for highway purposes and he recommended that it be sold for a price not less than $2,000 and without access to the Oregon Coast Highway. The Commission approved the sale by adopting the attached resolution relative thereto, marked EXHIBIT "B-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a claim filed by Mr. M. T. Wymore for damages to his home which was moved to accommodate construction of the Portland-Salem Expressway. The Right of Way Engineer advised that Mr. Wymore, whose property lies on the Gervais-Hayesville Section was requested by the State to move his house. The moving was done under Mr. Wymore's direction, and Mr. Wymore released his moving contractor; however, later the house settled badly on its new foundation, and Mr. Wymore is now asking payment of $500 as damages. He recommended payment of the claim in such amount. The Commission approved the payment.

Sale of 1.456 acres of land located on the Powell Butte Secondary Highway in Crook County to Mr. and Mrs. L. W. Whitsett was discussed. The Right of Way Engineer explained that when the property was purchased for a quarry site there was some misunderstanding as to just where the property line was located, and it later developed that the description included some level land under irrigation which was not considered in the negotiations. The State paid for the property at the rate of approximately $50 per acre. The Right of Way Engineer recommended that the property be sold back to the original owners for the sum of $60. The Commission approved the recommendation.

The Right of Way Engineer requested confirmation of a sale by public auction of 0.74 acre of excess right of way located on the Chrome-Coquille Section of the Oregon Coast Highway in Coos County. He commented that the State purchased the land at the rate of $150 per acre whereas this sale is at the rate of approximately $700 per acre. He recommended that the property be sold to the high bidder, Vera Shaw, at her offer of $525, with complete restriction of access to the highway.

The Commission confirmed the sale.

Consideration was given to a request from the City of Portland that the Highway Commission consent to vacation of portions of N. E. 49th Avenue, N. E. 52nd Avenue, and N. E. Oregon Street, and convey to the City a strip of land for street purposes that connects N. E. Oregon Street with N. E. 49th Avenue. The Right of Way Engineer explained that the reason for this vacation is to remove from the City street system that portion that will be closed by the new right of way of the Union Pacific Railroad along T. H. Banfield Expressway. The Commission deferred action on this matter because some of the property is involved in condemnation proceedings which should be resolved before action is taken.

Also considered by the Commission was a request from the City of Portland for the vacation of a portion of 91st Avenue and N. E. Wasco Street that lies within the area of the Union Pacific's new team track site which was moved on account of construction on the T. H. Banfield Expressway, and a request that the Commission deed to the City a strip of land connecting N. E. 91st Avenue with N. E. Halsey Street to replace the area vacated. The Commission approved both requests.

The Right of Way Engineer reported that the State Industrial Accident Commission inspected the electrical wiring in the State owned Howard Cooper Building in Portland and found that it had not beeninstalled in compliance with the wiring code of the City of Portland in that no provision has been made for adequate grounding of outlets used for portable electrical tools. An investigation, he said, indicates that it will cost approximately $200 to take care of the 70 outlets,and he recommended that the Commission grant authority to perform the work at a cost not to exceed such sum. The Commission accepted the recommendation.

The Commission considered a form of agreement with the City of Newberg concerning construction of the Hess Creek-Newberg Section of the Pacific Highway West in Newberg. It was pointed out that the agreement provides that the City of Newberg shall convey to the State right of way necessary for this project, and in return the State shall contribute a maximum sum of $7,946.50 toward the cost to relocate a city water main which lies underneath the new fill, and shall perform other items of construction and landscaping. The Commission approved the agreement upon recommendation of the Engineer.

The Commission discussed the matter of reconveying to J. D. and Christine W. Douglas, 9.85 acres of land included in a gravel bar on the Sams Valley Secondary Highway that was acquired from them in 1948 as a source of gravel. The Right of Way Engineer pointed out that the option provided that if and when the State no longer needed the property it would be deeded back to the grantors; also, that it provided that the State would construct and maintain a revetment along the river frontage until such time as the property reverts to the grantors. The property, he said, no longer is of value to the State, and he suggested that it be reconveyed to the former owners at this time in order to relieve the State from its obligation with res-

pect to the revetment. The Commission adopted the suggestion and ordered the property deeded back to the Douglases for a consideration of $1.00.

Upon the Right of Way Engineer's favorable recommendation, the Commission granted to Mr. John G. Bolter the right to operate his farm equipment across the Sherman Junction-Willowdale Section of The Dalles-California Highway at Station 419+00, said crossing being beneath a bridge structure that the Highway Department is now constructing at this point.

Consideration was given to the sale of a stand of timber on highway right of way that was acquired for a proposed extension of the Little Butte Secondary Highway in Jackson County, particularly in the South half of the Southwest quarter of Sec. 34, T. 36 S., R. 3 East, W.M. The Right of Way Engineer advised that the stand consists of 103.5 MFBM of Douglas Fir, Yellow Pine, and Incense Cedar, and that cruisers feel that the timber is worth a minimum price of $1,068.50. He requested permission to offer the timber for sale by oral bidding for a minimum price of $1,068.50. He also commented that the timber outside the right of way is being logged at the present time by a private operator. The Commission authorized the sale as requested.

The matter of closing an option obtained from Walter E. Mack in the amount of $2,500 for property needed for the Winchester-Garden Valley Road Section of the Pacific Highway in Douglas County was discussed by the Commission. The Right of Way Engineer gave as his opinion that the price of $2,500 is entirely out of line and that the property is not worth more than $800. He recommended rejection of the option. The Commission adopted the recommendation.

The Commission discussed and approved a lease agreement with Ernest and Mary Fernau whereby the Fernaus lease from the State certain motel and restaurant property owned by the State at Jefferson Junction on the Pacific Highway East, south of Salem. The lease begins on February 1, 1955, on a nonrevocable basis, but after January 31, 1956 is revocable by either party upon giving 90 days' notice. The consideration involved is $150 per month during the time that the lease is in effect.

The Commission considered and approved two permits from the Bonneville Power Administration whereby the State is allowed to use portions of the Power Administration right of way for highway construction; one concerns the Pendleton-Deadman's Pass Section of the Old Oregon Trail and the other the Clatskanie-Delena Section of the Columbia River Highway.

The Commission discussed a request from Fred Meyer, Inc. for a change in access control on T. H. Banfield Expressway at the intersection of N. E. Halsey Street and N. E. 99th Avenue, Portland. It appears that presently a right of way fence is being constructed along the south side of the off-ramp from the expressway to N. E. Halsey Street at 99th Avenue, and it is contemplated to continue the fence to a point where the west line of 99th Avenue intersects the south line of Halsey Street which will require

traffic from the ramp to enter Halsey Street before turning into 99th Avenue enroute to the shopping center that is being constructed by Fred Meyer Company on the east side of 99th Avenue just south of Halsey Street. In his request Mr. Meyer points out that Multnomah County owns a triangular parcel of ground at the southwest corner of this intersection which was conveyed to the County by Gill Brothers Seed Company in order to provide a roadway for traffic from the ramp to enter 99th Avenue without encroaching on Halsey Street. He asks that the right of way fence be constructed along the south line of this triangular tract so traffic from the ramp can enter 99th Avenue without interfering with Halsey Street traffic. The Engineer exhibited a map showing the intersection and the triangular tract referred to by Mr. Meyer, and he recommended approval of Mr. Meyer's request on the condition that no access of any kind to Banfield Expressway and its connections across the triangular tract shall be allowed. The Commission adopted the recommendation and so ordered.

Consideration was given to a form of agreement with the Bureau of Public Roads in which the State agrees to pay the cost of borrow materials and gravel surfacing materials needed on the Deception Creek-Oakridge Section of the Willamette Highway in Lane County. The Right of Way Engineer explained that this is a Forest Highway Project being constructed by the Bureau of Public Roads using Forest Highway Funds; further, that in removing the materials, the Bureau of Public Roads' contractor inadvertently took about 35,000 cubic yards from private property thinking it was government owned land. In the past, he said it has been the practice to acquire sources of construction materials for the Bureau when privately owned land is involved and he recommended that the same procedure be followed in this instance. He gave as his feeling that it may cost the State about 10 cents per cubic yard for the material taken. The Commission approved the agreement, and ordered that settlement with the owner be negotiated on the best possible terms.

The Right of Way Engineer brought up for discussion the procedure to be followed in securing independent appraisals of property being acquired for highway and other purposes. He pointed out that it has been the practice, based upon instructions issued several years ago, to secure one independent appraisal of property that is valued between $10,000 and $20,000, and two appraisals of property that is valued above $20,000. Cost of such appraisals, he said, has been approximately one per cent of the cost of the property. He mentioned that independent appraisals in the past have been very valuable in condemnation cases, as it seems that juries place considerable confidence in values determined by disinterested parties. The Commission affirmed its approval of the procedure now being followed.

Commissioner Reynolds inquired as to how much money has been invested in right of way for uncontracted projects. The Right of Way Engineer was instructed to check the records and render a report at the next meeting.

The Commission discussed with the Engineer and the Right of Way

Engineer the status of construction projects for which bids are to be received at the April contract letting, particularly whether or not award of any of the projects will be delayed by lack of right of way. The Right of Way Engineer advised that right of way for projects that are now being considered for advertising will be clear.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties which are needed as right of way in connection with various highway improvements or for other highway purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Buell Slide Unit, Buell-Salt Creek Section of the Willamina-Salem Highway

R 22672- Oscar Parker and Charles Parker
Right of Way (Polk)
0.82 acre

Sylvan Section of the Sunset Highway

R 20607- Aloysius Raab
Right of Way (Multnomah)
967 square feet

R 20651- Anna Aglesheimer
Right of Way (Multnomah)
255 square feet

R 20866- Anna Kelly Algesheimer and Mary Kelly Ross
Right of Way (Multnomah)
50 square feet

R 22183- R. H. Gollihur
Right of Way (Multnomah)
1771 square feet

Hess Creek-Newberg Unit, Middleton-Newberg Section of the Pacific Highway West

R 1864- Howard Bennett
Yamhill
Parcel No. 1: 4155 square feet for right of way
Parcel No. 2: 100 square feet for easement to construct fill

R 22470- Roy L. Hembree
Right of Way (Yamhill)
230 square feet

Hess Creek-Newberg Unit, Middleton-Newberg Section of the Pacific Highway West (cont)

R 22471- Paul D. Dent, Roy L. Hembree, Ernest Smith and Carl S. Calef
Right of Way (Yamhill)
680 square feet

R 22472- Paul D. Dent
Right of Way (Yamhill)
5100 square feet

R 22474- Florence K. Newlin
Right of Way (Yamhill)
3473 square feet

R 22475- William M. Kletzer
Right of Way (Yamhill)
3220 square feet

R 22476- Carl Willard Carlson
Right of Way (Yamhill)
3645 square feet

R 22477- Thomas D. Yarnes
Right of Way (Yamhill)
3254 square feet

R 22478- Annette Godwin
Right of Way (Yamhill)
3270 square feet

Greggs Creek-Wedderburn Section of the Oregon Coast Highway

R 22952- S. O. Newhouse
Drainage easement (Curry)
0.006 acre

Euchre Creek-Wedderburn Section of the Oregon Coast Highway

L 2322- Kate L. Bailey, et al.

Tualatin River-Middleton Section of the Pacific Highway West

L 2350- Clark L. Johnston, et al.

L 2351- Agnes M. Hite, et al.

March 2, 1955

The Commission approved the request by adopting the attached resolutions relative thereto, marked EXHIBITS "H-1" through H-5 ", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and approved the Chief Counsel's written report of cases which have been tried in court by his staff since the January meeting of the Commission, as follows:

1. State vs. Tom Wymore, et al., L-2145 (R-20906), for 0.38 acre needed as right of way for the Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway. The State offered to pay $950 for this property, which offer the defendants rejected and demanded the sum of $6,800, later reduced to $5,500. The jury returned a verdict in the sum of $4,500 plus attorneys' fees in the amount of $1,000.

2. State vs. Margaret M. Parson, L-2048 (R-19821), for 4.52 acresneeded as right of way for the Washburn-North Plains Section of the Wilson River Highway in Washington County. An offer was made for this property in the sum of $8,700 which was refused, the defendants demanding the sum of $41,000, later reduced to $24,900. The jury returned a verdict in the sum of $8,000.

3. State vs. Arthur R. Wecks, et al., L-2182 (R-21569), for 13.10 acres needed as right of way for the Shady Point-Booth Ranch Section of the Pacific Highway in Douglas County. The sum of $3,500 was offered for this property and rejected by the defendants who demanded the sum of $8,000. The jury returned a verdict in the amount of $5,500.

4. State vs. James Arthur Lyons, Jr., et al., L-1996 (R-15871), for approximately one acre required for right of way on Unit No. 2 of the T. H. Banfield Expressway in Portland, plus 640 square feet for an easement. The State offered to pay $52,500 for this property, which offer the defendants refused, demanding the sum of $85,000. The jury returned a verdict in the amount of $48,100.

5. Peninsula Drainage District No. 2 vs. City of Portland and State of Oregon, L-1851, to foreclose Drainage District assessments on property located near the intersection of Union Avenue and Denver Avenue in the City of Portland. The Drainage District assessments were made while United States was owner of the property for a period of about three years. Subsequently the United States conveyed approximately 95 acres to the City of Portland and approximately 25 acres to the State of Oregon. Suit was to determine whether or not the Drainage District may lawfully levy assessments against property owned by the United States. On January 19, 1955, the court handed down its decree in favor of the defendants, holding that the purported Drainage District assessments by the plaintiff against the property owned by the State and the City of Portland are void and of no force and effect.

6. State vs. E. J. Munson, et al., L-2294, for the purpose of collecting from the defendant the sum of $928.50 due on a contract for the sale of timber in the Van Duzer Corridor in Tillamook and Lincoln Counties. The defendants failed to appear in the case and the court granted a default judgment in favor of the State for the amount claimed by the State.

7. State vs. State Construction Company, et al., L-1744, to recover from the defendants the sum of $8,634.95, being the amount of the bid bond given by the State Construction Company with its bid for construction of the piers for the Marion Street Bridge in the City of Salem. Case was first tried on May 26, 1952, resulting in a judgment in favor of the defendants. An appeal to the Supreme Court was made and a decision rendered on February 23, 1955 reaffirming the verdict of the lower court.

(For details in these cases, see copy of the Chief Counsel's letter to the Commission, dated February 24, 1955, in the General Files).

The Commission also considered and accepted the Chief Counsel's report on court cases which have been settled by his office since the Commission meeting held January 18 and 19, 1955, as follows:

1. State vs. Katie A. Burrows, et al., L-2224 (R-21230), for 0.38 acre required as right of way for the Goshen-Divide Section of the Pacific Highway in Lane County. The State offered to pay $2,575 for this property, including a barn, upon the condition that the defendants establish ownership of the barn. The defendants rejected the offer, demanding the sum of $10,000. It was subsequently determined that the defendants did not own the barn, and the State's offer was reduced to $1,350. Negotiations resulted in a settlement for $1,750 and the State to execute a quitclaim deed releasing any interest in an easement across this property to a nearby County road.

2. State vs. Kenneth Walton, et al., L-2096 (R-20587), for 0.055 acre for widening Cornelius Road in connection with construction of the Goshen-Divide Section of the Pacific Highway in Lane County. An offer was made for this property in the amount of $120. The defendants demanded the sum of $1,700 plus $750 attorneys' fees. Further negotiations resulted in a settlement for the sum of $300.

3. State vs. Gold-Ray Realty Co., et al., L-2120 (R-20801), for 22.64 acres needed as right of way for the Blackwell Hill-Medford Section of the Pacific Highway in Jackson County and 0.42 acre right of way for construction of a frontage road. An offer in the amount of $20,916 was made and was rejected by the defendants, who demanded the sum of $37,500 plus $3,750 as attorneys' fees. Subsequent to the filing of the claim and the offer made by the State, it was decided that fencing would be constructed by and at the expense of the State. It was necessary,

therefore, to deduct the sum of $2,180 from the amount originally offered by the State. A settlement was finally negotiated for $22,500.

4. State vs. Robert M. Knox, et ux., L-2325 (R-21505, R-21899), for 38.61 acres needed as right of way for the Euchre Creek-Wedderburn Section of the Oregon Coast Highway in Curry County. The State offered to pay $31,872 for this property, which offer the defendants rejected and demanded the sum of $40,000. At the Commission meeting December 7 and 8, 1954, a traffic interchange between the Oregon Coast Highway and the Wedderburn Giesel Monument County Road was approved at the location of and in lieu of the originally proposed underpass which would not have provided access to the relocated highway. The property was reappraised on the basis of the traffic interchange and an offer was authorized in the amount of $23,000. Subsequent negotiations effected a settlement for the sum of $23,000, plus performance of certain minor construction items.

5. State vs. Elmer F. Gaska, et al., L-2298 (R-21541), for 0.22 acre needed as right of way for the Lana Avenue-Hayesville School Section of the Pacific Highway East in Marion County. An offer was made in the amount of $4,000 for this property, which offer was rejected by the defendants who demanded the sum of $12,050. Subsequent negotiations resulted in the settlement of the case for the sum of $4,750, the defendants to be granted two accesses, 30 feet in width, on the easterly side of the highway.

(For further details concerning these settlements, see copy of the Chief Counsel's letters to the Commission, dated February 25 and February 28, 1955 in General Files.)

The Chief Counsel reported that in compliance with a resolution adopted by the Commission on December 20, 1951, he made offers for the acquisition of real property, which offers were tendered prior to the institution of condemnation proceedings, as follows:

Carlton Junction-Newberg Section of the Yamhill-Newberg Highway:

R-22411-Owner: Kenneth M. Branchflower, et al. 2.552 acres for right of way. Offer of $4,570 approved by Mr. Reynolds on February 15, 1955.

R-22414-Owner: Wesley I. Crow, et ux. 0.44 acre for right of way. Offer of $2,242 approved by Mr. Reynolds on February 15, 1955.

Clatskanie-Delena Section of the Columbia River Highway:

R-22645-Owner: Ola F. Pratt, et ux. 0.6 acre for a haul road to and from a material site. Offer of $150 approved by Mr. McIver on February 7, 1955.

The Commission approved the offers as presented.

March 2, 1955

The Commission confirmed approval previously granted the Chief Counsel to attend meeting of the National Committee on Urban Transportation in Chicago, on February 18, 1955, it being the Commission's understanding that the State will not be asked to pay the expense involved.

The Chief Counsel reported settlement of the State's claim against Morrison-Kiewit-Macco Company for damage that resulted from the contractors depositing of waste materials on the Willamette Highway at Eagle Point near Meridian Dam. The surety for the contractors, he stated, has paid the full amount of the claim which was $13,009, but demanded a full and complete release from further liability for all damage resulting from past and future slides. The Commission accepted the report.

A report was also submitted by the Chief Counsel concerning the case of State vs. Rushlight's, Inc., L-2112, being a condemnation action instituted for the acquisition of 26,158 square feet of real property to be exchanged with the Union Pacific Railroad Company for right of way needed for Unit No. 3 of the T. H. Banfield Expressway in Portland. The verdict in the case, he stated, was $7,100, which was unsatisfactory to the defendants who filed motion for a new trial. Motion for a new trial was argued on October 13, 1954, and on February 4, 1955 the court granted a new trial in the case but no date has yet been set for the retrial.

The Chief Counsel's report also covered the case of the State vs. Philip S. Holt, et ux., L-2091, which is a condemnation action to acquire 1.26 acres of land as right of way for the Goshen-Divide Section of the Pacific Highway in Lane County. The State in this instance, he said, offered an amount of $956 for the property which the defendants refused. The jury returned a verdict in the amount of $700. Motion was filed by the defendant for a new trial which was overruled by the court. However, on January 24, 1955, the defendants filed a notice of appeal, alleging erroneous rulings by the court. Appropriate action, he stated, is being taken with respect to the appeal. The reports were accepted by the Commission.

The Chief Counsel also reported on court actions which have been instituted against the State Highway Commission, as follows:

1. Case of Fred Wilson (Pop) Green, et ux., vs. State in which the plaintiff seeks to recover $2,500 damages caused by a change of grade on "B" Street in the City of Canyonville. This property, the Chief Counsel stated, is located at the intersection of the Tiller-Trail Highway and "B" Street in Canyonville. The grade of the reconstructed highway, he stated, is substantially higher than the grade of the existing highway, so it was necessary to raise the grade of "B" Street. He added that an investigation is being made to determine the action that should be taken.

2. Case of C. J. Eldon vs. State of Oregon, in which Eldon seeks to recover additional compensation in the amount of approximately $7,700 in connection with the contract awarded to him for construction of the St. Joseph Undercrossing Unit of the Lafayette-North Yamhill

River Section of the Pacific Highway West in Yamhill County. Mr. Eldon, he stated, contends that he is entitled to compensation for 695.4 cubic yards of excavation at $12 per cubic yard whereas the Engineer states that he is entitled to pay for only 48.5 cubic yards. He added that Mr. Eldon has instituted suit to force revision of the Engineer's estimate and that appropriate action will be taken to defend the State. The Commission accepted the report.

The Chief Counsel reported on the case of George W. Read vs. the State of Oregon. It appears that Mr. Read seeks to collect the sum of $656 by reason of an option that was accepted by the Highway Commission for real property located on the Medford-County Farm Section of the Pacific Highway in Jackson County. The Chief Counsel explained that this is a complicated transaction involving a release from the property owner and rights of a leaseholder, and, although it may be that the State is obligated to pay someone for the property rights, it has not yet been determined definitely to whom such payments should be made. Appropriate action, he stated, will be taken with regard to this action. The Commission accepted his report.

The Commission also considered a report submitted by the Chief Counsel concerning the case of State vs. J. A. Gallagher, et al., (L-1992), for right of way needed for the North Corvallis Section of the Pacific Highway West in Benton County. The Chief Counsel recalled that the jury in this case returned a verdict in the amount of $2,000 which was $150 less than the offer made by the State. He pointed out that according to the statutes the State in cases of this kind is entitled to recover its necessary disbursements from the defendants so a cost bill was submitted in behalf of the State in the amount of $78.44, but the court sustained the motion of the defendants to strike the State's cost bill. He recommended that the ruling of the court not be appealed. The Commission accepted the report and the recommendation.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m., with the same persons present and participating.

The Engineer reported that under authority granted by law and pursuant to instructions from the Commission, he has awarded to the successful bidders contracts which were referred to him by the Commission to award when certain conditions had been satisfied, as follows.

1. Grading and paving on West Unit, Weston-Weston Mountain Section of Weston-Elgin Highway, Umatilla County. Bids received December 7, 1954. Conditions of award satisfied January 20, 1955. Rogers Construction, Inc., Portland, contractor.

2. Construction of McDowell Creek Bridge over McDowell Creek on County Road No. 1286, Linn County. Bids received January 19, 1955. Conditions of award satisfied January 24, 1955. Lind & Marr, Beaverton, contractor.

3. Grading and stone surfacing the South Unit, Hayden Bridge-Donna Section of Eugene-Marcola Road, Lane County. Bids received January 19, 1955. Conditions of award satisfied January 26, 1955. Allum Bros., Eugene, contractor.

4. Grading and paving on St. Helens Paper Company-Mildreds Corner Section of Kaster and Old Portland Roads, Columbia County. Bids received January 19, 1955. Conditions of award satisfied January 31, 1955. Parker-Schram Company, Portland, contractor.

The Commission accepted his report.

A report was submitted by the Engineer concerning requests from the West Coast Telephone Company that the State pay the cost of second and third moves of pole line facilities due to highway construction, and that the State consider the placement of utility poles at a greater distance inside the State's right of way than is now allowed. The Engineer stated that a careful investigation had been made of these requests and, that in the case of additional moves of telephone lines, it was found that this occurred to the facilities of the West Coast Telephone Company in only two instances - one at Greenacres Point on the Bunker Hill-Delmar Section, and the other on the Reedsport-Elbow Lake project on the Oregon Coast Highway in Douglas County. In both instances, he said, it was necessary to move the pole lines the second and third times because of slides occurring in highway construction. It was his thought that if public utilities wish to enjoy the benefits of being located on highway right of way they should likewise suffer the risks involved.

Concerning the placing of poles inside the right of way line, he pointed out that it has been standard practice for many years to require poles to be placed one foot inside the right of way line because if they are placed nearer the highway center line, in many cases, they would seriously handicap maintenance operations. However, deviations from the one foot ruling have been permitted where circumstances warrant, and when such deviation has been recommended by the Division Engineer. He commented that no particular trouble had been incurred with any of the other utility companies. He recommended that no reimbursements be made for moving the pole lines; also, that the general policy of placing pole lines one foot from the right of way line be maintained except where there are extenuating circumstances. The Commission accepted both recommendations.

In compliance with instructions given at a previous Commission meeting, the Engineer reported that he has completed a reconnaissance survey of the Boulder Gorge Section of the Sumpter Valley Highway. This section, he stated, is narrow and is suitable for one-way traffic only; also, that it is approximately one-half mile long and can be improved to a modern two-way highway at a cost of approximately $48,000, using a crushed gravel surface. Commissioner Reynolds commented that improvement of

this section has been deferred in the past due to the possibility of the section being inundated by construction of a dam. However, it now appears that the dam may not be built for many years. The Commission authorized the Engineer to conduct a location survey of the section to determine accurately the cost involved to improve it.

The Commission considered and accepted a report submitted by the Engineer showing statistics taken from the weighmaster records for a three-month period from October through December for the years 1950 to 1954, inclusive. The Engineer pointed out a slight increase in the percentage of violations of log haulers since 1952; also, an increase in violations for the haulers of commodities other than logs. These increases, he stated, correspond very closely to the decrease in the amount of fines assessed per violation.

The Engineer reported that under authority previously granted him by the Commission, he has approved reclassification of the following highway sections from Group II status to Group I status:

(1) Oregon Caves Highway from the junction with the Redwood Highway at M.P. 0.00 to the junction with the Holland Loop Road at M.P. 6.16. (2.) Halsey-Sweet Home Secondary Highway from the junction with the Pacific Highway East at M.P. 0.00 to the junction with the South Santiam Highway at Sweet Home at M.P. 21.51. These changes, he stated, were based upon test runs which proved that equipment having an overall length of 60 feet could travel the sections without encroaching upon the opposing traffic lane. The report was accepted by the Commission.

The Engineer also reported that he has ordered lifted the reduced load limits heretofore in effect on the Wapinitia Highway between M.P. 28 and M.P. 40, effective 8:00 a.m., January 31, 1955. The Commission accepted the report.

The Engineer also reported the posting of the following highway sections for reduced loads:

(1) Crane-Scotts Butte Secondary Highway between M.P. 28.0 and M.P. 40.5, effective 8:00 a.m., February 17, 1955. (2.) Medical Springs Secondary Highway between M.P. 0.05 at Union, and M.P. 20.35 at Medical Springs, effective 8:00 a.m. on February 19, 1955.

The Commission approved such postings.

Consideration was given to the cancellation of a lease with Roy W. Colpitts, for the removal of gravel from a bar in Bear Creek on the Pacific Highway about three miles north of Central Point in Jackson County. The Engineer explained that the lease was obtained in 1948 for a consideration of five cents per cubic yard for material taken, and expires on May 6, 1958. During the past seven years, he said, no material has been taken from the bar. The State owns two other bars in the vicinity on which it is

not necessary to pay a royalty, in view of which he recommended that the Colpitts lease be cancelled. The Commission approved cancellation of the lease.

Consideration was given to a report submitted by the Engineer concerning a request from Clackamas County Court for installation of a stop light on the Pacific Highway East at its junction with River Road, a short distance south of the City of Milwaukie. The Engineer advised that an extensive study and analysis of this intersection has been made which revealed that corrective measures should be taken which would provide for a new entrance to the state highway, the setting up of a one-way street couplet, and the widening of the highway to provide an additional traffic lane for cars that enter the highway at this point. He estimated the cost of the work involved at about $16,000 and he advised that the plan has been approved by the Clackamas County Court which has indicated that the County will take care of Seventh Avenue as a part of the one-way street couplet and will place such directional signs as are required. It was his opinion that this improvement will prove satisfactory; however, if it does not, then a traffic light can be installed later. He recommended that the work be authorized as outlined, and financed with funds from the unobligated state highway balance in the 1955 budget if and when the County Court signs an appropriate agreement covering details including County participation in the project. The Commission accepted the recommendation.

Commissioner Reynolds inquired if any physical check is made on equipment purported to be in the hands of new contractors as stated in their prequalification statements. It was explained that, although a physical check is not always made, new contractors are often required to submit additional evidence that they have proper equipment or have made arrangements to secure such equipment before they are given bidding forms; also, that in every instance the contractors financial and equipment statements are carefully evaluated so as to make certain,so far as is possible, that the forms are given only to those contractors who are considered responsible and able to do the work for which plans are requested.

Attention was given to the matter of acquiring the Corvallis Lumber Mill property in South Corvallis for right of way for future location of US99W along First Street in Corvallis. The Engineer reported that, as previously instructed, he had made an investigation of the circumstances relating to the improvement on First Street in Corvallis for which the mill property would be required. The mill, he stated, has now ceased to operate and the property is for sale for the sum of $125,000 which is considered a fair price by highway department appraisers. He further stated that information has been received to the effect that the City of Corvallis expects to be required to pay one-third of the cost of the property, the State to pay the balance. On the basis of the actual taking, he said, the state highway will occupy only about one-third of the area to be acquired, so on that basis the State should contribute only one-third of the cost and the City the balance, the portion not used as right of way to be conveyed to the City for park purposes. He suggested that the State go fifty-fifty with the City of Corvallis in acquiring the property while it is for sale, with no

commitment as to when the highway will be built along First Street. As a result of discussion, the Commission authorized negotiations for acquisition of the mill property on the basis that the State and the City will each pay one-half. The Commission ordered that the City be contacted relative to such arrangement, and, if satisfactory, then independent appraisals of the property are to be obtained. The final arrangement is to be covered by written agreement between the City and the State. The Commission made it clear that no commitment, whatsoever, is to be made as to when the highway will be constructed along the First Street route. (Mr. James O. Conville, City Manager of Corvallis, was present during the noon recess and discussed the subject with the Commission. The Commission's requirements were explained to him at that time and the Engineer was instructed to ascertain the lowest price the Company will take for its property and to report back at the next meeting through the Right of Way Department.

The Engineer reported on a request made by a Jackson County delegation at the January Commission meeting, that the East and West Diamond Lake Secondary Highways be kept open for year-around travel. He advised that this would involve about 42 miles of highway, which in past years have not been kept open during the winter season because of the expense of snow removal operations; also, that to plow snow and sand the road surface during the six winter months would require construction of a maintenance station near the junction of the East and West Diamond Lake Highways, the purchase of two additional rotary snow plows, one heavy plow and truck, one small truck and other small equipment at a total cost of approximately $140,000. The annual cost of operation, he said, would amount to approximately $60,500 per year not including the additional cost of maintaining the highway surface by reason of its being in use twelve months yearly which, he estimated, would be about $84,000 annually. As the average daily traffic over this route is only about 30 vehicles, and because of the added expense, he recommended that the request for year-around maintenance be denied. The Commission adopted the recommendation and so ordered.

In connection with this matter, Commissioner Reynolds commented that he had heard remarks that those highways which are allowed to close with snow during the winter are not opened in the spring until pressure from the fishermen demands it. The Engineer explained that it is not economically feasible to open the snow-filled passes much sooner than June 1, which date varies with seasons and depth of snowfall. He gave as his feeling that it is purely a coincidence that the date of opening occurs near the time of the opening of the fishing season in the high mountain country.

Consideration was given by the Commission to adoption of two resolutions authorizing pay roll deductions to pay premiums for California-Western States Group Life Insurance and Oregon Physicians' Service Medical and Hospital Insurance furnished highway department employees who are members of the Oregon State Employees Association. The Engineer explained that both resolutions were prepared in conformity with the Commission's wishes as previously expressed, and that permission to make

such pay roll deductions is contingent upon the California-Western States Insurance Company and the Oregon Physicians' Service keeping in full force and effect agreements with the Commission that are satisfactory to the Commission and are available to all highway employees, whether members or nonmembers of the Association. The Engineer and the Chief Counsel recommended that the resolutions be adopted. The Commission accepted the recommendations and thereupon adopted the resolutions as attached hereto, marked EXHIBITS "C-1" and "C-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Commissioner Reynolds also commented that the Commission has made no change in its thinking in that no employee of the highway department shall be required to join the Oregon State Employees Association in order to obtain the benefits of any insurance contract, life or medical, that has been approved by the Highway Commission.

The Commission considered a number of claims submitted by 13 residents of the City of Tillamook whose properties were damaged by smoke and dust from a State paving plant operation. The Engineer reported that paving crew No. 1 on July 22, 1954, had moved into a location which had been used annually for the past twenty years, and that on August 2, complaints were received from several residents of the area that their properties were being damaged by smoke and dust from the operation. Efforts to correct the condition, he said, were unsuccessful, so on August 5 the plant was moved to another location. Sometime later, 13 claims were submitted for a total of $1,052.66, which total was later reduced to $836.70 as a result of negotiations by the Maintenance Superintendent. He recommended payment of the 13 claims, totaling $836.70. The Commission approved the payment and instructed the Engineer hereafter to take all possible precautions to prevent recurrence of a similar situation.

The Engineer reported on a request from the City of Wheeler for widening of the Oregon Coast Highway and construction of curbs thereon through the City. He said that an investigation reveals that the improvement requested is about 3,000 feet long, and that it will cost about $25,000 to perform the work. He also said that there is no particular congestion of traffic at the present time and that the improvement to full street width would be mainly for the benefit of the City. He pointed out that the ultimate route of US101 when constructed from Manzanita south to a point near Brighton will by-pass the town of Wheeler. On the basis of these findings he recommended that the request be denied. The Commission adopted the recommendation.

The Engineer reported the results of receiving bids in Salem on February 21 for the sale of used equipment and scrap materials located at Salem, Siskiyou and Nyssa. He pointed out that the total amount of high bids received was $17,918.42 compared with the estimated value for the same items of $13,443. It was his recommendation that all of the items be sold to the high bidder in each instance, except Items 2, 11, 13, 17, 18, 20, 21, and 24, the offers for which in his opinion are too low and should be rejected. The Commission approved the recommendation and so ordered.

(For details see tabulation of bids filed in the office of the Secretary under File No. 474, "Miscellaneous Proposals".)

A request was considered from Lane County School District No. 112 for improvements to the Alsea-Deadwood Secondary Highway in Lane County to facilitate school bus operations. They urged widening in several dangerous places and elimination of some narrow, blind curves. The Engineer reported that during the past few years a number of requests for improvement of this road have been investigated and that cost estimates have been prepared for various types of improvement, ranging from the barest minimum for constructing turnouts to widening of the highway to a minimum standard required for county roads on the Federal Secondary System. The estimates, he said, vary according to type of improvement and range from $90,000 to $750,000 for the entire 20-mile section. He pointed out that the U. S. Forest Service is now constructing an alternate route up Green Creek which will be completed in about three years. He recommended that nothing be done at this time to improve the present road but that arrangements be made to exchange the old road with the County and to take over the new forest road when the latter is completed. The Commission accepted the recommendation.

Attention was given by the Commission to claims submitted by Consumers Cooperative Association, and by the Lincoln County Public Utilities District, whose properties were damaged as the result of a dynamite blast that was set off by a highway maintenance crew in connection with some minor betterment work in which it was engaged on the Siuslaw Highway near Swisshome on January 5, 1955. Also considered were the claims of 88 employees of the Cooperative Association, presented through their Attorneys, Babcock, Russell and McGeorge, Portland, for loss of wages resulting from the accident. The Engineer explained details with respect to the accident and advised that the claim submitted by the Cooperative Association is in the amount of $30,702.11, that of the Utility District is for the sum of $7,071.19, and that the claims of the employees totals $11,175.30 and represents loss of $7\frac{1}{2}$ working days for each employee while the mill was out of service. It appears that a powder-man, who was supposed to be an expert in the handling of dynamite, was engaged especially to handle the powder work on this job, and that he so loaded the holes that a large quantity of rock was blown across the highway onto private property, causing considerable damage. The Engineer further reported that the Cooperative Association and the Utilities District, having claims totaling approximately $38,000, plan to request the Legislature to enact legislation to pay the claims, while the mill employees have already secured the introduction of legislation to pay lost wages totaling about $11,000. The Chief Counsel advised that, while the Highway Commission has the power to pay damage claims of not to exceed $500 each, he did not think the present statutes would support payments to the mill employees because in this State, and in other States, the statutes confine such payments to damage to property and injury to persons, whereas loss of wages is a highly speculative matter and might logically lead to other speculative claims. It was, therefore, his recommendation that support be given to legislation for the payment of damage to property but not for

loss of wages. There was no injury to persons. In this, the Engineer concurred.

The Commission gave attention to the following items of unfinished business as they appear on the Secretary's summary, dated January 19, 1955:

1. Request of West Coast Telephone Company that the State pay the cost of second, third and additional moves of phone line facilities due to highway construction: The Commission ordered this item deleted from the list of unfinished business inasmuch as action had been taken earlier in the day.

2. Request of Clackamas County Court, et al., for installation of a stop light on the Pacific Highway East at its junction with River Road, a short distance south of Milwaukie: As the Engineer had submitted a report earlier on this matter, the item was ordered deleted from the list of unfinished business.

3. Proposed acquisition of property at Susan Creek on the North Umpqua Highway for state park purposes: The Parks Superintendent reported on this matter earlier in the day so the Commission ordered the item removed from the list of unfinished business.

4. Proposed acquisition of the Corvallis Lumber Mill property for future location of US99W along First Street in Corvallis: The Commission ordered this item deleted from the list of unfinished business as a report was submitted by the Engineer earlier in the day.

5. Request of Wheeler City Council for curb construction and full width pavement on US101 through the City: This item was ordered deleted as a report was submitted earlier in the session.

6. Request of Depoe Bay Chamber of Commerce for construction of public rest rooms on state property in Depoe Bay: This item was considered earlier at this meeting and it was ordered removed from the list of unfinished business.

7. Request of Oregon State Employees Association that pay roll deductions be authorized to pay premiums for Oregon Physicians' Service medical and hospital coverage and for California-Western States group life insurance, and that they be restricted to Oregon State Employees Association members: This item was previously considered, hence was ordered removed from the list of unfinished business.

8. Request of a delegation from Baker County for improvements

to the Baker-Homestead Highway, the Sumpter Valley Secondary Highway, and the Haines-Anthony Secondary Highway: This item was also ordered deleted from the list of unfinished business as consideration had been given to it earlier in the day.

9. Proposed construction of Clay Street interchange in the City of Portland: The Engineer stated that he hoped to have his report on this subject ready for the Commission meeting in May. This item is to remain on the list of unfinished business.

10. Request of Lane County School District No. 112 for improvement to the Alsea-Deadwood Secondary Highway in Lane County: This item was considered by the Commission earlier in this meeting and was ordered deleted from the list of unfinished business.

Attention was given by the Commission to a protest submitted by residents of the town of Ukiah against the by-passing of their town by the new secondary highway being constructed between Starkey and Ukiah. The Engineer reported that careful consideration was given to utilization of the present route through Ukiah and an alternate route that would by-pass the town, and it was found that the route through the town of Ukiah, 4.22 miles long, would cost $249,650, whereas the by-pass route which is one-fourth mile shorter would cost $238,400. He recommended adoption of the shorter and cheaper by-pass line. The Commission deferred action pending appearance of a delegation from Ukiah on the following day. (The delegation appeared as scheduled, and suggested a compromise route. The Engineer was instructed to investigate it personally.)

A request was considered from Ross Congleton, Chairman of the Prineville City Police Committee, for installation of flashing beacons on Third Street (US26) in the vicinity of the Prineville City Schools. The Engineer advised that an investigation revealed that school patrols are maintained at the Locust Street and Fairview Street intersections to safeguard children, and that vehicular volume on US26 is too low to warrant installation of a school crossing signal; moreover, the highway is now posted for a 25-mile per hour speed limit. He gave as his opinion that flashing beacons will be of no benefit. In view of the low traffic volume and the favorable accident record, he recommended that the request for flashing beacons be denied. The recommendation was accepted by the Commission.

Consideration was given to a resolution from the City of Eagle Point requesting installation of a "stop-and-go" traffic signal at the intersection of North "C" Street (route of Little Butte State Secondary Highway) and Main Street, in the City of Eagle Point. The Engineer stated that a traffic engineering investigation revealed that the volume of traffic that enters this intersection does not meet or even closely approach the minimum warrant necessary for signalization. He recommended that the request be denied. The Commission adopted the recommendation.

A request from Mrs. Tom Robnett, Safety Chairman, Jackson County Parent Teachers Association Council, Medford, for installation of traffic signals at the intersections of the Medford-Provolt Highway with Lozier Lane and with the Oak Grove Road, for protection of school children, was considered by the Commission. The Engineer advised that the request was carefully investigated and it was found that the low traffic volume does not warrant installation of signals. A review of the records, he said, discloses no pedestrian accidents at either intersection during the period from January 1, 1949 to October 31, 1954. In view of the circumstances, he recommended that the request be denied. The recommendation was adopted by the Commission.

In this connection, Commissioner Reynolds questioned the necessity for the Commission to pass on requests for signals when such requests are made by individuals who do not represent recognized organizations. The Engineer was instructed to give the matter some thought and to recommend a procedure at the next meeting.

The Engineer reported receipt of a request from the U.S. Army Engineers that the State maintain a revetment in the Santiam River at Miller Bend, immediately upstream from the highway bridge on US99E. He estimated the cost of work required now at between $1,500 and $2,000. He recalled that in 1948 the State entered into an agreement with the Army Engineers covering construction of revetments at Bannick Bend and Miller Bend, whereby the State agreed to contribute not to exceed $30,000 for construction, but specifically denied any liability or responsibility for maintenance of the projects. It was his opinion that the maintenance work is not the responsibility of the State and he recommended that the request be denied. The Commission accepted the recommendation and so ordered.

Cooperation with Southern Pacific Company in the cost to install a flashing light signal at the Derry grade crossing of the Southern Pacific Railroad on the Salem-Willamina Highway, about one-half mile east of Rickreall, was discussed. The Engineer advised that two separate accidents recently occurred at this crossing, both within a period of 48 hours, with one fatality resulting from each accident. Investigation, he said, revealed that the existing wigwag signal is not adequate because it is visible under certain conditions only from one side of the railroad track. He recalled that the Commission, in a telephone discussion of the subject, orally approved the installation on a 50/50 basis with the Railroad Company, and he asked the Commission to confirm the authority at this time for the record. He recalled that the State's share of the expense involved is estimated at $3,500. The Commission confirmed the oral authorization and also approved an agreement with the Southern Pacific Railroad Company, covering details, which was presented.

The Commission discussed a request from Mr. Charles R. Newman, Yamhill County Commissioner, for improvement of the Pacific Highway West through the town of Whiteson. The Engineer recalled previous requests for this improvement which includes elimination of a reverse curve and a dip in the highway grade. A somewhat hazardous condition does exist

at this place, he said, by reason of the curve and the dip, and an investigation reveals that the solution is reconstruction of the highway on new alignment, which is estimated to cost $135,000. He estimated the cost to widen the present roadway on existing alignment as is now requested, at $6,000, but he recommended against such project because the money would be entirely lost when the highway is improved on proper alignment in the not too distant future. The Commission adopted the recommendation.

The Engineer requested authority for an expenditure of $15,000 to construct a frontage road as part consideration for right of way acquired across the Seufert property adjacent to the Columbia River Highway, near its junction with The Dalles-California Highway in Wasco County. He explained that provision was made for construction of a frontage road in order to control access to the highway and it is now necessary to construct it. The Commission granted the request.

The Engineer reported an error in the total summarization of Federal-aid secondary funds allocated to Division No. 5 for the federal fiscal year 1957 as approved by the Commission at the meeting held on January 18-19. He called attention to five projects listed in the program for Division No. 5, all of which he said, are correct insofar as the amount for each is concerned, but the total should have been $710,000 rather than $610,000 as shown in the program, accordingly, Division No. 5 has been overprogrammed by $100,000. The five projects, he said, are needed now and it does not seem advisable to delete any of them. He recommended that the program be undertaken as listed, the extra amount needed to finance it to be obtained from the unprogrammed federal secondary balances that probably will accrue during the year, and that proper adjustment be made to take care of Division allocations when the program for 1958 Federal-aid secondary funds is arranged. The Commission approved the procedure as outlined by the Engineer.

Authority was requested by the Engineer to transfer an allocation of $25,000 heretofore set up to finance fence construction on The Dalles-California Highway between Lapine and the Diamond Lake Junction, to a fencing project on the Central Oregon Highway between Horse Ridge and Burns. From information now available, he said, there appears to be some question as to the justification of the fence between Lapine and Diamond Lake Junction as there is no loose stock in this vicinity; also, it appears that the fence is undesirable from the standpoint of the U. S. Forest Supervisor who has pointed out that it might result in trapping deer between the right of way fences. He added that the hazard caused by stock running at large along the Central Oregon Highway east of Horse Ridge is material, and he recommended that the funds be transferred to the place where it is most needed. The transfer was approved by the Commission.

The Commission considered and upon recommendation of the Engineer approved requests from Polk, Benton, Douglas, Umatilla, Josephine, Jefferson, Hood River, Deschutes, and Lincoln Counties for additions to the Federal-aid Secondary(County Road)System as follows:

FAS 193 (Route Revision), Polk and Benton Counties-Adds 1.08 miles.

Polk County has requested that the route of FAS 193 from a road junction approximately two miles south of Independence to a road junction approximately 0.5 mile south of the Polk-Benton County line be revised to follow the Buena Vista Road.

FAS 244 (Extension), Douglas County-3.37 miles.

This proposed extension would carry FAS 244 from the City of Riddle easterly to a junction with the Pacific Highway near the South Umpqua River.

FAS 467 (Extension), Umatilla County-2.33 miles.

The proposed extension of FAS 467 would extend the northern terminus of this route from a road junction near Stanton northerly to a road junction at Van Sycle, thus providing more complete service to the wheat and pea farming area north of Helix.

FAS 594, Josephine County- 11.8 miles.

Proposed FAS 594, known as the Galice County Road, extends from existing FAS 265 near Merlin westerly along the Rogue River to Galice.

FAS 660, Jefferson County-0.94 mile.

Proposed FAS 660 extends from the existing county FAS 548 easterly to the Culver State Highway.

FAS 661, Hood River County-1.6 miles.

Proposed FAS 661, known as the Straight County Road, extends from the Odell State Highway near Odell southerly for a distance of 1.6 miles to the Mt. Hood State Highway.

FAS 662, Hood River County-4.6 miles.

Proposed FAS 662, known as the Trout Creek Ridge Road, extends from the Hood River State Highway at Trout Creek southerly and easterly to the Hood River State Highway at Parkdale, a distance of 4.6 miles.

FAS 663, Hood River County-2.7 miles

Proposed FAS 663, known as the Belmont and Brookside County Roads, extends from the Hood River State Highway at Hood River, westerly and southerly to the Hood River State Highway at Windmaster Corner.

FAS 664, Deschutes County-1.5 miles.

March 2, 1955

Deschutes County requests an extension of Federal-aid Secondary Highway No. 658 for a distance of 1.5 miles to be known as FAS 664, in order to provide a connection with The Dalles-California Highway.

FAS 584, Lincoln County-10.4 miles.

Lincoln County requests an extension of 10.4 miles on Federal-aid Secondary Highway No. 584 in order to provide a connection between the Cities of Elk City and Toledo, particularly to finance construction of a bridge across the Yaquina River at Toledo.

The Engineer presented for consideration a number of additional 1956 and 1957 Federal-aid Secondary County Road projects, totaling $921,000. He advised that there still remains an unprogrammed balance of $2,133,000 of 1955, 1956, and 1957 County Federal-aid Secondary funds available to finance the improvements. He presented a list of the proposed projects, as follows, and recommended their approval:

County	FAS Hwy. No.	Section and Description	Programmed Amount	FAS FUND
		Projects Proposed January 10, 1955		
Douglas	244	Yokum Bridge Section, 0.4 mile. Grade, surface and structure.	$200,000	'55 & '56
Hood River	661	Odell Junction-Dukes Valley Junction, 1.6 miles. Grade, surface, and oil.	$ 50,000	'56
Jefferson	547) 548) 660)	Metolius-Culver, 10 miles Oil Mat.	$ 69,000	'55
Josephine	594	Hells Gate Bridge-Brockman Gulch, 3.5 miles. Grading.	$132,000	'56
Polk	193	Luckiamute River Section Grade, surface, oil & structure	$126,000	'57
TOTAL Projects Proposed 1/10/55			$577,000	

(continued on following page)

County	FAS Hwy. No.	Section and Description	Programmed Amount	FAS FUND
		Projects Proposed February 15, 1955		
Clatsop	608	Miles Crossing-Rieth Road, 1.5 miles. Pave.	$ 50,000	'56
Lincoln	584	Yaquina River Bridge (Toledo). Structure only.	$154,000	'55 '56 '57
Umatilla	467	Van Sycle-Helix, 7.5 miles. Surface and oil.	$140,000	'55 '56
TOTAL Projects Proposed 2/15/55			$344,000	
TOTAL All Projects			$921,000	

SUMMARY BY FISCAL YEARS:

	1955	1956	1957	Total
Available 8/1/54	$393,000	$3,100,000	$3,100,000	$6,593,000
Previously Approved	250,000	2,048,000	1,241,000	3,539,000
Unprogrammed Balance	$143,000	$1,052,000	$1,859,000	$3,054,000
Proposed Projects 1/10/55	90,000	361,000	126,000	577,000
Balance	$ 53,000	$ 691,000	$1,733,000	$2,477,000
Proposed Projects 2/15/55	21,000	250,000	73,000	344,000
Unprogrammed Balance	$ 32,000	$ 441,000	$1,660,000	$2,133,000

The Commission approved the projects as recommended.

Authority was requested by the Engineer to place asphaltic tile on the floor of the multilith room in the basement of the State Highway Building, in Salem, used by the Secretary's office, and to place like tile on the floor of the Building Superintendent's office in this basement. He estimated the cost involved for tiling both rooms at $390. The Commission approved the expenditure.

The Engineer requested authority to pay the Union Pacific Railroad Company the sum of $54,905.63, being 50 per cent of the cost of repairing

damage to the railroad caused by slides on the Cascade Locks-Wyeth Section of the Columbia River Highway. He stated that the Railroad Company submitted an itemized claim in the amount of $109,811.25, which was checked and found to be in order. He gave as his feeling that the slides were not entirely the fault of highway construction and probably would have occurred regardless of the highway construction; however, he recommended payment of one-half of the total expense in conformity with the long standing precedent that has been established in connection with the handling of slides in the Columbia Gorge whereby the State and the Railroad Company each pay one-half of the expense involved. The Commission approved payment of the present claim of $54,905.63 upon execution of an agreement with the Railroad Company covering details.

Consideration was given by the Commission to approval of an agreement with Oregon State College covering a cooperative experimental project to determine the design and characteristics of base courses under flexible pavements. The Engineer explained that this agreement is the next step following preliminary work on base course thicknesses that was undertaken by the College under an agreement executed in August, 1954, and involves actual testing of typical materials. The College, he stated, has the same personnel available that built the test cell for the investigation of base course material, and it would be advantageous for them to continue the work. He estimated the cost of the complete investigation of four typical materials at $3,000, and he recommended approval of the cooperative project subject to the terms of an agreement which he presented for acceptance. The Commission approved the project as recommended.

The Engineer requested authority to construct immediately footings and column sections that are needed in connection with the Washington and Jefferson Streets overcrossing structures in Eugene. He explained that the Eugene grade separation project is included in the five-year program and includes two overcrossing structures to carry Washington Street and Jefferson Street traffic over the Southern Pacific Company's tracks. Mr. Lafferty, owner of a building, he said, wishes to build an extension to his warehouse which will be under the viaduct on Jefferson Street, and the columns to support the viaduct will be inside of the proposed building. He pointed out that a considerable amount of damage can be avoided if the columns are built during construction of the building, and he requested authority to do so. He estimated the cost involved at $1,200. The Commission approved the request and ordered the arrangement covered by an appropriate agreement with Mr. Lafferty.

A letter from the Klamath County Chamber of Commerce requesting early improvement of the Klamath Lake Secondary Highway was considered. The Engineer commented that the section to which they refer is twenty-two miles in length and has a very low priority rating for construction. The Commission deferred action on the request pending appearance of a delegation on the following day. (A Mr. Brown appeared before the Commission later in the session. He was given no encouragement either for construction of the project or that a survey would be authorized.)

The Commission discussed the matter of reimbursing Peter Kiewit Sons Company, contractor on the Bureau of Public Roads job on the Oregon Coast Highway north of Wedderburn, in the amount of $1,927.27, and of reimbursing Soule' Steel Company in the sum of $139 for work performed on this project prior to revision of plans for the same. The Engineer explained that in settling the Knox right of way matter in this area it was agreed that a traffic interchange and a larger underpass than had been originally contemplated would be provided,and the plans were revised accordingly. In the meantime, Peter Kiewit Sons Company, contractor, did certain work that cost $1,927.27, and Soule' Steel Company, supplier of steel, went to the expense of $139 in cutting and handling steel for the small underpass structure. Itemized statements of work performed by both concerns have been submitted by the contractor and approved by the Bureau of Public Roads. He recommended that both Companies be reimbursed in the amounts of their respective claims. The Commission approved such payments.

The Commission considered and ordered filed a letter from the American Legion Auxiliary of Warrenton favoring selection of the Smith Point route in the reconstruction of the Oregon Coast Highway between Astoria and Seaside.

The Engineer requested, and the Commission approved, increases in project authorizations as follows:

1. An increase of $82,000 in the contract on the Rocky Point-Brush Creek Section of the Oregon Coast Highway for repair of storm damage and to protect against future damage. This work consisted of constructing an overflow channel, moving the center line of the highway approximately 30 feet west for 1500 feet to avoid a large slide, slide removal, drainage, and reinforcement of pavement.

2. An increase of $16,500 in the contract for construction of the Rinehart Creek Bridge on the Oregon Coast Highway, Contract No. 3970, to lengthen the bridge by one span because of an unsatisfactory foundation at the north bridge end.

A request from the City of Dallas that the State Highway Department prepare plans and specifications and supervise field construction in connection with a city bridge widening project on Levens Street in Dallas was discussed. The Engineer advised that the City has agreed to reimburse the State for all costs involved. He recommended approval of the request because the City does not have an organization to handle such work. The Commission approved the recommendation.

Attention was given by the Commission to a number of letters and resolutions from Granges and other organizations in the vicinity of Estacada, requesting the rerouting of the Clackamas Secondary Highway in Estacada so as to avoid the City schools. The Engineer recalled that this matter was previously considered by the Commission at its meeting in December, 1954, and was denied at that time on the basis that the pre-

sent highway is adequate to handle present day traffic and there is not sufficient priority for construction of a new highway as the petitioners propose. Further study of the problem has been made and it has been determined that it will cost about $125,000 to construct a route that will by-pass the schools and the principal business district, using a 24-foot pavement without curbs, and $145,000 for a 44-foot pavement with curbs. Traffic on the Clackamas Secondary Highway, he said, is approximately 1,200 vehicles daily at the south city limits and 2,700 at the north city limits, which indicates that the existing road is adequate to serve present needs. He added that there is insufficient priority to warrant early construction of the by-pass, and he recommended that the request be denied. The Commission adopted the recommendation.

The Commission discussed a letter from the Hon. Ward R. Webber, County Judge of Wasco County, renewing a previous request for modernization of The Dalles-California Highway from its connection with US30 to a point north of Dufur. The Engineer stated that the project has considerable merit but no funds are immediately available to finance it. The Secretary was instructed to inform Judge Webber that the Commission considers the project a meritorious one and should be accomplished, but, definitely, no monies are available to finance construction now. The project is to be kept in mind for future consideration.

A letter was presented from Mr. Martin P. Gallagher, Ontario, in behalf of the Oregon Industries Company which owns a Frozen Food Plant at that place. Mr. Gallagher advises that the Company plans to expand its holdings in Ontario by developing a 20-acre tract across which the highway department has made a survey for rerouting the Old Oregon Trail, including a railroad grade separation structure. He requested information whether or not the Highway Commission intends to proceed with such project because it will have considerable bearing on the Company's plans. The Engineer advised that a survey for a route that will by-pass the City of Ontario has just been completed. He exhibited a map showing the proposed route which leads to the existing Snake River Bridge, and explained details. He recommended approval of the survey and that authority be granted to negotiate needed right of way, particularly such portions as are threatened with building development. The Commission tentatively approved the survey and authorized right of way negotiations along the proposed alignment. Formal adoption of the survey was deferred until a future meeting when all three Commissioners are present, which is a legal requirement.

The Engineer reported on the engineering and economic considerations involved in the realignment of the Pacific Highway between Jump Off Joe Creek and Grants Pass. He advised that several routes were studied, and it was determined that two lines were worthy of consideration, one being the "L" line, otherwise known as the Merlin Hill Line, which is 0.91 mile shorter than the present highway and which is estimated to cost $2,520,000, and the "L-2" line, otherwise known as the Granite Hill Line, which is 1.14 mile shorter than the present highway, but is estimated to cost $3,280,000. The "L" line, he said, has a benefit quotient of 3.08

whereas the "L-2" line has a benefit quotient of 2.42. He recommended adoption of the Merlin Hill Route and that an approximate two-mile section thereof be added to the 1956 Federal-aid highway program. He recalled that an amount of $420,000 is being held in reserve for the purpose. As a result of discussion, the Commission authorized the acquisition of right of way along the Merlin Hill Route, but deferred formal adoption of the survey until it has been completed and when all three Commissioners are present. The Commission also approved the Engineer's recommendation that the two-mile section of the Merlin Hill line be added to the 1956 Federal-aid highway program.

A request was presented from several people who own property on the west side of the Pacific Highway East immediately north of the Railroad Underpass in North Salem for the widening of the pavement and construction of curbs in front of their holdings. The Engineer advised that these property owners complain that people do not patronize their establishments because they are not allowed to park their cars on the highway in front of their properties, and as a result their properties are valueless for business purposes. To eliminate this condition, they have offered to deed to the City of Salem a strip of land not less than eight feet wide along their respective frontages, and they have also agreed to pay the entire cost of moving their buildings back to the new property line, and to construct sidewalks along their frontage, if the State will widen the pavement and construct a curb along the highway. He estimated the cost to widen the pavement and to construct the curb at $1,930, and he recommended approval of the property owners' request, subject to the condition that the pavement is not to be widened, and the curb is not to be constructed until the buildings have been moved back and the new sidewalk constructed. The Commission adopted the recommendation.

Consideration was given to a request from Meier & Frank Company for the construction of "on" and "off" ramps to the T. H. Banfield Expressway at their proposed shopping center at Northeast 122nd Avenue. The Engineer advised that a careful study has been made of all matters pertaining to the proposed development and conferences have been held with Meier & Frank Company officials. The studies, he said, indicate that there is considerable merit for an off-ramp from the west connecting with 122nd Avenue, which leads directly to the proposed shopping center, and is being widened by Multnomah County to provide a four-lane facility. The estimated cost to construct the off-ramp, he stated, is $138,000, being approximately $101,000 for construction and $37,000 for right of way. He estimated the cost to construct an on-ramp to the Expressway from 122nd Avenue at $342,000, which amount in his opinion is out of proportion to the benefits that might be derived. He pointed out that there are two routes now available to handle traffic returning to the west from the shopping center ---one via Northeast Prescott Street to 102nd Avenue, and one via Northeast Fremont Street to 102nd Avenue where "on" and "off" ramps are presently provided. The cost to provide connections, either "on" or "off", for traffic from the east, he said, would be very costly and the expense is not justified because existing facilities are available to accommodate travel to the shopping center from that direction. He recommended that the State

construct the off-ramp at 122nd Avenue to serve traffic from the west, and general traffic in this area, at an estimated cost of $138,000, and that the request for ramps to serve traffic from the east be denied. The Commission approved the project as recommended.

The Engineer also stated that a request has been received from Fred Meyer Company for "on" and "off" ramp connections to Banfield Expressway to accommodate people from the east who want to patronize a large shopping center that the Company is developing on the south side of Halsey Street between 99th Avenue and 102nd Avenue. He pointed out that there is an existing "off-ramp" from the Expressway which fits into Halsey Street in front of the shopping center, and an "on-ramp" to the Banfield Expressway is available at 82nd Avenue. As there are sufficient routings to reach the shopping center from the east, he recommended that the request be denied. He pointed out that, by construction of an off-ramp at 122nd Avenue, both Meier & Frank Company and Fred Meyer Company will have equal status in that "on" and "off" ramps will be provided to and from the west but in neither instance will a direct "on" - or "off"-connection be provided for traffic from the east. In view of the Engineer's explanation, the Commission denied the Fred Meyer Company request.

The Commission considered and upon recommendation of the Enginner, approved the following requests for extensions of time within which to complete highway contracts:

1. Andrew Nesheim, Contract No. 4138, for painting five bridges on the Oregon Coast Highway in Curry County, requested an extension of time from October 15, 1954, to July 15, 1955. Extension approved as requested, without penalty.

2. Starr Builders, Contract No. 4289, for construction of a Car Storage Shed at Albany on the Pacific Highway in Linn County, requested an extension of time from January 31, 1955, to March 15, 1955. Extension approved as requested, without penalty.

3. Walt M. Young, Contract No. 4242, for construction of a Maintenance Building at John Day in Grant County, requested an extension of time from November 30, 1954, to June 1, 1955. Extension approved as requested, without penalty.

4. George L. Rochat & Son, Contract No. 4251, for installation of Salem By-Pass illumination in Marion County, requested an additional extension of time from January 31, 1955, to April 1, 1955. Extension approved as requested, without penalty.

5. R. H. Jones, Contract No. 4146, for construction of the Mission Junction Grade Separation on the Old Oregon Trail in Umatilla County, requested an extension of time from December 31, 1954, to April 30, 1955. Extension approved as requested, without penalty.

6. George E. Berry, Contract No. 4169, for construction of a bridge over the Malheur River on the Central Oregon Highway in Malheur County, requested an extension of time from October 31, 1954, to April 30, 1955. Extension approved as requested, without penalty.

7. Birkemeier and Saremal, Contract No. 4102, for construction of the 60th Avenue Overcrossing on the T. H. Banfield Expressway in Multnomah County requested an additional extension of time from January 29, 1955, to March 15, 1955. Extension approved as requested, without penalty.

8. Central Heating Co., Oregon Ltd., Contract No. 4198, for construction of the O. P. & E. Railroad Overcrossing on the Pacific Highway in Lane County, requested an extension of time from October 31, 1954 to February 28, 1955. Extension approved as requested, without penalty.

9. Hutton-Kalkhoven, Contract No. 4309, for construction of a guardrail on the Big Eddy-Dillon Section of the Columbia River Highway in Wasco County, requested an extension of time from January 31, 1955, to May 31, 1955. Extension approved as requested, without penalty.

10. R. A. Heintz Construction Company, Contract No. 3881, for grading the Elkhead Road-Rice Hill Section of the Pacific Highway in Douglas County, requested an extension of time from July 31, 1954, to October 15, 1954. Extension granted to September 30, 1954, with an engineering penalty to be assessed after July 31.

11. Gibbons & Reed Company, Contract No. 3807, for grading the 92nd Avenue-Fairview Section of the T. H. Banfield Expressway in Multnomah County, requested an additional extension of time from September 7, 1954, to February 1, 1955. Extension granted without penalty to January 21, 1955, the actual completion date of the project.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. (For further details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.)

The Engineer reported that Contracts Nos. 3877, 3881, 4063, 4162, 4173, 4180, 4198, 4243, and 4274 for construction of state highway projects have been completed according to the requirements of the contracts or modifications thereof, and that said projects are now ready for acceptance.

March 2, 1955

After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission gave attention to a request from the North Douglas Grange Roads Committee for improvement of the Territorial Secondary Highway between Lorane and Anlauf. This section, the Engineer stated, is nine miles long and the cost to improve it to modern secondary highway standards is estimated at $850,000. He recalled that during the past three-year period $975,000 has been spent to improve this highway between the Benton County line on the north and Lorane on the south, and he pointed out that no funds are available at this time to finance further improvements. He recommended that the request be denied, at least until additional funds are available. The Commission approved the recommendation.

Attention was given by the Commission to a request from C. W. Ringey, Superintendent of the Umatilla Indian Reservation, that he be allowed to take approximately 16,000 cubic yards of rock from a state-owned quarry on Emigrant Hill Section of the Old Oregon Trail, to be used in improving Reservation roads. The Engineer said that there is an unlimited supply of material at this location. He recommended approval of the request, subject to the strict understanding that the material shall be taken only when it will not interfere with the operations of the State's contractor and the rapid completion of the State's project; also, with the understanding that the material is transported over an existing stock driveway. The Commission adopted the Engineer's recommendation and so ordered.

The Engineer reported a request from F. T. Fowler, Traffic Engineer for the City of Portland, that the State cooperate with the City in improving traffic conditions at the intersection of North Interstate Avenue, (US99W) and North Lombard Street (US30 By-pass). The improvement suggested, he said, consists of removal of the existing medial island and provision of left-turn movements at this intersection, and prohibition of left turns at seven additional intersections on North Interstate Avenue. He estimated the total cost to revise the North Lombard intersection at $2,850, and installation of overhead illuminated signs prohibiting left-turn movements at the additional seven intersections at $1,615, a total of $4,465. He recommended approval of the project on the basis that the expense shall be shared equally by the City and the State, the State's share to be charged against 1955 minor betterment funds budgeted for channelization. The Commission approved the project as recommended.

The Engineer reported that the State Speed Control Board has established certain reduced speed zones on 82nd Avenue (Cascade Secondary Highway) in the City of Portland, between Failing Street on the north and Cooper Street on the south. The city limits, he said, follows the center line of 82nd Avenue along a portion of the section so it is necessary for the Commission to take concurring action along those portions outside of the city limits. He recommended concurrence in the action taken by the Speed

Control Board which requires changes in actions heretofore taken by the Commission, as follows: (1) Rescind action taken on September 12, 1951, establishing a 35-mile per hour speed zone on 82nd Avenue from M.P. 0.80 (N. E. Failing Street) to M.P. 1.01 (N. E. Fremont Street), except that between M.P. 0.93 and M.P. 1.03, the indicated speed shall be 20 miles per hour during the hours of school crossings; (2) establishment of a 35-mile per hour speed zone on 82nd Avenue from M.P. 3.81 (south of S. E. Lincoln Street) to M.P. 4.88 (south of S. E. Boise Street); (3) establishment of a 30-mile per hour speed zone on 82nd Avenue from M.P. 5.40 (north of S. E. Foster Road) to M.P. 6.49 (S.E. Duke Street), except that between M.P. 5.82 and M.P. 5.90, the indicated speed shall be 20 miles per hour during the hours of school crossings; (4) Establish a 30-mile per hour speed zone on 82nd Avenue from M.P. 6.30 (S. E. Glenwood Street) to M.P. 6.37 (S.E. Cooper Street). The Commission accepted the recommendations by adopting the attached resolution relative thereto, marked EXHIBIT "E-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the State Speed Control Board at its meeting in December, 1954, established reduced speed zones on the Pacific Highway through the Cities of Oakland and Yoncalla in Douglas County. In order to carry the speed zones to logical termination points, he said, it will be necessary to extend the restrictions into the rural sections adjoining each City. He recommended zone designations as follows: From the south city limits of Oakland (M.P. 183.36) to a point 250 feet south thereof (M.P. 183.41)--35 miles per hour; from a point 0.16 mile north of First Street in Yoncalla (M.P. 168.15) to the north city limits of Yoncalla (M.P. 168.31), and from the south city limits of Yoncalla (M.P. 163.59) to a point 100 feet north of Fifth Street in Yoncalla (M.P.168.64)-35 miles per hour.

The Commission approved the reduced speed zones as recommended by adopting the attached resolution relative thereto, marked EXHIBIT "E-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also recommended designation of reduced speed zones on US99, US99E, and US99W, adjacent to the City of Junction City, in order to correlate with reduced speed zones placed within the City by the State Speed Control Board, as follows: (1) on US99 between the south city limits of Junction City (M.P. 109.56) and a point 0.13 mile south of First Street (M.P. 109.74)--40-miles per hour; on US99E from a point 450 feet north of 18th Street, (M.P. 108.48) to the north city limits of Junction City, (M.P. 108.66)--35-miles per hour; (3.) on US99W from a point 250 feet north of 18th Street, (M.P. 110.81) to the north city limits of Junction City, (M.P. 110.95)--35-miles per hour. The Commission approved the speed zones as recommended by adopting the attached resolutions relative thereto, marked EXHIBITS "E-3", "E-4", and "E-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer reported that the Eugene City Council has enacted a resolution prohibiting the shoulder parking of vehicles on West 11th Avenue (Richardson-Eugene State Secondary Highway) between the west property line of Chambers Street and the east property line of Seneca Road. He recommended concurrence in the City's action, after which, he said, necessary signs will be installed. The Commission approved the City's action.

The Engineer brought up for discussion a hazardous condition that is caused by the parking of vehicles on the right of way of Columbia River Highway near its junction with the road that leads to the new Columbia River bridge east of The Dalles. He said that people park their cars between the curb and the edge of the highway pavement, which creates a distinct hazard for vehicles attempting to enter the highway from parking lots at nearby business establishments. In order to correct the condition, he recommended that parking on the highway shoulders be prohibited on both sides of the Columbia River Highway between a point 350 feet west of Hull Road (Engineer's Station 16+00) and a point 670 feet east of Hull Road (Engineer's Station 26+00); and on the north side of the highway only, between Engineer's Stations 48+25 and 60+00; and on the south side of the highway only, between Engineer's Stations 54+50 and 60+00. The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "F-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a request from Robert L. Thomas for a reduction of the existing 50-mile per hour speed limit on a section of the Pacific Highway West just north of the Multnomah-Washington County line. The Engineer advised that an investigation by the Traffic Engineering Division revealed no adequate reason for changing the existing speed limitation; however, there is warrant for prohibiting the parking of vehicles on the shoulders of the highway in the vicinity of S. W. 53rd Avenue and S. W. Pasadena Street, where such parking impairs sight distance for vehicles entering the highway. He accordingly recommended that Mr. Thomas' request for a reduction in the designated speed limit be denied, and that in lieu thereof the Commission take appropriate action to prohibit the shoulder parking of vehicles along the northwesterly side of the Pacific Highway West from a point 200 feet northeast of S. W. 53rd (Engineer's Station 163+00) to a point 200 feet northeast of S. W. 55th Avenue (Engineer's Station 170+00). The Commission approved both recommendations and thereupon adopted the attached resolution marked EXHIBIT "F-2", prohibiting the shoulder parking of vehicles on the highway, which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission confirmed oral action heretofore taken, promoting Mr. P.M. Stephenson from his former position of Assistant Bridge Engineer to the position of Bridge Engineer, replacing the former Bridge Engineer, Mr. G. S. Paxson, who was advanced to Assistant State Highway Engineer some time ago. Mr. Stephenson's appointment as Bridge Engineer is effective March 1, 1955.

The Commission confirmed the sale of an old photostat machine for the sum of $700, as requested by the Engineer.

Consideration was given to a text that is to be placed on the text board that the Commission heretofore tentatively authorized erected at Sherar's Bridge over the Deschutes River on the Sherar's Bridge Secondary Highway, north of Maupin. The Engineer presented a text as prepared by the Memorials Committee of the Oregon Historical Society. Upon his favorable recommendation, the Commission approved the text, as follows, and authorized the Engineer to proceed with erection of the standard marker which is estimated to cost $400:

SHERAR'S BRIDGE

ON THIS SITE THE ANCIENT INDIAN TRAIL CROSSED THE DESCHUTES RIVER WHERE THE EARLIEST PIONEERS FLOATED THEIR WAGONS. THE FIRST BRIDGE WAS BUILT BY JOHN Y. TODD IN 1860. IN 1868 THE FIRST POST OFFICE IN WASCO COUNTY WAS ESTABLISHED. J. H. SHERAR ACQUIRED THE PROPERTY SOON AFTERWARDS AND CONSTRUCTED A 13-ROOM HOTEL AND LIVERY STABLE AND IMPROVED THE TOLL ROAD ON BOTH SIDES OF THE DESCHUTES CANYON. HE MAINTAINED THE ROAD WITH INDIAN LABOR FROM BAKEOVEN TO THE DALLES. SHERAR'S BRIDGE AND TOLL ROAD WAS THE GATEWAY TO THE VAST TERRITORY OF CENTRAL OREGON. THE BUILDING OF THE RAILROADS THROUGH THE DESCHUTES CANYON IN 1911 ENDED THE IMPORTANCE OF SHERAR'S BRIDGE AND THE ROAD WAS LITTLE USED UNTIL THE RECONSTRUCTION OF THE HIGHWAY IN RECENT YEARS.

The Commission also considered a request from R. D. McCurdy, Secretary of the Enterprise Chamber of Commerce, for erection of a text board overlooking the Wallowa Valley, setting forth the connection of the Wallowa Valley with the Nez Perce Indian War. The Memorials Committee of the Oregon Historical Society, the Engineer commented, has approved a text. The Engineer recommended approval of the request and that he be authorized to erect a standard historical marker at the most advantageous

place along the highway in the Wallowa Valley, with the following text to be inscribed thereon, as prepared by the Memorials Committee of the Oregon Historical Society:

THE NEZ PERCE WAR

HERE, IN WALLOWA VALLEY, THE NEZ PERCE WAR BEGAN IN MAY 1877. IT ENDED IN OCTOBER 1877, WHEN, AFTER A HISTORIC 1,000-MILE RETREAT, YOUNG CHIEF JOSEPH IN DIGNIFIED SURRENDER SAID: "FROM WHERE THE SUN NOW STANDS I WILL FIGHT NO MORE FOREVER." THE TREATY OF 1855 MADE WALLOWA VALLEY PART OF THE NEZ PERCE RESERVATION. CHANGES MADE IN 1863, RESTORING THE VALLEY TO THE U. S. WERE NOT RECOGNIZED BY OLD CHIEF JOSEPH AND HIS SONS. IN 1873 THE U. S. RECOGNIZED CHIEF JOSEPH'S CLAIMS BUT REVERSED THE DECISION IN 1875. TROOPS WERE SENT TO PROTECT THE WHITE SETTLERS WHO HAD ENTERED THE VALLEY IN GOOD FAITH. YOUNG CHIEF JOSEPH WITH 300 WARRIORS WON MOST OF HIS BATTLES AGAINST SUPERIOR FORCES. FEELING THAT PROMISES MADE AT HIS SURRENDER WERE BROKEN, CHIEF JOSEPH DEVOTED HIS LIFE IN VAIN PLEADING WITH THE UNITED STATES GOVERNMENT.

The Commission approved the text and authorized erection of the marker which is estimated to cost $400.

The Commission considered a request from Josephine County Court that the County be permitted at its own cost and expense to build a new connection for the "Speaker" County Road to the new Pacific Highway about two miles north of the town of Wolf Creek. The Engineer explained that the county road now connects to the old Pacific Highway, and the old highway, in turn, connects with the new highway at points approximately 2,000 feet apart. The present connections, he said, are on very flat angles and are on curves where sight distance is restricted, whereas the connection proposed by the County will enter the highway at right angles at a point where adequate sight distance is available, and in addition thereto, the old connections will be closed. He recommended approval of the County

Court's request. The Commission approved the new highway connection as recommended, subject to the condition that the State will not be asked to contribute funds to assist in financing the project.

A request from the Umatilla County Court that the Mission North-Mission South Road from its junction with Oregon Highway 11 to its junction with US Highway 30, as relocated, be designated as a state secondary highway was considered by the Commission. The Engineer reported that the road is 4.65 miles long, and that it would cost approximately $450,000 to improve it to modern secondary standards. Traffic studies, he said, indicate that the average daily traffic would be about 170 vehicles if it were signed as a by-pass route for Pendleton. He pointed out that the section from Mission south is now on the Federal-aid County Road system, while the section north from Mission is not. He also pointed out that the mileage of roads now on the state secondary system is about twice that on the county road system, yet the counties receive 50 per cent of all federal secondary monies. It was his opinion that the volume of traffic that will use the road does not justify its being placed on the state highway system, and he recommended that the request be denied. He offered the suggestion, however, that the Mission-North road could be designated a Federal-aid Secondary (County Road) Highway, if the County so desired, so it would be eligible along with the Mission-South section for Federal-aid Secondary funds that are allocated to Umatilla County. The Commission accepted the recommendation, and ordered that the matter be discussed with the County Court from that standpoint.

A claim in amount of $50, presented by Shirley W. Pettengill, Coquille, for destruction of an apple tree was discussed. The Engineer explained that the tree was damaged by a Soils Investigation crew while carrying on a survey for the Coquille-Rink Creek Section of the Coos Bay-Roseburg Highway, and an investigation of the claim reveals that it is a legitimate one. He recommended that it be allowed in full. The Commission approved the recommendation.

Consideration was given to a claim for damages submitted by Mr. E. J. Molitor for the destruction of tulip bulbs on his land adjacent to the Banfield Expressway, at 162nd Avenue. The Engineer advised that a drainage condition developed in construction of the Expressway which, during an exceedingly heavy rain, caused the flooding of Mr. Molitor's property on January 27, 1955, and, although action was taken immediately to relieve the situation, it was not possible to drain the area entirely, and a large quantity of bulbs were lost. Mr. Molitor, he said, submitted a claim for $1,843.51 for the loss of approximately 20,000 tulip bulbs, but later agreed to accept $1,492.51 as settlement in full, such amount being a reasonable value of the bulbs destroyed as estimated by the Landscape Engineer. The Engineer recommended that Mr. Molitor be paid the sum of $1,492.51 for all damages involved on condition that he give a full and complete release. The Commission accepted the recommendation and so ordered.

Attention was given by the Commission to a claim submitted by Mr.

Douglas S. Ward, Portland, in the sum of $29.26 for damage to his car caused by the lowering of the traffic arm gate at the Vancouver end of the Columbia River bridge between Portland and Vancouver. The Engineer advised that the damage occurred when the gate was lowered by a gate tender who was under the influence of liquor, and who subsequently was discharged. Upon his favorable recommendation, the Commission approved payment of the claim.

A request from Mrs. Blanche Tipton for commercial access from her property to a new connecting highway between the reconstructed Deady-Shady Section of the Pacific Highway and the present road south of Shady Point was discussed. The Engineer reviewed the matter briefly explaining that the property was acquired in February, 1954, and that private access was granted to serve a small parcel, and unlimited access was granted from a larger parcel to the Grant Smith County Road, which in turn, has unlimited access to the approach highway. He recalled a similar request in September, 1954, which was denied. He added that conditions have not changed since that time, and that it still is his recommendation that the request should not be granted. Approval of the request, he said, would set a precedent that would be inimical to the interests of the State in its access control provisions. The Commission denied the request as recommended by the Engineer.

Consideration was given by the Commission to a proposed agreement with Jackson County School District No. 6, Central Point, covering installation of splash boards in a 9' x 6' box culvert carrying the waters of Griffith Creek so that the water level can be raised to permit pumping for irrigation. The Engineer advised that the agreement is partly to fulfill the State's obligation in connection with a right of way settlement with the School District, and that the splash boards will be in place only from April 1 to November 1, so will not interfere with highway drainage. He recommended and the Commission approved the form of agreement as prepared.

The Engineer reported that the marine insurance providing hull and machinery coverage on the three ferry vessels at Astoria will expire May 31, 1955, so it will be necessary to receive bids at the April meeting of the Commission to retain continued coverage. He advised that it is proposed to call for bids on two alternate plans--"A" and "B". Plan "A" which provides coverage under the same conditions as in the past; that is, requiring a rate for the primary coverage, a rate for disbursements, and a credit rate for the 30-day lay-up periods. Plan "B" will require bids which show the rate for Port Risk coverage for 365 days and a quoted rate for "Operating Risk Coverage" for the estimated number of days that it is intended each vessel will operate during the year. Such coverage contains a provision that additional premiums shall be due and payable at a stipulated rate for each additional period (from 1 to 15 days) the vessel is operated. It was his thought that the total premium cost would be less under alternate "B" than under alternate "A". The Commission authorized the calling for bids on the basis outlined by the Engineer.

The Commission gave attention to a bill submitted by the California Oregon Power Company amounting to $55,748.21, for revision of its facilities on the Goshen-Coast Fork Section, the Booth Ranch Section, and in the City of Central Point, all on the Pacific Highway. The Engineer commented that the bill appears to be quite high and that the method used in determining betterment, depreciation and salvage should be carefully investigated before the claim is allowed. The Commission concurred and thereupon instructed the Auditor to make a detailed examination of the billing and report his findings to the Commission.

An agreement with the California Public Utilities Company covering construction of a power line approximately one-half mile long to serve the State remote-controlled receiving and transmitting station on Mt. Harris northeast of La Grande was discussed. The agreement provides that the Company shall be paid $325 upon completion of the line and a minimum monthly charge of $20 for a five-year period from the date that service is provided. As the $20 monthly charge is approximately the cost of the electric energy which will be consumed at regular rates, the Engineer recommended that the agreement be approved. The Commission approved the agreement as recommended.

The Commission approved the Secretary's report on papers which he signed on behalf of the Commission during the period January 14, 1955, through February 24, 1955.

The Commission discussed a date for its next regular meeting and decided to hold such meeting on Wednesday and Thursday, April 13 and 14, 1955. The Secretary was instructed to arrange for the use of the Green Room in the Imperial Hotel, Portland. The Commission also tentatively set Wednesday and Thursday, May 25 and 26, 1955 as the date for its following meeting.

The Commission authorized Mr. R. H. Baldock, State Highway Engineer, to attend the Pacific Northwest Conference of the American Society of Civil Engineers in Tacoma, Washington, on April 22-23, 1955, at an estimated cost of $55. Mr. Baldock was also authorized to attend a meeting of the Design Committee of the American Association of State Highway Officials in Chicago, during March 28-29, 1955, at an estimated cost of $275.

Problems to be presented by delegations scheduled to appear on the following day were discussed. The Engineer reviewed briefly the matters in which the various delegations are concerned. The Commission, however, deferred action on them pending the appearance of the delegations.

The Engineer stated that Mr. Joseph K. Carson, Jr., who acts as attorney for the Stark Street Company, Inc., Portland has requested that the Commission give its approval for a change from Zone II to Zone III on the following: Lots 1 to 20 inclusive, Block A and Block C, Gannon Addition in Portland. He advised that the Highway Department is the owner of property which it is believed lies within the area described, and that

the zone change will not be detrimental to the State. He recommended approval of the request. The Commission authorized the Engineer to direct a letter to the Mayor and City Council of Portland stating that the Commission has no objection to the proposed change in Zone.

The Parks Superintendent reported a request from the Longview Fiber Co. for permission to construct a new roadway entrance to the Salmon River Highway from its property which lies just south of Van Duzer Forest Corridor. He said that a bridge on the present roadway was damaged and the Company wants to shift the entrance to the highway a little farther east. He further stated that the shift in entrance points will not be objectionable, and he recommended approval of the request. The Commission approved the recommendation.

The Secretary presented a letter from F. J. Kernan, Portland, concerning right of way which may be needed across property belonging to Kernan Livestock Farm, Inc., for the approach to the proposed bridge across the Columbia River at the foot of North Denver Avenue, Portland. The Commission referred the letter to the Engineer for investigation and report.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4:30 p.m., Commissioner McIver publicly announced the Commission's decision with respect to each project as follows:

"Grading and paving Rock Creek-Damascus Section of the Clackamas-Boring County Road in Clackamas County: The Commission elects to accept the bid of K. F. Jacobsen & Co., Inc., Portland, in the sum of $148,125 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Clackamas County is received and the sum of $33,400 is deposited by the County.

"Construction of North Scappoose Creek Bridge on the Pittsburg-Scappoose Road in Columbia County: The Commission elects to accept the bid of Frank Watt Construction Co. and S & D Construction Co. in the sum of $16,710 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Columbia County is received and the sum of $3,750 is deposited by the County.

"Painting McCullough Bridge over Coos Bay on the Oregon Coast Highway in Coos County: The Commission awarded the contract to the low bidder, A. H. Barbour & Son, Inc., Portland, at their bid price of $53,340.

"Umpqua River Bridge Pier Protection on the Oregon Coast Highway at Reedsport in Douglas County: The Commission awarded the contract to the low bidder, Tom Lillebo, Reedsport, at his bid price of $24,210.

"Forest Boundary Slide Correction Unit, Winchester Bay-Forest Boundary Section of the Oregon Coast Highway in Douglas County: The Commission awarded the contract to the low bidder, Den Herder & Strobel Contractors, Medford, at their bid price of $22,194.50.

"Installation of traffic signals on the Pacific Highway in Medford in Jackson County: The Commission awarded the contract to the low bidder, Trowbridge & Flynn Electric Co., Medford, at their bid price of $15,593.

"Construction of Little Applegate River and Star Gulch Bridges on the Upper Applegate County Road in Jackson County: The Commission elects to accept the bid of Frank Watt Construction Co. and S & D Construction Co., Portland, in the sum of $25,450 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Jackson County is received and the sum of $5,700 is deposited by the County.

"Paving Goshen-Cottage Grove Unit, Goshen-Divide Section of the Pacific Highway in Lane County: The Commission awarded the contract to the low bidder, Max J. Kuney Co., Inc., Spokane, Washington, at their bid price of $740,550.

"Paving project in Cottage Grove (North River Road) in Lane County: All bids were rejected on this job.

"Salt Creek Bank Protection, Eagle Creek-Twin Creek Section of the Willamette Highway about 13 miles east of Oakridge in Lane County: The Commission awarded the contract to the low bidder, F. L. Somers, Medford, at their bid price of$63,400.

"Grading and oiling, and reconstruction of one bridge on the Arock Highway Junction Section of the Arock County Road about 27 miles west of Jordan Valley in Malheur County: The Commission elects to accept the bid of C. E. Leseberg, Nyssa, in the sum of $61,920 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Malheur County is received and the sum of $13,900 is deposited by the County.

"Grading and paving Mill Creek-Red Prairie Road Section of the Willamina-Salem Highway in Polk County: The Commission elects to accept the bid of Stevenson Construction Co., Salem, in the sum of $84,309 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading and paving (passing lane) West Slope Unit 2, Summit Section of the Wilson River Highway about 7½ miles west of Glenwood in Tillamook County: The Commission awarded the contract to the low bidder, Grimstad & Vanderveldt, Astoria, at their bid price of $20,691.60.

"Grade widening and surfacing the Yach Bridge-Weed Bridge Section of the Little Nestucca Highway about 2 miles west of Dolph in Tillamook County: The Commission awarded the contract to the low bidder, Glen Ousley, Eugene, at his bid price of $16,475.

"Grading and paving (Rieth Hill passing lane) and reoiling on the Rieth Hill and Stanfield Junction-Catholic Mission Sections of the Old Oregon Trail in Umatilla County: The Commission awarded the contract to the low bidder, Vernie Jarl, Gresham, at his bid price of $95,979.

"Sand Station Guardrail Project on the Columbia River Highway in Umatilla County: The Commission awarded the contract to the low bidder, T. W. Thomas, Portland, at his bid price of $3,075.

"Irrigon-Cold Springs Rock Production Project on the Columbia River, Hermiston and Pendleton-Cold Springs Highways near Umatilla and Hermiston in Umatilla and Morrow Counties: The Commission awarded the contract to the low bidder, Arthur Simonsen & Co., Baker, at their bid price of $20,010.

"Reoiling Weston Mountain-Little Phillips Creek Section on the Weston-Elgin Highway in Umatilla and Union Counties: The Commission awarded the contract to the low bidder, Russell Olson Construction Co., Inc., Pendleton, at their bid price of$21,571.

"Construction of Hurricane Creek Bridge on a county road approximately two miles west of Joseph in Wallowa County: The Commission elects to accept the bid of Frank Watt Construction Co. and S & D Construction Co., Portland, in the sum of $8,550 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Wallowa County is received and the sum of $1,900 is deposited by the County.

"Grading and paving Hess Creek (Newberg) Section of the Pacific Highway West in Yamhill County: The Commission elects to accept the bid of Stevenson Contstruction Co., Salem, in the sum of $136,355.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

The Commission signed agreements, etc., as follows:

"Indentures of Access" re change of access points for the following:

a. Smith property on Medford-County Farm Section of Pacific Highway in Jackson County.

b. Nellie Fromm property on Brush Creek-Rinehart Creek Section of Oregon Coast Highway in Curry County.

c. Mark property on Rinehart Creek-Frankport Unit of Rocky Point-Gold Beach Section of Oregon Coast Highway, Curry County.

d. Moore property on Sherman Junction-Willowdale Section of The Dalles-California Highway in Wasco County.

e. Thomas property on Medford-County Farm Section of Pacific Highway in Jackson County.

f. Zell property on Onion Flat-Middleton Unit, Tigard-Newberg Section of Pacific Highway, Washington County.

"Agreement" re easement from the Southern Pacific Company to State Highway Commission for construction of a dike on Goshen-Divide Section of Pacific Highway, Lane County.

"Quitclaim Deed" reconveying to Albert Johnson property optioned for right of way on Tigard-Newberg Section of Pacific Highway West, Washington County.

"Bargain and Sale Deed" re selling to Mr. and Mrs. L. W. Whitsett 1.456 acre of excess right of way on Powell Butte Secondary Highway, Crook County.

"Bargain and Sale Deed" re selling to Vera Shaw .74 of an acre of excess right of way on Chrome-Coquille Section of Oregon Coast Highway, Coos County.

"Agreement" with Oregon State College covering investigation of base course surfacing.

"Application and Contract" with California-Pacific Utilities Company covering a ½ mile power line extension to serve the State's remote-controlled radio receiving and transmitting station on Mt. Harris northeast of LaGrande.

"Agreement" with Jackson County covering maintenance of the Old Stage-Rock Point County Road along the Rock Point-Blackwell Hill Section of Pacific Highway. (Authorized 12-7-54)

"Lease & Sale of Road Materials Agreement" with Jesse Plunkett for a parcel of land on the forest Boundary-Meadowbrook Section of the Ukiah-Hilgard Highway. (Authorized 10-28-54)

"Special City Allotment Agreement" with City of Yamhill covering project on Elm Street in City of Yamhill. (Authorized 12-7-54)

"Finance & Maintenance Agreements" with Jackson County covering the Little Applegate River and Star Gulch Bridges on FAS 559. (Authorized 8-9-54 & 10-28-54)

"Finance & Maintenance Agreement" with Benton County covering the Beaver Creek School-Twin Bridges Section of the Beaver Creek-Greenberry Road, FAS 206. (Authorized 8-9-54 &10-28-54)

"Finance & Maintenance Agreement" with Malheur County covering the Arock Highway Junction Section of the Arock Road, FAS 589. (Authorized 8-9-54)

"Bargain & Sale Deed" to B. F. Bowman & Wm. Purchase for a parcel of land on the Pendleton-Deadman's Pass Section of the Old Oregon Trail Highway in Umatilla County.

"Fiscal Year 1956 Forest Highway Program" as tentatively agreed upon at a joint conference held on January 18, 1955.

March 2, 1955

"Agreement" with S. P. Railroad Company re flashing light signal installation at the Derry Crossing on Salem-Willamina Highway near Rickreall.

"Quitclaim Deed" to the original owners, J. D. and Christine W. Douglas, a 9.85 acre gravel pit on the Sams Valley Secondary Highway, Jackson County.

"Agreement" with Jackson County School District No. 6 re the placing of splash boards in a 9' by 6' box culvert carrying Griffith Creek, in order to raise the water level to permit pumping for irrigation.

"Finance & Maintenance Agreement" with Clackamas County covering the Rock Creek-Damascus Section of the Clackamas-Boring Road, FAS 129. (Authorized 9-24-53 & 9-24-54, August 1, 1954 Summary)

"Agreement" with J. L. Campbell covering their operation of the lodge at Silver Falls State Park, from January 1, 1955 through December 31, 1955. (Authorized 1-18-55)

"Quitclaim Deed" to Karl W. Arnold for a parcel of land on the Albany-Lebanon Section of the Santiam Highway in Linn County. (Authorized 1-21-54)

"Quitclaim Deed" to Edward L. Detlefsen, et ux., for a parcel of land on China Camp Section, Oregon Coast Highway in Coos County. (Authorized 5-25-50)

"Special City Allotment Agreement" with City of Nyssa covering N. Third Street and Locust Avenue in City of Nyssa. (Authorized 12-7-54)

"Finance & Maintenance Agreement" with Wallowa County covering the Hurricane Creek Bridge project on FAS 497. (Authorized 10-28-54)

"Lease Agreement" with Ernest Fernau for property lying in the William Neil Donation Land Claim, also lying in the Southeast quarter of Sec. 10, T. 9 S., R 3 W., W.M., Marion County, for the purpose of operating a restaurant and tourist camp.

"Agreement" with the City of Newberg covering the relocating of a 10" water main in the City of Newberg.

"Quitclaim Deed" to Fred L. Knickerbocker for a parcel of land of the John Cochran and wife Donation Land Claim No. 55, in Lane County.

"Power Line Easement" with Bonneville Power Administration in which they grant to the state the use of R/W on their St. Johns-Astoria Transmission line crossing of the Columbia River Highway in Columbia County.

"Power Line Easements" with Bonneville Power Administration covering construction of highway across Pendleton-Deadman's Pass Section of US30 and Clatskanie-Delena Section of US30.

March 2, 1955

Mr. George Ruby, Portland, member of the Columbia Gorge Commission appointed by Governor Paul L. Patterson, was present and conferred privately with the Highway Commission regarding preservation of the esthetic features of the Columbia Gorge, and other matters.

The meeting adjourned at 4:45 p.m. to reconvene at 9:00 a.m. on the following day in the same room.

Portland, Oregon
March 3, 1955

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel, with the following persons present and participating:

Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Chairman Chandler was excused from attending this meeting.

Bids as follows, for highway construction were opened and read aloud by the Secretary who then announced that awards of contracts would be made at 3:30 p.m.:

BENTON COUNTY
GRADING AND ROCK SURFACING AND CONSTRUCTION OF ONE BRIDGE ON BEAVER CREEK SCHOOL-TWIN BRIDGES SECTION OF BEAVER CREEK -GREENBERRY ROAD

D. F. McKenzie, Salem	$ 66,310.00
Stevenson Construction Co., Salem	67,079.00
M. L. O'Neil & Son, Eugene	71,433.00
F. H. McEwen, Eugene	76,930.00
C. J. Eldon, Portland	81,225.00
R. A. Heintz Construction Co., Portland	82,722.00

CLACKAMAS COUNTY
PAVING LITTLE CREEK-ESTACADA SECTION OF WOODBURN - ESTACADA HIGHWAY

Edwin C. Gerber, Oregon City	$152,986.00
John R. Saxton, Idleyld Park	152,988.00
E. H. Ittchner Co., Molalla	153,118.00

Paving Little Creek-Estacada Section (cont)

Vernie Jarl, Gresham	$156,053.00
J. N. Conley, Portland	156,623.00
E. C. Hall Co. and J. C. Compton Co., Portland	158,783.00
P. B. Doherty & Son, Portland	167,556.00

COLUMBIA COUNTY
ST. HELENS (COLUMBIA BOULEVARD AND WILLAMETTE STREET) PAVING PROJECT

Parker-Schram Co., Portland	13,775.00
K. F. Jacobsen Co., Inc., Portland	14,345.00
The United Contracting Co., Portland	17,100.00

COOS COUNTY
CHINA CAMP MARSH SECTION OF OREGON COAST HIGHWAY AND MYRTLE POINT (ASH AND 8TH STREETS) PAVING PROJECTS

*Bidder will make lump sum reduction of $300.00 if awarded this project and the Gaston Paving Project.

Mr. Vernon I. Miller, County Judge, Sherman County, Mr. B. H. Roberson, President of Highway 97 Association; Mr. B. C. Baumgartner, Mayor, Grass Valley; Mr. George B. Nesbitt, Mayor, Goldendale, Washington; Mr. Henry H. Miller, County Commissioner, Klickitat County, Washington, and Mr. R. B. Spiekerman, President of Goldendale Chamber of Commerce, came before the Commission regarding a co-operative study to determine the feasibility of a bridge across the Columbia River between Biggs, Oregon, and Maryhill, Washington, as a replacement

for the Maryhill Ferry. Mr. Miller headed the group. He recalled that the Highway Commission previously agreed to contribute toward the project, and he advised that subsequently the matter was given careful consideration by the Governor of Washington and the Washington Toll Bridge Authority. He introduced Mr. Nesbitt who stated that as a result of their contacts with the Washington officials, the Washington Legislature and the Washington Toll Bridge Authority have authorized the study which Mr. William Bugge, Director of Highways, estimates will cost about $20,000. Accordingly, most of the legal barriers have been surmounted. He explained that the plans provide for participation by four parties--The State of Washington, Klickitat County, Washington, State of Oregon, and Sherman County, Oregon, on an equal basis. He asked the Commission to assume, as the fourth member of the group, payment of one-fourth of the total cost involved. Commissioner Reynolds recalled that the Commission at its last meeting agreed conditionally to contribute $3,000 toward the expense, but it now seems that such sum is inadequate for the purpose. Mr. Nesbitt replied that according to the latest estimate of the Director of Highways of Washington, the study will cost about $20,000, but they are asking each participant to contribute $6,000 to make certain that adequate funds are provided. As a result of the discussion, the Commission decided to pay 25 per cent of the cost of the study up to a maximum of $6,000, on the condition that each of the other three participants contribute a like sum. It was understood that such contribution includes the $3,000 previously authorized,and is not in addition thereto. The Secretary was instructed to inform the Washington Toll Bridge Authority by letter, of the Commission's action, and to send the letter to Mr. Spiekerman to deliver to the Washington Toll Bridge Authority in person.

Mr. Vernon I. Miller, Sherman County Judge, brought up the matter of highway signs at the junction of US97 and US197. He said that the existing signs and center line stripe have a tendency to route travel over US197; also, that southbound traffic on US97 is required to stop before entering the intersection, which indicates that US97 is secondary in importance. In order to correct this impression, he suggested that the names of certain Washington cities, including Seattle and Yakima, be placed on the signs as a convenience for tourists who want to visit those cities. The Commission referred the matter to the Engineer to investigate.

Mr. Miller also brought up for discussion the matter of permitting employees of the State Highway Department to hold City offices. He mentioned two maintenance men who hold offices in the town of Moro, one being Mayor of the town and the other a town councilman. He protested the Commission's ruling that will not permit them to act in those capacities but will require them to resign. He urged that they be allowed to retain their civic positions as they are competent men and highly respected in the community. The Commission referred the matter to the Engineer for a report. (The Engineer rendered his report on the subject later in the day. At that time, he explained that the ruling which prohibits employees of the State Highway Department from holding positions as officials in city and county government was made many years ago to forestall involvement of the State Highway Department in political matters, and to avoid

criticism, justified or otherwise, as to favoritism which might be granted due to employees holding such offices. The Commission decided to adhere to past practice.)

A delegation from Creswell came before the Commission to urge the oil surfacing of the south leg of the Springfield-Creswell Secondary Highway, from its junction with the Willamette Highway to its junction with the Pacific Highway in Creswell. The following people were present: Mr. and Mrs. Waldo T. Taylor, ranchers; Mr. Phil Walker, Ford Tractor Company owner; and Mr. Art Skinner, rancher. Mr. Taylor headed the group, and introduced the several members. Mr. Skinner who was principal spokesman, stated that they represent the people who live along this section of highway, and are bothered with dust in the summertime and with mud during the winter season. He also said that the road is very rough at all times. He pointed out that improvement of the highway has been requested many times in the past,but nothing of material value has been done to correct the conditions. The Engineer explained that the roadbed is gravel-surfaced and is difficult to maintain. He also said that the project is a meritorious one as is the Territorial Secondary Highway on which a large amount of money has been spent, and that there is not enough money available to finance both of them. Mrs. Taylor declared that the road is in such condition that automobile tires wear out in only about 6,000 miles on this road, and that the life of school buses which have to travel the route is greatly shortened by the very rough road. Mr. Taylor expressed the opinion that the maintenance cost on the road would be less if it were oiled than it is in its present condition. Mr. Walker mentioned that during periods of high water, the highway is flooded so they can't go to Creswell to shop, but they could go to Springfield and Eugene if the road were improved.

Commissioner Reynolds advised that the Commission tries to distribute its funds equitably throughout the several Counties, but finds it hard to take care of all of the roads that are in need of improvement, so priority has to be given to some of them; however, serious consideration will be given to the request, and an investigation will be made to determine the need for the improvement and its priority status, without any promise that anything will be done to improve conditions.

Mr. Lloyd Bowman, Mrs. Tempe Rhodes, and Mr. E. S. Harrington, business people from the town of Ukiah, appeared before the Commission to present their objections to the proposed relocation of the Hilgard-Ukiah Secondary Highway which would by-pass the town of Ukiah. Mr. Bowman acted as spokesman. He stated that they represent all of the businessmen and 98 per cent of the property owners in Ukiah who are unanimous in opposing the projected line as they feel that it would isolate their town. Mrs. Rhodes, who operates a general store and a ranch and has been a resident of the town for a number of years, alleged that snow drifts very badly along the projected line whereas if the road were placed along the creek and through the town of Ukiah, this problem could be avoided. Mr. Harrington urged that consideration be given to businessmen and property owners in the town, as the by-pass route, he felt, would be very harmful to them.

He also confirmed Mrs. Rhodes' statement that the snow drifts badly on the proposed by-pass route. The Engineer stated that the proposed line passes about 3,000 feet north of the town,and that the rise and fall is about the same on both routes. Commissioner Reynolds stated that the project will be reviewed and that a thorough study will be made before the project is constructed, and if it is found that the proposed alignment is not proper, it will be changed. The Engineer was thereupon instructed to give the matter his personal attention. The Commission also stated that it will inspect the project personally some time this coming summer.

Mr. Donald M. Sharpe, The Dalles, was present in the interests of development of the Cloud Cap Inn area on Mt. Hood for skiing and other recreational purposes. He explained that he has been promoting financial arrangements for the necessary projects, but such arrangements are contingent upon securing an adequate road leading to the area and whether or not snow removal can be provided. The U. S. Forest Service, he stated, has indicated that it will build the road and a parking lot, and Hood River County will maintain it, but there still remains the problem of snow removal. He pointed out the congestion caused by skiers at Government Camp, and he declared that the development of the Cloud Cap Inn area will relieve this congestion. He inquired if the Forest Service builds the road and if private interests develop the area, will the Highway Commission keep the road open during the winter. He estimated development costs at $200,000.

Commissioner Reynolds stated that the Commission does not ordinarily perform work on roads other than state highways, but the Commission is interested and will consider the project. In reply to his inquiry as to whether or not the U. S. Forest Servicehas made a definite commitment to the project, Mr. Sharpe said that the Forest Service is 100 per cent in favor of the project, but doesn't know now when construction will go forward. He repeated that what he wants to know today is whether or not the State will conduct the snow removal operations, if the Forest Service builds the road and parking lot, and the proposed development materializes. In reply to an inquiry from Commissioner McIver as to how much it will cost to remove the snow, the Engineer stated that it is difficult to make an estimate until the road is built, but it will be expensive, and the State does not now have the equipment to perform the type of snow removal that would be required. He suggested that action be deferred until next summer when the project can be viewed on the ground. Mr. Sharpe stated his approval of the suggestion. The Chief Counsel questioned the Commission's authority to spend State money on a road that is not on the State Highway system. Commissioner Reynolds concluded the interview by repeating that the Commission is interested and will have a thorough investigation made of the project; however, he said, this is only one of many similar requests that have been received, most of which have been turned down. He added that the Commission would like to be kept advised as to the plans of the U. S. Forest Service concerning this project.

Mr. Grant F. Brown, a rancher from Fort Klamath, was present and urged improvement of the Klamath Lake Secondary Highway northerly

from its junction with the road leading to Lake-of-the-Woods to Fort Klamath. He stated that he represents Fort Klamath Grange and Klamath County Pomona Grange. He pointed out that the section of highway from Klamath Falls to a junction with the Lake-of-the-Woods Road is newly constructed, but from there north to Fort Klamath, the road is very old and hazardous. He recited the history of the road and requested a survey for completion of the same. He advised that the road is needed in order to market timber on adjacent land as well as to market other agricultural products. He presented petitions signed by 492 residents of Klamath County urging the improvement and advised that the project has the endorsement of the Klamath County Court, Klamath County Chamber of Commerce, Jackson County Chamber of Commerce, and all of the newspapers of the district. He filed the supporting material with the Commission.

Commissioner Reynolds called attention to the fact that in recent years a great deal of money has been spent in Klamath County for highway improvements, including improvement of the south end of this highway, and the question arises where are funds to be found to finance the construction now requested; however, a study will be made of the project, notwithstanding that no encouragement can be given that it will be constructed; in fact, the Commission cannot even say that it will authorize a survey because there are so many other places that are more in need of improvement and which have a higher priority. He repeated that the Commission can give no encouragement for immediate funds. Commissioner McIver expressed concurrence in the statements of Commissioner Reynolds, which concluded the discussion.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m., with the same persons present and participating.

Mr. Charles Collins, Superintendent, Douglas County Park Board, and Mr. John Amacher, State Representative from Douglas County, and President of the Board, came before the Commission relative to the establishment of a state park on the North Umpqua River at Susan Creek, east of Roseburg. Mr. Collins stated that they were informed of the action that was taken by the Commission on the previous day, designating this area as a state park, and just want to thank the Commission personally for it. The Douglas County Park Board, he stated, will assist the Commission in any way that it can, and he expressed the hope that the Commission will proceed with early development of the area. He added that Douglas County will convey to the State all of its interests in the property. Mr. Amacher gave as his understanding that the Commission plans to spend about $2,000 for development this year. Mr. C. H. Armstrong, State Parks Superintendent, stated that it is planned to expend about $2,000 this year for maintenance and for some small improvements to make the park usable; also that additional funds will be provided next year, depending what use is made of the park this year. Commissioner Reynolds stated that the Commission is happy to secure the park site and intends to develop it as use of the area warrants.

Mr. Dean Erwin, County Judge of Wallowa County, conferred briefly with the Commission concerning the Little Sheep Creek Secondary Highway. He asked for a survey of the section from the top of Little Sheep Creek Hill to a point about 8 miles northerly thereof, in view of anticipated travel over the road because of the proposed Snake River Dams. Commissioner Reynolds stated that the request would be given consideration, but no commitment can be made at this time.

Mr. and Mrs. Henry Sturtevant of Portland and their attorney, Mr. James K. Navarra, appeared before the Commission regarding issuance of a permit to move a large quonset hut over state highways and city streets from the Bertha-Beaverton District to East 167th and Division Streets, Portland, via the St. Johns Bridge. Mr. Navarra, who acted as spokesman, explained that the Commission purchased right of way from Mr. Sturtevant, and that the negotiations were based on the premise that Mr. Sturtevant would be allowed to move the building, and accordingly he sold it, but now finds that he cannot get a moving permit from the State, so has lost the sale and stands to lose $5,000, which will put him out of business. He asked the Commission to reconsider the matter and grant the permit. Mr. Porter, Right of Way Engineer, stated that he discussed the matter with Mr. Johnson and Mr. Mayhew, who conducted negotiations for this property, and it appears that the negotiations were conducted on the basis that Mr. Sturtevant would move his building back on his own property, and at no time was he given any idea that he would be allowed to move the building over state highways. In fact, payment was made to Mr. Sturtevant for the right of way acquired and to compensate him for damages incurred, and to reimburse him for the cost to move the building back. No protest was made when the deal was closed. Mr. Sturtevant, however, constructed another building and is now endeavoring to sell the original quonset type structure. Mr. Sturtevant endorsed the statements of his attorney, and alleged misrepresentation on the part of the Commission's agents. Commissioner Reynolds explained that the permit definitely cannot be granted to move the building over state highways, but the Commission will review the entire transaction and will recompense Mr. Sturtevant if it develops he has been injured by the actions of the highway department representatives. The Right of Way Engineer was thereupon instructed to render a complete report on the subject.

Mr. William A. Babcock, Portland attorney, discussed with the Commission a claim for wages lost by employees of the St. Helens Wood Products Company on the Siuslaw Highway near Swisshome, because of damages done to the plant of the Company by a blast set off by State Highway personnel. He explained that on January 5, 1955, a State crew working on a road widening project near the plant set off a blast which had caused a number of large rocks to fall on the plant, causing damage that necessitated the closing down of the plant to January 17th. 88 employees of the Company were involved, he said, and each lost $7\frac{1}{2}$ working days, or a total of $11,175.30. It was his opinion that the State is liable for payment of the lost wages, and has the right to pay the claims, each of which is under $500. Commissioner Reynolds stated that the request would be discussed with the Chief Counsel, and that Mr. Babcock would be notified

of the decision that is reached. Following Mr. Babcock's departure the Chief Counsel stated that in his opinion, the law does not grant the Commission authority to pay the claims, and he recommended that they be denied. The Commission adopted the recommendation and instructed the Chief Counsel to so inform Mr. Babcock.

Consideration was also given to a request from the Grande Ronde Valley Flood Control District for State cooperation in the cost of revising highways and bridges that will be affected by its proposed flood control project. The Engineer stated that the request particularly concerns the bridge over the Grande Ronde River about 2½ miles west of Cove, the Catherine Creek Bridge just east of Union, and a one and one-half mile section of the Medical Springs Highway along Catherine Creek. The two bridges, he stated, are substandard steel trusses built about 30 years ago and are lighter and narrower than the present standards and that if anything is done with them, they should be replaced with more modern structures. He estimated the cost to replace the two bridges and to surface the one and one-half mile section of the Medical Springs Highway at $85,000. He said that the State will benefit by the new facilities,and he recommended that the State cooperate with the Flood Control District and perform the improvements as outlined, provided the District contributes the sum of $20,000 toward the costs involved which represents the value of the remaining life of the existing facilities. The Commission accepted the recommendation and ordered that the District be so informed.

The Right of Way Engineer reported that there is a parcel of property consisting of 3.5 acres of land, a house, and some cabins in the town of Canyonville on the Pacific Highway, which is not needed for highway purposes. The property has an appraised value of $5,000, and he recommended that authority be granted to sell it at public auction for not less than $5,000. The Commission approved the request by adopting the attached resolution relative thereto, marked EXHIBIT "B-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer requested authority to attend a meeting of the Northwest Conference on Access Control to be held in Tacoma on April 22, 1955 at an estimated cost of $35. The Commission granted the request.

A brief report was submitted by the Chief Counsel concerning his trip to Chicago to attend the Subcommittee Meeting of the National Committee on Urban Transportation. The meeting, he said, was called to discuss the transportation needs of counties, cities and districts, and to set up a procedure for future needs in urban areas. The expenses for this trip, he commented, were paid by the Committee.

Commissioner Reynolds reported receipt of a number of letters from residents of Medford, protesting reconstruction of the Pacific Highway through Hawthorne Park in Medford. The Engineer explained that surveys are now being conducted, and it appears that there are two feasible locations, one of which will entirely by-pass the City of Medford to the east,

and the other will go through Hawthorne Park. The surveys, he said, are now under way and until all of the facts have been obtained, it will not be possible to make a recommendation as to which is the proper route. The Commission instructed the Engineer to advise the people of Medford, through the local newspaper, as to the true status of the proposed highway relocation as it concerns their City.

Commissioner Reynolds also mentioned the concrete divider at the Stanfield junction on the Old Oregon Trail. He said that the divider is somewhat of a hazard during hours of darkness, and he suggested that possibly another type of divider might serve the purpose better, or perhaps illumination of the area would reduce the hazard. He also suggested as a remedy the widening of the highway at this location. The Engineer was instructed to investigate the matter and submit a report.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 3:30 p.m. Commissioner McIver publicly announced the Commission's decision with respect to each project as follows:

"Grading and rock surfacing, and construction of one bridge on the Beaver Creek School-Twin Bridges Section of the Beaver Creek-Greenberry Road about ten miles south and west from Corvallis in Benton County: The Commission elects to accept the bid of D. F. McKenzie in the sum of $66,310 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Benton County is received and the sum of $14,900 is deposited by the County.

"Paving Little Creek-Estacada Section of the Woodburn-Estacada Highway in Clackamas County: The Commission awarded the contract to the low bidder, Edwin C. Gerber, Oregon City, at his bid price of $152,986.

"Paving (Columbia Boulevard and Willamette Street) in St. Helens in Columbia County: The Commission elects to accept the bid of Parker-Schram Co., Portland, in the sum of $13,775 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of St. Helens is received and the sum of $1,000 is deposited by the City.

"Paving China Camp Marsh Section of the Oregon Coast Highway north of Coquille in Coos County and Myrtle Point (Ash and 8th Streets) Paving Project in Coos County: The Commission awarded the contract to Woodward & Son and Barklow, Coquille, by reason of their low combination bid of these two projects in the sum of$38,705.

"Shoulder oiling on the Reedsport-Hauser Section of the Oregon Coast Highway in Douglas and Coos Counties: The Commission awarded the contract to the low bidder, Petersen Bros., Florence, at their bid price of $22,075.46.

"Multnomah Falls-Viento Rock Production Project on the Columbia River Highway west of Hood River in Hood River and Multnomah Counties: The

Commission awarded the contract to the low bidder, Barney B. Helser, Beaverton, at his bid price of $21,050.

"Construction of Willamette Junction Grade Separation at the junction of the Willamette Highway with The Dalles-California Highway in Klamath County: The Commission awarded the contract to the low bidder, R. H. Jones, Hillsboro, at his bid price of $39,860.

"Painting Yaquina Bridge at Newport in Lincoln County: The Commission awarded the contract to the low bidder, C. H. Savage Co., Portland, at their bid price of $14,208.

"Vale Bridge Timber Replacement over the Malheur River on the old alignment of the Central Oregon Highway in Malheur County: The Commission awarded the contract to the low bidder, George E. Berry, Beaverton, at his bid price of $19,700.

"Painting the Center Street Bridge over the Willamette River in Salem on the Willamina-Salem Highway in Marion County: The Commission awarded the contract to the low bidder, A. H. Barbour & Son, Inc., Portland, at their bid price of $5,712.

"Silverton (James Street) Grading and Paving Project in Marion County: The Commission awarded the contract to the low bidder, Central Paving Co., Independence, at their bid price of $4,052.

"Construction of Halsey Street Connection Undercrossing in the City of Portland in Multnomah County: The Commission elects to accept the bid of Cherveny Construction Co., Portland, in the sum of $239,591 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving Independence (North City Limits-Oak Street) Section of the Independence Highway in Polk County: The Commission awarded the contract to the low bidder, Central Paving Co., Independence, at their bid price of $13,083.

"Grass Valley (Church Street-Bryan Street) Paving Project on the Sherman Highway in Sherman County: The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at their bid price of $9,740.

"Grading and paving Gaston Section of the Tualatin Valley Highway in Washington County: The Commission awarded the contract to the low bidder, C. C. Meisel, McMinnville, at their bid price of $12,785.50.

"Construction of Gales Creek Bridges on the Wilson River Highway west of Glenwood in Washington County: The Commission awarded the contract to the low bidder, Johnson & Amens, McMinnville, at their bid price of $73,627.50.

"Yamhill (Elm Street) Grading and Paving Project in Yamhill County: The Commission awarded the contract to the low bidder, Oregon Asphaltic Paving Co., Portland, at their bid price of $6,000."

There being no further business to come before the Commission, the meeting adjourned at 3:35 p.m.

EXHIBIT "A"

Minutes of March 2 and 3, 1955

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows

EXHIBIT "B-1"

Minutes of March 2 and 3, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land in Florence, Oregon, lying along and adjacent to the Oregon Coast Highway described as follows:

> A parcel of land lying in Lots 2 and 3, Block 9 of the original townsite of Florence situated in Section 34, Township 18 South, Range 12 West, Willamette Meridian, Lane County, Oregon, the said parcel being that portion of said Lots 2 and 3 lying Easterly of a line which is parallel to and 70 feet Easterly of the center line of the Oregon Coast Highway, containing 0.3 acre more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 130 be entered in the minutes and records of the Commission as of the 2nd day of March, 1955.

EXHIBIT "B-2"

Minutes of March 2 and 3, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land in Canyonville, Oregon, lying along and adjacent to the Pacific Highway described as follows:

> Beginning at a point which is 3.18 chains South of the Southeast corner of the Joseph Roberts Donation Land Claim in Section 34, Township 30 South, Range 5 West, W.M.; running thence South 19.89 chains to an alder tree 14 inches in diameter and marked with two notches on the North and East side and being on the right side of a small creek about six feet South of the creek for the Southwest corner of said tract; thence North 66° 30' East. 12.75 chains to a cedar tree 12 inches in diameter on the right bank of Canyon Creek about 6 feet from the edge of water; thence along the right bank of Canyon Creek north 2° 45' West, 6.25 chains and North 46° West, 6.00 chains and North 64° 30' West, 385 chains and North 52° 30' West 1.50 chains to a point in Canyon Creek; thence North 49° West, 2.75 chains to the place of beginning, containing 15.38 acre, more or less.
>
> Said portion being all of the above described property lying easterly of a line parallel to and 125 feet easterly of the centerline of the relocated Pacific Highway, said centerline being described as follows: Beginning at a point which is engineers centerline Station L4-60+83.24 said point being 106 ft. N. and 215 feet West of the Southeast corner of the Josephine Roberts D.L.C.No. 59, Township 30 South, Range 5 West, W.M. thence South 30° 12'30" East 1375.26 feet; thence on a spiral curve left (the long chord of which bears South 33° 32' 30" East) 500 feet to Engineers centerline Station L4 79+58.50, said parallel line crossing the northerly and Southerly line above described property approximately at Stations 67+07 and Station 76+90 respectively.
>
> The parcel of land to which this description applies contains 3.5 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appriased by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $5000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

EXHIBIT "B-2" (cont)

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 131 be entered in the minutes and records of the Commission as of the 2nd day of March, 1955.

EXHBIT "C-1"

Minutes of March 2 and 3, 1955

RESOLUTION

WHEREAS, for a period of approximately 13 years, it has been the practice and policy of the Highway Commission to authorize the making of payroll deductions for those employees who have desired to carry group insurance for death and dismemberment benefits with California-Western States Life Insurance Company, which deductions have been made in the interest and for the benefit and protection of its employees; and

WHEREAS, the Oregon State Employees Association has requested the Commission to make deductions for similar coverage for those employees who are members of the Oregon State Employees Association; and

WHEREAS, it is the desire of the Commission to co-operate with the Oregon State Employees Association and to secure such benefits for such of its employees who may desire to be members of the Oregon State Employees Association and to be protected under the benefits to be provided by California-Western States Life Insurance Company under its present or future agreements with the Oregon State Employees Association;

NOW, THEREFORE, BE IT AND IT HEREBY IS ORDERED AND RESOLVED by the State Highway Commission:

1. That the Auditor of the Commission be, and he hereby is, authorized and directed to make monthly payroll deductions for such employees of the Commission who are now, or who may become, members of the Oregon State Employees Association and who desire to carry the protection afforded under the agreement or agreements between California-Western States Life Insurance Company and the Oregon State Employees Association.

2. That the making of payroll deductions for such purposes shall not be exclusive and shall not affect the making of payroll deductions for employees who carry protection under any agreement or agreements directly between the Commission and California-Western States Life Insurance Company.

3. That, as a condition to the continuance of the making of such payroll deductions, California-Western States Life Insurance Company shall maintain and keep in full force and effect agreements with this Commission that are satisfactory to the Commission and its employees, whether members or non-members of the Oregon State Employees Association. In the event that such agreements are not executed and kept in full force and effect, the Commission reserves the right to discontinue making payroll deductions for the uses and purposes herein stated, under the protection afforded by California-Western States Life Insurance Company under agreement with the Commission or under agreement with the Oregon State

EXHIBIT "C-1" (cont)

Employees Association.

4. That all payroll deductions shall be transmitted in a lump sum to California-Western States Life Insurance Company, together with a statement of the names of the employees and the amounts deducted for each employee. The Commission does and shall assume no responsibility of any nature whatsoever for accounting practices between the Oregon State Employees Association and the California-Western States Life Insurance Company, or for determining membership of any employee in the Oregon State Employees Association.

5. That this resolution be entered in the minutes and records of the Commission as of the 2nd day of March, 1955, as Miscellaneous Resolu- No. 132.

EXHIBIT "C-2"

Minutes of March 2 and 3, 1955

RESOLUTION

WHEREAS, for a period of almost 20 years it has been the practice and policy of the Highway Commission to authorize the making of payroll deductions for those employees who have desired to carry nonindustrial accident protection for injuries, illness, medical and hospital services in the interest and for the benefit and protection of its employees, which protection has been expanded to include family and dependent coverages; and

WHEREAS, the Oregon State Employees Association has requested the Commission to make deductions for such coverage for those employees and their dependents who are members of the Oregon State Employees Association; and

WHEREAS, it is the desire of the Commission to co-operate with the Oregon State Employees Association and to secure such benefits for such of its employees and their dependents who may desire to be members of the Oregon State Employees Association and to be protected under the benefits to be provided by Oregon Physicians' Service under its present or future agreements with Oregon State Employees Association;

NOW, THEREFORE, BE IT AND IT HEREBY IS ORDERED AND RESOLVED by the State Highway Commission:

1. That the Auditor of the Commission be and he hereby is authorized and directed to make monthly payroll deductions for such employees of the Commission and their dependents who are now or may become members of the Oregon State Employees Association and who desire to carry the protection afforded under the agreement or agreements between Oregon Physicians' Service and Oregon State Employees Association.

2. That the making of payroll deductions for such purposes shall not be exclusive and shall not affect the making of payroll deductions for employees who have carried for themselves and their dependents protection under any agreement or agreements directly between the Commission and Oregon Physicians' Service.

3. That as a condition to the continuance of the making of such payroll deductions, Oregon Physicians' Service shall maintain and keep in full force and effect agreements with this Commission that are satisfactory to the Commission and its employees, whether members or nonmembers of the Association. In the event that such agreements are not executed and kept in full force and effect the Commission reserves the right to discontinue making the payroll deductions for the uses and purposes herein stated, whether for employees and their dependents under the protection afforded by Oregon Physicians' Service under agreement with the Commis-

EXHIBIT "C-2" (cont)

sion or under agreement with Oregon State Employees Association.

4. That all payroll deductions shall be transmitted to Oregon Physicians' Service with an attached statement of employees showing those who are carrying protection under the various separate plans and the amount withheld from each employee. The Commission does and shall assume no responsibility of any nature whatsoever for accounting practices between the Oregon State Employees Association and Oregon Physicians' Service, or for determining membership of any employee in the Oregon State Employees Association.

5. That this resolution be entered in the minutes and records of the Commission as of the 2nd day of March, 1955, as Miscellaneous Resolution No. 133.

EXHIBIT "D"

Minutes of March 2 and 3, 1955

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3877, with Funderburk Construction Co., for grading and oil mat surfacing on the South Umpqua River-Fairgrounds Unit, Deady-Shady Section of the Pacific Highway in Douglas County, completed November 5, 1954.

"Contract No. 3881, with R. A. Heintz Construction Co. for grading on the Elkhead Road-Rice Hill Unit, Divide-Rice Hill Section of the Pacific Highway in Douglas County, completed September 30, 1954.

"Contract No. 4063, with R. A. Hentiz Construction Co., for grading and paving on the Blackwell Hill-Seven Oaks Unit, Blackwell Hill-Medford Section of the Pacific Highway in Jackson County, completed December 20, 1954.

"Contract No. 4162, with E. C. Swaggart Co., for surfacing on the Enegren Ferry-Marlow Creek Section of the Coos River Highway in Coos County, completed February 23, 1955.

"Contract No. 4173, with The Central Heating Co., Oreg. Ltd., for grading and paving on the West Unit, Eagle Rock-Post Section of the Paulina Highway in Crook County, completed November 18, 1954.

"Contract No. 4180, with Coast Construction & Excavating Co., and Jeske Bros. Construction Co. for grading and surfacing on the Paris Section of the Alsea-Deadwood Highway in Lane County, completed December 24, 1954.

"Contract No. 4198, with The Central Heating Co., Oreg. Ltd., for construction of the O. P. & E. Overcrossing on the Pacific Highway in Lane County, completed January 29, 1955.

"Contract No. 4243, with Harold W. Salter, for fencing on the Rock Point-Seven Oaks Section of the Pacific Highway in Jackson County, completed January 24, 1955.

"Contract No. 4274, with Lowe & Beeson for construction of Cameron Bridge on the Applegate Road in Jackson County, completed January 25, 1955.

EXHIBIT "D" (cont)

THEREFORE BE IT RESOLVED that the work covered by State Highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 40 shall be entered in the minutes and records of the Commission as of the 2nd day of March, 1955.

EXHIBIT "E-1"

Minutes of March 2 and 3, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: CASCADE SECONDARY HIGHWAY

Highway number 160 Route number Oregon 213

M. P. 0.80 (N. E. Failing St.) to M.P. 1.01 (N. E. Fremont St.) 35 M. P. H.

EXCEPT THAT BETWEEN

M. P. 0.93 (250 feet north of N. E. Siskiyou St.) and M. P. 1.03 (250 feet south of N. E. Siskiyou St.) the speed shall be 20 MILES PER HOUR during the hours of school crossings as per the provisions of Subsection 1. a. of ORS 483.104;

EXHIBIT "E-1" (cont)

M.P. 5.40	(north of S. E. Foster Road)	to M.P. 6.49	(S. E. Duke Street)	30 M.P.H.

EXCEPT THAT BETWEEN

M.P. 5.82 (250 feet north of S. E. Raymond St.) and M.P. 5.90 (S. E. Raymond Court) and from M.P. 6.30 (S. E. Glenwood St.) to M.P. 6.37 (250 feet south of S. E. Cooper St.) the speed shall be 20 MILES PER HOUR during the hours of school crossings as per the provisions of Subsection 1.a. of ORS 483.104.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways, particularly Speed Limit Resolution No. 68, adopted by the Commission on September 12, 1951, designating a 35 mile per hour speed zone on N. E. and S. E. 82nd Avenue (City of Portland) which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 179 be entered in the minutes and records of the Commission as of the 2nd day of March, 1955.

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: PACIFIC HIGHWAY

Highway number 1 Route number US99

Location of Termini				Established Speed
M.P. 109.56	(south city limits of Junction City)	to M.P. 109.74	(0.13 mile south of First Street in Junction City)	40 M.P.H.

EXHIBIT "E-5" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 183 be entered in the minutes and records of the Commission as of the 2nd day of March, 1955.

246:00

EXHIBIT "F-1"

Minutes of March 2 and 3, 1955

RESOLUTION

WHEREAS, the Columbia River Highway is one of the major state primary highways and is likewise a federal highway, which highway throughout its entire length carries a large volume of traffic; and,

WHEREAS, concrete curbs to control access were placed in front of certain business establishments on the said highway east of the city of The Dalles near the new Columbia River Bridge connecting road; and,

WHEREAS, it has been found that people park their vehicles between said curbs and the edge of the highway pavement which parking constitutes a hazard to the traveling public and also to those vehicles attempting to enter the highway from parking lots provided by business establishments nearby; and,

WHEREAS, in the opinion of the Commission, public welfare and public safety require that the parking of vehicles on the highway shoulders should be prohibited within said area;

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendation by members of its staff, that the parking of vehicles on either side of the Columbia River Highway between a point 350 feet west of Hull Road (M.P. 84.55, Engineer's Station 16+00) and a point 670 feet east of Hull Road (M.P. 84.75, Engineer's Station 26+00; and on the north side of the Columbia River Highway between M.P. 85.14 (Engineer's Station 48+25) and M.P. 85.37 (Engineer's Station 60+00); and on the south side of the Columbia River Highway between M.P. 85.26 (Engineer's Station 54+50) and M.P. 85.37 (Engineer's Station 60+00) creates a hazard to the traveling public and to vehicles attempting to enter the highway from the parking lots at said business establishments.

2. That this Commission does hereby find and declare that the parking of vehicles within said termini should be prohibited.

3. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

EXHIBIT "F-1" (cont)

6. That this resolution be entered in the minutes of the Oregon State Highway Commission as of March 2, 1955, as "No Parking Resolution No. 124".

246:02

EXHIBIT "F-2"

Minutes of March 2 and 3, 1955

RESOLUTION

WHEREAS, the Pacific Highway West (US99W) is one of the major state primary highways and is like wise a federal-aid highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that the parking of vehicles on the highway shoulders in the vicinity of S. W. 53rd Avenue and S. W. Pasadena Street near Portland, tends to impair the sight distance for vehicles entering said highway at such location to such an extent that in the opinion of the Highway Commission a hazard is created not only to through traffic but to the owners and drivers of said parked vehicles; and,

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations by members of its staff, that the parking of vehicles along the northwesterly side of the Pacific Highway West between M.P. 6.94 (200 feet northeast of S. W. 53rd Avenue, Engineer's Station 163+00), and M.P. 7.07 (200 feet northeast of S. W. 55th Avenue, Engineer's Station 170+00), creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That this Commission does hereby find and declare that the parking of vehicles between said termini should be prohibited.

3. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared, the signs to bear in plain, legible letters, the words, "NO PARKING ON HIGHWAY SHOULDERS".

4. That a certified copy of this resolution be mailed to the Superintendent of the Department of State Police for his information and guidance.

5. That this "No Parking Resolution No. 125" be entered in the minutes and records of the State Highway Commission as of the 2nd day of March, 1955.

EXHIBIT "G"

Minutes of March 2 and 3, 1955

RESOLUTION

WHEREAS, the State Highway Commission is authorized to acquire real property, or any interest therein, for the development and maintenance of State parks by purchase, agreement, donation or by the exercise of eminent domain; and

WHEREAS, the Susan Creek area, located approximately 30 miles east of Roseburg on the North Umpqua Forest Highway, in Douglas County, Oregon is ideally situated for a State park because of its scenic beauty and geographic location and establishing a State park therein will contribute to the general welfare of the people of the State and the members of the motoring public; and

WHEREAS, the Highway Commission has acquired certain lands, hereinafter more fully described, from Douglas County, Oregon for the development of a State park; and

WHEREAS, the Highway Commission has applied to the Secretary of the Interior of the United States for withdrawal of lands, in said Susan Creek area and adjacent to the land acquired from Douglas County, for State park and recreational purposes; and

WHEREAS, the Highway Commission officially listed all State parks by a prior resolution.

NOW, THEREFORE, BE IT AND IT HEREBY IS ORDERED AND RESOLVED by this Commission as follows:

1. That the herein described portions of the Susan Creek area in Douglas County, Oregon, are hereby designated as the "Susan Creek State Park."

2. That the aforementioned land acquired from Douglas County by a deed from said county to the State of Oregon, dated March 30, 1955, is designated as part of said "Susan Creek State Park." Attached hereto, marked Exhibit "A" and by this reference made a part hereof is a map of one page with the land acquired by deed from Douglas County outlined in red. *

3. That the federally owned land to be withdrawn for State park and recreational purposes by the Secretary of the Interior of the United States, more fully described as:

> The $N\frac{1}{2}$ of the $NE\frac{1}{4}$ ($N\frac{1}{2}$ $NE\frac{1}{4}$) (lots 1 and 2) and the $NE\frac{1}{4}$ of the $NW\frac{1}{4}$ ($NE\frac{1}{4}$ $NW\frac{1}{4}$) (lot 3) of Section 23, and the $NW\frac{1}{4}$ of the $NW\frac{1}{4}$ ($NW\frac{1}{4}$ $NW\frac{1}{4}$) (lot 4) of Section 24, Township 26 South, Range 2 West, W. M., Douglas County, Oregon, containing approximately 171 acres,

EXHIBIT "G" (cont.)

shall, upon grant of a Special Land-Use Permit by the United States of America, become a part of the said "Susan Creek State Park" without further action by this Commission. The land to be withdrawn by the Secretary of the Interior of the United States is shown on the attached map outlined in green. *

4. Miscellaneous Resolution No. 125 recorded in the minutes and records of this Commission as of the 19th day of January, 1955, is hereby amended by adding to the list of State parks the "Susan Creek State Park".

5. That this resolution be entered in the minutes and records of this Commission as of the 2d day of March, 1955.

FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 145, under the heading Miscellaneous Resolutions, and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "H-1"

Minutes of March 2 and 3, 1955

RESOLUTION

WHEREAS, the State Highway Commission on the 23rd day of September, 1954, by resolution declared the necessity for the acquisition of certain real property owned by Clark L. Johnston, et al., File No. R-19704, situated in Section 21, Township 2 South, Range 1 West, W. M., Washington County, Oregon, for right of way purposes, for the widening, improvement and maintenance of the Tualatin River-Middleton Section of the Pacific Highway West; and

WHEREAS, the said resolution declared the necessity for the acquisition of all rights of access between the right of way of the said Pacific Highway West and all of the owners' remaining real property, except for a right of access to the said Pacific Highway West; and

WHEREAS, the said Highway Commission, after further investigating the necessity for the control of access from the said remaining land to the said Pacific Highway West, has found that it will be to the best interests of the State and the owners to change the location of the point of access to the said Pacific Highway West;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the access control language in that certain resolution duly made and entered in full in the minutes and records of the Commission on the 23rd day of September, 1954, pertaining to the property owned by Clark L. Johnston, et al., File No. R-19704, be and the same hereby is amended to read as follows:

> It is necessary that there shall be no rights of access of any nature between the right of way of the said Pacific Highway West and all of the owners' continguous real property which abuts thereon remaining after the appropriation of the above described real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:
>
> A right of access to the Pacific Highway West of a width not to exceed 25 feet on the Easterly side of the said highway, opposite Highway Engineer's center line Station 324+85.

2. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 2nd day of March, 1955, as Condemnation Resolution No. 528.

24606

EXHIBIT "H-2"

Minutes of March 2 and 3, 1955

RESOLUTION

WHEREAS, the State Highway Commission on the 28th day of October 1954, by resolution declared the necessity for the acquisition of two parcels of real property owned by Agnes M. Hite, et al., File No. R-19723, situated in the Southeast quarter (SE$\frac{1}{4}$) of Section 30, Township 2 South, Range 1 West, Willamette Meridian, Washington County, Oregon, for right of way purposes, for the widening, improvement and maintenance of the Tualatin River-Middleton Section of the Pacific Highway West; and

WHEREAS, the said resolution declared that it is necessary that there shall be no rights of access of any nature between the right of way of the said Pacific Highway West and all of the contiguous real property of the owners remaining after the appropriation of the real property described in said resolution, except for three rights of access to the said Pacific Highway West; and

WHEREAS, the said State Highway Commission, after further investigation, has found that the parcel of land described in said resolution as Parcel No. 2 is not large enough to complete the said widening, improvement and maintenance of the said section of the said Pacific Highway West, and that in order to properly widen, improve and maintain said highway it is necessary to increase the area sought to be acquired as Parcel No. 2, and in addition the said State Highway Commission has further found that it will be to the best interests of the State and the owners to change the locations of some of the rights of access previously reserved in said resolution to the said owners to the said Pacific Highway West, and to allow the said owners an additional access to the said highway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That page 3, Exhibit "A", insofar as it refers to the necessity for acquiring for right of way purposes a parcel of real property described in said resolution as Parcel No. 2, for the Pacific Highway West, in that certain resolution duly made and entered in full in the minutes and records of the Commission on the 28th day of October, 1954, and page 4, Exhibit "A", pertaining to the reserved rights of access to the remaining property owned by Agnes M. Hite, et al., File No. R-19723, be and the same hereby is amended to read as follows:

> The following described real property is necessary for right of way purposes, for the widening, improvement and maintenance of the Tualatin River-Middleton Section of the Pacific Highway West, to-wit:

EXHIBIT "H-2" (cont)

Parcel No. 2:

A parcel of land lying in the Southeast quarter of Section 30, Township 2 South, Range 1 West, W.M., Washington County, Oregon, and being a portion of that property conveyed by that deed to Agnes Hite, recorded in Book 117, Page 337 of Washington County Records of Deeds, the said parcel being that portion of said property lying Southwesterly of that tract of land conveyed by deed to Parker R. Crossway and Frances F. Crossway, recorded in Book 289, Page 689, and included in a strip of land of variable widths, lying on the Southeasterly side of the center line of the North bound lane of the Pacific Highway West as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's centerline Station 392+27.67, said Station being 848.22 feet North and 1030.75 feet East of the East quarter ($E\frac{1}{4}$) corner of said Section 30; thence South 46° 56' 30" West (South 46° 54' West 1930 survey) 2245.83 feet to Station 414+73.5 back equals 414+83.9 ahead; thence continuing South 46° 56' 30" West 703.73 feet; thence on a spiral curve left (the long chord of which bears South 46° 40' 30" West) 400 feet; thence on a 14,323.94 foot radius curve left (the long chord of which bears South 45° 30' 52.5" West) 313.54 feet; thence on a spiral curve left (the long chord of which bears South 44° 21' 15" West) 400 feet to Station 433+01.17, said center line crossing the Westerly line of said Crossway tract approximately at Station 411+62.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Southeasterly Side of Center Line
410+00	417+50	50 feet
417+50	430+00	60 feet

Also that portion of said properly lying Southwesterly of said Crossway tract and Northwesterly of said center line.

The parcel of land to which this description applies contains 2.66 acres.

It is necessary that there shall be no rights of access of any nature between the right of way of the said Pacific Highway West and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove

EXHIBIT "H-2" (cont)

described, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the said Pacific Highway West of a width not to exceed 25 feet on the Easterly side of said highway, opposite Highway Engineer's center line Station 411+10.

A right of access to the said Pacific Highway West of a width not to exceed 25 feet on the Easterly side of said highway, opposite Highway Engineer's center line Station 414+00.

A right of access to the said Pacific Highway West of a width not to exceed 25 feet on the Easterly side of said highway, opposite Highway Engineer's center line Station 417+50.

A right of access to the said Pacific Highway West of a width not to exceed 25 feet on the Easterly side of said highway, opposite Highway Engineer's center line Station 424+50.

The State Highway Commission shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road, or roads, within the boundaries of any present or hereafter acquired right of way; thereupon, the rights of access herein reserved to and from the aforesaid highway which are on or adjacent to any such frontage road, or roads, shall cease, but the owners, their heirs and assigns, shall have access to the said frontage road, or roads. Said frontage road, or roads, shall be connected to the said Pacific Highway West at a point not a greater distance to the North of the owners' remaining land than a point approximately opposite Highway Engineer's center line Station 405+50, and at a point not a greater distance to the South of the owners' remaining land than a point approximately opposite Highway Engineer's center line Station 443+90.

2. That this resolution be entered in full in the minutes and records of the Commission this 2nd day of March, 1955, as Condemnation Resolution No. 534.

EXHIBIT "H-3"

Minutes of March 2 and 3, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connection roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Hess Creek (Newberg) Section of the Pacific Highway West; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Hess Creek (Newberg) Section of the Pacific Highway West, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "H-3" (Cont)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Pacific Highway West and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the widening, improvement and maintenance of the said Hess Creek (Newberg) Section of the Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 2nd day of March, 1955, as Condemnation Resolution No. 552.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 552, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "H-4"

Minutes of March 2 and 3, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads; highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Sylvan Section of the Sunset Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportion by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that access to and from the said highway should be controlled;

EXHIBIT "H-4" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that it is necessary to acquire, in connection with the widening, improvement and maintenance of the Sylvan Section of the Sunset Highway as a throughway, all rights of access to, from and between the said Sunset Highway and the real property described as follows, to wit:

File No. R-20651
Owners: Anna Algesheimer, et al.

File No. R-20866
Owners: Anna Algesheimer, et al.

(The detailed descriptions of the several parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 664, under the heading "Real Property Condemnation Resolutions", and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.)

2. That the highway facility for which the said rights of access are required and are being taken has been planned, designed and located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking of said rights of access, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said rights of access.

4. That upon the trial of any suit or action instituted to acquire the rights of access, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 2nd day of March, 1955, as Condemnation Resolution No. 664.

EXHIBIT "H-5"

Minutes of March 2 and 3, 1955

RESOLUTION

WHEREAS, the State Highway Commission on the 23rd day of June, 1954, by resolution declared the necessity for the acquisition of certain real property owned by Kate L. Bailey, et al., File No. R-21895, situated in sections 13 and 24, Township 36 South, Range 15 West, W.M., Curry County, Oregon, for right of way purposes for the relocation, construction, improvement and maintenance of the Euchre Creek--Wedderburn Section of the Oregon Coast Highway; and,

WHEREAS, the said resolution declared the necessity for the acquisition of all rights of access between the right of way of the said Oregon Coast Highway and all of the owners' remaining real property except for certain rights of access to the said Oregon Coast Highway; and,

WHEREAS, the said Highway Commission, after further investigating the necessity for the control of access from the said remaining land to the said Oregon Coast Highway, has found that it will be to the best interests of the state and the owners to change the location of the points of access to the said Oregon Coast Highway.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the access control language in that certain resolution duly made and entered in full in the minutes and records of the Commission on the 23rd day of June, 1954, pertaining to the property owned by Kate L. Bailey, et al., File No. R-21895, be and the same hereby is amended to read as follows:

> It is necessary that there shall be no rights of access of any nature between the right of way of the said Oregon Coast Highway and all of the owners' contiguous real property which abuts thereon remaining after the appropriation of the above described real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:
>
> > A right of access to the said relocated Oregon Coast Highway of a width not to exceed 25 feet on the East side of the said relocated highway, opposite Highway Engineer's center line Station 1231+25, only so long as no use is made thereof other than for the production and transportation to market of farm products of the defendants' remaining land, for the development,

harvesting and transportation to market of forest products of the defendants' remaining land, and for private residential purposes.

A right of access to the said relocated Oregon Coast Highway of a width not to exceed 25 feet on the East side of the said relocated highway, opposite Highway Engineer's center line Station 1239+25, only so long as no use is made thereof other than for the production and transportation to market of farm products of the defendants' remaining land, for the development, harvesting and transportation to market of forest products of the defendants' remaining land, and for private residential purposes.

A right of access to the said relocated Oregon Coast Highway of a width not to exceed 25 feet on the East side of the said relocated highway, opposite Highway Engineer's center line Station 1265+00, only so long as no use is made thereof other than for the production and transportation to market of farm products of the defendants' remaining land, for the development, harvesting and transportation to market of forest products of the defendants' remaining land, and for private residential purposes.

A right of access to the said relocated Oregon Coast Highway of a width not to exceed 25 feet on the East side of the said relocated highway, opposite Highway Engineer's center line Station 1288+50, only so long as no use is made thereof other than for the production and transportation to market of farm products of the defendants' remaining land, for the development, harvesting and transportation to market of forest products of the defendants' remaining land, and for private residential purposes.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, the rights of access herein reserved to and from the aforesaid highway which are on or adjacent to any such frontage road or roads shall cease, but the defendants, their heirs and assigns, shall have access to the said frontage road or roads. Said frontage road or roads shall be connected to the said relocated Oregon Coast Highway at a point not a greater distance to the North of the defendants' remaining land than a point approximately opposite Highway

EXHIBIT "H-5" (Cont)

Engineer's center line Station 1208+00, and shall be connected, via an underpass, to a Curry County road, known as the Wedderburn-Giesel Monument County Road at a point not a greater distance to the South of the defendants' remaining land than point 100 feet Westerly of Highway Engineer's center line Station 133+00.

A right of passage across the relocated Oregon Coast Highway through a corrugated metal tube, 84 inches in diameter, which the plaintiff will place at its sole cost under the highway to be constructed at Highway Engineer's center line Station 1277+75. Said right of crossing shall continue only so long as any portions of the property severed by the said highway and served by the said underpass are held under a common ownership.

The right, so long as any portions of the property severed by the said Oregon Coast Highway and served by such crossing are held by a common ownership, to establish, maintain and use a crossing of a width of 25 feet at Highway Engineer's center line Station 1288+50, such right to continue only so long as the crossing shall be used for farm purposes only.

The construction of a frontage road shall not defeat the rights of crossing herein granted.

2. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 2nd day of March, 1955, as Condemnation Resolution No. 513a.
